Notes to Financial Statements

Note A – Plan Description

The following brief description of Bairnco Corporation 401(k) Savings Plan and Trust (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a complete description of the Plan's provisions. The Plan document is available from Bairnco Corporation ("Bairnco" or the "Corporation") at its offices in White Plains, New York.

General

Bairnco established the Plan effective July 1, 1991. The Plan is a defined contribution plan under which all employees become eligible for participation on the first day of the month following completion of 30 days of service. Once an employee becomes eligible for participation, salary deferrals (contributions) may commence on any subsequent date. The Plan excludes nonresident aliens with no U.S. source income, leased employees, and independent contractors from participating in the Plan. Union employees of the Corporation are permitted to participate in the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration of the Plan

The accounting records are maintained by the Corporation. The Plan's assets are held and managed by Wells Fargo, N.A. (the "Trustee"). Contributions are held by the Trustee, who invests cash received, interest and dividend income as directed by the participant, and makes distributions to participants.

Contributions

Under the terms of the Plan, allowable contributions are outlined as follows:

Participant Contributions – The participants may elect to defer a minimum of 1% up to the maximum amount as defined by the Internal Revenue Service ("IRS"). The maximum dollar amount that may be deferred is adjusted annually by the IRS. The amount of the compensation that is deferred, plus any earnings or losses on that amount is not subject to federal income tax until the funds are actually distributed to the participant by the Plan. Participants who will be at least 50 years of age by the end of the year are able to make catch-up elective deferral contributions up to the maximum allowable amounts.

Employer Contributions – The Corporation makes a discretionary base contribution of 1% of compensation to each participant's account. In addition, the Corporation matches 50% of the participant contributions up to 4% of compensation. As of January 1, 2009, the Board of Directors elected to suspend Corporation contributions. During January 2010, the Board of Directors elected to reinstate Corporation contributions and revised the discretionary company contribution formula. Effective with the first payroll in January, 2010 the Base Contributions of 1% were eliminated from the Plan and the Company Match increased to 50% of the participant contributions up to 6% of compensation.

Bairnco Corporation 401(k) Savings Plan and Trust

Notes to Financial Statements

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Corporation's contribution; and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings or losses thereon. Vesting in the Corporation's discretionary matching and discretionary profit sharing contribution portion of their accounts, plus actual earnings or losses thereon, is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Vested Interest</u>
Less than 3 years	0%
3 years or more	100%

Investment Option

Under the Plan, participants may currently direct investments to any of the 14 investment options. Participants may change their investment elections daily through a telephone access system or online system.

Transfers from Other Companies' Qualified Plans

Participants who have an interest in any other qualified employee benefit plan (as described in Section 401(a) of the Internal Revenue Code) ("Code") may transfer the distributions from those plans directly into the Plan at the discretion of the Administrative Committee of the Corporation (the "Plan Administrator").

Bairnco Corporation 401(k) Savings Plan and Trust

Notes to Financial Statements

Notes Receivable from Participants

An active participant may borrow from his/her account a minimum of \$1,000 up to a maximum equal to the lesser of (1) a total of \$50,000 of borrowings within one year or (2) 50% of the participant's vested account balance. Note terms range from one to five years or up to ten years for the purchase of a primary residence. The notes are secured by the balance in the participant's account and bear interest at the prime rate at the time of the borrowing plus 2%. As of December 31, 2010, interest rates range from 4.25% to 10.50%. Principal and interest are collected through periodic payroll deductions. Note defaults of approximately \$27,017 for the year ended December 31, 2010 are reported as benefits paid to participants in the accompanying statement of changes in net assets available for benefits.

Distribution of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments paid over various periods, as defined in the Plan agreement. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

Forfeitures of non-vested benefits may, at the election of the Corporation, be used to reduce the amount of any future Corporation matching contributions and for the payment of administrative expenses. The amount of forfeited nonvested accounts utilized to reduce matching contributions or payment of administrative expenses amounted to \$170,288 during the year ended December 31, 2010. The amount of forfeited nonvested accounts remaining at December 31, 2010 and 2009, to be utilized in future years, amounted to approximately \$84,000 and \$182,000, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Corporation reserves the right under the Plan to terminate the Plan, in whole or in part, at any time. In the event of the Plan's termination, the Plan assets will be distributed to the participants in lump sum distributions or transferred to another qualified plan at the direction of the participant.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Benefit-Responsive Insurance Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions relating to the reporting of assets and liabilities and changes therein and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Mutual Funds Fees

Investments in mutual funds are subject to sales charges in the form of front-end loads, backend loads or 12b-1 fees. 12b-1 fees, which are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity and thus not separately identifiable as an expense.

Reclassifications

Certain amounts in the 2009 financial statements have been reclassified to conform with the presentation at December 31, 2010.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in its statement of changes in net assets available for benefits the net appreciation in the fair value of investments which consists of the net realized gains and losses on the disposal of investments and the net unrealized appreciation in the fair value of investments held by the Plan as of December 31, 2010.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.

Note C – Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and the supplemental schedule. The Plan Administrator has obtained a certification from the Trustee that the information provided to the Plan Administrator by the Trustee as of December 31, 2010 and 2009 and for the years then ended, is complete and accurate. Such information includes all investments, investment income, and loss and the information in the supplemental schedule of assets (held at end of year).

During 2010, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value as follows:

Mutual funds	\$1,262,049
Collective trusts	<u>393,967</u>
	<u>\$1,656,016</u>

Note D – Fair Value Measurements

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to

Bairnco Corporation 401(k) Savings Plan and Trust

Notes to Financial Statements

unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value.

Financial assets carried at fair value at December 31, 2010 are classified in the table below in one of the three categories described above:

The following is description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trust: Valued based on information reported by investment advisor using the financial statements of collective trust at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E – Net Asset Value per Share:

The Plan expanded its disclosures to include fair value, unfunded commitment, redemption frequency and redemption notice period for those assets whose fair value is estimated using the net asset value ("NAV") per share as of December 31, 2010.

Notes to Financial Statements

The following table presents the Plan's investments with a reported NAV at December 31, 2010:

	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency (If Currently Eligible)</u>	<u>Redemption Notice Period</u>
Wells Fargo Stable Return G Fund	\$4,955,158		Daily	1 day
Wells Fargo Enhanced Stock Market Fund	<u>2,117,224</u>		Daily	1 day
Total	<u>\$7,072,382</u>			

Wells Fargo Stable Return G Fund:

The objective of this fund is to protect principal while providing a higher rate of return than shorter maturity investments, such as money market funds or certificates of deposit. The fund invests in instruments which are not expected to experience significant price fluctuation in most economic or interest rate environments.

Wells Fargo Enhanced Stock Market Fund:

The objectives of this fund are to invest in common stocks and/or stock index futures selected so as to equal the total return performance of the S&P 500 Index and to provide an incremental rate of return above that of the S&P 500 Index. The underlying equity holdings of this fund are actively traded on major stock exchanges and have readily available market quotes.

Note F – Party-In-Interest Transactions

Certain Plan investments are held and managed by the Trustee. Transactions related to these investments qualify as party-in-interest transactions. Fees paid by the Plan to the Trustee totaled \$52,270 for the year ended December 31, 2010.

Note G – Tax Status

The Plan has obtained its latest opinion letter on a prototype Plan approved by the IRS, effective March 31, 2008. The IRS stated that the prototype plan, as designed, was in compliance with the applicable requirements of the Code. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with applicable requirements of the Code and, therefore, that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note H – Reconciliation of Financial Statements to Form 5500

Net assets available for benefits per the Form 5500	<u>\$17,526,213</u>	<u>\$14,419,770</u>

The following is a reconciliation of contributions per the financial statements for the year ended December 31, 2010 to the Form 5500:

Total contributions	\$2,633,030

Note I – Investment Contract with Common Collective Trust

The Plan invests in the Wells Fargo Stable Return G Fund (“SR Fund”), a fully-benefit responsive investment fund, which is valued at contract value, and the Wells Fargo Enhanced Stock Market Fund (“ESM Fund”), which is valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded. The SR, and ESM

Notes to Financial Statements

Funds are operated by Wells Fargo Bank, National Association. The Plan invested in the Wachovia Diversified Stable Value Fund ("DSV Fund"), a fully-benefit responsive investment fund, which was valued at contract value during 2009. The DSV Fund was closed in 2010 by Wells Fargo. The investment objectives of the trust are to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant-initiated transactions under a plan without penalty or adjustment.

To achieve these objectives, the SR Fund invests primarily in guaranteed investment contracts issued by insurance companies, investment contracts issued by banks, synthetic investment contracts ("SICs") issued by banks, insurance companies, and other issuers (collectively, investment companies) and securities supporting such SICs, as well as other similar instruments that are intended to maintain a constant net asset value while permitting participant-initiated benefit-responsive withdrawals for certain events. The primary investment objective of the ESM Fund is to invest in common stocks and/or stock index futures selected so as to equal the total return performance of the S&P 500 Index. The secondary investment objective for ESM Fund is to provide an incremental rate of return above that of the S&P 500 Index. To achieve these objectives, S&P 500 Index Futures may be used by the ESM Fund. The futures are used to replicate the return of the S&P 500, while the remaining cash is invested in short-term investments to enhance the Fund's yield.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 and 2009 was \$8,185,418 and \$6,186,928, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a frequent basis for resetting, except the ESM fund that is being reset daily.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the bank to terminate the agreement prior to scheduled maturity date.
