Alcan 401(k) Plan

Notes to Financial Statements

December 31, 2010 and 2009

1. Description of the Plan

General

The Alcan 401(k) Plan (the "Plan") became effective July 1, 1999. The Plan is administered by Alcan Corporation (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act ("ERISA"). The Plan covers substantially all salaried employees of participating employer divisions of the Company. Vanguard Fiduciary Trust Company (the "Trustee") holds the funds, executes investment transactions, and makes distributions, as directed by the Plan Administrator, to the participants or their beneficiaries. The Vanguard Group serves as the Plan's recordkeeper, allocating net assets to individual participant accounts. Participants should refer to the Plan agreement for more complete information.

Effective January 2, 2006, the following affiliates became participating employers of the Plan: Alcan Composites USA, Inc., Alcan Packaging Food and Tobacco Inc., Techpack America, and Cosmetech Mably International Inc.

On March 28, 2006, the Company sold its Bottles business to Ball Corporation. With certain restrictions, participants formerly employed by the Bottles business could elect to 1) roll their account balance over to a qualified Ball Corporation plan, 2) receive their account balance as a distribution, or 3) leave their account balance in the Plan.

On November 30, 2009, Rio Tinto, the parent of the Company, sold its Baltek and Composites businesses to 3AComposites. All balances related to active employees of these businesses at the transfer date were transferred to a 3AComposites plan and employees of the Composites businesses ceased to participate in the plan as of the transfer date. The distributions related to these businesses are included in net transfers to other plans in the accompanying Statements of Changes in Net Assets Available for Benefits.

On February 1, 2010 and June 30, 2010, Rio Tinto, sold the Shelbyville, Kentucky pharmaceutical business and the Medical Flexible business, respectively, to Amcor. Amcor subsequently sold the Marshall location of the Medical Flexible business to Printpack Inc. With certain restrictions, participants formerly employed by these businesses could elect to 1) roll their account balance over to a qualified Amcor plan (in the case of the Marshall location employees, a Printpack Inc. plan), 2) receive their account balance as a distribution, or 3) leave their account balance in the Plan.

On February 28, 2010, Rio Tinto sold its Food packaging business to Bemis Company, Inc. With certain restrictions, participants formerly employed by these businesses could elect to 1) roll their account balance over to a qualified Bemis Company plan, 2) receive their account balance as a distribution, or 3) leave their account balance in the Plan. Effective as of the closing date of the sale, employees of the Alcan Corporation businesses sold to Bemis Company, Inc. are fully vested in their account balances.

All distributions from the Plan related to former Shelbyville, Kentucky pharmaceutical, Medical Flexible, and Food packaging businesses employees are included in either payment of benefits or net transfers to other plans in the accompanying Statements of Changes in Net Assets Available for Benefits.

On February 1, 2010, Rio Tinto sold its Tobacco business to Amcor. All balances related to active employees of this business at the transfer date were transferred to an Amcor plan. The distributions related to the Tobacco business are included in net transfers to other plans in the accompanying Statements of Changes in Net Assets Available for Benefits.

Alcan 401(k) Plan

Notes to Financial Statements

December 31, 2010 and 2009

On July 1, 2010, Rio Tinto sold the Beauty business to Twist Beauty Packaging US, Inc. Employees of the Beauty businesses remained active participants in the Plan from the sale date through December 31, 2010 under a multi-employer arrangement. The balances related to participants of this business were still in the plan as of December 31, 2010.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings (losses) or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions and Vesting

Employees may elect salary reduction contributions of 1% to 50% of annual base compensation subject to limits set by law. The Company matches participants' contributions up to 75% of the first 6% of the participants' annual base compensation and makes a monthly contribution to the Plan. For participants employed by the Tobacco and Composites divisions of the Company, the Company match is 50% of the first 4% of the participants' eligible compensation. Effective April 1, 2008, the Company match for employees of the Composites division increased to 50% of the first 6% of the participants' eligible compensation. During 2009, the Company also made additional company contributions for participants employed by Composites division of \$317,397, representing 4% of each eligible participant's 2009 earnings. Participants will vest in their share of the Company's contributions according to the respective agreement with full vesting after a maximum of five years.

The participant may elect in a single election to invest, in multiples of 1%, the participant's and any Basic contributions in any of the available investment funds. As provided in the Plan, the participant may change this election and/or elect to transfer any portion of the account balance from one fund to any other fund on a daily basis. All dividends, interest and other distributions received by any fund will be reinvested automatically in the same fund.

Forfeitures

Forfeited accounts are used to reduce future employer contributions. For the years ended December 31, 2010 and 2009, forfeitures of \$28,064 and \$0, were used to reduce employer contributions, respectively.

Notes Receivable From Participants

Participants may borrow from their accounts up to the lesser of \$50,000 or 50% of their vested interest in the Plan. Loans currently bear a minimum interest rate of 1% over the prime interest rate and are repayable by monthly payroll deductions, usually over a five-year period. The range of interest rates at December 31, 2010 was 4.25% to 9.75%. Interest on loans amounted to \$73,182 and \$240,901 for the years ended December 31, 2010 and 2009, respectively. Outstanding notes receivable (the "Loan Fund") and related transactions are maintained and managed by the Trustee.

Payment of Benefits

Participants are eligible to elect to receive a lump sum payment from the Plan when employment is terminated for any reason, or when a participant becomes permanently and totally disabled and has received disability benefits for two years. This election may be made at any time up until age 65. If the value of the vested portion of a participant's account is less than \$5,000, final payment can not be deferred, and the vested portion of the account will be distributed in a lump sum payment as soon as practicable. At age 65, the participant's vested interest will automatically be

distributed. Prior to termination, participants may receive a hardship withdrawal of their vested account balance, or may withdraw the portion of their account related to rollover and after-tax contributions up to twice per year.

Plan Transfers

During 2010, \$606,897 was transferred to the Plan, representing account balances for participants who changed their employment status and became eligible for the Alcan 401(k) Plan from the Alcan Retirement and Savings Plan for Hourly Employees, the Alcan 401(k) Plan for Union Employees, and the AlcanCorp Employees' Savings Plan. Additionally, \$36,396,113 was transferred from the plan, representing account balances for participants that were part of the divestitures referenced in Note 1 above.

During 2009, \$270,272 was transferred from the Plan, representing account balances for participants who changed their employment status and became eligible for the Alcan Retirement and Savings Plan for Hourly Employees and the Alcan 401(k) Plan for Union Employees from the Alcan 401(k) Plan.

2. Summary of Significant Accounting Policies

Use of Estimates and Basis of Accounting

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

As codified within Accounting Standards Codification ("ASC") Topic 962 *Plan Accounting - Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust (the Vanguard Retirement Savings Trust). The Statements of Net Assets Available for Benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Administrative Expenses

Investment fees and fund management expenses are deducted from the investment returns of each fund. The plan sponsor absorbs all of the administrative fees for the Plan, except for the loan origination and maintenance fees, which, effective January 1, 2007, are paid for by the participant.

Investment Valuation and Income Recognition

Vanguard Fiduciary Trust Company ("Vanguard") serves as the trustee for the Plan and holds and administers the Plan's investment assets for the exclusive benefit of participants and their beneficiaries, in accordance with the Plan agreement.

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Notes to Financial Statements

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded when earned. Dividends are recorded on the ex-dividend date. Capital gains distributions are included in dividend income. The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains (losses) and the unrealized appreciation (depreciation) on those investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid

Risks and Uncertainties

The Plan provides for various investment options in registered investment companies and a collective trust fund. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Recent Accounting Pronouncements

In January 2010, the FASB issued guidance for improving disclosures about fair value measurements. The new guidance requires new disclosures for transfers in and out of Level 1 and 2 classifications and for more detail about the activity in Level 3 fair value measurements. Neither of these new disclosures affects the Plan since there were no Level 3 assets or transfers between Level 1 and 2 during 2010. The new guidance also clarifies previous disclosure requirements by increasing the level of disaggregation to the class level for investments and by requiring more disclosures about inputs and valuation techniques for fair value measurements in Level 2 and Level 3. The disclosures required under this guidance are provided in the accompanying Note 4, Fair Value Measurements.

Effective September 2010, the FASB codification was amended by ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 provides that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at the unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this guidance in its December 31, 2010 financial statements and has reclassified participant loans of \$3,458,794 for the year ended December 31, 2009 from investments to notes receivable from participants. The reclassification did not have any effect on the changes in net assets or the financial position of the Plan.

4. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end.

The Plan's interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end. Generally, under ordinary market conditions, all common collective trust positions provide daily market liquidity to Plan participants and the Plan. The Plan invests in the Vanguard Retirement Savings Trust in which participant transactions (issuances and redemptions) may occur daily. Certain Plan directed withdrawals may be subject to market value adjustments calculated in accordance with the provisions of the investment contracts.

The following table sets forth by level within the fair value hierarchy the Plan's investment assets at fair value, as of December 31, 2010 and 2009.

5. Priorities Upon Termination of the Plan

Although the Company expects to continue the Plan permanently, the Company may at any time terminate the Plan. Upon termination, any unallocated income and appreciation or depreciation in current value of the investments shall be allocated among the individual accounts of the Plan participants. All participant account balances shall then be fully vested and nonforfeitable and will be distributed to participants.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated February 6, 2003, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

7. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data (except for the difference between contract and fair value of the Plan's interest in the Vanguard Retirement Savings Trust) included in the financial statements, notes to the financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, as shown in the Statements of Net Assets Available for Benefits.
- Notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits.
- Interest and dividend income, as shown in the Statements of Changes in Net Assets Available for Benefits.
- Net appreciation in the fair value of the investments in mutual funds, as shown in the Statements of Changes in Net Assets Available for Benefits.
- Interest on notes receivable from participants, as shown in the Statements of Changes in Net Assets Available for Benefits.
- Schedule H, Line 4i, - Schedule of Assets (Held at End of Year), December 31, 2010.
- Investment information, as shown in Note 3

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The Vanguard Retirement Savings Trust was certified at its contract value of \$25,586,597 and \$41,706,361 as of December 31, 2010 and 2009, respectively. The adjustment from fair value to

contract value under the FSP for the Plan's interest in the Vanguard Retirement Savings Trust of (\$1,048,854) and (\$921,537) as of December 31, 2010 and 2009, respectively, was not certified.

8. Related Party Transactions

Certain Plan investments are shares of mutual funds and units of a collective trust fund managed by The Vanguard Group. Vanguard Fiduciary Trust Company is the trustee as defined by the Plan and, therefore, these transactions, as well as participant loans, qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

9. Subsequent Events

The Plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued.
