the Alcantorp Hourly Employees' Savings Plan

We were engaged to audit the financial statements and supplemental schedule of Alcantorp Hourly Employees' Savings Plan (the "Plan") at December 31, 2010 and 2009, and for the years then ended, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Alcancorp Hourly Employees' Savings Plan

Notes to Financial Statements

December 31, 2010 and 2009

1. Summary Description of Plan

The Alcancorp Hourly Employees' Savings Plan (the "Plan") became effective October 28, 1987. The Plan is administered by Alcan Corporation (the "Company") and is subject to the provisions of the Employee Retirement Income Security Act ("ERISA"). Vanguard Fiduciary Trust Company (the "Trustee") holds the funds, executes investment transactions, and makes distributions, as directed by the Plan Administrator, to the participants or their beneficiaries. The Vanguard Group serves as the Plan's recordkeeper, allocating net assets to individual participant accounts. Participants may refer to the Plan agreement for a detailed description of the Plan's provisions.

Eligibility

All full-time hourly employees of the Company's Sebree plant are eligible to join the Plan upon date of hire effective July 1, 2007. Prior to July 1, 2007 full-time employees were not eligible until the commencement of 22 weeks of service. Part-time employees are eligible after one year of service.

Contributions and Vesting

Contributions are made by the Company ("Basic Contributions") in accordance with the collective bargaining agreements at the Alcan Aluminum Corporation Sebree Plant. The Basic Contributions are made at a rate of 65 cents for each hour worked. Basic Contributions are invested in each of the funds in the same ratio as chosen by the participant (see *Participant Accounts* below).

Participants may elect at any time to contribute ("Employee Contributions") amounts up to 50% of their compensation either on a before-tax basis, after-tax basis or any combination of the two. In addition, employees may elect to contribute all or a portion of their gain-sharing compensation on a before-tax basis ("Special Contribution"). The Plan does not have any nonparticipant directed contributions.

The Plan accepts rollover contributions from former employers' qualified plans or from an Individual Retirement Account ("Rollover Contribution"). Such amounts were \$16,837 and \$0 in 2010 and 2009, respectively, and are included within participant contributions in the Statements of Changes in Net Assets Available for Benefits.

Total pre-tax deferrals may not exceed \$16,500 per participant under the age of 50 for calendar years 2010 and 2009. Total pre-tax deferrals may not exceed \$22,000 for participants over 50 years old in 2010 and 2009.

Participants are fully vested at all times in their respective accounts, except for the Basic Contribution amounts (see *Contributions below*) for former Alcan Aluminum Corporation Lockport Plant employees, which were 100% vested after two years of service. The non-vested portion of the Basic Contribution at the time of the participant's withdrawal from the Plan or discontinuance of employment shall be forfeited, and such amounts shall be applied to reduce subsequent employer contributions under the Plan. For the years ended December 31, 2010 and 2009 the amount of forfeitures was insignificant.

The participant may elect in a single election to invest, in multiples of 1%, the participant's and any Basic contributions in any of the available investment funds. As provided in the Plan, the participant may change this election and/or elect to transfer any portion of the account balance from one fund to any other fund on a daily basis. All dividends, interest and other distributions received by any fund will be reinvested automatically in the same fund.

Alcancorp Hourly Employees' Savings Plan

Notes to Financial Statements

December 31, 2010 and 2009

Effective February 1, 2006, the Plan was amended to provide automatic enrollment of eligible employees, with 3% pre-tax contributions to be automatically contributed to the Vanguard Life Strategy Moderate Growth Fund.

Participant Accounts

Each participant has a separate account ("Participant Account") under each fund in which contributions have been invested on behalf of the participant. The account represents Basic Contributions, Employee Contributions, Rollover Contributions, Special Contributions, and the earnings thereon. The net value of each Participant Account is established on a daily basis through the valuation of the trust fund assets at market value, except for assets in the Vanguard Retirement Savings Trust, which are valued at contract value.

Plan Withdrawals and Distributions

Participants may request two withdrawals per year from the Plan; however, the Plan requires that withdrawals be made in the following order of priority:

- (a) any after-tax portion of the Employee Contribution,
- (b) any Rollover Contribution,
- (c) any portion of the Basic Contribution in the Plan more than 2 years,
- (d) at age 59-1/2 or over, any Basic Contribution in the Plan less than 2 years, any Special Contribution and any before-tax portion of the Employee Contribution.

All withdrawals must be in cash.

Terminated or retired participants with more than \$5,000 in the Plan may leave their funds in the Plan until April 1st following the year they reach age 70-1/2 and may elect to make up to twelve withdrawals from the Plan per year.

Termination Provisions

The Company intends to continue the Plan indefinitely but reserves the right to terminate or amend the Plan as necessary. In the event the Plan terminates, the accounts of the participants would become fully vested, and would be distributed at the time and in the manner determined by the Plan Administrator and in accordance with the terms of the Plan.

Notes Receivable From Participants

Participant loans made from the various investment options allow participants to borrow from their account, within the limits specified by the Internal Revenue Service ("IRS"). Loans are taken from a participant's account in the reverse order in which withdrawals are permitted (see above). Outstanding notes receivable (the "Loan Fund") and related transactions are maintained and managed by the Trustee.

Loans must be a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's account balance. The loans bear interest equal to the prime rate, as published in the Wall Street Journal, on the first business day of the month in which the loans are obtained. The range of interest rates at December 31, 2010 was 4% to 8.25%. Loan amounts are taken proportionately from each investment fund within each account based on their balances when the loan is processed. Principal and interest repayments made via payroll deductions or in a lump-sum

Alcancorp Hourly Employees' Savings Plan

Notes to Financial Statements

December 31, 2010 and 2009

payment are made into the investment funds according to the participant's current investment election.

Individuals who retire or are terminated prior to meeting their loan obligation have the option to pay the outstanding balance in one lump sum or the loan becomes a distribution from the participant's account. Such distributions are accounted for as withdrawals within the Statements of Changes in Net Assets Available for Benefits.

Plan Transfers

During 2010 and 2009, \$184,309 and \$46,777, respectively, was transferred from the Plan, representing account balances for participants who changed their employment status and became eligible for the Alcancorp Employees' Savings Plan.

Administrative Costs

Investment fees and fund management expenses are deducted from the investment returns of each fund. The plan sponsor absorbs all of the administrative fees for the Plan, except for the loan origination and maintenance fees, which, effective July 1, 2007, are paid for by the participant. Such fees are included within withdrawals in the Statements of Changes in Net Assets Available for Benefits.

2. Summary of Significant Accounting Policies

Use of Estimates and Basis of Accounting

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

As codified within Accounting Standards Codification ("ASC") Topic 962 *Plan Accounting - Defined Contribution Pension Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Through the Alcancorp Master Savings Trust ("Master Trust"), the Plan invests in investment contracts through a collective trust (the Vanguard Retirement Savings Trust). The Statements of Net Assets Available for Benefits present the fair value of the investment in the Master Trust as well as the adjustment of the investment in the Master Trust from fair value to contract value relating to the investment contracts held by the collective trust. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Investment Valuation and Income Recognition

The Master Trust's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest is recorded when earned. Dividends are recorded on the ex-dividend date. The Plan presents in the Statements of Changes in Net Asset Available for Benefits its interest in the net investment income or loss of the Master Trust, which consists of the realized gains or losses, unrealized appreciation or depreciation, interest, and dividends of the Master Trust's investments.

Alcancorp Hourly Employees' Savings Plan

Notes to Financial Statements

December 31, 2010 and 2009

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits

Distributions are recorded when paid to participants.

Risks and Uncertainties

The Plan provides for various investment options in registered investment companies and a collective trust fund. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Recent Accounting Pronouncements

In January 2010, the FASB issued guidance for improving disclosures about fair value measurements. The new guidance requires new disclosures for transfers in and out of Level 1 and 2 classifications and for more detail about the activity in Level 3 fair value measurements. Neither of these new disclosures affects the Plan since there were no Level 3 assets or transfers between Level 1 and 2 during 2010. The new guidance also clarifies previous disclosure requirements by increasing the level of disaggregation to the class level for investments and by requiring more disclosures about inputs and valuation techniques for fair value measurements in Level 2 and Level 3. The disclosures required under this guidance are provided in the accompanying Note 4, Fair Value Measurements.

Effective September 2010, the FASB codification was amended by ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. ASU 2010-25 provides that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at the unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this guidance in its December 31, 2010 financial statements and has reclassified participant loans of \$1,174,726 for the year ended December 31, 2009 from investments to notes receivable from participants. The reclassification did not have any effect on the changes in net assets or the financial position of the Plan.

3. Master Trust Arrangement

The Plan's investments are held by Vanguard Fiduciary Trust Company in the Master Trust, where the Plan's investments are commingled with the Alcancorp Employees' Savings Plan and the Thrift and Deferred Compensation Plan for Employees of Alcan Packaging Puerto Rico, Inc. The Plan has a specific interest in the net assets of the Master Trust, which represents the total of the specific interests of the individual participants in the Plan. At December 31, 2010 and 2009, the Plan's interest in the net assets of the Master Trust was approximately 13%.

4. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Master Trust at year end.

The Master Trust's interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end. Generally, under ordinary market conditions, all common collective trust positions provide daily market liquidity to Plan participants and the Master Trust. The Master Trust invests in the Vanguard Retirement Savings Trust in which participant transactions (issuances and redemptions) may occur daily. Certain Master Trust directed withdrawals may be subject to market value adjustments calculated in accordance with the provisions of the investment contracts.

The following table sets forth by level within the fair value hierarchy the Trust investment assets at fair value, as of December 31, 2010 and 2009.

Notes to Financial Statements
December 31, 2010 and 2009

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

8. Subsequent Events

The Plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued.
