Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Participants and Administrator of the
USA FEPC Retirement Plan

We were engaged to audit the financial statements of USA FEPC Retirement Plan (the "Plan") at December 31, 2010 and December 31, 2009 and for the years then ended, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by The Bank of New York Mellon, N.A., the Trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of December 31, 2010 and 2009 and for the years then ended, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2010 and 2009

1. Description of the Plan

The following brief description of the USA Flight Equipment Processing Contract ("FEPC") Retirement Plan (the "Plan") sponsored by United Space Alliance, LLC ("USA" or the "Company"), is provided for general purposes only. Participants should refer to the Plan document for more complete information. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

General

Effective July 4, 1998, Boeing Aerospace Operations Inc. ("BAO") transferred to USA a group of employees who had previously participated in the BAO Houston Retirement Plan (the "BAO Plan"). Pursuant to the Assignment and Assumption Agreement entered into between BAO and USA, USA assumed the rights and liabilities of the BAO Plan. On July 4, 1998, USA assumed sponsorship of the BAO Plan and assigned fiduciary responsibilities to the USA Benefits Administrative Committee (the "Committee"). Effective July 4, 1998, the Committee changed the name of the BAO Plan to the USA FEPC Retirement Plan.

Eligibility

Employees hired prior to July 4, 1998, are eligible to participate in this Plan if employed by USA on a salaried exempt basis and assigned to the Flight Equipment Processing Contract. Employees ineligible to participate include:

- employees whose position is subject to bargaining with any collective bargaining representative;
- individuals compensated solely by commissions or special fee arrangements;
- independent contractors;
- "leased" employees within the meaning of Internal Revenue Code 414(n)(2); and
- new employees hired after July 4, 1998.

Administration

The Benefits Plan Administrator of the Company is responsible for the operation and administration of the Plan and is authorized to redelegate such responsibilities to the Benefits Administrative Committee of the Company (the "Committee") as the administrator may deem necessary and appropriate.

Master Trust

On July 1, 1999, USA entered into a defined benefit master trust agreement, known as the USA Defined Benefit Master Trust (the "Master Trust"), with The Bank of New York Mellon ("Mellon" or the "Master Trustee"). The Master Trust was established for the collective investment of certain defined benefit plans sponsored by USA. In October 1999, the Plan adopted the Master Trust and, accordingly, transferred the assets of the Plan to the Master Trust.

USA FEPC Retirement Plan

Notes to Financial Statements

December 31, 2010 and 2009

Pension Benefits

Participants generally become fully vested after five years of vesting service, as defined by the Plan. There is no partial vesting of benefits. The Plan provides for normal retirement benefits at age 65; early retirement benefits at age 55 with 10 years of vesting service or age 62, regardless of service; disability; and death benefits. Eligible participants will receive early retirement benefits reduced in a manner set forth in the plan document based upon age. Monthly benefits are calculated as the sum of (a) core benefit and (b) excess benefit.

- (a) *Core Benefit* – The core benefit is the monthly amount equal to 1.025% of participant's final average monthly earnings, as defined in the Plan document, multiplied by credited service.
- (b) *Excess Benefit* – The excess benefit is the monthly amount equal to 0.450% of the excess, if any, found by subtracting participant's covered compensation amount, as defined in the Plan document, from the final average monthly earnings amount multiplied by credited service.

Benefits are payable in the form of a joint and survivor annuity, single-life annuity, or other payment forms as set forth in the plan document. If the present value of the pension benefits as of the participant's normal retirement age does not exceed \$5,000, the vested portion of the benefit will be distributed in a lump sum.

The Plan also provides certain medical benefits (Note 2).

Expenses

The Plan's administrative and investment expenses may be paid by USA at the Committee's election. During 2010 and 2009, certain investment expenses were paid by the Master Trust and allocated monthly to the participating plans (Note 10). All other administrative expenses were paid by USA. Fees paid by USA on behalf of the Plan for administrative services amounted to \$47,926 and \$60,485 for the years ended December 31, 2010 and 2009, respectively.

Recent Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04 *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-4 is intended to improve the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and IFRS. The amendments are of two types: (i) those that clarify the Board's intent about the application of existing fair value measurement and disclosure requirements and (ii) those that change a particular principle or requirement for measuring fair value or for disclosing information about fair value measurements. The update is effective for annual periods beginning after December 15, 2011. The Company does not expect the adoption of this update will have a material impact on the Plan's financial statements.

In 2010, the FASB issued ASU No. 2010-06 which amends Fair Value Measurements and Disclosures – Overall (ASC Topic 820-10). This update requires a gross presentation of activities within the Level 3 rollforward and adds a new requirement to disclose transfers in and out of Level 1 and 2 measurements. The update further clarifies the existing disclosure requirements in ASC 820-10 regarding: i) the level of disaggregation of fair value measurements; and ii) the disclosures regarding inputs and valuation techniques. This update will be effective for our fiscal year beginning January 1, 2010 except for the gross presentation of the Level 3 transfers in and transfers out information, which is effective for the current fiscal year. The principal impact from this update will be expanded disclosures regarding our fair value measurements.

Notes to Financial Statements

December 31, 2010 and 2009

2. 401(h) Account

The Plan includes a medical-benefit component in addition to normal retirement benefits to fund a portion of the postretirement obligations for retirees and a spouse or dependent of the retiree in accordance with Section 401(h) of the Internal Revenue Code ("IRC"). A separate account was established for such contributions in the master trust (Note 10). In accordance with IRC Section 401(h), the Plan's investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and a spouse or dependent of the retiree. The related obligations for health benefits are not included in the Plan's obligations in the statement of accumulated plan benefits but are reported as obligations in the financial statements of the health and welfare benefit plan.

3. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investments

The Plan's investment in the Master Trust is recorded at an amount equal to the Plan's interest in the underlying investments of the Master Trust. Investments of the Master Trust are stated at fair value. Common and preferred stock are stated at fair value based on published market closing prices. Investments in fixed income securities are valued by a pricing service which determines valuations of normal institutionalized trading units of such securities using methods based upon market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders, or at fair value as determined in good faith by the Trustee of the Trust. The fair value of the common collective trusts is valued at the closing net asset value on the last business day of the year. For those trusts recorded at contract value, the fair value and contract value are based on the fair value and contract value of the underlying investments in the trust. Interests in partnerships and joint ventures are valued at estimated fair value based on fair value as reported in the audited financial statements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan's net investment income from the Master Trust is reflected in the statement of changes in net assets available for benefits as net income from investment in the Master Trust (Note 10).

Derivatives

The Master Trust may enter into contractual arrangements (derivatives) in carrying out its investment strategy and is limited to the use of derivatives allowed by the investment guidelines principally to enhance returns on investments, manage portfolio risk, and hedge against market and interest rate fluctuations.

The following is a summary of the significant accounting policies associated with the Master Trust's use of derivatives:

Future Contracts

The Master Trust used equity index and fixed income future contracts to manage exposure to the market. Buying future tends to increase the Master Trust's exposure to the underlying instrument. Selling futures tends to decrease the Master Trust's exposure to the underlying instrument held or hedge the fair value of other fund investments. The Master Trust does not employ leverage in use of derivatives. Future contracts are valued at the last settlement price at the end of each day on the exchange upon which they are traded. Upon entering into a futures contract, the Master Trust

USA FEPC Retirement Plan

Notes to Financial Statements

December 31, 2010 and 2009

is required to deposit either in cash or securities an amount ("initial margin") equal to a certain percentage of the nominal value of the contract. Pursuant to the futures contract, the Master Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin" which are generally settled daily and are included in the unrealized gains (losses) on futures contracts. The Master Trust will record a variation margin receivable or payable in the Master Trust net assets for variation margins which have not yet been paid at the end of the year.

Futures contracts involve, to varying degrees, credit and market risk. The Master Trust enters into futures contracts on exchanges where the exchange acts as the counterparty to the transaction. Thus, credit risk on such transactions is limited to the failure of the exchange. The daily settlement on the futures contracts serves to greatly reduce credit risk. Losses in value may arise from changes in the value of the underlying instruments or if there is an illiquid secondary market for the contracts. In addition, there is risk that there may not be an exact correlation between a futures contract and the underlying index or security. As of December 31, 2010 and 2009, the unrealized gain/loss of futures contracts represents less than 1% of total investments.

A summary of open equity and fixed income futures of the Master Trust at December 31, 2010 and 2009 were as follows:

	2010		2009	
	Contracts	Notional	Contracts	Notional
	Long / (Short)	Value	Long / (Short)	Value
US Treasury Notes 10 yr Future	150	\$ 18,065,625	27	3,117,234

	<u>260</u>	<u>(28,143,222)</u>	<u>2</u>	<u>(21,464,891)</u>

All derivative instruments have been recorded in the financial statements of the Master Trust at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid. Metropolitan Life Insurance Company is the paying agent for distribution of benefits under the Plan.

Accumulated Plan Benefits

Accumulated plan benefits are those future benefit payments attributable under the Plan's provisions to service that employees have rendered. The actuarial present value of accumulated Plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, termination, or retirement) between the benefit information date and the expected payment dates. The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective, but not prior to adoption. The actuarial present value of accumulated plan benefits was calculated as of January 1, 2009.

USA FEPC Retirement Plan

Notes to Financial Statements

December 31, 2010 and 2009

The significant actuarial assumptions used in determining accumulated Plan benefits as of December 31, 2009, were as follows:

Investment return	8.25% compounded annually
Mortality	2010 IRC 430 Static Annuitant and Nonannuitant Mortality Table
Retirement	Varies between ages of 55 to 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Use of Estimates

The preparation of these financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

4. Funding Policy

Contributions to provide benefits under the Plan are made solely by USA. USA's funding policy is to make cash contributions to the Plan in amounts at least equal to the minimum required contribution as actuarially derived. During 2010 and 2009, USA contributed \$429,620 and \$926,040, respectively, to the Plan. These amounts met the ERISA minimum funding requirements.

Funding for medical benefits is described in Note 2.

On August 17, 2006, the Pension Protection Act of 2006 ("PPA Act"), a comprehensive pension reform legislation which revised many rules surrounding defined benefit plans was signed into law. The plan sponsor has implemented the provisions of the PPA Act and the impacts have been included in the Plan's financial statements.

5. Plan Termination

In the event the Plan is terminated, the net assets of the Plan will be distributed to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2010 that ceiling is \$4,500 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65

USA FEPC Retirement Plan

Notes to Financial Statements

December 31, 2010 and 2009

years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

If the Plan is terminated at some future time, whether all participants receive their benefits will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. The then existing assets and the PBGC guarantee may fully or partially provide some benefits while they may not provide for other benefits at all.

In October 2010, the Company notified employees and beneficiaries that it had elected to terminate the Plan as of the end of the plan year, which covered most of its employees. As a result, the Company curtailed certain future benefits from being earned under the Plan.

6. Tax Status

GAAP requires the Plan's management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The plan administrator has analyzed the tax positions by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

The Plan obtained its latest determination letter on July 30, 2009, which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter, however, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provision is made for federal income taxes.

7. Related-Party Transactions

During 2010 and 2009, certain Plan investments were managed by Mellon or its affiliates. As Mellon has served as the Master Trustee and custodian of the Plan during these years, these transactions qualified as party-in-interest transactions, exempt as defined in ERISA Section 408 and regulations thereunder.

8. Risks and Uncertainties

The Plan, through its investment in the Master Trust, provides for investment in various investment securities (Note 10). Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and may impact the funded position of the Plan. As a result, the Plan may require additional funding in subsequent years.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations

USA FEPC Retirement Plan

Notes to Financial Statements

December 31, 2010 and 2009

and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan's trustee has certified that the following data included in the accompanying financial statements is complete and accurate as of December 31, 2010 and 2009, and the years then ended:

- Investments, as shown in the statements of net assets available for benefits and in Note 3, 10 and 11.
- Net income from the investment in the USA Defined Benefit Master Trust, as shown in the statement of changes in net assets available for benefits.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and accordingly, such data is unaudited.

10. Investment in USA Defined Benefit Plan Master Trust

The Master Trust is a trust established for the Plan and several other defined benefit plans sponsored by USA. The following benefit plans participate in the Master Trust:

- USA Retirement Plan
- USA SRB Retirement Plan
- USA FERC Retirement Plan
- USA Retirement Plan for Employees at USA Florida Operations
- USA Retirement Plan for Hourly Employees

Each participating defined benefit plan has an undivided interest in the Master Trust. As of December 31, 2010 and 2009, the Plan's interest in the net assets of the Master Trust was approximately 2.91% and 3.01%, respectively. The participating defined benefit plans originally purchased units of the Master Trust at a unit value of \$1 per unit. The value of the units in the Master Trust is adjusted at the end of each month to reflect the earnings (losses) on investments plus the market value appreciation or (depreciation) of investments, net of investment-related expenses. Master Trust units are purchased and redeemed based upon the prior month's unit value.

11. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally-developed market assumptions. In accordance with ASC 820, fair value measurements are classified using the following hierarchy:

Level 1 – Quoted prices for identical instruments in active markets.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.

Level 3 – Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable.

When available, quoted market prices are used to determine fair value and such measurements are classified within Level 1. In some cases where market prices are not available, observable market based inputs are used to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon internally developed models that use, where possible, current market-based parameters such as interest rates, yield curves and currency rates. These measurements are classified within Level 3.

Fair value measurements are classified according to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

The following table sets forth by level, within the fair value hierarchy, the investments of the Master Trust at fair values as of December 31, 2010:

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, line 22—Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the portion of each life that has not retired at each age according to the following table, using age 55 to first enter the table and assuming mid-year decrements. The estimated whole age of retirement is age 64. This was developed as follows:

(1) Age at Retirement	(2) Percentage of Total Group Retiring	Weighted Retirement Age (1)*(2)
55	10.00%	5.50
56	1.80%	1.01
57	1.76%	1.01

Value of Plan Assets

The value of plan assets is used each year for developing the funding requirements of the plan. The value is a smoothed value and is set equal to average value of market value as of December 31, 2007, December 31, 2008 and December 31, 2009. Asset values prior to December 31, 2009 are adjusted for accumulated cashflows with interest between the asset date and December 31, 2009. The final value is limited to a corridor of 90% to 110% of market value of assets. This value may be reduced further by applicable funding balance when calculating certain results.

Actuarial Cost Method

Schedule SB, Part V—Summary of Plan Provisions

Effective Date

Original Plan	October 1, 1983.
Transfer to USA	July 4, 1998.
Latest Amendment	January 1, 2006.

Eligible Employee

Employees assigned to the Flight Equipment Processing Contract who were hired before July 4, 1998. Participation begins on the January 1 immediately following completion of six months of employment during an eligibility computation period.

Retirement Benefits

Normal
Date

First day of the month coincident with or next following the employee's 65th birthday.

Benefit Sum of (i) and (ii) as follows:

- (i) Core benefit equal to 1.025% of final average monthly earnings multiplied by credited service.
- (ii) Excess benefit equal to 0.45% of final average monthly earnings in excess of covered compensation multiplied by credited service.

Early
Date

First day of the month coincident with or next following earlier of the employee's 62nd birthday or the date the employee attains age 55 and either completes ten years of vesting service or is laid off.

Benefit

Benefit determined as for normal retirement, based on service and compensation to early retirement date, payable immediately with core benefit reduced 2/12% per month from age 60 and excess benefit reduced 5/12% per month from age 60.

Late
Date

First day of any month after employee reaches normal retirement age.

Benefit

Benefit determined as for normal retirement, based on service and compensation to actual retirement date.

EIN: 76-0492757 PN: 024

Schedule SB, Part V—Summary of Plan Provisions (continued)

Retirement Benefits (continued)

Disability
Date

On total and permanent disability benefits after employee attains age 50 and completes ten years of vesting service.

Benefit

Benefit determined as of normal retirement, based on service and compensation to date of disability, payable without reduction.

Termination Benefits

On termination of employment after five years of vesting service, an employee is entitled to a deferred vested benefit determined as for normal retirement, based on service and compensation to date of termination. The deferred vested benefit is payable without reduction beginning at or after age 65, or beginning any time after age 55 and ten years of vesting service with a reduction of 1/2% for each month by which benefit commencement precedes age 62. If employee dies after one year of marriage and before benefits commence, the surviving spouse will receive the surviving spouse benefit described in the "Death Benefits Before Retirement" section below.

Death Benefits Before Retirement

After Eligibility for Retirement

Surviving spouse to whom the employee has been married for at least one year is entitled to an immediate lifetime benefit as if the employee had retired on the first day of the month preceding his death, elected the 100% surviving spouse benefit described in the "Death Benefits After Retirement" section below, and then died.

Before Eligibility for Retirement
and After Vesting

Surviving spouse to whom the employee has been married for at least one year is entitled to a deferred lifetime benefit as if the employee had terminated employment on his date of death (if he was then an employee), survived to the earliest date on which he could have retired, retired having elected the 50% surviving spouse benefit described in the "Death Benefits After Retirement" section below, and then died.

Death Benefits After Retirement

Normal Form for Single Participants Single life annuity.

Normal Form for Married Participants Reduced joint and survivor annuity providing 50%, 75% or 100% of the employee's reduced benefit to the spouse after his death. If the spouse predeceases the employee and the employee terminated employment on or after January 1, 1990, the employee's monthly benefit will be restored to the amount he would have received as a single life annuity.

Supplemental Benefits

None.

Final Average Monthly Earnings

Highest average of Earnings for five consecutive years out of the final ten years of credited service. Earnings means the monthly basic compensation on January 1 plus 1/12 of any lump sum merit awards in lieu of merit increases during the preceding calendar year (not in excess of \$245,000 for 2010, indexed thereafter).

Covered Compensation

Average of the Social Security taxable wage base for each year in the 35-year period ending with the year in which the employee retires, terminates or commences benefit payments.

Employee Contributions

None.

Optional Forms of Payment

In addition to a single life annuity, the plan offers a 50% Joint and Survivor, 75% Joint and Survivor, and 100% Joint and Survivor annuities.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

The actuarial valuation was conducted on an ongoing (not termination) basis using personnel data furnished as of January 1, 2010, by United Space Alliance. Asset information and the dates and amounts of contributions are based on information supplied by United Space Alliance.

The plan was amended December 22, 2010 to freeze benefit accruals and terminate the plan as of December 31, 2010. Notices of Intent to Terminate were sent to plan participants on November 1, 2010.

As of December 31, 2010, assets have not been distributed to plan participants in connection with the plan termination. While a Form 5500 will be filed for the 2011 plan year, this 2010 Schedule SB is the final Schedule SB filing for this plan, representing the termination date of December 31, 2010.

Schedule SB, line 25—Change in Method

- A change in the interest rate assumption from the December full yield curve to September segment rates.

Note that these changes will affect the comparability of the funding valuation results for the 2010 plan year and the funding valuation results for prior plan years.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following changes:

- A change in the interest rate assumption from a full yield curve producing an effective interest rate of 8.01% to segment rates producing an effective interest rate of 6.65%.
- A change in the mortality assumption from the 2009 Static Mortality Table for Annuitants and Non-Annuitants to the 2010 Static Mortality Table for Annuitants and Non-Annuitants.

These changes were made to better reflect anticipated plan experience.
