1. **Description of the plan**

The following description of the Integral Systems, Inc. and Subsidiaries Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Integral Systems, Inc., Newpoint Technologies, Inc., SAT Corporation, Real Time Logic, Inc., Lumistar, Inc. and SATCOM (collectively, the Company) who are at least 21 years old and have completed one month of service. An employee must have completed six months of service to receive an allocation of any employer contributions. The Plan was amended and restated effective January 1, 2010 to comply with changes required by recent legislation. There were no significant changes to the Plan provisions as a result of this amendment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, non-highly compensated and highly compensated participants may contribute up to 50% and 25% of annual compensation, respectively, on a pre-tax basis or in the form of a designated Roth contribution, as defined in the Plan. Effective October 1, 2010, non-highly compensated participants may contribute up to 75% of annual compensation on a pre-tax basis or in the form of a designated Roth contribution, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan includes an automatic enrollment feature that provides that any newly eligible employee who fails to affirmatively make a deferral election, including an election not to contribute, will be automatically enrolled in the Plan with a deferral rate of 3%. The rate will be increased 1% per year up to a maximum of 10% unless the participant makes an affirmative election. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers twenty-two mutual funds, one common collective trust and a guaranteed interest account as investment options for participants. Contributions are subject to certain limitations. The Plan provides for discretionary employer matching contributions. During the year ended December 31, 2010, there were no matching contributions. The Plan also provides for a discretionary employer profit sharing contribution. During the year ended December 31, 2010, the Company made quarterly contributions of 6% of eligible compensation. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's contributions, and an allocation of the investment earnings and losses. Allocations of investment earnings and losses are based on account balances as defined in the Plan document. Profit sharing contributions are allocated pro rata based on compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants vest immediately in their contributions plus actual earnings thereon. Vesting in the employer contributions is based on years of continuous service of at least 1,000 hours per year. Prior to June 1, 2009, a participant was 20% vested after one year of service was completed, and vested an additional 20% per year until full vesting after five years. Effective June 1, 2009, a participant is 33% vested after one year of service is completed, 67% vested after two years and fully vested after three years.

Payment of benefits: Benefits are payable upon retirement at age 59 1/2 (age 55 for SAT Corporation employees employed as of April 30, 2007), disability, death, or termination of employment. Hardship withdrawals and in-service withdrawals at age 59 1/2 are also permitted, subject to provisions described in the Plan document. Benefits are payable in lump sum, installment, and partial payments.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to fifteen years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%, which was between 4.25% and 9.25% for outstanding loans at December 31, 2010. Principal and interest are paid through payroll deductions.

Forfeited accounts: At December 31, 2010 and 2009, forfeited nonvested accounts totaled $43,004 and $237,327, respectively. These funds will be used to reduce future employer contributions or to pay plan expenses at the discretion of the employer. During 2010, $343,548 of forfeited nonvested funds were used to reduce employer contributions and no funds were used to pay plan expenses.

Administrative expenses: Administrative expenses incurred on behalf of the Plan are the responsibility of the Plan. However, the Company pays a substantial amount of the administrative expenses of the Plan.

2. **Significant accounting policies**

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Payment of benefits: Benefits are recorded when paid.

Investment valuation and income recognition: The investments of the Plan are stated at fair value. The fair value of the shares of mutual funds owned by the Plan is based on quoted net asset values on the last business day of the plan year. The fair value of the units of pooled separate accounts as of December 31, 2009 consisted of the New York Life Anchor account and was based on unit values on the last business day of the Plan year provided by the trustee of the Plan. The fair value of units of the common collective trust fund is based on the net asset value ("NAV") provided by the administrator of the fund. The NAV is quoted on a private market that is not active. The underlying investments are traded on an active market and provide the basis for the NAV of the common collective trust fund.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2009, the New York Life Anchor Account was an investment contract in which the Plan invested, which consisted of assets in a pooled separate account. The fair value was determined based on the fair value of the underlying fixed income securities, which was derived from independent pricing services. As further described in Note 5, the 2009 Statement of Net Assets Available for Benefits presents the New York Life Anchor account at fair value as well as the adjustment of the account to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. At December 31, 2010, the New York Life Guaranteed Interest Account was an investment contract in which the Plan invested. As further described in Note 6, the New York Life Guaranteed Interest Account is reported at contract value which approximated fair value at December 31, 2010. The determination of fair value is based on a comparison of the interest rate, which resets at regular intervals, with interest rates for similar durations available in the market.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes receivable from participants: The notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Reclassifications: Certain 2009 balances have been reclassified to conform with the 2010 presentation.

Subsequent events: Management has evaluated subsequent events for disclosure in these financial statements through October 12, 2011, which is the date the financial statements are available to be issued.

3. Information certified by the trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, New York Life Trust Company, the trustee, has certified as to the completeness and accuracy of all investment balances, related investment activity, notes receivable from participants, and related interest income from notes receivable from participants reflected in the accompanying financial statements and supplemental schedule, summarized as follows:

	2010	2009
Total investments, at fair value	**$ 98,144,695**	$ 72,732,286
Adjustment from fair value to contract value for the New York Life Anchor Account	**$ -**	$ 399,388

Common collective trust	**358,032**	
Total investment income	**$ 11,156,933**	
Interest income from notes receivable from participants	**$ 44,966**	

At December 31, 2010 and 2009, the fair values of individual investments that represented 5% or more of the Plan's net assets were as follows:

	2010	2009
New York Life Anchor Account I	$ -	$ 7,925,745

Columbia Acorn International Fund A	**5,626,593**	4,765,659

4. Fair value

The Plan reports its investments at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2. Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The fair value of investments as of December 31 is as follows:

2010	Fair Value Measurements at Reporting Date Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds:

The table below sets forth a summary of changes in fair value of the Plan's level 3 investment assets for the year ended December 31, 2010:

5. Investment contract - anchor account

At December 31, 2009, the Plan maintained an investment in a benefit-responsive contract with New York Life Trust Company. New York Life Trust Company maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

As described in Note 2, because the contract was fully benefit-responsive, contract value was the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by New York Life Trust Company, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but it could not be less than zero percent. Such interest rates were reviewed on a quarterly basis for resetting.

The average yield based on actual earnings for 2010 and 2009 was 2.14% and 2.68%, respectively. The average yield based on interest rates credited to participants was 2.64% and 3.18%, respectively.

Beginning June 1, 2010, the assets of this contract were gradually liquidated and moved to another stable value option (Note 6).

6. Investment contract - guaranteed interest account

Effective June 1, 2010, the Plan entered into a benefit-responsive Guaranteed Interest Account contract with New York Life Trust Company. New York Life Trust Company maintains the contributions in a general account. The account is credited with earnings on the guaranteed interest account and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed interest contract. Contract value, as reported to the Plan by New York Life Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than one percent. Such interest rates are reviewed on a semi annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include full or partial termination of the Plan, mergers, spin-offs, layoffs, early retirement incentive programs, sales or closings of all or part of the Company's operations, bankruptcy or receivership, if such events result in payments from the contract in any one year in excess of 5% of the amounts held. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The average yield based on actual earnings for 2010 was 3.75%. The average yield based on interest rates credited to participants was 3.50%.

7. **Transfer in from CVG, Inc. 401(k) Profit Sharing Plan and Trust**

Effective October 1, 2010, CVG, Inc. 401(k) Profit Sharing Plan and Trust merged into the Plan. At the time of the merger all CVG, Inc. employees became eligible for the Integral Systems, Inc. and Subsidiaries Retirement Plan if they were a participant in the CVG, Inc. 401(k) Profit Sharing Plan and Trust.

8. **Risks and uncertainties**

The Plan provides for investments in various securities that are exposed to risks, such as interest rate, credit, and overall volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in future statements of net assets available for benefits.

9. **Party-in-interest transactions**

Certain Plan investments consist of investment contracts managed by affiliates of New York Life Trust Company. New York Life Trust Company is the trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions.

10. Tax status

The Plan is based on a volume submitter plan of New York Life Investment Management LLC which received an opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the form of the plan document was acceptable under the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving that letter. However, the Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

The Plan administrator evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken.

11. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.
