Report of Independent Certified Public Accountants

Plan Administrator and Participants of the
URS Federal Technical Services, Inc. Employees Retirement Plan

We were engaged to audit the financial statements of the URS Federal Technical Services, Inc. Employees Retirement Plan (the "Plan") as of December 31, 2010 and 2009 and for the years then ended, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 4, which was certified by U.S. Bank, National Association, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods

Asset methods

We used financial data submitted by the plan sponsor as of the valuation date without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

For funding purposes, the asset valuation method is an annual average of the adjusted market value over the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding method

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the accrued liability computed using the projected unit credit method over the minimum funding target liability. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Schedule SB, Part V — Summary of Plan Provisions

Plan provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #6, are included in this valuation.

- **Most recent plan amendments included:** Amendment #6 is included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** None
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Late retirement increases:**
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining plan benefits.

Effective date and plan year	Original plan: August 20, 1999 Restated plan: January 1, 2007, as amended through the Sixth Amendment Plan year: January 1 to December 31
Status of the plan	The plan has ongoing benefit accruals. The plan was closed to new entrants as of July 1, 2003.
Significant events that occurred during the year	Mercer is not aware of any significant events that occurred during the year.
Definitions	
▪ Covered employees	All employees who are not members of a collective bargaining unit represented by a union, or who are members of a collective bargaining unit which specifically provides for benefits under this plan. Additionally, individuals who were participants in the Plan who transferred from EG&G Technical Services to JT3, LLC are included in the Plan as long as they are employed by JT3, LLC. Employees covered by a Service Contract Act are excluded. The plan was closed to new entrants as of July 1, 2003.
▪ Participation	One year of service from date of hire.
▪ Employee contributions	Not applicable.
▪ Vesting service	One year for each 1,000-hour anniversary year of employment.

Schedule SB, Part V — Summary of Plan Provisions

-
- **Credited service** The period of service (excluding layoffs, employment with affiliate or subsidiary which is not an employer and leaves of absence except for military or medical leaves) from the date of employment. 1/12 year of credit accrues for each calendar month of employment, or, in the case of a part-time employee, for each 173-1/3 hours worked. In no case shall a participant accrue more than 1 year of service during a calendar year.

The following subsidiaries have varying dates for accruing service credit:

▪ Eligibility	Termination for reasons other than death or retirement after completing five years of Vesting Service or after completing one year of Vesting Service and attaining age 45.			
▪ Benefit	Monthly pension benefit determined as of termination date, payable at of the participant's NRD.			

¹ Reductions are based on years prior to age 65 for those employees who became participants prior to 1989.

Schedule SB, Part V — Summary of Plan Provisions

Disability	
▪ Eligibility	Become a disabled participant after completing ten years of Vesting Service. A disabled participant is a participant who is eligible to receive benefits under Title II of the Federal Social Security Act.
▪ Benefit	The benefit accrued to NRD payable at NRD. Credited service continues during the disability period; earnings are assumed to continue at rate in effect prior to disability.
Pre-retirement death	
▪ Eligibility	Death while eligible for Deferred Vested, Early, Normal or Postponed Retirement, with a surviving spouse.
▪ Benefit prior to early retirement	Spouse's benefit is payable on the date the participant would have reached normal retirement age and is equal to 50% of the accrued benefit reduced for the election of the 50% joint and survivor option.
▪ Benefit after early, but before normal retirement	Spouse's benefit is equal to the spouse's portion of the 50% joint and survivor benefit payable to the employee as if he or she had elected early retirement on the day of death.
▪ Benefit after normal retirement	Spouse's benefit is equal to the spouse's portion of the 50% joint and survivor benefit payable to the employee as if he or she had retired on the day of death.
Form of benefits	
▪ Automatic form for unmarried participants	Life annuity
▪ Automatic form for married participants	50% joint and survivor annuity
▪ Optional forms	<ul style="list-style-type: none"> ▪ 50%, 75% and 100% joint and survivor (survivor need not be the spouse) ▪ 10 year certain and life annuity ▪ Social Security level income annuity ▪ Life annuity

Social Security level income option (SSLIO) actuarial equivalence is based on the better of the above basis or the Applicable Mortality Table and the Applicable Interest Rate determined in accordance with the Pension Protection Act.

Schedule SB, Part V — Summary of Plan Provisions

Miscellaneous	
▪ Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2010, the limit is \$245,000.
▪ Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2010, the limit is \$195,000.
▪ Administration	Administered by URS Federal Services.
▪ Funding medium	Trust
▪ Benefits not included in valuation	None

Plan provision changes since prior valuation

Maximum compensation and maximum benefits were updated from 2009 to 2010.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Interest rates for determining the target liability and target normal cost were updated from the full yield curve with a two month look-back in 2009 to the segment rates with no look-back in 2010 in accordance with the plan sponsor election.
- Expenses included in normal cost decreased from \$1,250,000 to \$1,200,000 to reflect our expectations for the current plan year.
- The Social Security Wage Base increase assumption was changed from 4.00% to 3.80% and the inflation assumption from 3.00% to 2.80% to reflect anticipated future experience.
- The form of payment assumptions were updated as follows based on a review of plan experience and expected future participant elections:

Plan Administrator and Participants of the
URS Federal Technical Services, Inc. Employees Retirement Plan

We were engaged to audit the financial statements of the URS Federal Technical Services, Inc. Employees Retirement Plan (the "Plan") as of December 31, 2010 and 2009 and for the years then ended, and the supplemental schedules as of and for the year ended December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 4, which was certified by U.S. Bank, National Association, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the Plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to the Financial Statements

December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of the URS Federal Technical Services, Inc. Employees Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan, established on August 20, 1999, is a defined benefit pension plan covering all eligible employees of URS Federal Technical Services, Inc. (the "Company"), a wholly owned subsidiary of URS Corporation, as defined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan was created in connection with EG&G-Carlyle Holdings Corporation's acquisition of PerkinElmer, Inc.'s Technical Services Division (name was subsequently changed to URS Federal Technical Services, Inc.). Effective August 20, 1999, employees of URS Federal Technical Services, Inc. that had participated in the PerkinElmer, Inc. Employees' Retirement Plan entered the Plan as eligible participants.

Administration - The Company serves as the Plan administrator (the "Administrator").

Eligibility - All employees of the Company hired before July 1, 2003 and with at least one year of service are eligible to participate in the Plan. Participants who: 1) are members of certain collective bargaining units or 2) are a Covered Contract Employee, as defined in the Plan document, are not eligible.

Pension Benefits - Participants are entitled to monthly pension benefits, upon normal retirement age (based on Social Security statutes and ranges from 65 to 67 depending on the participant's date of birth), equal to the greater of either 1) \$70.83 or 2) one-twelfth of the sum of:

- a) Determined as of December 31, 2003, 0.85 percent of an eligible Participant's Average Earnings, as defined by the Plan, multiplied by the participant's total Credited Service, plus an additional 0.75 percent of the Participant's Average Earnings in excess of the Social Security tax base multiplied by the participant's total Credited Service (up to a maximum of 35 years), as defined by the Plan, and
- b) Beginning January 1, 2004, 0.65 percent of the Participant's Earnings, as defined by the Plan, plus an additional 0.65 percent of the Participant's Earnings in excess of 50 percent of the Social Security wage base for the applicable year.

The Plan permits early retirement at age 55 and upon completing 10 years of service for participants who were in the Plan before 1989. For participants who joined the Plan in 1989 and after, the Plan permits early retirement within 10 years prior to a participant's normal retirement age and upon completing 10 years of service.

Participants become 100 percent vested in their normal monthly benefit upon attainment of age forty-five while in the employ of the Company or upon completion of five years of vesting service. At the time of retirement, if the actuarial present value of an employee's total pension is \$5,000 or less, the actuarial value of the employee's pension will be paid to the employee in a single lump sum. Otherwise, participants may elect to receive their pension benefits in the form of a qualified joint and survivor annuity, a life annuity payable monthly, or another acceptable method of payment, as defined in the Plan document.

Death Benefits - If an active employee dies after completing 5 years of service, or is over the age of 45, a death benefit is paid to the employee's beneficiary based on terms included in the Plan document.

Disability Retirement Benefits - Active employees who have completed 10 years of service and become permanently disabled receive disability benefit payments starting on the employee's normal retirement date. Disabled employees continue to accrue benefits and are considered active participants. Disability retirement benefit payments are payable at normal retirement date and are computed as though the employee had been employed to normal retirement age and as if their annual compensation remained the same as at the time they became disabled.

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

Administrative Expenses - Certain administrative expenses related to the Plan are paid by the Plan, as provided by the Plan document. The Company provides accounting and other administrative services to the Plan, at no charge.

Funding Policy - The Company's contributions to the Plan are designed to fund annual current service costs and are sufficient to satisfy the minimum requirement under ERISA for the year ended December 31, 2010, including any discretionary contributions deemed necessary by the Company. Voluntary employee contributions are not permitted.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements have been prepared using the accrual basis of accounting in conformity with U.S. generally accepted accounting principles.

Valuation of Investments - Investments are reported at fair value. Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants, at the measurement date. See Note 3 for a description of fair value measurements under the Accounting Standards Codification ("ASC") 820.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the statements of changes in net assets the net appreciation (depreciation) in the fair value of investments which consists of the realized gains and losses and the unrealized appreciation (depreciation) on those investments.

Payment of Benefits - Benefit payments are recorded upon distribution.

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from these estimates.

Risks and Uncertainties - Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect the amount reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recently Adopted Accounting Standards - In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-06, "Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures About Fair Value Measurements" (ASU 2010-06), to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchase, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU was adopted in these financial statements, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010.

NOTE 3 – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 - Inputs to the valuation model are unobservable and significant to the fair value measurement.

The asset and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Cash and Cash Equivalents: Valued at face value.

Collective trust funds: Valued at the net asset value ("NAV") per unit of the fund, which is based on the fair value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There are no unfunded commitments related to the Plan's investments. All investments may be redeemed within 30 days, upon notification of the investment custodian and would be redeemed at the NAV, less transaction fees. Cash and cash equivalents would be redeemed at face value.

- (a) The Large cap funds portfolio seeks to provide long-term capital appreciation, closely matching the return of the S&P 500, Russell 1000 Value & Russell 1000 Growth Index. The investments include US equities of varying risk characteristics with above average earnings and revenue growth expectations and those appearing undervalued.
- (b) The Small/Mid cap funds portfolio seeks to provide long-term total return, comprised primarily of capital appreciation through matching, as closely as possible, the return of the Russell 2500 Value & Growth Indexes.
- (c) The Fixed Income funds portfolio seeks to provide current income and long-term capital preservation through matching, as closely as possible, the return of various indexes including the Barclays Capital Long Government/Credit Index and Barclays Capital Aggregate Index. The fund invests primarily in U.S. dollar-denominated investment grade and government securities and bonds.
- (d) The International funds portfolio seeks to provide returns comparable to the MSCI EAFE Index. Through long-term capital appreciation and income, the portfolio seeks to achieve its investment goal by investing its assets in all cap companies operating outside the US. Total exposure to emerging markets is typically 10-15%, inclusive of direct investment in emerging markets and exposure through other non-US equity funds.
- (e) The Investment grade funds portfolio seeks to provide broad exposure to US long duration investment grade credit while allowing for short term liquidity through investments in US Treasuries. The fund invests in a passively managed US long duration investment grade portfolio at a 90% weight and a passively managed US Long Treasury portfolio at a 10% weight and is benchmarked to 90% Barclays Capital US Long Credit Index/10% Barclays Capital Long Treasury.
- (f) The Other funds portfolio seeks to deliver a periodic return above 3-month LIBOR, with investment durations up to 35 years. The portfolio's investments consist of no leverage, fully collateralized interest rate swaps.

NOTE 4 - INVESTMENTS

The Plan's investments are held by a trust-administered custodial fund and are administered by U.S. Bank, National Association ("Trustee"). As permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the investment asset values including assets held in the 401(h) account and the related investment transactions, and net appreciation in fair value of collective funds as shown in the accompanying financial statements and supplemental schedules were certified by the Trustee to be complete and accurate as of and for the years ended December 31, 2010 and 2009, respectively.

The following table presents the fair value of investments at December 31, 2010 and 2009. Investments that represent 5 percent or more of the Plan's net assets are separately identified.

	\$ 165,359,829	\$ 145,224,158

The Plan includes a medical-benefit component in addition to the normal retirement benefit to fund a portion of the postretirement obligation for retirees and their beneficiaries in accordance with Section 401(h) of the Internal Revenue Code (Note 9). Approximately 97.8 percent of the Plan's investments as of December 31, 2010 and 2009, respectively, are attributable to the normal retirement benefit while the remaining portion of the investments are attributable to the 401(h) post-retirement benefit.

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' average earnings during their years of service. The accumulated plan benefits for active employees are based on their average compensation during the term of their service ending on the date as of which the benefit information is

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS – CONTINUED

presented (i.e., the valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included in accumulated plan benefits to the extent they are deemed attributable to employee service rendered as of the valuation date. The actuarial present value of the accumulated plan benefits as of December 31, 2010 and 2009 is determined by the Plan's actuary, Mercer Human Resource Consulting. This is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2009 and 2008 are as follows:

Mortality basis as of December 31, 2008:	Based on the RP 2000 White Collar Mortality Table projected to 2007
Mortality basis as of December 31, 2009:	Based on the RP 2000 White Collar Mortality Table projected to 2007
Discount rate:	8.00%
Retirement age:	Probabilities based upon age and service, ranging from 1% at age 55 to 100% at age 67; average retirement age is 63

The foregoing actuarial assumptions are based on the assumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2009, as determined by the actuary is as follows:

Actuarial Present Value of Accumulated Vested Plan Benefits	
Participants currently receiving payments	\$ 61,060,033
Other participants	96,877,995
Total vested benefits	157,938,028
Actuarial Present Value of Accumulated Nonvested Plan Benefits	1,043,084
Total Actuarial Present Value of Accumulated Plan Benefits	\$ 158,981,112

Notes to the Financial Statements

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS - CONTINUED

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2009, is as follows:

Actuarial Present Value of Accumulated Plan Benefits at December 31, 2009	\$ 153,435,382
Increase/(decrease) during the year attributable to:	
Benefits accumulated and actuarial (gains)/losses	4,720,197
Increase for interest due to decrease in discount period	11,982,992
Benefits paid	(7,295,965)
Change in actuarial assumptions	(3,861,494)
Actuarial Present Value of Accumulated Plan Benefits at December 31, 2010	\$ 158,981,112

The changes in actuarial assumptions involve the update of the form of payment assumptions to better reflect Plan experience.

NOTE 6 - RELATED PARTY TRANSACTIONS

The Plan invests in units of collective funds managed by an affiliate of Mercer Trust Company ("Mercer"). Mercer acts as a trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to \$877,789 and \$533,496 for the years ended December 31, 2010 and 2009, respectively.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. If the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, to provide payment of benefits in the following order:

- a) Benefits, as determined by the provisions of the Plan five years prior to termination, due employees or their spouses who retired or were eligible for retirement three years prior to termination of the Plan.
- b) Benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), up to certain limitations (discussed below).
- c) All other vested benefits.
- d) Nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions; however, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit. This ceiling is \$4,500 for 2010 and 2009 and is adjusted annually, however if benefits have been increased within the five years before Plan termination, the whole amount of the Plan's benefit increase may not be guaranteed.

URS FEDERAL TECHNICAL SERVICES, INC. EMPLOYEES RETIREMENT PLAN

Notes to the Financial Statements

December 31, 2010 and 2009

NOTE 7 - PLAN TERMINATION - CONTINUED

Whether all participants will receive vested benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company.

NOTE 8 - TAX STATUS

The Plan obtained a favorable determination letter dated April 16, 2010 from the Internal Revenue Service ("IRS") which stated that the Plan is qualified under section 401(a) of the Internal Revenue Code ("IRC") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9 - 401(h) ACCOUNT

The Plan includes a medical-benefit component in addition to the normal retirement benefits to fund a portion of the postretirement obligations for retirees and their beneficiaries in accordance with Section 401(h) of the IRC. A separate account, known as the Retiree Health Plan Account, has been established and maintained in the Plan for the net assets related to the medical-benefit component ("401(h) account"). In accordance with IRC Section 401(h), the 401(h) account may not be used for, or diverted to any purpose other than providing for the payment of certain medical expenses for retirees and their beneficiaries. Any assets transferred to the 401(h) account from the Plan in a qualified transfer of excess Plan assets (and any income allocable thereto) that are not used during the plan year must be transferred out of the account to the Plan. The related obligations for health benefits are not included in this Plan's obligations in the statement of accumulated plan benefits but are reflected as obligations in the financial statements of the health and welfare benefit plan. Plan participants do not contribute to the 401(h) account. Employer contributions or qualified transfers to the 401(h) account are determined annually and are at the discretion of the Plan sponsor. Certain of the Plan's net assets are restricted to fund a portion of postretirement health benefits for retirees and their beneficiaries in accordance with IRC Section 401(h).

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
