Cypress Care, Inc. 401(k) Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Cypress Care, Inc. (“Plan sponsor” or “Company”) 401(k) Plan (“Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan’s effective date was January 1, 2006. It is a defined contribution plan covering all employees of the Company who have attained age 18, and it is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Employees are eligible to participate in the Plan on the first day of the month after they have met the eligibility requirements.

Contributions: The Plan allows participants to contribute up to 80% of their eligible compensation, as defined by the Plan, on a tax-deferred or after-tax basis subject to Internal Revenue Service regulation limitations. The Company matches 25% of the first 6% of a participant’s compensation that is contributed into the Plan. The Plan also permits nonelective contributions at the discretion of the Company. No nonelective contributions were made for the year ended December 31, 2010.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the company's matching and discretionary contributions and (b) plan earnings and losses, and charged with an allocation of administrative expenses, if applicable. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings and losses thereon or upon death, disability or attainment of age 65. Vesting in the employer's contributions and earnings thereon is based on years of service. A participant is 100% vested after three years of credited services.

Forfeited accounts: When termination of participation in the Plan occurs, the non-vested portion of the participant’s account, as defined by the Plan, represents a forfeiture. Forfeitures are utilized to reduce future employer matching contributions. At December 31, 2010 and 2009, there were no forfeited non-vested account balances. For the year ended December 31, 2010, employer contributions were reduced by $18,691 from forfeited non-vested accounts. However, if the participant is re-employed and fulfills certain requirements, as defined by the Plan, the participant’s account will be reinstated.

Investment options: Upon enrollment in the Plan, a participant may direct employee and employer contributions into selected investment options as made available and determined by the Plan administrator. Participants have daily access to their investment balances. Changes may be self-directed by the participants through internet or telephone transfers.

Payment of benefits: Upon leaving the Company for retirement, termination, disability or death, a participant or designated beneficiary may elect to receive a lump sum distribution or installment equal to the value of the participant's vested interest in his or her account balance at the date of distribution. Participants may withdraw all or part of their vested account balance upon reaching age 59 ½. Rollover contributions may be withdrawn at any time. In the event of a financial hardship, a participant may withdraw any elective deferrals and any vested employer contributions.

Note 1. Plan Description (Continued)

Participant loans: Participants may borrow from their fund accounts up to a maximum equal to the lesser of 50% of the present value of the non-forfeitable accrued benefit under the Plan, or $50,000 reduced by the excess (if any) of the highest outstanding balance of loans from the Plan to the participant during the one year period ending on the day before the date on which such loan is made. The minimum loan is $500. A loan is secured by the balance in the participant's account and bears interest at a rate equal to the prime rate as of the 14th of the month the loan is effective plus two percentage points. Principal and interest are paid through semi-monthly payroll deductions and must be fully repaid within five years, unless the loan is for the purchase of a primary residence then the loan may be repaid within a period of no more than thirty years.

Note 2. Significant Accounting Policies

Accounting records: The accounting records of the Plan are maintained by State Street Bank and Trust Company, the current trustee as of and for the period from November 3, 2010 to December 31, 2010, and formerly by JP Morgan Chase Bank, N.A., the former trustee from January 1, 2010 to November 2, 2010. ADP, Inc. is the recordkeeper and was the agent for JPMorgan Chase Bank N.A.
.

Basis of accounting: The accounts of the Plan are maintained on the accrual basis of accounting.

Valuation of investments and income recognition: The Plan's mutual funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation in the fair value of its investments includes gains or losses on investments bought and sold as well as held during the year.

Participant loans: Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Contributions: Contributions from Plan participants and the matching contribution from the Plan sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. All participant and employer contributions are participant-directed.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative fees: As provided by the Plan agreement, the Plan sponsor pays certain expenses on behalf of the Plan. Certain investment management expenses, transactional costs and service charges are paid by the Plan.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Significant Accounting Policies (Continued)

Subsequent events: The Plan administrator has evaluated subsequent events (events occurring after December 31, 2010) through October 6, 2011, the date the financial statements were available to be issued.

Income taxes: Management evaluated the Plan's tax position in accordance with the Financial Accounting Standards Board ("FASB") guidance on accounting for uncertainly in income taxes and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by U.S federal, state, or local tax authorities for years before 2007.

Accounting pronouncements adopted: In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06, *Fair Value Measurements and Disclosures: Improving Disclosures about Fair Value Measurements,* which requires new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. ASU 2010-06 also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 reconciliation measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. See Note 5 for effect of adoption. The guidance related to Level 3 reconciliation measurements is effective for periods beginning on or after December 15, 2010, and has not yet been adopted. The Plan's management is currently evaluating the effect of the guidance related to Level 3 measurements on the disclosures.

In September 2010, the FASB issued ASU 2010-25, *Plan Accounting—Defined Contribution Pension Plans: Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. ASU 2010-25 requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This standard is effective for periods ending after December 15, 2010, with early adoption permitted. This standard requires retrospective application to all periods presented. This standard was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new standard. The adoption resulted in a reclassification of participant loans totaling $66,851 and $67,033 from investments to notes receivable from participants as of December 31, 2010 and 2009, respectively. There was no effect on the net assets available for benefits as of December 31, 2010 or 2009 as a result of the adoption.

Accounting pronouncements not yet effective: In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-04 amended Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards ("IFRS"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Investment Information Certified or Provided by State Street Bank and Trust Company ("Current Trustee") and ADP, Inc., Agent for JPMorgan Chase Bank N.A ("Former Trustee)

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information certified or provided by the current trustee and the agent for the former trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the current trustee and the agent for the former trustee that information provided to the Plan administrator by the trustees related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2010	2009
Investments:		
Registered investment companies (mutual funds)	**$ 3,222,041**	$ 2,506,470

Notes receivable from participants	**$ 66,851**	$ 67,033

The trustees of the Plan also certified to the best of their knowledge the completeness and accuracy of $387,766 of net appreciation in the fair value of investments relating to investments, $49,743 of dividends and interest related to the aforementioned investments and $2,634 of interest on notes receivable from participants for the year ended December 31, 2010.

*This investment did not exceed 5% of the Plan's net assets available for benefits or the investment was not included in the Plan's investments as of this date.

Note 5. Fair Value Measurements

Accounting standards establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Registered investment companies (mutual funds): Valued at fair value as determined by quoted market prices of shares held by the Plan at year end.

Collective trust funds: Valued at the net asset value ("NAV") per unit based on the underlying investments comprising the trust.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

	December 31, 2010

Note 6. Net Asset Value Per Share

The following table for December 31, 2010 sets forth a summary of the Plan's Level 2 investments with a reported net asset value:

	Fair Value Estimated Using Net Asset Value Per Share December 31, 2010				
Investment	Fair Value*	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Stable value collective trust fund (a)	$ 224,867	$ -	Daily	None	None
SSGA S&P 500 Index Fund (b)	346,435	-	Daily	None	None

* The fair values of the investments have been estimated using the net asset value of the investment.

(a) The investment objective of the Fund shall be to seek preservation of principal while seeking a rate of return which, over time, is competitive with rates of return earned over an extended period of time by comparable fixed income investment products. The Fund provides its unitholders with a medium for collective investment and reinvestment in one or more bank, insurance company or synthetic investment contracts, and in short-term investments or other collective investment funds.

(b) The investment seeks to replicate the total return of the S&P 500 index. It invests at least 80% of total assets in stocks in the S&P 500 index in proportion to their weighting. The fund may also invest in futures, options and other derivatives.

Note 7. Risks and Uncertainties

The Plan's participants invest in various investment securities offered by the Plan. These investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8. Related Party Transactions

State Street Bank and Trust Company and JPMorgan Chase Bank N.A. were trustees of the Plan during the year ended December 31, 2010; therefore transactions with the trustees qualify as party-in-interest transactions. Fees paid by the Plan to the trustees totaled $3,884 for the year ended December 31, 2010. The Plan sponsor also paid certain administrative expenses of the Plan.

Note 9. Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by Automatic Data Processing Federal Credit Union. The prototype plan has received an opinion letter dated November 6, 2001 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Note 10. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 11. Plan Failure

Management identified an operational failure of the Plan related to not performing various discrimination testing at the control group level. The Plan has elected to correct through the Internal Revenue Service Voluntary Correction Program ("VCP") and to request a waiver for the years from 2007 to 2010. The Plan is unable to predict the ultimate outcome of the error under the VCP, and any resolution may have a significant effect to the financial statements of the Plan. If the result of filing through the VCP is unsuccessful, the Plan sponsor will be responsible for contributing an employee and employer matching contribution. Any obligations to the Plan would be paid out of the Plan sponsor assets.

Note 12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to the Form 5500:
