Report of Independent Certified Public Accountants

To the Administrative Committee of
Fiberweb Simpsonville, Inc.
Retirement Savings Plan:

We were engaged to audit the financial statements of the **Fiberweb Simpsonville, Inc. Retirement Savings Plan** (the Plan) as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by New York Life Trust Company (NYL), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the certified Plan assets and executes the related transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of the Plan

The following description of the Fiberweb Simpsonville, Inc. Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established on July 1, 1983, to encourage and assist employees in adopting a regular savings program and to help provide additional security for their retirement. As of November 17, 2006, the plan document was amended and restated in its entirety to define the "Employer" of the Plan to mean Fiberweb Simpsonville, Inc. All plan provisions and investment options for Fiberweb Simpsonville, Inc. Retirement Savings Plan remain the same.

Effective July 31, 2009, the plan document was amended to include Fiberweb Newco 2, Inc. (FitesaFiberweb) as a participating employer. For the plan year ended December 31, 2009, Fiberweb Simpsonville, Inc. and Fiberweb Newco 2, Inc. are defined as the "Employers" of the Plan.

The Plan is a defined contribution plan covering eligible employees of the Employers. Upon employment, employees of the Employers may begin participation on the January 1, April 1, July 1 or October 1 closest to their employment date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1979 (ERISA).

Participant Accounts

Each participant has an individual account established and maintained under the Plan that is credited with the participant's contributions and withdrawals, company matching contributions and plan earnings or losses. Plan earnings or losses are allocated among the participants' account balances in the proportion that each participant account balance bears to the aggregate of all participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions

Each participant may contribute on a pretax basis up to 85% of his or her compensation to the Plan, as defined by the plan document and as limited by Internal Revenue Code (IRC) regulations. The respective entities, which comprise the Employers, are required to make matching contributions as stipulated in the plan document. The required matching contribution is 100% of up to 4% of an employee's contribution for all participants of the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 14 investment options for participants.

The Employers are required to make additional employer contributions to the Plan in an amount equal to 3% of an employee's compensation for all employees of the sponsors.

Vesting

Participants are immediately 100% vested in their voluntary contributions, the employer match on pretax contributions, employer discretionary contributions and actual earnings thereon.

Payment of Benefits

Upon retirement, disability, death or termination, participants (or their beneficiaries) may elect to receive the value of their account by any one or more methods of payment authorized by the Plan, which include a lump-sum amount or a series of installment payments over a specified time defined by the Plan. Participants may also choose to have their account balances transferred directly to another qualified plan or individual retirement account. Participants who terminate employment with an account balance of less than \$1,000, or who request distributions of less than \$1,000, automatically receive lump-sum distributions.

Participants may request withdrawals from their accounts based upon financial hardship as defined by IRC regulations, subject to the approval of the Plan's management committee. In the event such a withdrawal is made, the distribution is subject to 10% federal withholding and a 10% excise tax if the participant has not attained age 59½.

Participant Loans

Participants may borrow from a minimum of \$1,000 up to a maximum of 50% of their account balance, not to exceed \$50,000. The maximum term of repayment on loans, excluding those used to acquire a primary residence, is five years. For loans used to purchase a primary residence, the maximum repayment period is 10 years. Participant loan interest rates ranged from 4.25% to 10% during the 2010 and 2009 plan years.

Impact of New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, "Improving Disclosures About Fair Values (ASC) 820," to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements and disclosures.

In September 2010, FASB issued an amendment, "Plan Accounting – Defined Contribution Pension Plans (Topic 952) Reporting Loans to Participants by Defined Contribution Pension Plans," which provides guidance on how loans to participants should be classified and measured by defined contribution plans. That guidance requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010, financial statements and has reclassified participant loans of \$3,287,767 for the year ended December 31, 2009, respectively, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

2 Summary of Significant Accounting Policies**Basis of Presentation**

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures" provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standards are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009, respectively:

As of December 31, 2010	Investments at Fair Value

	\$	\$	\$	\$
Mutual funds:				
Fixed Income	5,726,673	-	-	5,726,673

Total investments at fair value	49,952,326	16,233,066	-	66,185,392

As required by applicable standards, the Plan's pooled separate account investment is required to be reported at fair value. However, contract value is the relevant measurement attributed for that portion of the net assets available for benefits of the Plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As such, the statements of net assets available for benefits present the fair value of these investments as well as the adjustment of the investments from fair value to contract value relating to the fully benefit-responsive investment contracts.

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The Plan's interest in the pooled separate account is valued at fair value reported by the fund manager based on the underlying investments within each fund and are expressed in units representing the net asset value of each fund by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Interest is accrued daily and credited to the account and is guaranteed to be no less than 0% before any deduction for expenses. The average yield for 2010 and 2009 was 2.67% and 3.18%, respectively. For the year ended December 31, 2009, the average crediting interest rate was 2.88%. There were no valuation reserves recorded that were associated with the pooled separate account in 2010 and 2009. The investment can be redeemed at any time and has no unfunded commitments. At contract termination, a participating plan may receive a book value distribution of the Plan's interest in the pooled separate account, provided the plan sponsor provides twelve months' advance written notice to New York Life Insurance Company. Certain distributions (e.g., distributions resulting from employer-initiated events such as plan termination, merger, spin-off, lay-off, early retirement incentives, etc) may be subject to a market value adjustment. An event that limits the Plan's ability to transact at contract value with participants in the Plan must be probable of not occurring for the contract to be considered benefit-responsive.

Net gain from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gain represents the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gain represents the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

All administrative expenses are paid by the Plan.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Benefit Payments

Benefits are recorded when paid.

3 Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2010 and 2009.
- Interest and dividend income, net gain from investment activity and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2010.
- Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2010.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

The fair market value of individual investments that represent in excess of 5% of the net assets of the Plan at December 31, 2010 or 2009, is as follows:

	2010	2009
	\$	\$

Oakmark Equity & Income Fund I	3,828,693	3,519,613
Rainier Small Mid Equity Funds	-	7,687,297

* The fair market value of this investment did not represent 5% or more of the fair market value of the plan assets as of December 31, 2009.

The net gain from investment activity for the plan year ended December 31, 2010, was incurred from the following types of investments:

	2010
	\$
Mutual funds	5,866,911
Pooled separate account	149,277
	6,016,188

5 Income Tax Status

The Internal Revenue Service (IRS) has issued a determination letter dated September 4, 2002, which indicated that the Plan, as designed, is in accordance with applicable sections of the IRC. The Plan has been amended since the determination letter was received; however, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2007.

6 Termination of Plan

While the Employers have not expressed any intent to do so, they reserve the right to terminate the Plan at any time. If the Plan is terminated, the amounts credited to the accounts of the participants shall be distributed to the participants or their beneficiaries under the terms of the plan agreement.

7 Party-in-interest Transactions

The pooled separate account held by the Plan during the year was managed by NYL, the trustee. Accordingly, the transactions in such investments qualify as party-in-interest transactions as defined by ERISA, which are exempt from the prohibited transaction rules.

8 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, to the financial information reported in the Plan's Form 5500 filing:

9 Subsequent Events

The Plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued, and has determined that it does not have any material subsequent events to disclose in these financial statements.

Report of Independent Certified Public Accountants

To the Administrative Committee of
Fiberweb Simpsonville, Inc.
Retirement Savings Plan:

We were engaged to audit the financial statements of the **Fiberweb Simpsonville, Inc. Retirement Savings Plan** (the Plan) as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by New York Life Trust Company (NYL), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the certified Plan assets and executes the related transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of the Plan

The following description of the Fiberweb Simpsonville, Inc. Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established on July 1, 1983, to encourage and assist employees in adopting a regular savings program and to help provide additional security for their retirement. As of November 17, 2006, the plan document was amended and restated in its entirety to define the "Employer" of the Plan to mean Fiberweb Simpsonville, Inc. All plan provisions and investment options for Fiberweb Simpsonville, Inc. Retirement Savings Plan remain the same.

Effective July 31, 2009, the plan document was amended to include Fiberweb Newco 2, Inc. (FitesaFiberweb) as a participating employer. For the plan year ended December 31, 2009, Fiberweb Simpsonville, Inc. and Fiberweb Newco 2, Inc. are defined as the "Employers" of the Plan.

The Plan is a defined contribution plan covering eligible employees of the Employers. Upon employment, employees of the Employers may begin participation on the January 1, April 1, July 1 or October 1 closest to their employment date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1979 (ERISA).

Participant Accounts

Each participant has an individual account established and maintained under the Plan that is credited with the participant's contributions and withdrawals, company matching contributions and plan earnings or losses. Plan earnings or losses are allocated among the participants' account balances in the proportion that each participant account balance bears to the aggregate of all participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions

Each participant may contribute on a pretax basis up to 85% of his or her compensation to the Plan, as defined by the plan document and as limited by Internal Revenue Code (IRC) regulations. The respective entities, which comprise the Employers, are required to make matching contributions as stipulated in the plan document. The required matching contribution is 100% of up to 4% of an employee's contribution for all participants of the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 14 investment options for participants.

The Employers are required to make additional employer contributions to the Plan in an amount equal to 3% of an employee's compensation for all employees of the sponsors.

Vesting

Participants are immediately 100% vested in their voluntary contributions, the employer match on pretax contributions, employer discretionary contributions and actual earnings thereon.

Payment of Benefits

Upon retirement, disability, death or termination, participants (or their beneficiaries) may elect to receive the value of their account by any one or more methods of payment authorized by the Plan, which include a lump-sum amount or a series of installment payments over a specified time defined by the Plan. Participants may also choose to have their account balances transferred directly to another qualified plan or individual retirement account. Participants who terminate employment with an account balance of less than \$1,000, or who request distributions of less than \$1,000, automatically receive lump-sum distributions.

Participants may request withdrawals from their accounts based upon financial hardship as defined by IRC regulations, subject to the approval of the Plan's management committee. In the event such a withdrawal is made, the distribution is subject to 10% federal withholding and a 10% excise tax if the participant has not attained age 59½.

Participant Loans

Participants may borrow from a minimum of \$1,000 up to a maximum of 50% of their account balance, not to exceed \$50,000. The maximum term of repayment on loans, excluding those used to acquire a primary residence, is five years. For loans used to purchase a primary residence, the maximum repayment period is 10 years. Participant loan interest rates ranged from 4.25% to 10% during the 2010 and 2009 plan years.

Impact of New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, "Improving Disclosures About Fair Values (ASC) 820," to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements and disclosures.

In September 2010, FASB issued an amendment, "Plan Accounting – Defined Contribution Pension Plans (Topic 952) Reporting Loans to Participants by Defined Contribution Pension Plans," which provides guidance on how loans to participants should be classified and measured by defined contribution plans. That guidance requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010, financial statements and has reclassified participant loans of \$3,287,767 for the year ended December 31, 2009, respectively, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

2 Summary of Significant Accounting Policies**Basis of Presentation**

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures" provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standards are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009, respectively:

As of December 31, 2010	Investments at Fair Value

Total investments at fair value	49,952,326	16,233,066	-	66,185,392

As required by applicable standards, the Plan's pooled separate account investment is required to be reported at fair value. However, contract value is the relevant measurement attributed for that portion of the net assets available for benefits of the Plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As such, the statements of net assets available for benefits present the fair value of these investments as well as the adjustment of the investments from fair value to contract value relating to the fully benefit-responsive investment contracts.

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The Plan's interest in the pooled separate account is valued at fair value reported by the fund manager based on the underlying investments within each fund and are expressed in units representing the net asset value of each fund by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Interest is accrued daily and credited to the account and is guaranteed to be no less than 0% before any deduction for expenses. The average yield for 2010 and 2009 was 2.67% and 3.18%, respectively. For the year ended December 31, 2009, the average crediting interest rate was 2.88%. There were no valuation reserves recorded that were associated with the pooled separate account in 2010 and 2009. The investment can be redeemed at any time and has no unfunded commitments. At contract termination, a participating plan may receive a book value distribution of the Plan's interest in the pooled separate account, provided the plan sponsor provides twelve months' advance written notice to New York Life Insurance Company. Certain distributions (e.g., distributions resulting from employer-initiated events such as plan termination, merger, spin-off, lay-off, early retirement incentives, etc) may be subject to a market value adjustment. An event that limits the Plan's ability to transact at contract value with participants in the Plan must be probable of not occurring for the contract to be considered benefit-responsive.

Net gain from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gain represents the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gain represents the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

All administrative expenses are paid by the Plan.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Benefit Payments

Benefits are recorded when paid.

3 Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2010 and 2009.
- Interest and dividend income, net gain from investment activity and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2010.
- Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2010.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

The fair market value of individual investments that represent in excess of 5% of the net assets of the Plan at December 31, 2010 or 2009, is as follows:

	2010	2009
	\$	\$
Pooled separate account – New York Life Anchor Account III	17,820,494	16,233,066
Mutual funds, at fair value:

Oakmark Equity & Income Fund I	3,828,693	3,519,613
Rainier Small Mid Equity Funds	-	7,687,297

* The fair market value of this investment did not represent 5% or more of the fair market value of the plan assets as of December 31, 2009.

The net gain from investment activity for the plan year ended December 31, 2010, was incurred from the following types of investments:

	2010
	\$
Mutual funds	5,866,911
Pooled separate account	149,277
	6,016,188

5 Income Tax Status

The Internal Revenue Service (IRS) has issued a determination letter dated September 4, 2002, which indicated that the Plan, as designed, is in accordance with applicable sections of the IRC. The Plan has been amended since the determination letter was received; however, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2007.

6 Termination of Plan

While the Employers have not expressed any intent to do so, they reserve the right to terminate the Plan at any time. If the Plan is terminated, the amounts credited to the accounts of the participants shall be distributed to the participants or their beneficiaries under the terms of the plan agreement.

7 Party-in-interest Transactions

The pooled separate account held by the Plan during the year was managed by NYL, the trustee. Accordingly, the transactions in such investments qualify as party-in-interest transactions as defined by ERISA, which are exempt from the prohibited transaction rules.

8 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, to the financial information reported in the Plan's Form 5500 filing:

9 Subsequent Events

The Plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued, and has determined that it does not have any material subsequent events to disclose in these financial statements.

Report of Independent Certified Public Accountants

To the Administrative Committee of
Fiberweb Simpsonville, Inc.
Retirement Savings Plan:

We were engaged to audit the financial statements of the **Fiberweb Simpsonville, Inc. Retirement Savings Plan** (the Plan) as of December 31, 2010 and 2009, and for the year ended December 31, 2010, and the supplemental schedule of assets (held at end of year) as of December 31, 2010, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by New York Life Trust Company (NYL), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the certified Plan assets and executes the related transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2010 and 2009, and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Description of the Plan

The following description of the Fiberweb Simpsonville, Inc. Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established on July 1, 1983, to encourage and assist employees in adopting a regular savings program and to help provide additional security for their retirement. As of November 17, 2006, the plan document was amended and restated in its entirety to define the "Employer" of the Plan to mean Fiberweb Simpsonville, Inc. All plan provisions and investment options for Fiberweb Simpsonville, Inc. Retirement Savings Plan remain the same.

Effective July 31, 2009, the plan document was amended to include Fiberweb Newco 2, Inc. (FitesaFiberweb) as a participating employer. For the plan year ended December 31, 2009, Fiberweb Simpsonville, Inc. and Fiberweb Newco 2, Inc. are defined as the "Employers" of the Plan.

The Plan is a defined contribution plan covering eligible employees of the Employers. Upon employment, employees of the Employers may begin participation on the January 1, April 1, July 1 or October 1 closest to their employment date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1979 (ERISA).

Participant Accounts

Each participant has an individual account established and maintained under the Plan that is credited with the participant's contributions and withdrawals, company matching contributions and plan earnings or losses. Plan earnings or losses are allocated among the participants' account balances in the proportion that each participant account balance bears to the aggregate of all participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions

Each participant may contribute on a pretax basis up to 85% of his or her compensation to the Plan, as defined by the plan document and as limited by Internal Revenue Code (IRC) regulations. The respective entities, which comprise the Employers, are required to make matching contributions as stipulated in the plan document. The required matching contribution is 100% of up to 4% of an employee's contribution for all participants of the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 14 investment options for participants.

The Employers are required to make additional employer contributions to the Plan in an amount equal to 3% of an employee's compensation for all employees of the sponsors.

Vesting

Participants are immediately 100% vested in their voluntary contributions, the employer match on pretax contributions, employer discretionary contributions and actual earnings thereon.

Payment of Benefits

Upon retirement, disability, death or termination, participants (or their beneficiaries) may elect to receive the value of their account by any one or more methods of payment authorized by the Plan, which include a lump-sum amount or a series of installment payments over a specified time defined by the Plan. Participants may also choose to have their account balances transferred directly to another qualified plan or individual retirement account. Participants who terminate employment with an account balance of less than \$1,000, or who request distributions of less than \$1,000, automatically receive lump-sum distributions.

Participants may request withdrawals from their accounts based upon financial hardship as defined by IRC regulations, subject to the approval of the Plan's management committee. In the event such a withdrawal is made, the distribution is subject to 10% federal withholding and a 10% excise tax if the participant has not attained age 59½.

Participant Loans

Participants may borrow from a minimum of \$1,000 up to a maximum of 50% of their account balance, not to exceed \$50,000. The maximum term of repayment on loans, excluding those used to acquire a primary residence, is five years. For loans used to purchase a primary residence, the maximum repayment period is 10 years. Participant loan interest rates ranged from 4.25% to 10% during the 2010 and 2009 plan years.

Impact of New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, "Improving Disclosures About Fair Values (ASC) 820," to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements and disclosures.

In September 2010, FASB issued an amendment, "Plan Accounting – Defined Contribution Pension Plans (Topic 952) Reporting Loans to Participants by Defined Contribution Pension Plans," which provides guidance on how loans to participants should be classified and measured by defined contribution plans. That guidance requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this new guidance in its December 31, 2010, financial statements and has reclassified participant loans of \$3,287,767 for the year ended December 31, 2009, respectively, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of the new guidance.

2 Summary of Significant Accounting Policies**Basis of Presentation**

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures" provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standards are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009, respectively:

As required by applicable standards, the Plan's pooled separate account investment is required to be reported at fair value. However, contract value is the relevant measurement attributed for that portion of the net assets available for benefits of the Plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As such, the statements of net assets available for benefits present the fair value of these investments as well as the adjustment of the investments from fair value to contract value relating to the fully benefit-responsive investment contracts.

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. The Plan's interest in the pooled separate account is valued at fair value reported by the fund manager based on the underlying investments within each fund and are expressed in units representing the net asset value of each fund by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Interest is accrued daily and credited to the account and is guaranteed to be no less than 0% before any deduction for expenses. The average yield for 2010 and 2009 was 2.67% and 3.18%, respectively. For the year ended December 31, 2009, the average crediting interest rate was 2.88%. There were no valuation reserves recorded that were associated with the pooled separate account in 2010 and 2009. The investment can be redeemed at any time and has no unfunded commitments. At contract termination, a participating plan may receive a book value distribution of the Plan's interest in the pooled separate account, provided the plan sponsor provides twelve months' advance written notice to New York Life Insurance Company. Certain distributions (e.g., distributions resulting from employer-initiated events such as plan termination, merger, spin-off, lay-off, early retirement incentives, etc) may be subject to a market value adjustment. An event that limits the Plan's ability to transact at contract value with participants in the Plan must be probable of not occurring for the contract to be considered benefit-responsive.

Net gain from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gain represents the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gain represents the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

All administrative expenses are paid by the Plan.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Benefit Payments

Benefits are recorded when paid.

3 Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2010 and 2009.
- Interest and dividend income, net gain from investment activity and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2010.
- Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2010.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

The fair market value of individual investments that represent in excess of 5% of the net assets of the Plan at December 31, 2010 or 2009, is as follows:

	2010	2009
	\$	\$
Pooled separate account – New York Life Anchor Account III	17,820,494	16,233,066
Mutual funds, at fair value:

Rainier Small Mid Equity Funds	-	7,687,297

* The fair market value of this investment did not represent 5% or more of the fair market value of the plan assets as of December 31, 2009.

The net gain from investment activity for the plan year ended December 31, 2010, was incurred from the following types of investments:

	2010
	\$
Mutual funds	5,866,911
Pooled separate account	149,277
	6,016,188

5 Income Tax Status

The Internal Revenue Service (IRS) has issued a determination letter dated September 4, 2002, which indicated that the Plan, as designed, is in accordance with applicable sections of the IRC. The Plan has been amended since the determination letter was received; however, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010 and 2009, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2007.

6 Termination of Plan

While the Employers have not expressed any intent to do so, they reserve the right to terminate the Plan at any time. If the Plan is terminated, the amounts credited to the accounts of the participants shall be distributed to the participants or their beneficiaries under the terms of the plan agreement.

7 Party-in-interest Transactions

The pooled separate account held by the Plan during the year was managed by NYL, the trustee. Accordingly, the transactions in such investments qualify as party-in-interest transactions as defined by ERISA, which are exempt from the prohibited transaction rules.

8 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010, to the financial information reported in the Plan's Form 5500 filing:

9 Subsequent Events

The Plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued, and has determined that it does not have any material subsequent events to disclose in these financial statements.
