Notes to the Financial Statements
Trafigura AG 401(k) Savings Plan

Note A – Description of the plan

The following brief description of the Trafigura AG 401(k) Savings Plan ("the Plan") is provided for general information purposes only. The Plan is sponsored by Trafigura AG (the "Plan Sponsor" or "Company"). Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a contributory, defined contribution 401(k) that provides retirement savings benefits to eligible employees of the Company through tax deferred voluntary contributions by employees and discretionary contributions by the Company. Employees are eligible to make elective deferral contributions and receive employer matching contributions in the Plan after the attainment of the age of twenty-one (21) years and the completion of one month (1) of service and to receive non-elective contributions after the attainment of the age of twenty-one (21) and completion of six (6) months of eligible service. An employee's entry date is on the date of satisfaction of the eligibility requirements.

The Plan, which commenced January 1, 1996 and was amended and restated effective January 1, 2010, is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC"). The Company is the designated administrator of the Plan and John Hancock Life Insurance Company (U.S.A) is the custodian of the Plan responsible for the management and control of the Plan's assets which are held in individual participant investment accounts.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) employer matching and discretionary profit sharing contributions and (b) Plan earnings (losses) and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Employee contributions

Participants may elect to contribute up to the maximum amount allowed for deferral under the IRC. The amount deferred is not subject to federal taxation to the participants until distributions are made from the Plan. Participants who have attained age fifty (50) or older before the end of the tax year are eligible to make catch-up contributions up to the maximum amount allowed for deferral under the IRC. Participants may discontinue their election to contribute at any time. Transfers from qualified plans are allowed under the provisions of the Plan. Additional after-tax voluntary contributions are allowed.

Employer contributions

The Company contributes an amount per pay period equal to a specified percentage of the participant's contribution. During 2010, the Company contributed 50% of the first 6% of base compensation that a participant contributes to the Plan.

Additionally, each Plan year the Company may make discretionary profit sharing contributions in amounts determined by the Company, as defined in the Plan document. Eligible participants who are employed on the

last day of the Plan year share in any discretionary profit sharing contributions. Profit sharing contributions are allocated to eligible participants based upon the percentage of the participant's compensation to the total compensation of all eligible participants. No discretionary profit sharing contributions were made during the year ended December 31, 2010.

ERISA and the IRC provide that plans such as Trafigura AG 401(k) Savings Plan cannot discriminate in favor of highly compensated individuals. To comply with these laws, certain highly compensated individuals may receive funds in the year that contributions were made in excess of the IRC Section 401(k) limit and all earnings attributable to such contributions. At December 31, 2010, there were no corrective distributions payable to participants.

Rollovers

Rollovers represent funds transferred to the Plan from other qualified plans. Participants may roll over certain qualifying funds into the Plan in accordance with the Plan document.

Investment Options

Participants elect to have their contributions allocated among various investment options offered by the Plan. Investment options consist of guaranteed interest accounts and pooled separate accounts sponsored by John Hancock Life Insurance Company (U.S.A) (the "Custodian") which range from conservative income funds and stable asset funds to international mutual funds. Participants may redirect the investment of future contributions or exchange existing balances among available investment options on the first day of the Plan quarter and such changes are subject to the restrictions made by the Company.

Vesting

Participants are fully vested in their employee contributions plus actual earnings (losses) thereon. Vesting in the Company contributions and earnings thereon is based on years of service and is determined as follows:

Years of Service:	Percentage
Less than 2	0%
2	100%

Forfeited accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts are retained in the Plan and will be used to reduce future employer contributions to the Plan. Forfeited non-vested accounts amounted to $2,990 at December 31, 2010. During 2010, the Company applied $17,447 from the forfeiture balance to reduce employer matching contributions.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50% of their account balance, whichever is less, for proven financial hardship purposes. No more than two loans can be outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25% which is consistent with local prevailing rates at the time the loans were initiated. Principal and interest is paid ratably through payroll deductions. All loans must be repaid within five years, unless the loan is used to purchase a primary residence, for which loan terms may range up to ten years.

Payment of Benefits

On termination of employment, disability, death, or normal retirement, a participant or designated beneficiary may elect to receive a lump sum cash distribution equal to the value of the participant's vested account balance, a direct rollover distribution, or a combination of a cash distribution and direct rollover distribution. If withdrawing participants are not entitled to their entire account balance, the amounts not received are forfeited. Participants may defer receipt of distribution until a later date unless their account balance is $5,000 or less. If the vested account balance is $5,000 or less, the account will be distributed to the participant without consent as a lump sum distribution in cash.

If an active participant has attained age fifty-nine and one-half (59½), they may elect to withdraw all or a portion of their elective deferral account while still employed by the Company. Hardship distributions are not permitted.

Administrative Expenses

The Plan permits the payment of expenses incurred in connection with the administration of the Plan to be made from the Plan's assets. Expenses will generally be allocated among the accounts of all participants in the plan proportionately based on the value of the participant's account balances. Specific fees may also be charged directly to a participant's account in response to transactions requested under the Plan. Administrative expenses totaled $11,490 for the year ended December 31, 2010.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting and include all adjustments necessary to present fairly the financial statements of the Plan in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Accordingly, actual results may differ from those estimates.

Cash and cash equivalents

The Company considers all highly liquid investments purchased with maturity dates of three months or less to be cash equivalents.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, to converge the fair value measurement guidance in US generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011- 04 will have on the Plan's financial statements.

In September 2010, the FASB issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, the adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Contributions

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the plan administrator and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment valuation and income recognition

Investments are reported at fair value and are measured in accordance with ASC 820. Fair value is the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in value of investments includes realized gains and losses on investments bought and sold during the year and unrealized appreciation (depreciation) of investments held at year-end. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits paid to participants are recorded when paid. As of December 31, 2010, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan Document.

Risks and uncertainties

The Plan provides for various investment options in mutual funds and guaranteed interest accounts. Investments, in general, are exposed to various risks, such as interest rate, credit and overall volatility risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note C - Information Certified by the Custodian (Unaudited) or Investments

At December 31, 2010, the Plan's investments were held by John Hancock Life Insurance Company (U.S.A) ("the Custodian") in a non-interest bearing cash account pending transfer to successor Custodian (Note I) on January 1, 2011. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2010 that represent 5% or more of the Plan's net assets, as reported by the Trustee is summarized as follows:

		12/31/2010
Cash and cash equivalents	$	5,816,452
	$	**5,816,452**

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $718,752 as follows:

		12/31/2010
Money market fund	$	1,247
Bond/Income funds		115,880
Balanced funds		44,349
Equity funds		411,707
International funds		65,088
Specialty funds		29,450
Index funds		51,090
Guaranteed interest accounts		(59)
	$	**718,752**

Note D – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

Cash and cash equivalents: Valued at carrying value which approximates fair value and are therefore classified within Level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E – Related party transactions

Certain Plan assets are in investment funds managed by John Hancock Life Insurance Company (U.S.A) ("John Hancock"). John Hancock is the custodian of the Plan assets; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Any purchases and sales of these investments are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. Fees paid by the Plan to the custodian for administrative fees amounted to $11,270 for the year ended December 31, 2010

The Plan has notes receivables from certain of its participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

Note F - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the employer contributions allocated to their accounts.

Note G - Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated September 21, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

Note H – Nonexempt Transactions

Department of Labor ("DOL") Regulation 2510.3-102 requires employers to remit amounts paid by a participant or beneficiary to an employer and/or withheld by an employer for contribution to a 401(k) plan as soon as they can be reasonably segregated from the employer's general assets. The Plan sponsor has demonstrated that the funds remitted by the employees can be reasonably segregated and remitted to the Plan within three days. Any remittances to the plan greater than three days are considered prohibited transactions and in violation of the provisions of ERISA and the Internal Revenue Code.

As reported on Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain participant contributions were not remitted to the Plan within the time frame specified by the Department of Labor's ("DOL") Regulation 29 CFR 2510.3-102, thus constituting nonexempt transactions between the Plan and the Company during the 2010 Plan year. Late remittances amount to $237,121. The Company is currently is process of making appropriate filings in accordance with the DOL's Voluntary Fiduciary Corrective Program and estimating the amount of corrective payments due to the plan and believes the amount will be immaterial. Costs incurred for penalties and interest will be borne by the sponsor of the Plan.

The Plan Sponsor believes that with the completion of these corrections, the Plan will continue to be in compliance with applicable requirements of the Code.

Note I – Subsequent Events

For the year-ended December 31, 2010, the Company has evaluated subsequent events and transactions for potential recognition and disclosure through October 13, 2011, the date the financial statements were available to be issued.

Effective January 1, 2011, Fidelity Management Trust Company ("Fidelity") was selected to be the Custodian of the Plan replacing John Hancock Life Insurance Company (U.S.A). The change in trustees resulted in new investments options for participant contributions. The plan was amended and restated on January 1, 2011 to include the following:

- The restated Plan converted from the Professional Pension Planners Inc. Non-standardized Prototype Plan and Adoption Agreements to the Fidelity Volume Submitter Plan and its Adoption Agreement.
- No service requirement for eligibility
- Deferral limit has been established as 92%
- The Plan was amended effective January 1, 2011 to adopt a provision that would allow eligible participants to designate all or a portion of their elective deferrals as Roth Elective Deferrals
- The Plan includes a negative election option. Under this provision, employees hired after January 1, 2011 are automatically enrolled in the Plan at 3% of their eligible compensation unless a contrary election is made. This automatic deferral is subject to increase in 1% increments limited to 6% of compensation unless the eligible employee affirmatively elects otherwise.

- Contribution period for matching employer contributions is each Plan year, at the Company's discretion.
- The Plan was amended to reflect statutory changes pursuant to the Pension Protection Act of 2006 ("PPA") and related guidance. The amendment is effective for Plan years beginning after December 31, 2006.
- The Plan was amended to reflect statutory changes pursuant to the Heroes Earnings Assistance and Relief Act of 2008 ("HEART"), the Worker, Retiree and Employee Recovery Act of 2008 ("WRERA"), the Emergency Economic Stabilization Act of 2008 ("EESA") and related guidance. The amendment is effective for Plan years beginning after December 31, 2008.
- A separate election has been established for bonus inclusion.
- At age 59 ½, withdrawals may be made from all vested account balances

Notes to the Financial Statements
Trafigura AG 401(k) Savings Plan

Note A – Description of the plan

The following brief description of the Trafigura AG 401(k) Savings Plan ("the Plan") is provided for general information purposes only. The Plan is sponsored by Trafigura AG (the "Plan Sponsor" or "Company"). Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a contributory, defined contribution 401(k) that provides retirement savings benefits to eligible employees of the Company through tax deferred voluntary contributions by employees and discretionary contributions by the Company. Employees are eligible to make elective deferral contributions and receive employer matching contributions in the Plan after the attainment of the age of twenty-one (21) years and the completion of one month (1) of service and to receive non-elective contributions after the attainment of the age of twenty-one (21) and completion of six (6) months of eligible service. An employee's entry date is on the date of satisfaction of the eligibility requirements.

The Plan, which commenced January 1, 1996 and was amended and restated effective January 1, 2010, is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC"). The Company is the designated administrator of the Plan and John Hancock Life Insurance Company (U.S.A) is the custodian of the Plan responsible for the management and control of the Plan's assets which are held in individual participant investment accounts.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) employer matching and discretionary profit sharing contributions and (b) Plan earnings (losses) and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Employee contributions

Participants may elect to contribute up to the maximum amount allowed for deferral under the IRC. The amount deferred is not subject to federal taxation to the participants until distributions are made from the Plan. Participants who have attained age fifty (50) or older before the end of the tax year are eligible to make catch-up contributions up to the maximum amount allowed for deferral under the IRC. Participants may discontinue their election to contribute at any time. Transfers from qualified plans are allowed under the provisions of the Plan. Additional after-tax voluntary contributions are allowed.

Employer contributions

The Company contributes an amount per pay period equal to a specified percentage of the participant's contribution. During 2010, the Company contributed 50% of the first 6% of base compensation that a participant contributes to the Plan.

Additionally, each Plan year the Company may make discretionary profit sharing contributions in amounts determined by the Company, as defined in the Plan document. Eligible participants who are employed on the

last day of the Plan year share in any discretionary profit sharing contributions. Profit sharing contributions are allocated to eligible participants based upon the percentage of the participant's compensation to the total compensation of all eligible participants. No discretionary profit sharing contributions were made during the year ended December 31, 2010.

ERISA and the IRC provide that plans such as Trafigura AG 401(k) Savings Plan cannot discriminate in favor of highly compensated individuals. To comply with these laws, certain highly compensated individuals may receive funds in the year that contributions were made in excess of the IRC Section 401(k) limit and all earnings attributable to such contributions. At December 31, 2010, there were no corrective distributions payable to participants.

Rollovers

Rollovers represent funds transferred to the Plan from other qualified plans. Participants may roll over certain qualifying funds into the Plan in accordance with the Plan document.

Investment Options

Participants elect to have their contributions allocated among various investment options offered by the Plan. Investment options consist of guaranteed interest accounts and pooled separate accounts sponsored by John Hancock Life Insurance Company (U.S.A) (the "Custodian") which range from conservative income funds and stable asset funds to international mutual funds. Participants may redirect the investment of future contributions or exchange existing balances among available investment options on the first day of the Plan quarter and such changes are subject to the restrictions made by the Company.

Vesting

Participants are fully vested in their employee contributions plus actual earnings (losses) thereon. Vesting in the Company contributions and earnings thereon is based on years of service and is determined as follows:

Years of Service:	Percentage
Less than 2	0%
2	100%

Forfeited accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts are retained in the Plan and will be used to reduce future employer contributions to the Plan. Forfeited non-vested accounts amounted to $2,990 at December 31, 2010. During 2010, the Company applied $17,447 from the forfeiture balance to reduce employer matching contributions.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50% of their account balance, whichever is less, for proven financial hardship purposes. No more than two loans can be outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25% which is consistent with local prevailing rates at the time the loans were initiated. Principal and interest is paid ratably through payroll deductions. All loans must be repaid within five years, unless the loan is used to purchase a primary residence, for which loan terms may range up to ten years.

Payment of Benefits

On termination of employment, disability, death, or normal retirement, a participant or designated beneficiary may elect to receive a lump sum cash distribution equal to the value of the participant's vested account balance, a direct rollover distribution, or a combination of a cash distribution and direct rollover distribution. If withdrawing participants are not entitled to their entire account balance, the amounts not received are forfeited. Participants may defer receipt of distribution until a later date unless their account balance is $5,000 or less. If the vested account balance is $5,000 or less, the account will be distributed to the participant without consent as a lump sum distribution in cash.

If an active participant has attained age fifty-nine and one-half (59½), they may elect to withdraw all or a portion of their elective deferral account while still employed by the Company. Hardship distributions are not permitted.

Administrative Expenses

The Plan permits the payment of expenses incurred in connection with the administration of the Plan to be made from the Plan's assets. Expenses will generally be allocated among the accounts of all participants in the plan proportionately based on the value of the participant's account balances. Specific fees may also be charged directly to a participant's account in response to transactions requested under the Plan. Administrative expenses totaled $11,490 for the year ended December 31, 2010.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting and include all adjustments necessary to present fairly the financial statements of the Plan in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Accordingly, actual results may differ from those estimates.

Cash and cash equivalents

The Company considers all highly liquid investments purchased with maturity dates of three months or less to be cash equivalents.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, to converge the fair value measurement guidance in US generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011- 04 will have on the Plan's financial statements.

In September 2010, the FASB issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, the adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Contributions

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the plan administrator and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment valuation and income recognition

Investments are reported at fair value and are measured in accordance with ASC 820. Fair value is the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in value of investments includes realized gains and losses on investments bought and sold during the year and unrealized appreciation (depreciation) of investments held at year-end. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits paid to participants are recorded when paid. As of December 31, 2010, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan Document.

Risks and uncertainties

The Plan provides for various investment options in mutual funds and guaranteed interest accounts. Investments, in general, are exposed to various risks, such as interest rate, credit and overall volatility risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note C - Information Certified by the Custodian (Unaudited) or Investments

At December 31, 2010, the Plan's investments were held by John Hancock Life Insurance Company (U.S.A) ("the Custodian") in a non-interest bearing cash account pending transfer to successor Custodian (Note I) on January 1, 2011. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2010 that represent 5% or more of the Plan's net assets, as reported by the Trustee is summarized as follows:

		12/31/2010
Cash and cash equivalents	$	5,816,452
	$	**5,816,452**

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $718,752 as follows:

		12/31/2010
Money market fund	$	1,247
Bond/Income funds		115,880
Balanced funds		44,349
Equity funds		411,707
International funds		65,088
Specialty funds		29,450
Index funds		51,090
Guaranteed interest accounts		(59)
	$	**718,752**

Note D – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

Cash and cash equivalents: Valued at carrying value which approximates fair value and are therefore classified within Level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E – Related party transactions

Certain Plan assets are in investment funds managed by John Hancock Life Insurance Company (U.S.A) ("John Hancock"). John Hancock is the custodian of the Plan assets; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Any purchases and sales of these investments are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. Fees paid by the Plan to the custodian for administrative fees amounted to $11,270 for the year ended December 31, 2010

The Plan has notes receivables from certain of its participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

Note F - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the employer contributions allocated to their accounts.

Note G - Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated September 21, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

Note H – Nonexempt Transactions

Department of Labor ("DOL") Regulation 2510.3-102 requires employers to remit amounts paid by a participant or beneficiary to an employer and/or withheld by an employer for contribution to a 401(k) plan as soon as they can be reasonably segregated from the employer's general assets. The Plan sponsor has demonstrated that the funds remitted by the employees can be reasonably segregated and remitted to the Plan within three days. Any remittances to the plan greater than three days are considered prohibited transactions and in violation of the provisions of ERISA and the Internal Revenue Code.

As reported on Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain participant contributions were not remitted to the Plan within the time frame specified by the Department of Labor's ("DOL") Regulation 29 CFR 2510.3-102, thus constituting nonexempt transactions between the Plan and the Company during the 2010 Plan year. Late remittances amount to $237,121. The Company is currently is process of making appropriate filings in accordance with the DOL's Voluntary Fiduciary Corrective Program and estimating the amount of corrective payments due to the plan and believes the amount will be immaterial. Costs incurred for penalties and interest will be borne by the sponsor of the Plan.

The Plan Sponsor believes that with the completion of these corrections, the Plan will continue to be in compliance with applicable requirements of the Code.

Note I – Subsequent Events

For the year-ended December 31, 2010, the Company has evaluated subsequent events and transactions for potential recognition and disclosure through October 13, 2011, the date the financial statements were available to be issued.

Effective January 1, 2011, Fidelity Management Trust Company ("Fidelity") was selected to be the Custodian of the Plan replacing John Hancock Life Insurance Company (U.S.A). The change in trustees resulted in new investments options for participant contributions. The plan was amended and restated on January 1, 2011 to include the following:

- The restated Plan converted from the Professional Pension Planners Inc. Non-standardized Prototype Plan and Adoption Agreements to the Fidelity Volume Submitter Plan and its Adoption Agreement.
- No service requirement for eligibility
- Deferral limit has been established as 92%
- The Plan was amended effective January 1, 2011 to adopt a provision that would allow eligible participants to designate all or a portion of their elective deferrals as Roth Elective Deferrals
- The Plan includes a negative election option. Under this provision, employees hired after January 1, 2011 are automatically enrolled in the Plan at 3% of their eligible compensation unless a contrary election is made. This automatic deferral is subject to increase in 1% increments limited to 6% of compensation unless the eligible employee affirmatively elects otherwise.

- Contribution period for matching employer contributions is each Plan year, at the Company's discretion.
- The Plan was amended to reflect statutory changes pursuant to the Pension Protection Act of 2006 ("PPA") and related guidance. The amendment is effective for Plan years beginning after December 31, 2006.
- The Plan was amended to reflect statutory changes pursuant to the Heroes Earnings Assistance and Relief Act of 2008 ("HEART"), the Worker, Retiree and Employee Recovery Act of 2008 ("WRERA"), the Emergency Economic Stabilization Act of 2008 ("EESA") and related guidance. The amendment is effective for Plan years beginning after December 31, 2008.
- A separate election has been established for bonus inclusion.
- At age 59 ½, withdrawals may be made from all vested account balances

Notes to the Financial Statements
Trafigura AG 401(k) Savings Plan

Note A – Description of the plan

The following brief description of the Trafigura AG 401(k) Savings Plan ("the Plan") is provided for general information purposes only. The Plan is sponsored by Trafigura AG (the "Plan Sponsor" or "Company"). Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a contributory, defined contribution 401(k) that provides retirement savings benefits to eligible employees of the Company through tax deferred voluntary contributions by employees and discretionary contributions by the Company. Employees are eligible to make elective deferral contributions and receive employer matching contributions in the Plan after the attainment of the age of twenty-one (21) years and the completion of one month (1) of service and to receive non-elective contributions after the attainment of the age of twenty-one (21) and completion of six (6) months of eligible service. An employee's entry date is on the date of satisfaction of the eligibility requirements.

The Plan, which commenced January 1, 1996 and was amended and restated effective January 1, 2010, is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA") and the Internal Revenue Code ("IRC"). The Company is the designated administrator of the Plan and John Hancock Life Insurance Company (U.S.A) is the custodian of the Plan responsible for the management and control of the Plan's assets which are held in individual participant investment accounts.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) employer matching and discretionary profit sharing contributions and (b) Plan earnings (losses) and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Employee contributions

Participants may elect to contribute up to the maximum amount allowed for deferral under the IRC. The amount deferred is not subject to federal taxation to the participants until distributions are made from the Plan. Participants who have attained age fifty (50) or older before the end of the tax year are eligible to make catch-up contributions up to the maximum amount allowed for deferral under the IRC. Participants may discontinue their election to contribute at any time. Transfers from qualified plans are allowed under the provisions of the Plan. Additional after-tax voluntary contributions are allowed.

Employer contributions

The Company contributes an amount per pay period equal to a specified percentage of the participant's contribution. During 2010, the Company contributed 50% of the first 6% of base compensation that a participant contributes to the Plan.

Additionally, each Plan year the Company may make discretionary profit sharing contributions in amounts determined by the Company, as defined in the Plan document. Eligible participants who are employed on the

last day of the Plan year share in any discretionary profit sharing contributions. Profit sharing contributions are allocated to eligible participants based upon the percentage of the participant's compensation to the total compensation of all eligible participants. No discretionary profit sharing contributions were made during the year ended December 31, 2010.

ERISA and the IRC provide that plans such as Trafigura AG 401(k) Savings Plan cannot discriminate in favor of highly compensated individuals. To comply with these laws, certain highly compensated individuals may receive funds in the year that contributions were made in excess of the IRC Section 401(k) limit and all earnings attributable to such contributions. At December 31, 2010, there were no corrective distributions payable to participants.

Rollovers

Rollovers represent funds transferred to the Plan from other qualified plans. Participants may roll over certain qualifying funds into the Plan in accordance with the Plan document.

Investment Options

Participants elect to have their contributions allocated among various investment options offered by the Plan. Investment options consist of guaranteed interest accounts and pooled separate accounts sponsored by John Hancock Life Insurance Company (U.S.A) (the "Custodian") which range from conservative income funds and stable asset funds to international mutual funds. Participants may redirect the investment of future contributions or exchange existing balances among available investment options on the first day of the Plan quarter and such changes are subject to the restrictions made by the Company.

Vesting

Participants are fully vested in their employee contributions plus actual earnings (losses) thereon. Vesting in the Company contributions and earnings thereon is based on years of service and is determined as follows:

Years of Service:	Percentage
Less than 2	0%
2	100%

Forfeited accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts are retained in the Plan and will be used to reduce future employer contributions to the Plan. Forfeited non-vested accounts amounted to $2,990 at December 31, 2010. During 2010, the Company applied $17,447 from the forfeiture balance to reduce employer matching contributions.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50% of their account balance, whichever is less, for proven financial hardship purposes. No more than two loans can be outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25% which is consistent with local prevailing rates at the time the loans were initiated. Principal and interest is paid ratably through payroll deductions. All loans must be repaid within five years, unless the loan is used to purchase a primary residence, for which loan terms may range up to ten years.

Payment of Benefits

On termination of employment, disability, death, or normal retirement, a participant or designated beneficiary may elect to receive a lump sum cash distribution equal to the value of the participant's vested account balance, a direct rollover distribution, or a combination of a cash distribution and direct rollover distribution. If withdrawing participants are not entitled to their entire account balance, the amounts not received are forfeited. Participants may defer receipt of distribution until a later date unless their account balance is $5,000 or less. If the vested account balance is $5,000 or less, the account will be distributed to the participant without consent as a lump sum distribution in cash.

If an active participant has attained age fifty-nine and one-half (59½), they may elect to withdraw all or a portion of their elective deferral account while still employed by the Company. Hardship distributions are not permitted.

Administrative Expenses

The Plan permits the payment of expenses incurred in connection with the administration of the Plan to be made from the Plan's assets. Expenses will generally be allocated among the accounts of all participants in the plan proportionately based on the value of the participant's account balances. Specific fees may also be charged directly to a participant's account in response to transactions requested under the Plan. Administrative expenses totaled $11,490 for the year ended December 31, 2010.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting and include all adjustments necessary to present fairly the financial statements of the Plan in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying disclosures. Accordingly, actual results may differ from those estimates.

Cash and cash equivalents

The Company considers all highly liquid investments purchased with maturity dates of three months or less to be cash equivalents.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*, (ASU 2011-04). ASU 2011-04 amended ASC 820, to converge the fair value measurement guidance in US generally accepted accounting principles and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011- 04 will have on the Plan's financial statements.

In September 2010, the FASB issued Accounting Standards Update 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, (ASU 2010-25). ASU 2010-25 requires participant loans to be measured at their unpaid principal balance plus any accrued but unpaid interest and classified as notes receivable from participants. Previously, loans were measured at fair value and classified as investments. ASU 2010-25 is effective for fiscal years ending after December 15, 2010 and is required to be applied retrospectively. Adoption of ASU 2010-25 did not change the value of participant loans from the amount previously reported as of December 31, 2009. Participant loans have been reclassified to notes receivable from participants as of December 31, 2009.

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC 820) to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, the adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Contributions

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the plan administrator and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment valuation and income recognition

Investments are reported at fair value and are measured in accordance with ASC 820. Fair value is the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in value of investments includes realized gains and losses on investments bought and sold during the year and unrealized appreciation (depreciation) of investments held at year-end. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits paid to participants are recorded when paid. As of December 31, 2010, there were no amounts allocated to participants who elected to withdraw from the Plan, but have not been paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan Document.

Risks and uncertainties

The Plan provides for various investment options in mutual funds and guaranteed interest accounts. Investments, in general, are exposed to various risks, such as interest rate, credit and overall volatility risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note D – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies.

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

Cash and cash equivalents: Valued at carrying value which approximates fair value and are therefore classified within Level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E – Related party transactions

Certain Plan assets are in investment funds managed by John Hancock Life Insurance Company (U.S.A) ("John Hancock"). John Hancock is the custodian of the Plan assets; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Any purchases and sales of these investments are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. Fees paid by the Plan to the custodian for administrative fees amounted to $11,270 for the year ended December 31, 2010

The Plan has notes receivables from certain of its participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

Note F - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the employer contributions allocated to their accounts.

Note G - Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated September 21, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

Note H – Nonexempt Transactions

Department of Labor ("DOL") Regulation 2510.3-102 requires employers to remit amounts paid by a participant or beneficiary to an employer and/or withheld by an employer for contribution to a 401(k) plan as soon as they can be reasonably segregated from the employer's general assets. The Plan sponsor has demonstrated that the funds remitted by the employees can be reasonably segregated and remitted to the Plan within three days. Any remittances to the plan greater than three days are considered prohibited transactions and in violation of the provisions of ERISA and the Internal Revenue Code.

As reported on Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain participant contributions were not remitted to the Plan within the time frame specified by the Department of Labor's ("DOL") Regulation 29 CFR 2510.3-102, thus constituting nonexempt transactions between the Plan and the Company during the 2010 Plan year. Late remittances amount to $237,121. The Company is currently is process of making appropriate filings in accordance with the DOL's Voluntary Fiduciary Corrective Program and estimating the amount of corrective payments due to the plan and believes the amount will be immaterial. Costs incurred for penalties and interest will be borne by the sponsor of the Plan.

The Plan Sponsor believes that with the completion of these corrections, the Plan will continue to be in compliance with applicable requirements of the Code.
