Note 1. Plan Description

The following description of The Darwill Press, Inc. (the Company) Profit Sharing and Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of the Company who have attained 19 years of age and have completed three months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to 60 percent of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Effective September 1, 2009, eligible participants are automatically enrolled in the Plan with a 3 percent deferral amount, unless they elect differently. The Company may make a discretionary matching contribution to the Plan equal to a percentage of the elective contributions made by the participants to the Plan. The Company may also make a discretionary profit sharing contribution to the Plan at the end of the plan year. Contributions are subject to certain limitations. There were no Company contributions for the year ended December 31, 2010.

Participant accounts: Each participant's account is credited with the participant's contribution and Company matching contributions and receives allocations of the Company's discretionary profit sharing contribution, Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Company discretionary matching contributions are immediately vested at 100 percent. Company discretionary profit sharing contributions vest at 100 percent after three years of credited service. In the event of death, disability, or retirement at designated ages as defined, participants become fully vested.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. Loan terms are up to five years, unless the loan is for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1 percent. This ranges from 4.25 percent to 8.25 percent at December 31, 2010. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly, quarterly, semiannual or annual installments over a period not to exceed the participant's assumed life expectancy.

Forfeited accounts: At December 31, 2010 and 2009, forfeited nonvested accounts totaled $916 and $890, respectively. These accounts may be used to pay plan expenses, and then reduce future Company discretionary contributions. No forfeitures were used to pay plan expenses or reduce Company discretionary contributions during 2010.

Investment options: Upon enrollment in the Plan, participants are allowed to invest in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through shares of common/collective trust. The Statements of Net Assets Available for Benefits presents the fair value of the shares of common/collective trust as well as the adjustment of the fully benefit-responsive common/collective trust from fair value to contract value relating to the underlying investment contracts held by the common/collective trust. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits: Benefits are recorded when paid.

New accounting pronouncements: In January 2010, the Financial Accounting Standards Board (FASB) issued an amendment, *Fair Value Measurements and Disclosures (Topic 820) - Improving Disclosures about Fair Value Measurement*s, which requires new disclosures and reasons for transfers of financial assets and liabilities between Levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. With respect to matters other than Level 3 measurements, the amendment was effective for periods beginning after December 15, 2009. The guidance related to Level 3 measurements is effective for periods beginning after December 15, 2010. Management is currently evaluating the impact of the guidance related to disclosures in the financial statements.

Note 2. Significant Accounting Policies (Continued)

In September 2010, the FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended December 31, 2010, and retrospectively applied to December 31, 2009. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $171,397 and $142,712 from investments to notes receivable as of December 31, 2010 and 2009, respectively. There was no impact to the net assets as of December 31, 2010 and 2009, as a result of the adoption.

Pending accounting pronouncement: In May 2011, the FASB issued Accounting Standards Update (ASU) 2011-04, *Amendment to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures,* to converge the fair value measurement guidance in Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual reporting periods beginning after December 15, 2011. Management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statement disclosures.

Note 3. Information Certified and Provided by Wilmington Trust Retirement and Institutional Services Company

The following is a summary of the Plan's asset information as of December 31, 2010 and 2009, and for the year ended December 31, 2010, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by Wilmington Trust Retirement and Institutional Services Company (Wilmington Trust), the trustee, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Wilmington Trust that information provided to the Plan Administrator by Wilmington Trust related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

Note 4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009:

Shares of registered investment companies: Valued at the net asset value of the fund which represents the net asset value of the shares held by the Plan at year-end.

Note 4. Fair Value Measurements (Continued)

Shares of common/collective trust: Valued at the total based on information reported by the investment advisor using the audited financial statements of the common/collective trust at year-end.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2010 and 2009:

Note 4. Fair Value Measurements (Continued)

The following table sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2010 and 2009:

Investment	Fair Value 2010	Fair Value 2009	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common/Collective Trust:

	$ 1,250,431	$ 1,323,644	$ -		

(b) This trust invests solely in the MetLife Group Annuity Contract No. 25554. This investment seeks to provide return of principal and interest for participant-initiated withdrawals. The investment is backed by investments in MetLife Separate accounts. The fair value of investments in this category has been estimated using the net asset value per share of the investment.

(c) This trust includes synthetic investment contracts, traditional investment contracts and cash investments. Investments in this category can be redeemed immediately by participants, and in 60 days following advance written notification at the Plan level. The fair value of investments in this category has been estimated using the net asset value per share of the investment.

Note 5. Investments

The fair value of investments that represent 5 percent or more of the Plan's net assets at December 31, 2010 and 2009, are as follows:

	2010	2009
Shares of registered investment companies:		
American Funds Growth Fund	$ 1,834,245	$ 1,880,090
American Funds Capital World Fund	*	657,988

MetLife Stable Value, at fair value	-	1,323,644
MetLife Stable Value, at contract value	-	1,315,751

* Less than 5 percent of the Plan's net assets at the respective year-end.

Note 5. Investments (Continued)

During 2010, the Plan's investments in shares of registered investment companies (including investments bought, sold and held during the year) appreciated in value by $1,225,971 and shares of common/collective trust appreciated in value by $6,417.

Note 6. Related Party Transactions

Certain Plan investments are shares of a common/collective trust managed by Wilmington Trust Retirement and Institutional Services Company. Wilmington Trust Retirement and Institutional Services Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Furthermore, the trustee provides administration services to the Plan. Wilmington Trust Retirement and Institutional Company received fees of $29,345, for the year ended December 31, 2010.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their Company contributions.

Note 8. Tax Status

Effective January 1, 2002, the Plan adopted a non-standardized form of a prototype plan sponsored by Milliman USA, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Subsequent Events

The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 17, 2011, the date the financial statements were available to be issued.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for the financial statements at December 31, 2010 and 2009 to form 5500:
