Independent Auditors' Report

The Plan Administrator
GES Retirement Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of GES Retirement Plan as of December 31, 2010, and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held At End of Year), as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 8, which was certified by The New York Life Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of the Plan

The following description of the GES Retirement Plan (formerly the GE Security, Inc. 401(k) Plan) (the Plan), a defined contribution plan, sponsored by UTC Fire & Security Americas Corporation Inc. (formerly GE Security, Inc.) (the Company or Employer or Plan administrator), is provided for general information purposes only. The Plan is subject to applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Any employee of the Company who has attained the required ERISA age is eligible to participate in the Plan on the first day of the month after the employee's three-month anniversary. The Plan is administered by the Company and advised by a committee whose members are appointed by the Board of Directors of the Company (the Plan Committee). The Company has entered into an agreement with New York Life Trust Company (the Trustee) who acts as the trustee and record keeper of the Plan's assets. Participants should refer to the Plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

(a) Contributions

Each year, participants may elect to contribute pretax annual compensation, as defined by the Plan. For nonhighly compensated employees, contributions are limited to an aggregate of 50% of the participant's pretax annual compensation. Highly compensated employees are limited in their contributions to an aggregate of 20% of the participant's pretax annual compensation. The total amount of participant pretax contribution is limited to \$16,500 for 2010 and 2009. Participants may also contribute amounts representing distributions from other qualified plans or individual retirement accounts (IRAs) into the Plan, as specified in the plan document.

Matching contributions by the Company for the benefit of participants are discretionary. For 2010 and 2009, Company matching contributions were equal to 50% of each participant's contributions, up to 6% of eligible compensation. The Company also has the option to make a discretionary profit-sharing contribution to the Plan, which is allocated to participants based on the participants' relative compensation as defined by the Plan. During 2010 and 2009, the Company did not make a discretionary profit-sharing contribution to the Plan.

Participants who are age 50 or older before the close of the plan year may elect to make a catch-up contribution, subject to certain limitations under the Internal Revenue Code (IRC) (\$5,500 per participant in 2010 and 2009). The Company does not match employee catch-up contributions.

(b) Participant Accounts

Participants direct the investment of their contributions among several mutual funds, a pooled separate account, and General Electric Company (GE) common stock. The allocation of a participant's contributions to these investment funds is selected by the participant and may be changed daily. Each participant's account is credited with the participant's contributions, a share of Company matching and discretionary profit-sharing contributions, and the Plan's earnings or losses, net of administrative expenses. Allocation of investment income or losses is based on the value of the participant's account at the close of each day.

Notes to Financial Statements

December 31, 2010 and 2009

(c) Vesting

Participants are vested immediately in their contributions, Company contributions and related net investment earnings. Forfeitures of nonvested Company employer matching contributions are used to reduce future Company contributions. During 2010 and 2009, forfeitures totaling approximately \$0 and \$14,500, respectively, were used to reduce employer contributions. At December 31, 2010 and 2009, forfeitures totaling approximately \$3,800 and \$600, respectively, were available to reduce future contributions.

(d) Notes Receivable from Participants

A participant may borrow from his or her account a minimum of \$500 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period or 50% of the participant's vested account balance. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates as determined by the Plan administrator. Interest rates range from 4.25% to 10.5% on loans outstanding at December 31, 2010. Principal and interest is paid ratably through biweekly payroll deductions. Loan administration charges are charged to the participant's account electing the loan.

(e) Payments of Benefits

Distributions to participants may be made upon death, retirement or termination of employment. Participants may elect payment in a lump sum or in the form of an annuity or in-kind distribution of GE common stock as described in the Plan document. Distributions are also permitted for reasons of proven financial hardship as outlined in the Plan document. Participant benefit payments may be subject to federal income tax.

(f) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become or remain 100% vested in their accounts.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

Investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date.

As described in ASC 962-325-35-5, *Investments and Insurance Contracts*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through a pooled separate account, the New York Life Anchor Account III (Anchor Account III) at December 31, 2010 and 2009. The statements of net assets available for benefits presents the fair value of the investment in the pooled separate account as well as the adjustment of the investment in the pooled separate account from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits is prepared on a contract value basis. The fair value of the fully benefit-responsive investment contracts are calculated using a discounting method developed by the trustee. The fair value and contract value of the Anchor Account III was \$28,113,549 and \$28,437,743, respectively, at December 31, 2010. The fair value and contract value of the Anchor Account III was \$25,098,410 and \$26,363,876, respectively, at December 31, 2009. The average yield for 2010 and 2009 was 2.67% and 3.34%, respectively. For the years ended December 31, 2010 and 2009, the crediting interest rate to participants in the Plan was 2.64% and 3.18%, respectively. There were no valuation reserves recorded that were associated with the pooled separate account in 2010 and 2009. Interest is credited daily to the account and is guaranteed to be not less than 0% before any deduction for expenses. Note that all investments are reported at fair value.

On December 31, 2000, the Plan received benefit-responsive investments in guaranteed insurance contracts in conjunction with the merger of the Interactive Technologies, Inc. 401(k) Investment Plan (the ITI Plan merger). The contracts are included in the financial statements at contract value as reported to the Plan. Contract value represents contributions made under the contracts, plus interest accrued at the current rate, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract value of the guaranteed insurance contracts for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates was 4.0% in 2010 and 2009. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than a specified rate, which was 4.0% as of December 31, 2010 and 2009. Such interest rates are reviewed on an annual basis for resetting. The fair values of these contracts as of December 31, 2010 and 2009 equaled the contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan) (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (c) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(c) Net Appreciation in Fair Value of Investments

Net appreciation in fair value of investments included in the statements of changes in net assets available for benefits consists of realized gains or losses on investments sold and the unrealized appreciation (depreciation) on investments held at the end of the year.

(d) Plan Expenses

The Company pays all Plan administrative expenses other than loan administration charges and commissions and fees on transactions involving GE common stock. Loan administration charges and common stock commissions and fees are charged to the participant's account electing the loan or common stock transaction.

(e) Payment of Benefits

Benefit payments are recorded when paid.

(f) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

(g) Risks and Uncertainties

The Plan invests in a variety of investments. Investment securities are exposed to various risks including, but not limited to, interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term.

The Plan invests in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(h) Notes Receivable from Participants

Notes receivable from participants are carried at their unpaid principal balance plus accrued interest.

(i) Recent Accounting Pronouncements

In September 2010, the FASB issued Accounting Standards Update (ASU) No. 2010 - 25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962), Reporting Loans to Participants by Defined Contribution Pension Plans, a Consensus of the FASB Emerging Issues Task Force (Update)*. This Update requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments in the Update are to be applied

retrospectively to all prior periods presented, effective for fiscal years ending after December 15, 2010. The Plan has reclassified participant loans from investments to notes receivable from participants for financial statement presentation. The Form 5500 will continue to present notes receivable from participants as an investment.

(3) Investments

The following tables present investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009.

During 2010 and 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

	<u>2010</u>	<u>2009</u>
General Electric Company common stock	\$ 2,277,425	1,185,070
Mutual funds	11,984,881	20,480,863

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Quoted prices for identical investments in active markets.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

Level 2 – Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.

Level 3 – Significant inputs to the valuation model are unobservable.

The Company maintains policies and procedures to value investments using the best and most relevant data available. The following section describes the valuation methodologies used to measure investments at fair value.

When available, quoted market prices are used to determine the fair value of investment securities, and they are included in Level 1. Level 1 securities primarily include the GE common stock, the money market fund and mutual funds.

When quoted market prices are unobservable, quotes from independent pricing vendors are utilized based on recent trading activity and other relevant information including market interest rate curves, referenced credit spreads and estimated prepayment rates where applicable. These investments are included in Level 2. In infrequent circumstances, our valuations may be based on significant unobservable inputs, and in those circumstances the investment securities are classified in Level 3.

The Plan's ownership in the pooled separate account is carried at fair value based on the investment's net asset value per unit and is included in Level 2.

Guaranteed investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see note 2(b)) and are included in Level 2.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

<u>2010</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

(5) Concentration of Investments

The Plan's investment in GE common stock represents approximately 7% and 8%, of total investments as of December 31, 2010 and 2009. GE is a diversified technology, media, and financial services company, with products and services ranging from aircraft engines, power generation, water processing and security technology to medical imaging, business and consumer financing, media content and advanced materials. GE serves customers in more than 100 countries.

(6) Tax Status

The Internal Revenue Service has determined and informed the Plan administrator by a letter dated September 24, 2002 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC and the related trust was tax exempt as of December 31, 2010 and 2009. In 2010, the Plan Sponsor discovered that the Plan was late in filing certain required amendments. To correct, the Plan Sponsor filed under the Voluntary Correction Program (VCP), as a late amender.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Notes to Financial Statements

December 31, 2010 and 2009

(7) Party-in-Interest Transactions

The Plan engages in investment transactions with funds managed by the Trustee, a party-in-interest with respect to the Plan. The Plan also has investments in GE common stock. The Company is the Plan administrator; therefore, these transactions are party-in-interest transactions. These transactions are covered by an exemption from the “prohibited transaction” provisions of ERISA and IRC.

(8) Information Certified by Trustee

The New York Life Trust Company, the Trustee, has certified that the following information included in the financial statements and supplemental schedule as of and for the years ended December 31, 2010 and 2009 is complete and accurate:

- Investments, at fair value, excluding New York Life Insurance Anchor Account III, at fair value
- Notes receivable from participants
- New York Life Insurance Anchor Account III, at contract value
- Investment income
- Investments, note 3
- Fair value measurements, excluding New York Life Insurance Anchor Account III, at fair value
- Schedule of assets (held at end of year)

(9) Plan Merger

The Pension Administration Committee approved a merger of the Plan into the UTC Employee Savings Plan on September 20, 2010. The merger was announced in November of 2010 and the Plan assets were merged during the week of March 14, 2011. Effective January 1, 2011 GE Security employees became eligible to participate in UTC Choice Health and Welfare benefits as well as the standard UTC employee matching contribution for the UTC Employee Savings Plan, but will not be eligible to participate in the Company Automatic Feature.

Participants invested in the New York Life Insurance Anchor Account III will remain invested in the Stable Value Option at the UTC Employee Savings Plan for which no new contributions to this investment will be made available. During the year following the merger balances in the Stable Value Option will be liquidated.

(10) Subsequent Events

The plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued.

Independent Auditors' Report

The Plan Administrator
GES Retirement Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of GES Retirement Plan as of December 31, 2010, and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held At End of Year), as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 8, which was certified by The New York Life Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of the Plan

The following description of the GES Retirement Plan (formerly the GE Security, Inc. 401(k) Plan) (the Plan), a defined contribution plan, sponsored by UTC Fire & Security Americas Corporation Inc. (formerly GE Security, Inc.) (the Company or Employer or Plan administrator), is provided for general information purposes only. The Plan is subject to applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Any employee of the Company who has attained the required ERISA age is eligible to participate in the Plan on the first day of the month after the employee's three-month anniversary. The Plan is administered by the Company and advised by a committee whose members are appointed by the Board of Directors of the Company (the Plan Committee). The Company has entered into an agreement with New York Life Trust Company (the Trustee) who acts as the trustee and record keeper of the Plan's assets. Participants should refer to the Plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

(a) Contributions

Each year, participants may elect to contribute pretax annual compensation, as defined by the Plan. For nonhighly compensated employees, contributions are limited to an aggregate of 50% of the participant's pretax annual compensation. Highly compensated employees are limited in their contributions to an aggregate of 20% of the participant's pretax annual compensation. The total amount of participant pretax contribution is limited to \$16,500 for 2010 and 2009. Participants may also contribute amounts representing distributions from other qualified plans or individual retirement accounts (IRAs) into the Plan, as specified in the plan document.

Matching contributions by the Company for the benefit of participants are discretionary. For 2010 and 2009, Company matching contributions were equal to 50% of each participant's contributions, up to 6% of eligible compensation. The Company also has the option to make a discretionary profit-sharing contribution to the Plan, which is allocated to participants based on the participants' relative compensation as defined by the Plan. During 2010 and 2009, the Company did not make a discretionary profit-sharing contribution to the Plan.

Participants who are age 50 or older before the close of the plan year may elect to make a catch-up contribution, subject to certain limitations under the Internal Revenue Code (IRC) (\$5,500 per participant in 2010 and 2009). The Company does not match employee catch-up contributions.

(b) Participant Accounts

Participants direct the investment of their contributions among several mutual funds, a pooled separate account, and General Electric Company (GE) common stock. The allocation of a participant's contributions to these investment funds is selected by the participant and may be changed daily. Each participant's account is credited with the participant's contributions, a share of Company matching and discretionary profit-sharing contributions, and the Plan's earnings or losses, net of administrative expenses. Allocation of investment income or losses is based on the value of the participant's account at the close of each day.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(c) Vesting

Participants are vested immediately in their contributions, Company contributions and related net investment earnings. Forfeitures of nonvested Company employer matching contributions are used to reduce future Company contributions. During 2010 and 2009, forfeitures totaling approximately \$0 and \$14,500, respectively, were used to reduce employer contributions. At December 31, 2010 and 2009, forfeitures totaling approximately \$3,800 and \$600, respectively, were available to reduce future contributions.

(d) Notes Receivable from Participants

A participant may borrow from his or her account a minimum of \$500 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period or 50% of the participant's vested account balance. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates as determined by the Plan administrator. Interest rates range from 4.25% to 10.5% on loans outstanding at December 31, 2010. Principal and interest is paid ratably through biweekly payroll deductions. Loan administration charges are charged to the participant's account electing the loan.

(e) Payments of Benefits

Distributions to participants may be made upon death, retirement or termination of employment. Participants may elect payment in a lump sum or in the form of an annuity or in-kind distribution of GE common stock as described in the Plan document. Distributions are also permitted for reasons of proven financial hardship as outlined in the Plan document. Participant benefit payments may be subject to federal income tax.

(f) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become or remain 100% vested in their accounts.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

Investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date.

As described in ASC 962-325-35-5, *Investments and Insurance Contracts*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through a pooled separate account, the New York Life Anchor Account III (Anchor Account III) at December 31, 2010 and 2009. The statements of net assets available for benefits presents the fair value of the investment in the pooled separate account as well as the adjustment of the investment in the pooled separate account from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits is prepared on a contract value basis. The fair value of the fully benefit-responsive investment contracts are calculated using a discounting method developed by the trustee. The fair value and contract value of the Anchor Account III was \$28,113,549 and \$28,437,743, respectively, at December 31, 2010. The fair value and contract value of the Anchor Account III was \$25,098,410 and \$26,363,876, respectively, at December 31, 2009. The average yield for 2010 and 2009 was 2.67% and 3.34%, respectively. For the years ended December 31, 2010 and 2009, the crediting interest rate to participants in the Plan was 2.64% and 3.18%, respectively. There were no valuation reserves recorded that were associated with the pooled separate account in 2010 and 2009. Interest is credited daily to the account and is guaranteed to be not less than 0% before any deduction for expenses. Note that all investments are reported at fair value.

On December 31, 2000, the Plan received benefit-responsive investments in guaranteed insurance contracts in conjunction with the merger of the Interactive Technologies, Inc. 401(k) Investment Plan (the ITI Plan merger). The contracts are included in the financial statements at contract value as reported to the Plan. Contract value represents contributions made under the contracts, plus interest accrued at the current rate, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract value of the guaranteed insurance contracts for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates was 4.0% in 2010 and 2009. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than a specified rate, which was 4.0% as of December 31, 2010 and 2009. Such interest rates are reviewed on an annual basis for resetting. The fair values of these contracts as of December 31, 2010 and 2009 equaled the contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan) (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (c) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(c) Net Appreciation in Fair Value of Investments

Net appreciation in fair value of investments included in the statements of changes in net assets available for benefits consists of realized gains or losses on investments sold and the unrealized appreciation (depreciation) on investments held at the end of the year.

(d) Plan Expenses

The Company pays all Plan administrative expenses other than loan administration charges and commissions and fees on transactions involving GE common stock. Loan administration charges and common stock commissions and fees are charged to the participant's account electing the loan or common stock transaction.

(e) Payment of Benefits

Benefit payments are recorded when paid.

(f) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

(g) Risks and Uncertainties

The Plan invests in a variety of investments. Investment securities are exposed to various risks including, but not limited to, interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term.

The Plan invests in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(h) Notes Receivable from Participants

Notes receivable from participants are carried at their unpaid principal balance plus accrued interest.

(i) Recent Accounting Pronouncements

In September 2010, the FASB issued Accounting Standards Update (ASU) No. 2010 - 25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962), Reporting Loans to Participants by Defined Contribution Pension Plans, a Consensus of the FASB Emerging Issues Task Force (Update)*. This Update requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments in the Update are to be applied

retrospectively to all prior periods presented, effective for fiscal years ending after December 15, 2010. The Plan has reclassified participant loans from investments to notes receivable from participants for financial statement presentation. The Form 5500 will continue to present notes receivable from participants as an investment.

(3) Investments

The following tables present investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009.

During 2010 and 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

	<u>2010</u>	<u>2009</u>
General Electric Company common stock	\$ 2,277,425	1,185,070
Mutual funds	11,984,881	20,480,863

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Quoted prices for identical investments in active markets.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

Level 2 – Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.

Level 3 – Significant inputs to the valuation model are unobservable.

The Company maintains policies and procedures to value investments using the best and most relevant data available. The following section describes the valuation methodologies used to measure investments at fair value.

When available, quoted market prices are used to determine the fair value of investment securities, and they are included in Level 1. Level 1 securities primarily include the GE common stock, the money market fund and mutual funds.

When quoted market prices are unobservable, quotes from independent pricing vendors are utilized based on recent trading activity and other relevant information including market interest rate curves, referenced credit spreads and estimated prepayment rates where applicable. These investments are included in Level 2. In infrequent circumstances, our valuations may be based on significant unobservable inputs, and in those circumstances the investment securities are classified in Level 3.

The Plan's ownership in the pooled separate account is carried at fair value based on the investment's net asset value per unit and is included in Level 2.

Guaranteed investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see note 2(b)) and are included in Level 2.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

<u>2010</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

(5) Concentration of Investments

The Plan's investment in GE common stock represents approximately 7% and 8%, of total investments as of December 31, 2010 and 2009. GE is a diversified technology, media, and financial services company, with products and services ranging from aircraft engines, power generation, water processing and security technology to medical imaging, business and consumer financing, media content and advanced materials. GE serves customers in more than 100 countries.

(6) Tax Status

The Internal Revenue Service has determined and informed the Plan administrator by a letter dated September 24, 2002 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC and the related trust was tax exempt as of December 31, 2010 and 2009. In 2010, the Plan Sponsor discovered that the Plan was late in filing certain required amendments. To correct, the Plan Sponsor filed under the Voluntary Correction Program (VCP), as a late amender.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Notes to Financial Statements

December 31, 2010 and 2009

(7) Party-in-Interest Transactions

The Plan engages in investment transactions with funds managed by the Trustee, a party-in-interest with respect to the Plan. The Plan also has investments in GE common stock. The Company is the Plan administrator; therefore, these transactions are party-in-interest transactions. These transactions are covered by an exemption from the “prohibited transaction” provisions of ERISA and IRC.

(8) Information Certified by Trustee

The New York Life Trust Company, the Trustee, has certified that the following information included in the financial statements and supplemental schedule as of and for the years ended December 31, 2010 and 2009 is complete and accurate:

- Investments, at fair value, excluding New York Life Insurance Anchor Account III, at fair value
- Notes receivable from participants
- New York Life Insurance Anchor Account III, at contract value
- Investment income
- Investments, note 3
- Fair value measurements, excluding New York Life Insurance Anchor Account III, at fair value
- Schedule of assets (held at end of year)

(9) Plan Merger

The Pension Administration Committee approved a merger of the Plan into the UTC Employee Savings Plan on September 20, 2010. The merger was announced in November of 2010 and the Plan assets were merged during the week of March 14, 2011. Effective January 1, 2011 GE Security employees became eligible to participate in UTC Choice Health and Welfare benefits as well as the standard UTC employee matching contribution for the UTC Employee Savings Plan, but will not be eligible to participate in the Company Automatic Feature.

Participants invested in the New York Life Insurance Anchor Account III will remain invested in the Stable Value Option at the UTC Employee Savings Plan for which no new contributions to this investment will be made available. During the year following the merger balances in the Stable Value Option will be liquidated.

(10) Subsequent Events

The plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued.

Independent Auditors' Report

The Plan Administrator
GES Retirement Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of GES Retirement Plan as of December 31, 2010, and 2009, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held At End of Year), as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 8, which was certified by The New York Life Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and 2009 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of the Plan

The following description of the GES Retirement Plan (formerly the GE Security, Inc. 401(k) Plan) (the Plan), a defined contribution plan, sponsored by UTC Fire & Security Americas Corporation Inc. (formerly GE Security, Inc.) (the Company or Employer or Plan administrator), is provided for general information purposes only. The Plan is subject to applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Any employee of the Company who has attained the required ERISA age is eligible to participate in the Plan on the first day of the month after the employee's three-month anniversary. The Plan is administered by the Company and advised by a committee whose members are appointed by the Board of Directors of the Company (the Plan Committee). The Company has entered into an agreement with New York Life Trust Company (the Trustee) who acts as the trustee and record keeper of the Plan's assets. Participants should refer to the Plan document for complete information regarding the Plan's definitions, benefits, eligibility and other matters.

(a) Contributions

Each year, participants may elect to contribute pretax annual compensation, as defined by the Plan. For nonhighly compensated employees, contributions are limited to an aggregate of 50% of the participant's pretax annual compensation. Highly compensated employees are limited in their contributions to an aggregate of 20% of the participant's pretax annual compensation. The total amount of participant pretax contribution is limited to \$16,500 for 2010 and 2009. Participants may also contribute amounts representing distributions from other qualified plans or individual retirement accounts (IRAs) into the Plan, as specified in the plan document.

Matching contributions by the Company for the benefit of participants are discretionary. For 2010 and 2009, Company matching contributions were equal to 50% of each participant's contributions, up to 6% of eligible compensation. The Company also has the option to make a discretionary profit-sharing contribution to the Plan, which is allocated to participants based on the participants' relative compensation as defined by the Plan. During 2010 and 2009, the Company did not make a discretionary profit-sharing contribution to the Plan.

Participants who are age 50 or older before the close of the plan year may elect to make a catch-up contribution, subject to certain limitations under the Internal Revenue Code (IRC) (\$5,500 per participant in 2010 and 2009). The Company does not match employee catch-up contributions.

(b) Participant Accounts

Participants direct the investment of their contributions among several mutual funds, a pooled separate account, and General Electric Company (GE) common stock. The allocation of a participant's contributions to these investment funds is selected by the participant and may be changed daily. Each participant's account is credited with the participant's contributions, a share of Company matching and discretionary profit-sharing contributions, and the Plan's earnings or losses, net of administrative expenses. Allocation of investment income or losses is based on the value of the participant's account at the close of each day.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(c) Vesting

Participants are vested immediately in their contributions, Company contributions and related net investment earnings. Forfeitures of nonvested Company employer matching contributions are used to reduce future Company contributions. During 2010 and 2009, forfeitures totaling approximately \$0 and \$14,500, respectively, were used to reduce employer contributions. At December 31, 2010 and 2009, forfeitures totaling approximately \$3,800 and \$600, respectively, were available to reduce future contributions.

(d) Notes Receivable from Participants

A participant may borrow from his or her account a minimum of \$500 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance in the participant's account during the prior 12-month period or 50% of the participant's vested account balance. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates as determined by the Plan administrator. Interest rates range from 4.25% to 10.5% on loans outstanding at December 31, 2010. Principal and interest is paid ratably through biweekly payroll deductions. Loan administration charges are charged to the participant's account electing the loan.

(e) Payments of Benefits

Distributions to participants may be made upon death, retirement or termination of employment. Participants may elect payment in a lump sum or in the form of an annuity or in-kind distribution of GE common stock as described in the Plan document. Distributions are also permitted for reasons of proven financial hardship as outlined in the Plan document. Participant benefit payments may be subject to federal income tax.

(f) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become or remain 100% vested in their accounts.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

(b) Investment Valuation and Income Recognition

Investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date.

As described in ASC 962-325-35-5, *Investments and Insurance Contracts*, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The plan invests in investment contracts through a pooled separate account, the New York Life Anchor Account III (Anchor Account III) at December 31, 2010 and 2009. The statements of net assets available for benefits presents the fair value of the investment in the pooled separate account as well as the adjustment of the investment in the pooled separate account from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits is prepared on a contract value basis. The fair value of the fully benefit-responsive investment contracts are calculated using a discounting method developed by the trustee. The fair value and contract value of the Anchor Account III was \$28,113,549 and \$28,437,743, respectively, at December 31, 2010. The fair value and contract value of the Anchor Account III was \$25,098,410 and \$26,363,876, respectively, at December 31, 2009. The average yield for 2010 and 2009 was 2.67% and 3.34%, respectively. For the years ended December 31, 2010 and 2009, the crediting interest rate to participants in the Plan was 2.64% and 3.18%, respectively. There were no valuation reserves recorded that were associated with the pooled separate account in 2010 and 2009. Interest is credited daily to the account and is guaranteed to be not less than 0% before any deduction for expenses. Note that all investments are reported at fair value.

On December 31, 2000, the Plan received benefit-responsive investments in guaranteed insurance contracts in conjunction with the merger of the Interactive Technologies, Inc. 401(k) Investment Plan (the ITI Plan merger). The contracts are included in the financial statements at contract value as reported to the Plan. Contract value represents contributions made under the contracts, plus interest accrued at the current rate, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract value of the guaranteed insurance contracts for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates was 4.0% in 2010 and 2009. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than a specified rate, which was 4.0% as of December 31, 2010 and 2009. Such interest rates are reviewed on an annual basis for resetting. The fair values of these contracts as of December 31, 2010 and 2009 equaled the contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan) (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (c) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

(c) Net Appreciation in Fair Value of Investments

Net appreciation in fair value of investments included in the statements of changes in net assets available for benefits consists of realized gains or losses on investments sold and the unrealized appreciation (depreciation) on investments held at the end of the year.

(d) Plan Expenses

The Company pays all Plan administrative expenses other than loan administration charges and commissions and fees on transactions involving GE common stock. Loan administration charges and common stock commissions and fees are charged to the participant's account electing the loan or common stock transaction.

(e) Payment of Benefits

Benefit payments are recorded when paid.

(f) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

(g) Risks and Uncertainties

The Plan invests in a variety of investments. Investment securities are exposed to various risks including, but not limited to, interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term.

The Plan invests in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(h) Notes Receivable from Participants

Notes receivable from participants are carried at their unpaid principal balance plus accrued interest.

(i) Recent Accounting Pronouncements

In September 2010, the FASB issued Accounting Standards Update (ASU) No. 2010 - 25, *Plan Accounting – Defined Contribution Pension Plans (Topic 962), Reporting Loans to Participants by Defined Contribution Pension Plans, a Consensus of the FASB Emerging Issues Task Force (Update)*. This Update requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The amendments in the Update are to be applied

retrospectively to all prior periods presented, effective for fiscal years ending after December 15, 2010. The Plan has reclassified participant loans from investments to notes receivable from participants for financial statement presentation. The Form 5500 will continue to present notes receivable from participants as an investment.

(3) Investments

The following tables present investments that represent 5% or more of the Plan's net assets as of December 31, 2010 and 2009.

During 2010 and 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

	<u>2010</u>	<u>2009</u>
General Electric Company common stock	\$ 2,277,425	1,185,070
Mutual funds	11,984,881	20,480,863

(4) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Quoted prices for identical investments in active markets.

GES RETIREMENT PLAN

Notes to Financial Statements

December 31, 2010 and 2009

Level 2 – Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.

Level 3 – Significant inputs to the valuation model are unobservable.

The Company maintains policies and procedures to value investments using the best and most relevant data available. The following section describes the valuation methodologies used to measure investments at fair value.

When available, quoted market prices are used to determine the fair value of investment securities, and they are included in Level 1. Level 1 securities primarily include the GE common stock, the money market fund and mutual funds.

When quoted market prices are unobservable, quotes from independent pricing vendors are utilized based on recent trading activity and other relevant information including market interest rate curves, referenced credit spreads and estimated prepayment rates where applicable. These investments are included in Level 2. In infrequent circumstances, our valuations may be based on significant unobservable inputs, and in those circumstances the investment securities are classified in Level 3.

The Plan's ownership in the pooled separate account is carried at fair value based on the investment's net asset value per unit and is included in Level 2.

Guaranteed investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see note 2(b)) and are included in Level 2.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

<u>2010</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

(5) Concentration of Investments

The Plan's investment in GE common stock represents approximately 7% and 8%, of total investments as of December 31, 2010 and 2009. GE is a diversified technology, media, and financial services company, with products and services ranging from aircraft engines, power generation, water processing and security technology to medical imaging, business and consumer financing, media content and advanced materials. GE serves customers in more than 100 countries.

(6) Tax Status

The Internal Revenue Service has determined and informed the Plan administrator by a letter dated September 24, 2002 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC and the related trust was tax exempt as of December 31, 2010 and 2009. In 2010, the Plan Sponsor discovered that the Plan was late in filing certain required amendments. To correct, the Plan Sponsor filed under the Voluntary Correction Program (VCP), as a late amender.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

Notes to Financial Statements

December 31, 2010 and 2009

(7) Party-in-Interest Transactions

The Plan engages in investment transactions with funds managed by the Trustee, a party-in-interest with respect to the Plan. The Plan also has investments in GE common stock. The Company is the Plan administrator; therefore, these transactions are party-in-interest transactions. These transactions are covered by an exemption from the “prohibited transaction” provisions of ERISA and IRC.

(8) Information Certified by Trustee

The New York Life Trust Company, the Trustee, has certified that the following information included in the financial statements and supplemental schedule as of and for the years ended December 31, 2010 and 2009 is complete and accurate:

- Investments, at fair value, excluding New York Life Insurance Anchor Account III, at fair value
- Notes receivable from participants
- New York Life Insurance Anchor Account III, at contract value
- Investment income
- Investments, note 3
- Fair value measurements, excluding New York Life Insurance Anchor Account III, at fair value
- Schedule of assets (held at end of year)

(9) Plan Merger

The Pension Administration Committee approved a merger of the Plan into the UTC Employee Savings Plan on September 20, 2010. The merger was announced in November of 2010 and the Plan assets were merged during the week of March 14, 2011. Effective January 1, 2011 GE Security employees became eligible to participate in UTC Choice Health and Welfare benefits as well as the standard UTC employee matching contribution for the UTC Employee Savings Plan, but will not be eligible to participate in the Company Automatic Feature.

Participants invested in the New York Life Insurance Anchor Account III will remain invested in the Stable Value Option at the UTC Employee Savings Plan for which no new contributions to this investment will be made available. During the year following the merger balances in the Stable Value Option will be liquidated.

(10) Subsequent Events

The plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued.
