Notes to Financial Statements

NOTE 1: DESCRIPTION OF PLAN

The following description of the Handel Architects LLP 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Handel Architects LLP (the "Company") who have one year of service and are age 21 or older. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into investment options offered by the Plan. The Plan currently offers pooled separate accounts comprising of mutual funds and a guaranteed investment contracts as investment options for participants. The Company, at its discretion, may elect to make a Safe Harbor matching contribution for each participant, as defined in the Plan, which is invested in a portfolio of investments as directed by the Company. For the year ended December 31, 2010, the Company did not elect to make a contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's contribution and (b) Plan earnings, and charged with administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts contribution is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 8.25 percent, which are commensurate with the local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE 1: DESCRIPTION OF PLAN (continued)

Forfeited Accounts

As of December 31, 2010 and 2009, the balance of forfeited non vested accounts was zero and $1,482, respectively. During 2010, $3,519 of forfeitures was used to pay administrative expenses of the Plan.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan that are not fully benefit-responsive investment contracts are required to be reported at fair value. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction among market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (continued)

Recent Accounting Pronouncements

In September 2009, the Financial Accounting Standards Board ("FASB") issued an update for Investment in Certain Entities that Calculate Net Asset Value per Share. This update provides guidance on estimating the fair value of a company's investments in investment companies when the investment does not have a readily determinable fair value. It permits the use of the investment's net asset value as practical expedient to determine fair value. This guidance also requires additional disclosure of the attributes of these investments such as the nature of any restrictions on the reporting entity's ability to redeem its investment, the unfunded commitments, and the investment strategies of the investees. This guidance is effective for periods ending after December 15, 2009. The adoption did not have a material impact on the Plan's financial condition or results of operations.

In January 2010, the FASB issued an updated guidance to improve disclosures regarding fair value measurements. This updated guidance requires separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers and clarifies existing disclosure requirements related to the level of disaggregation of fair value measurements for each class of assets and liabilities. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both Level 2 and 3 are also required. The new disclosures and clarifications of existing disclosures were adopted by the Plan as of January 1, 2010 and did not have a material impact on the financial statements.

In addition, this updated guidance also requires disclosure on a gross basis of purchases, sales, issuances, and settlements within Level 3 rather than as one net amount. This requirement is effective for Plan years beginning after December 15, 2010. The Plan's management does not expect the adoption to have a material impact on the Plan's financial statements.

In September 2010, the FASB issued updated guidance that requires participant loans to be classified as "notes receivable from participants," which are segregated from Plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. As required by the guidance, the Plan has applied the guidance retrospectively. The Plan has reclassified participant loans receivable to be a part of total receivables in the statement of net assets and removed the participant loans receivable from the fair value measurements disclosure. The adoption of this guidance did not have a material impact on the financial statements. For the year ended December 31, 2009, participant loans of $68,427 were reclassified from participant-directed investments to notes receivable from participants.

Total investments, at fair value	$ 6,495,828	$ 5,535,492

NOTE 3: INVESTMENTS – UNAUDITED INFORMATION PREPARED & CERTIFIED BY CUSTODIAN (continued)

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $790,456 as follows:

Pooled separate accounts - mutual funds	$ 786,331
Insurance contract	4,125
Total appreciation	$ 790,456
Interest income	$ 212

NOTE 4: FAIR VALUE MEASUREMENTS

FASB ASC 820, "Fair Value Measurements," provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010 and 2009.

Mutual Funds:

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end based upon quoted market prices determined in an active market.

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

Guaranteed investment contracts:

Guaranteed investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer (see Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

NOTE 5: GUARANTEED INVESTMENT CONTRACT WITH "INSURANCE COMPANY" - UNAUDITED INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan has a non-benefit responsive investment contract with John Hancock Life Insurance Company of New York ("John Hancock"). John Hancock maintains the contributions in general account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract promises to pay fair value in the event of termination, death, disability or retirement. The fair value of the investment contracts at December 31, 2010 and 2009 was $35,780 and $31,348, respectively.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2010	2009
Average yields:		
Based on actual earnings & interest credited to participants	2.72%	3.14%

NOTE 6: PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are insurance contracts managed by John Hancock, a custodian as defined by the Plan. These transactions qualify as party-in-interest transactions. Investment income received by the Plan is net of fees charged to the investments by the custodian. Fees paid by the Plan for investment management services and professional fees amounted to $40,512 and $3,519, respectively, for the year ended December 31, 2010. In addition, the third-party administrator provides certain accounting, administrative and investment management services to the Plan, which are paid by the Plan.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 8: TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 19, 2002, that the Plan and related trust are designated in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designated, and is currently being operated in, compliance with the applicable requirements of the IRS.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes to Financial Statements

NOTE 1: DESCRIPTION OF PLAN

The following description of the Handel Architects LLP 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Handel Architects LLP (the "Company") who have one year of service and are age 21 or older. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into investment options offered by the Plan. The Plan currently offers pooled separate accounts comprising of mutual funds and a guaranteed investment contracts as investment options for participants. The Company, at its discretion, may elect to make a Safe Harbor matching contribution for each participant, as defined in the Plan, which is invested in a portfolio of investments as directed by the Company. For the year ended December 31, 2010, the Company did not elect to make a contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's contribution and (b) Plan earnings, and charged with administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts contribution is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 8.25 percent, which are commensurate with the local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE 1: DESCRIPTION OF PLAN (continued)

Forfeited Accounts

As of December 31, 2010 and 2009, the balance of forfeited non vested accounts was zero and $1,482, respectively. During 2010, $3,519 of forfeitures was used to pay administrative expenses of the Plan.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan that are not fully benefit-responsive investment contracts are required to be reported at fair value. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction among market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the Plan are paid by the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 17, 2011, the date the financial statements were available to be issued.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (continued)

Recent Accounting Pronouncements

In September 2009, the Financial Accounting Standards Board ("FASB") issued an update for Investment in Certain Entities that Calculate Net Asset Value per Share. This update provides guidance on estimating the fair value of a company's investments in investment companies when the investment does not have a readily determinable fair value. It permits the use of the investment's net asset value as practical expedient to determine fair value. This guidance also requires additional disclosure of the attributes of these investments such as the nature of any restrictions on the reporting entity's ability to redeem its investment, the unfunded commitments, and the investment strategies of the investees. This guidance is effective for periods ending after December 15, 2009. The adoption did not have a material impact on the Plan's financial condition or results of operations.

In January 2010, the FASB issued an updated guidance to improve disclosures regarding fair value measurements. This updated guidance requires separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers and clarifies existing disclosure requirements related to the level of disaggregation of fair value measurements for each class of assets and liabilities. Disclosures regarding the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for assets and liabilities in both Level 2 and 3 are also required. The new disclosures and clarifications of existing disclosures were adopted by the Plan as of January 1, 2010 and did not have a material impact on the financial statements.

In addition, this updated guidance also requires disclosure on a gross basis of purchases, sales, issuances, and settlements within Level 3 rather than as one net amount. This requirement is effective for Plan years beginning after December 15, 2010. The Plan's management does not expect the adoption to have a material impact on the Plan's financial statements.

In September 2010, the FASB issued updated guidance that requires participant loans to be classified as "notes receivable from participants," which are segregated from Plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. As required by the guidance, the Plan has applied the guidance retrospectively. The Plan has reclassified participant loans receivable to be a part of total receivables in the statement of net assets and removed the participant loans receivable from the fair value measurements disclosure. The adoption of this guidance did not have a material impact on the financial statements. For the year ended December 31, 2009, participant loans of $68,427 were reclassified from participant-directed investments to notes receivable from participants.

NOTE 3: INVESTMENTS – UNAUDITED INFORMATION PREPARED & CERTIFIED BY CUSTODIAN

The following presents investments that represent 5 percent or more of the Plan's net assets.

Total investments, at fair value	$ 6,495,828	$ 5,535,492

NOTE 3: INVESTMENTS – UNAUDITED INFORMATION PREPARED & CERTIFIED BY CUSTODIAN (continued)

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $790,456 as follows:

Pooled separate accounts - mutual funds	$ 786,331
Insurance contract	4,125
Total appreciation	$ 790,456
Interest income	$ 212

NOTE 4: FAIR VALUE MEASUREMENTS

FASB ASC 820, "Fair Value Measurements," provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2010 and 2009.

Mutual Funds:

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end based upon quoted market prices determined in an active market.

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

Guaranteed investment contracts:

Guaranteed investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer (see Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009.

Level 3 – Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2010.

Balance, beginning of year	$ 31,348
Realized gains (losses)	212
Unrealized gains (losses) relating to instruments held at the reporting date	3,913
Purchases, sales, issuances, and settlements (net)	307
Balance, end of year	$ 35,780
The amount of total gains (losses) for the period included in changes in net assets attributable to the change in unrealized gains (losses) relating to assets still held at the reporting date	$ 3,913

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

NOTE 5: GUARANTEED INVESTMENT CONTRACT WITH "INSURANCE COMPANY" - UNAUDITED INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The Plan has a non-benefit responsive investment contract with John Hancock Life Insurance Company of New York ("John Hancock"). John Hancock maintains the contributions in general account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract promises to pay fair value in the event of termination, death, disability or retirement. The fair value of the investment contracts at December 31, 2010 and 2009 was $35,780 and $31,348, respectively.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2010	2009
Average yields:		
Based on actual earnings & interest credited to participants	2.72%	3.14%

NOTE 6: PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are insurance contracts managed by John Hancock, a custodian as defined by the Plan. These transactions qualify as party-in-interest transactions. Investment income received by the Plan is net of fees charged to the investments by the custodian. Fees paid by the Plan for investment management services and professional fees amounted to $40,512 and $3,519, respectively, for the year ended December 31, 2010. In addition, the third-party administrator provides certain accounting, administrative and investment management services to the Plan, which are paid by the Plan.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 8: TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 19, 2002, that the Plan and related trust are designated in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designated, and is currently being operated in, compliance with the applicable requirements of the IRS.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
