Independent Auditors' Report

Pension Administration and Review Committee
The Pension Plan of Arch Chemicals:

We were engaged to audit the accompanying statements of net assets available for plan benefits of the Pension Plan of Arch Chemicals (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for plan benefits for the years then ended and the supplemental schedules (1) Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2010 and (2) Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2010. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by the Northern Trust Company, the Trustee of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedules. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Trustee as of December 31, 2010 and 2009 and for the years then ended, that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE PENSION PLAN OF ARCH CHEMICALS

Notes to Financial Statements

December 31, 2010 and 2009

(1) Description of the Plan

The following description of The Pension Plan of Arch Chemicals ("the Plan") provides general information only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

(a) General

The Plan is a noncontributory defined benefit pension plan covering both union and nonunion U.S. employees of Arch Chemicals, Inc. ("the Company") and its wholly owned subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is administered by the Pension Administration and Review Committee (the Plan Administrator), and The Northern Trust Company is the Trustee of the Plan.

(b) Pension Benefits

Employees are eligible to receive their vested benefits in the Plan upon retirement or termination of employment. Employees become fully vested in the Plan: (a) after five years of employment for employees hired prior to April 1, 2008 and participate in the grandfathered plan (the "Traditional Plan"); (b) three years, for employees hired on or after April 1, 2008, who participate in the new Personal Pension Account (the "Cash Balance Plan"); or (c) attainment of age 65. The Traditional Plan permits early retirement at age 55 with 10 credited years of service. For participants with a present value of vested benefits of \$5,000 or less at the time of termination, benefits are distributed to them in the form of a lump sum cash out, or placed in a Rollover IRA (if between \$1,000 and \$5,000), if participants cannot be located. For participants in the Traditional Plan, who have more than \$5,000 of vested benefits at the time of termination, benefits are paid in the form of an annuity upon attainment of a retirement age. For participants in the Cash Balance Plan, who have more than \$5,000 of vested benefits at the time of termination, benefits are either paid in the form of an annuity or in the form of a lump sum upon attainment of age 55, or one year after termination of employment.

(c) Death and Disability Benefits

The Plan provides for death benefits to a spouse of a deceased participant who has met the vesting requirement but died prior to his or her benefit commencement date. A pre-retirement survivor benefit will be paid to the surviving spouse, provided the participant and spouse had been married throughout the one year period ending on the date of death.

If the participant in the Traditional Plan dies after attaining the age and years of service necessary to qualify for early retirement, the spouse shall receive an amount equal to that which the participant would have received had the participant retired before the day of his or her death, in the form of a 50% qualified joint and survivor annuity payment. For surviving spouses of participants in the Cash Balance Plan, their benefits can be paid in the form of a lifetime-only annuity or a lump sum. For non-spouse beneficiaries of participants in the Cash Balance Plan, the benefits will be paid in the form of a lump sum only.

THE PENSION PLAN OF ARCH CHEMICALS

Notes to Financial Statements

December 31, 2010 and 2009

In the event a participant becomes disabled before attaining his or her normal retirement age, the participant will become eligible for a disability retirement allowance as provided by the participant's respective Plan provisions.

(d) *Administrative Expenses*

Administrative expenses of the Plan are generally paid by the Plan. Administrative expenses not payable by the Plan are paid by the Company. Administrative expenses paid by the Company for the plan years ended 2010 and 2009 were \$135,491 and \$146,807, respectively.

(2) *Summary of Significant Accounting Policies*

The significant accounting policies of the Plan are as follows:

(a) *Basis of Presentation*

The accounts of the Plan are maintained on the accrual basis of accounting.

The Plan has evaluated events subsequent to December 31, 2010 through October 14, 2011, the date on which its financial statements were available for issuance.

(b) *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

(c) *Investments and Investment Income*

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is earned on the accrual basis. The Plan presents in the statement of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Plan investments are reported at fair value. Fair value is determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. See Note 10.

(d) *Payment of Benefits*

Distributions from the Plan are recorded upon payment.

THE PENSION PLAN OF ARCH CHEMICALS

Notes to Financial Statements

December 31, 2010 and 2009

(3) Funding Policy

The Company's policy is to make contributions to provide the benefits under the Plan and is subject to the provisions of ERISA. Contributions by the Company are based upon actuarial computations of the present value of future benefits to be paid to participants as of the beginning of the plan year. The actuarial cost method used to determine employer contributions to the Plan is the projected unit credit method. In accordance with the Company's funding policy, contributions for 2010 and 2009 were within the minimum and maximum funding requirements of ERISA. In 2010 and 2009, the Plan Sponsor made voluntary contributions totaling \$80,000,000 and \$42,300,000, respectively. The Plan's accounting policy is to accrue contributions receivable up to the amount of any minimum funding requirements of the Plan Sponsor, if any. As of December 31, 2010, there are no minimum funding requirements for the Plan.

(4) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Except for employees hired on or after April 1, 2008, whose benefits are based on the amount accrued in their personal pension accounts, benefits under the Plan are based on employees' highest three years compensation of the last 10 years (whether or not consecutive) of credited service. The accumulated plan benefits for active employees are based on their average compensation during the three years ending on the date as of which the benefit information is presented (the valuation date). For participants hired on or after April 1, 2008, benefits are based upon 6% of participants' eligible earnings during each quarter that the participants are employed with the Company, adjusted to accrue interest at the prevailing 10-year U.S. Treasury Note rate. Benefits payable under all circumstances, retirement, death, disability, and termination of employment, are included to the extent they are deemed attributable to employee service rendered up to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary using employee data supplied by the Company at December 31, 2009, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant assumptions used in the valuation as of December 31, 2009 were: (a) assumed discount rate of 6.0% (6.5% in 2008) (b) retirement at rates that vary by age from age 55 to age 67, and (c) assumed mortality rates for participants based on the RP2000 Combined Healthy Table and the RP2000 Disabled Retiree Table.

Accumulated plan benefits are computed using the projected unit credit actuarial cost method. These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

THE PENSION PLAN OF ARCH CHEMICALS

Notes to Financial Statements

December 31, 2010 and 2009

As of December 31, 2009, the Plan's actuary determined the actuarial present value of accumulated plan benefits as follows:

Vested benefits:	
Participants currently receiving payments	\$ 91,427,690
Other participants	<u>117,509,552</u>
	208,937,242
Nonvested benefits	<u>5,543,754</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 214,480,996</u>
Actuarial present value of accumulated benefits as of January 1, 2009	<u>\$ 193,925,770</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated and actuarial experience	9,447,022
Increase for interest due to the decrease in the discount period	16,040,090
Benefits paid	(10,437,650)
Change in actuarial assumptions	<u>5,505,764</u>
Net increase	<u>20,555,226</u>
Actuarial present value of accumulated benefits as of December 31, 2009	<u>\$ 214,480,996</u>

(5) Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of plan termination or discontinuance of contributions, participants will become 100% vested in their accrued benefits. Whether a particular participant's accumulated plan benefits will be paid depends both on the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. There is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling, which is adjusted periodically, was \$4,500 per month, for plan terminations occurring during 2010. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all. Additional information about PBGC guaranty is contained in the Plan document, which can be obtained from the Plan Administrator.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

See Note 11 for discussion of the Company's pending merger and its potential impact on the Plan.

(6) Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated June 24, 2002 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements under the IRC.

(7) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, changes in the values of investment securities could materially affect amounts reported in the statements of net assets available for plan benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, changes in these estimates and assumptions could be material to the financial statements.

(8) Investment Information Certified by the Trustee (Unaudited)

As permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator has elected that information certified by the Trustee not be subjected to any auditing procedures, except for comparing such information to the related information contained in the accompanying financial statements and supplemental schedules. The following information represents the fair value of investments, which has been certified by the Trustee:

(9) Related Party Transactions

Certain Plan investments are shares of common/collective trusts managed by the Trustee and these transactions qualify as a party-in-interest under ERISA. Fees incurred and payable to the Trustee were \$897,028 and \$666,328 for the years ended December 31, 2010 and 2009, respectively.

(10) Fair Value Measurements

Valuation techniques required by Financial Accounting Standards Board Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures* (ASC 820), are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions. These two types of inputs create the following fair value hierarchy:

- **Level 1** – Quoted prices (unadjusted) for identical assets and liabilities in active markets that the Plan has the ability to access at the measurement date.
- **Level 2** – Quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; and inputs other than quoted prices that are observable for the asset or liability, including interest rates, yield curves and credit risks, or inputs that are derived principally from or corroborated by observable market data through correlation.
- ~~**Level 3** – Significant inputs to the valuation model are unobservable and are primarily based on internally derived assumptions surrounding the timing and amount of expected cash flows.~~

The following section describes the valuation methodologies the Plan uses to measure different investments at fair value.

At December 31, 2010, the Company's target allocation of the pension plan assets is 40% large-cap equity funds, 10% mid-cap equity funds, 10% small-cap equity funds, 10% international equity funds and emerging markets equity funds and 30% fixed income funds. Fixed income funds include investments in government obligations, corporate bonds, agency obligations and asset-backed securities. The principal objective of the Company's investment strategy is to ensure sufficient resources are available to meet the Plan's benefit obligations. The assets are invested in a diversified portfolio consisting of an array of asset classes that attempt to maximize returns while minimizing volatility. The current asset classes are listed in the table below. In the future, the Company may invest in other asset classes, including real estate.

THE PENSION PLAN OF ARCH CHEMICALS

(11) Subsequent Event

On July 10, 2011, the Company entered into a Merger Agreement with Lonza Group Ltd., a company organized under the laws of Switzerland ("Lonza"), and LG Acquisition Corp., a Virginia corporation and an indirect wholly owned subsidiary of Lonza ("Merger Sub"), pursuant to which, among other things, Merger Sub has commenced a tender offer ("the Offer") for all of the outstanding shares of the Company's common stock, at a price of \$47.20 per share, net to the seller in cash, subject to the terms and conditions of the Merger Agreement. Following the consummation of the Offer, and subject to the satisfaction or waiver of certain conditions set forth in the Merger Agreement, Merger Sub will merge with and into the Company (the "Merger") and the Company will become a wholly owned, indirect subsidiary of Lonza. If the merger is completed, the future of this Plan will be assessed.

Interest:	<p>The interest rates used are the September 2009 segment rates (which are a 24-month average of corporate bond yields ending in August 2009). The rates are 5.03% for payments in the first 5 years, 6.73% for payments in years 6-20, and 6.82% for payments thereafter, which translates to an effective interest rate of 6.69%. This market-based assumption is mandated by law, based on the plan sponsor's election of one of the alternative methodologies.</p> <p>Prior year the interest rates used were the spot corporate bond yields ending in October 2008. These discount rates average 7.35% for payments in the first 5 years, 8.61% for payments in years 6 – 20, and 7.26% for payments thereafter, which translates to an effective interest rate of 8.15%.</p> <p>The yield curve used to determine the PBGC variable rate premium is the same as funding.</p>

Retirement from inactive status:	Age 65																													
Percent married:	80%																													
Age difference:	Husbands are three years older than wives.																													
Administrative expenses:	Plan-related expenses of \$558,875 expected to be paid by the plan during the year were assumed in 2010 (i.e. 0.25% of market value of assets).																													
Asset method:	The actuarial value of assets averages the market value of assets as of the valuation date and the adjusted market value of assets as of the preceding two years. The resulting value is limited to between 90% and 110% of the market value of assets. WRERA provides that the averaging method is to be adjusted for expected earnings. The expected earnings are based on an assumed rate of return of 8.25%, not to exceed the applicable third segment rate of 6.43% in 2008 and 6.69% in 2009. Note that automatic IRS approval for a change in asset valuation method applies for plan years beginning in 2008, 2009 and 2010. This methodology

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Dear Sir or Madam:

We regret to inform you that due to numerous technical glitches with the third party (BLAZE SSI) software, which we've been using to prepare and file our annual Forms 5500, we were unable to resolve all the issues until today, hence, the late filing. Copies of the exchanged correspondence, evidencing the electronic transmission issues, are attached for your review. Given these unforeseen circumstances, we respectfully request that any late filing fees/penalties be waived.

Thank you for your time and consideration with this matter.

Should you have any related questions please contact me directly at (203) 229-3029.

Sincerely,

Subject: Unable to File Forms 5500 Timely

Lorraine,

As you know, the e-mails that were sent to you earlier this PM, with the Forms 5500 to sign, never made it to your inbox. When I called BAZESSI at around 5pm, there was no one to help me with this issue because all their technical representatives had left for the day. Even though our Helpdesk was able to see the e-mails I sent to you, they were blocked and deleted by the spam filters. When I called the EFAST customer service the first time they told me to resend the e-mails to you, but they, too, appear to have been deleted. When I called EFAST the second time, they said that we need BLAZESSI to resolve this issue. The customer rep suggested that we include a note with the filing to explain the transmission problems that prevented us from submitting the filing on time, and ask them to waive the late filing penalty.

I'm sending a copy of this e-mail to BLAZESSI to let them know that we have this problem, and ask them to advise as to how we can remedy it ASAP.

Pasquale

Your email to Lorraine noted that the emails 'were blocked and deleted by the spam filters'. BLAZE SSI does not control this. You will have to determine how to mark these emails so they are not considered as spam.

Note that it is the BLAZE SSI server sending the emails even though the emails appear to be coming from you. This may be causing the issue, but again BLAZE SSI does not control the spam filters. If your company email does not allow the emails to go through, then I recommend you test sending the emails to an alternate address (perhaps your or Lorraine's personal email). Where the signing email goes to is insignificant. Lorraine just needs to be able to enter her EFAST2 credentials to electronically sign the filing.

Regarding your follow up email, the filings are not posted on the EFAST2 web-site until they are electronically signed and transmitted to EFAST2. You do not yet have an electronically signed filing so I do not believe you have actually transmitted a filing to EFAST2. Sending a signing invitation does not send anything to the EFAST2 web-site.

After the filing is electronically signed (which means resolving the issue with Lorraine getting the signing invitation email so she can electronically sign the filing), the filing status for the filing under the Transmission system 'EFAST2 Filings' option will say 'fully signed'. Once this is the status, the Transmission system 'EFAST2 Submissions' button would be used to access the transmission options. As we discussed yesterday, you would use the 'Submit One Filing' button to see the list of 'fully signed' filings. Select the fully signed filing you wish to transmit and click on the 'Transmit Filing to EFAST2' button. The filing will be transmitted to EFAST2 and the 'container' which includes the transmitted filing will appear in the list above the buttons with an 'EFAST2 AckID', indicating they received the filing. The filing should then appear on the EFAST2 web-site after you sign in to that web-site.

Antonietta,

I need you to call me to get this issue resolved ASAP. We've already missed yesterday's deadline for filing the Forms 5500 (first time ever) due to our inability to get help from BLAZE SSI in a timely fashion. I don't want to risk missing another day by exchanging e-mails that can be easily misinterpreted. In your first response this AM you indicated that "Where the signing email goes to is insignificant. Lorraine just needs to be able to enter her EFAST2 credentials to electronically sign the filing." We interpreted that to mean that Lorraine could go directly to the EFAST2 website and sign it from there, rather than through the link on the e-mail that would take her to the EFAST2 website. My IT person tells me that the reason we're having this issue is because your system requires that I put my Arch e-mail in the profile. He believes that if I put my personal email in the profile, I would have no problem sending the e-mail to Lorraine. So, the question to you is

1. Do you agree that putting my personal e-mail in my BLAZE SSI profile will work?
2. If so, where do I need to enter my personal e-mail?

As you can see, these are simple questions that can be quickly answered with a phone call, rather than keep exchanging endless e-mails, or schedule an appointment for a phone call 3 hours into the future, which, under the circumstances, is very unreasonable to ask a client! Thank you.

Pasquale

System: EFAST2 Filing Tran

Has received Toni's response and stats he still has the same problem. His IT person says he needs to change his e-mail access in his profile. Needs help.

In response to your recent email I have spoken with the System Analyst and the following is a response based on that conversation.

In regards to your first question, you can enter in your personal email for a temporary quick fix, which is done by selected 'Other Options > Transmission System User Information', and change the 'Transmitter Email Address:' to be that of your personal email address. Once you have made the change select 'Ok', exit the system and sign back in to assure that when you send the signing invitation that the system will recognize the email address change. Next, proceed with 'Associating the Signer', but please note that once Lorraine has signed the filing the email notification letting you know that the filing has been signed will go back to your personal email address. Once the signing has been fully signed you will be able to submit the filing to Efast.

However, the recommended solution to this problem is to edit the 'Email Account Information' so that you will be using your own server to send signing invitations and not BLAZE SSI's server. In order to change the email provider select 'Other Options > Preferences', locate the option 'Default to BLAZE SSI Email Provider' setting, double click on the setting, change the 'Y' to be 'N' and select 'Ok' to accept the editing change. Then close the Preference dialog screen by selecting the 'X' in the upper right hand corner. Next, select 'Other Options > Email Account Information' option and have your IT technician enter in the correct information. This information should be edited by your IT technician. Now when sending signing invitations you will be accessing your own server, which will resolve the problem that you are having.

Please let us know if you have any further questions regarding this matter.

Re: BLAZE SSI Report From User #42694

System: EFAST2 Filing Tran

Concern: needs help transmitting file

As I mentioned to you this morning during our conversation the filings that you uploaded yesterday afternoon did not successfully upload. We confirmed this by logging into the system (Efast2 Transmission System), selecting the 'Efast2 Filings' option, highlighting one of the filings you uploaded yesterday, and selecting 'Review Content of Selected Filing' option. When we selected this option you received a message that the window could not be displayed, which confirmed that the upload was not successful.

We discussed that you need to attempt to upload the filings again, but wait and let the system go through the process of uploading without selecting to 'End Task' the system processes. When, and if, the upload is successful, select the 'Review Content of Selected Filing' option to confirm that the pdf can be properly displayed for this filing.

Something else that you can check, prior to uploading any of these filings, is the actual size of the filings themselves. This can be done by navigating to Windows Explorer, select the folder location that you have saved your filings in (these filings have the *.F5500 extension), right click on one of the filings that you are having a problem uploading, and select the 'Properties' option. The 'General' tab information will be displayed, first confirm that you are viewing the correct filling by referencing the file name that is being displayed, and next confirm the actual size of this particular filings. If this filings is large in size than it will take some time to upload, as well as, transmit. If the size of the filing is greater than a megabyte, which this filing may contain scanned attachments, then it may not properly upload. The larger size could be due to the settings you had when the attachments were scanned to pdf format.

If you find that the filings are in reasonable size then the problem could be as we discussed on your server side. When our Analyst reviewed the database, that stores the uploaded filing information, they were able to see that last year the filings were uploaded successfully. Since that time has there been any changes made on your end that would affect the uploading of these filings? If so, then your IT Technician will need to adjust the changes to allow the filings to be uploaded.

We are leaving this user report open, so please let us know if you are still having problems or if you were able to successfully transmit the filing.
