The Funding Target is the present value of accrued benefits and based on service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year and includes the amount of plan-related expenses expected to be paid from plan assets.

Asset valuation method:

For minimum required and maximum contribution purposes: Smoothed Asset Value over 2 year period. The Valuation Assets are determined using a method that spreads asset gains/(losses) over 2 years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. Accrued contributions, if any, are included in the Valuation Assets.

The expected return on plan assets is 8.00% per annum, limited by PPA to the applicable Third Segment Rate as follows:

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following brief description of the Pension Plan for Bargaining Unit Employees of Eclipse Manufacturing Co. (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a noncontributory pension plan for Eclipse Manufacturing Co. (the Company) employees who are members of a bargaining unit. Such employees are included in the Plan after they have completed one year of service and reached age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Change in Plan Status

The trustees of the Plan, the Company, and UAW Local #1076 agreed to freeze the Plan with respect to the accrual of benefits and close the Plan to new participants effective May 1, 2009.

Pension Benefits

Participants under the Plan are entitled to monthly pension benefits after the later of 5 years of vested service or at normal retirement age (65), equal to .5% of monthly plan compensation, as defined, up to \$550 plus 1% of monthly plan compensation in excess of \$550, as defined. The Plan provides for a minimum benefit that is equal to a specified dollar rate multiplied by the years of benefit service. If employees terminate before rendering 5 years of service, they forfeit the right to receive any portion of their accumulated benefits.

Early Retirement and Vesting

The Plan provides for early retirement with reduced benefits at any time after attaining age 60 and completing 5 years of vested service. The Plan contains a provision that allows for death and disability benefits. The Plan provides for full vesting of benefits after five years of vesting service, as defined in the Plan.

Funding Policy

The Company's contributions to the Plan are designed to comply with ERISA minimum funding requirements. Contributions required for the Plan years ended December 31, 2010 and 2009, were \$16,789 and \$31,901, respectively.

Administrative Fees

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Plan Termination (continued)

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

In the event of a complete termination of the Plan, the assets then remaining in the pension fund, after providing for expenses of administration, shall be allocated, to the extent that they shall be sufficient, for the purpose of funding the accrued benefits to the date of termination of the Plan of all pensioners, participants, vested former participants, and beneficiaries in the manner and order of precedence required under the terms of ERISA. Any funds remaining in the pension fund after funding in full all of said accrued benefits shall revert to the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Investments and Income Recognition

Investments are stated at fair value as determined based on quoted market values as reported to the Plan by US Bank N.A., the trustee. Purchases and sales of securities are recorded on a trade date basis. Net appreciation (depreciation) in fair value of investments includes unrealized investment gains and losses. Interest is recorded on the accrual basis and dividends on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Subsequent Events

Management has evaluated subsequent events through October 14, 2011, the date the financial statements were available to be issued.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that participants have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries.

The actuarial present value of accumulated plan benefits for the years ended January 1, 2011 and 2010, were determined by Buck Consultants, consulting actuaries, using the Accrued Benefit Funding Method. The significant actuarial assumptions used in the valuations were as follows:

- (a) Mortality rate – 1994 Group Annuity Mortality Table, rates for male and female.
- (b) Retirement age – 65, or age on the valuation date if older.
- (c) Investment return – assumed rate of return of 5.85% (2011) and 6.25% (2010).
- (d) Salary scale – assumed no increase in wages as the Plan is frozen.

The discount rate used to value plan liabilities was changed from 6.25% at January 1, 2010 to 5.85% at January 1, 2011. The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Uncertain Tax Positions

The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of and for the years ended December 31, 2010 and 2009, the Plan did not have a liability for unrecognized tax benefits. The Plan is no longer subject to examination by federal and state taxing authorities prior to 2007.

3. INVESTMENTS

The Plan's investments which exceed 5% of net assets available for benefits as of December 31, 2010 and 2009, are as follows:

	2010	2009
American Europacific Growth Fund CI R6	\$ 609,056	\$ 327,081
First American Intermediate Term Bond Fund CI Y	\$ 243,051	\$ 505,625

First American Short Term Bond Fund CI Y		\$ 438,138
Ishares MSCI Emerging Markets ETF Fund	\$ 187,852	

NOTES TO THE FINANCIAL STATEMENTS

4. FAIR VALUE MEASUREMENTS

The various inputs that may be used to determine the fair value of the Plan's assets are summarized in three broad levels:

Level 1	Quoted prices in active markets for identical securities
Level 2	Other significant observable inputs (including quoted prices for similar securities, interest rates, credit risk, etc.)
Level 3	Significant unobservable inputs (including the Plan's own assumptions used to determine value)

Generally, the Plan utilizes quoted market prices, and other relevant information generated by market transactions, to measure fair value when available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques. In certain cases, the Plan may be required to make judgments about assumptions that market participants would use in estimating the fair value of financial instruments (Level 3 valuations).

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Money Market and Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value are comprised of the following at December 31, 2010:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Money market fund	\$ 46,434		
Mutual funds			
Value funds	576,586		
Growth funds	1,698,686		
Emerging market funds	187,852		
Fixed income funds	379,775		
	<u>\$ 2,889,333</u>	<u>\$ -</u>	<u>\$ -</u>

NOTES TO THE FINANCIAL STATEMENTS

4. FAIR VALUE MEASUREMENTS (Continued)

Assets measured at fair value are comprised of the following at December 31, 2009:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Money market fund	\$ 15,329		
Mutual funds			
Value funds	517,605		
Growth funds	1,156,623		
Emerging market funds	69,720		
Fixed income funds	943,767		
	<u>\$ 2,703,044</u>	<u>\$ -</u>	<u>\$ -</u>

The Plan did not hold any Level 3 assets during 2010 and 2009. There were no transfers between levels in 2010.

5. INFORMATION CERTIFIED BY TRUSTEE

In accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator has elected to restrict the scope of the auditor's examination with regard to statements or information prepared and certified by US Bank N.A., the trustee.

US Bank N.A. has certified as to the completeness and accuracy of the investments it holds, changes in net assets arising from investment activity and the schedules of assets held at end of year and reportable transactions as of and for the years ended December 31, 2010 and 2009.

6. TAX STATUS

The Plan obtained its latest determination letter as of October 20, 2009, in which the Internal Revenue Service stated that the Plan, as designed, is in compliance with the applicable requirements of the Internal Revenue Code (IRC). The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore believes the Plan is qualified and the related trust was tax-exempt as of December 31, 2010 and 2009.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of funds managed by the trustee and, therefore, these transactions qualify as party-in-interest transactions.

NOTES TO THE FINANCIAL STATEMENTS

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the high level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Asset valuation method:

For minimum required and maximum contribution purposes: Smoothed Asset Value over 2 year period. The Valuation Assets are determined using a method that spreads asset gains/(losses) over 2 years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. Accrued contributions, if any, are included in the Valuation Assets.

The expected return on plan assets is 8.00% per annum, limited by PPA to the applicable Third Segment Rate as follows:
