1) DESCRIPTION OF THE PLAN

The following description of the DGN Technologies Inc. 401K Plan (the Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description and the Plan Document for a complete description of the Plan's provisions.

General

The Plan was established on January 1, 2006 as a defined contribution plan. The Plan covers all employees of DGN Technologies Inc. In order to participate in the plan, Employees must be at least 21 years of age and must have completed 3 months of service. Employees are entered into the Plan on the first day of the month following the completion of eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants, through an election to defer compensation, may contribute to their individual accounts from 1% to 85% of eligible earnings, up to a maximum of $16,500 as defined in the Plan document and by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to an extra $5,500 each year for 2010. After 2010, this limit will be adjusted for inflation. Participants may also rollover amounts representing distributions from other qualified benefit plans. The Company may elect to make a matching contribution to the plan. However, the Company did not make any discretionary matching contributions during the year 2010.

Vesting

Participants are always fully vested in their elective deferral and rollovers, if any. For the purpose of Matching Contributions and Non-elective contributions account, the following vesting schedule is used:

Years of Service	Vested %
Less than 2 years	0%
At least 2 years, but less than 3	20%
At least 3 years, but less than 4	40%
At least 4 years, but less than 5	60%
At least 5 years, but less than 6	80%
6 years or more	100%

1) DESCRIPTION OF THE PLAN - (Continued)

Participant Accounts

Participants may elect to invest in any combination of the funds offered by the Plan and may change their elective deferral percentage any time. Each participant's account is credited with the participant's contributions and accumulated earnings thereon and will be tax-deferred until participants receive distribution.

Payment of Benefits

The Plan generally provides that upon reaching the normal retirement age of 65, death, disability or termination, participants are entitled to receive the value of their account in one lump sum payment of cash if the individual account is less than $5,000. If the value of the individual account exceeds this amount the participants may elect to keep it in the Plan, however the benefit must begin to be distributed no later than April 1st of the calendar year following the later of the participant attaining the age of 70 ½ or the calendar year in which the participant retires.

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1-5 years and longer repayment terms are permitted for the purchase of a principal residence. The loans are secured by the balance in the participant's account. The interest rate for a loan will be the rate in effect in the month the loan is effective. The interest rate is the prime rate as published in the Wall Street Journal on the 14th of each month plus two percentage points. Principal and interest is paid ratably through payroll deductions.

Forfeitures

At December 31, 2010 and 2009, there were no forfeited non-vested accounts balances.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, amend or modify the Plan and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2) SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Income Recognition

Investments are reported at fair value. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See the "Fair Value Measurements" note for further discussion. The realized gain or loss on sale of investments is the difference between the proceeds received and the average cost of investments sold.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments for such investments.

Fair Value Measurements

Financial Accounting Standards Board Statement Accounting Standard Codification (ASC) 820, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

2) SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurements (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liabilities;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is the description of the valuation methodologies used for assets measured at fair value:

Mutual Fund/Interest in Common Collective Trust: Valuation based on quoted market price in active markets.

Interest in Common Collective Trust: Valuation based on quoted prices for similar assets in active markets.

Government Money Market: Valuation based on Multicurrency Horizon at amortized cost.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

3) INVESTMENTS

All investment information disclosed in the accompanying financial statements and schedule including investments held at December 31, 2010 and 2009 and net realized and unrealized appreciation/depreciation in fair value of investments in Registered Companies, general accounts and interest income for the years ended December 31, 2010 and 2009 were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee. Investment information for the Plan, which was certified by the Trustee of the Plan, has not been audited by independent auditors.

The Plan's pooled separate accounts (including investments purchased, sold as well as held during the year) appreciated in fair value by $67,918 and 68,069 as determined by quoted market prices for the year ended December 31, 2010 and 2009 respectively.

The following investments represent 5% or more of the Plan's net assets available for benefits at December 31, 2010 and 2009:

	2010	2009
Government Money Market	$ 170,874	$ 140,921

Templeton Growth	44,099	26,359

4) FAIR VALUE MEASUREMENTS

The following table sets forth by level, within the fair value hierarchy (as described in Note 1), the Plan's assets at fair value as of December 31, 2010 and December 31, 2009:

	Level 1	Level 2	Level 3	Total

Total Assets at Fair Value	$ 381,091	$ 279,900	$ -	$ 660,991

4) FAIR VALUE MEASUREMENTS (Continued)

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total

Interest in Common Collective Trust	-	215,910	-	215,910
Government Money Market	140,921	-	-	140,921
Total Assets at Fair Value	$ 269,784	$ 215,910	$ -	$ 485,694

5) INCOME TAX STATUS

The Plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008 stating that the written form of the underlying Prototype Non-Standardized Profit Sharing with CODA plan document is qualified under Section 401(a) of the Internal Revenue Code (the Code), and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6) TRANSACTIONS WITH PARTIES-IN-INTEREST

Fees paid by the Plan to the trustee, other administrative services, and by the Company for legal and accounting fees rendered by parties-in-interest were based on customary and reasonable rates for such services.

7) PAYMENT OF BENEFITS

Benefits are recorded when paid.

8) ERISA BOND REQUIREMENTS

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets, and is required to be at least equal to the lesser of 10% of the plan's assets at the beginning of the plan year or $500,000. At December 31, 2010 and 2009, the Plan's sponsor maintained the required bond coverage.

9) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per financial statements at December 31, 2010 and 2009 to form 5500:

	2010	2009
Net Assets Available for Benefits per Financial Statements	$ 666,184	$ 489,234
Less: Contributions Receivable not reflected in Form 5500 Participants' Contributions	(5,193)	(3,540)
Net Assets Available for Benefits per Form 5500	$ 660,991	$ 485,694

10) SUBSEQUENT EVENTS

The Plan has evaluated all subsequent events through October 3, 2011 the date the financial statements were available to be issued. No significant event was noted that required adjustment or disclosure in the financial statements.
