Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

The Participants and Plan Administrator
Amersham Biosciences Corp Retirement Plan:

We were engaged to audit the accompanying statements of net assets available for plan benefits of the Amersham Biosciences Corp Retirement Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 25200.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in note 3 which was derived from information certified by The Northern Trust Company, the Trustee of the Plan, except for comparing such derived information with the related information included in the financial statements. We have been informed by the Plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the Trustee as of December 31, 2010 and 2009 and for the years then ended that the information provided to the Plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Description of the Plan

The following description of the Amersham Biosciences Corp Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

(a) General

Amersham Biosciences Corp is a wholly owned subsidiary of Amersham Pharmacia Biotech Ltd., which is owned by Amersham plc (formerly Nycomed Amersham plc). On April 8, 2004, General Electric Capital Corporation whose ultimate parent is General Electric Company (GE) acquired Amersham plc. The Plan was established on July 1, 1998, as a defined benefit pension plan covering all employees of Amersham Biosciences Inc. and its affiliates, as defined, (the Company). The Plan provides participants with a lifetime income in retirement and the opportunity to continue payments for life to a surviving spouse or under certain conditions a specific designee following the participant's death during retirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Prior to November 28, 2004, all employees of the Company who have attained 21 years of age and are credited with one year of service, as defined, were eligible to participate in the Plan. Included among employees covered by the Plan as of July 1, 1998 were former employees of Pharmacia Biotech Inc. and Amersham Life Sciences, Inc. who were employees of the Company on July 1, 1997.

The Company and The Northern Trust Company (the Trustee) entered into a defined benefit plan master trust agreement, effective February 1, 1999 creating a master trust (the Master Trust) for the Plan, the Amersham Health Retirement Plan and the Amersham Health Puerto Rico, Inc. Pension Plan.

On November 28, 2004 (Freeze Date) benefit of accruals in the Plan ceased. At that time, employees began accruing benefits under the GE Pension Plan. The pay and service amounts used to calculate benefits were frozen on that date resulting in accrued benefits that will not change over time. However, participants will still be able to become eligible for early retirement as they continue to work for GE and are accruing benefits under the GE Pension Plan.

(b) Vesting

Participants with five years of vesting service, as defined by the Plan, or who have reached age 65 are 100% vested and are entitled to pension benefits upon retirement. All participants, regardless of service level were fully vested in their accrued benefits as of the Freeze Date.

(c) Pension Benefits

The Plan provides for normal retirement benefits upon reaching age 65 calculated up to November 28, 2004. Normal retirement benefits under the Plan for all participants are determined based on the sum of 1.25% of the participant's final average monthly compensation (highest average monthly compensation, as defined in the Plan document, multiplied by years of service, as defined

(not to exceed 35) and 0.40% of final average monthly compensation in excess of covered compensation, as defined, multiplied by years of credited service, as defined. In addition, retirement benefits for certain participants who had met defined age and service requirements prior to July 1, 1998, are determined based on various other formulas, as defined. Benefit amounts were frozen as of November 28, 2004 using salary and service levels through that date. Vested participants may elect early retirement between the ages of 55 and 65. However, benefits will be reduced by a percentage for each month that the retirement benefit starting date precedes age 65. The Plan also has provisions for disability and death benefits. Participants may elect to receive their pension benefits in various annuity forms.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management of the Plan to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan records its interest in the Master Trust based on the contributions, benefit payments and it's proportionate interest in investment income of the Master Trust, which includes net appreciation (depreciation) in the fair value of investments.

The following are the investment valuation and income recognition policies of the Master Trust.

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Purchase and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(d) Payment of Benefits

Benefit payments to participants are recorded when paid.

(e) Administrative Expenses

Administrative expenses are generally paid by the Company. Certain expenses, such as investment management fees were paid by the Master Trust or Plan as allowed, per the Master Trust and Plan documents.

(Continued)

(f) Plan Administration

The Plan is administered through Nycomed Master Trust in accordance with the Master Trust Agreement between the Company and the Northern Trust Company, the Trustee. The Master Trust is supervised by the Joint Qualified Retirement Plans Committee as appointed by the Board of Directors of the Company.

(g) New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Codification (ASC) Update 2010-06, *Fair Value Measurements and Disclosures*, (Topic 820) – *Improving Disclosures about Fair Value Measurements.* This guidance requires: (i) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (ii) disclosure, on a gross basis, of purchases, sales, issuances, and net settlements within Level 3; (iii) disclosures by class of assets and liabilities; and (iv) a description of the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. This guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010. Management of the Plan does not expect this change to have a material impact on the financial statements. The adoption of this guidance is reflected, where applicable, throughout the notes of the financial statements.

(3) Information Certified by The Northern Trust Company (Unaudited)

The information presented in this note and the "Fair Value Measurements" note (note 4) below was derived from such investment information that was certified as complete and accurate by The Northern Trust Company, the Trustee, and was not subject to auditing procedures by the Plan's independent auditor as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Effective February 1, 1999, the Company formed the Nycomed Amersham Master Trust in accordance with a Master Trust agreement with The Northern Trust Company, the Trustee. Under the Master Trust Agreement, the use of a master trust permits the commingling of various investments that fund company-sponsored defined benefit plans for investment and administrative purposes. Although assets are commingled in the Master Trust, the Trustee maintains records for the purpose of allocating contributions and changes in net assets of the Master Trust to individual participating plans based upon each plan's proportionate interest in the Master Trust.

The following table presents the net assets of the Master Trust:

		2010	2009
Investments at fair value:			
Common and collective trusts – U.S. equity	$	125,805,770	101,963,705

(4) Fair Value Measurements

The Plan adopted ASC 820, *Fair Value Measurements and Disclosures*, for all financial instruments accounted for at fair value on a recurring basis. ASC 820 requires fair value to be determined based on the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. ASC 820 establishes a three-level valuation hierarchy based upon observable and nonobservable inputs.

For financial assets and liabilities, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets and liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 – Quoted prices for identical investments in active markets.

Level 2 – Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.

Level 3 – Significant inputs to the valuation model are unobservable.

The Master Trust maintains policies and procedures to value investments using the best and most relevant data available. The following section describes the valuation methodologies used to measure investments at fair value.

When available, quoted market prices are used to determine the fair value of investment securities, and they are included in Level 1. Level 1 investments of the Master Trust primarily include mutual funds and common stock.

When quoted market prices are unobservable, quotes from independent pricing vendors are used based on recent trading activity and other relevant information including market interest rate curves, referenced credit spreads and estimated prepayment rates where applicable. These investments are included in Level 2. The Master Trust's ownership in the collective fund is carried at fair value based on the investment's net asset value per unit and included in Level 2.

In infrequent circumstances, the pricing vendors may provide valuations that are based on significant unobservable inputs, and in those circumstances the Master Trust classifies the investment securities in Level 3. Level 3 investments primarily include real estate investment trust fund. Level 3 valuations are derived from other valuation methodologies including pricing models, discounted cash flow models and

(Continued)

similar techniques. Level 3 valuations incorporate subjective judgments and consider assumptions including capitalization rates, discount rates, cash flows and other factors that are not observable in the market. The Master Trust owns limited partnership interests in the real estate investment trust fund and is valued at estimated fair value as determined by the investment manager of the Master Trust based on the fair values of the underlying investments in the portfolio.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values of the Master Trust investments. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the investments in the Master Trust measured at fair value on a recurring basis at December 31, 2010:

	Fair value measurement using input type

* Represents less than $500 and rounds to $0.

As discussed in note 3, these tables were derived from information that was certified as complete and accurate by The Northern Trust Company, the Trustee of the Plan.

The following table sets forth a summary of changes in the fair value of the Master Trust's Level 3 assets for the real estate investment trust fund:

	Year ended December 31	
	2010	**2009**
	(In thousands)	
Real estate investment fund:		
Balance, beginning of year	$ 6,616	8,511
Realized gains (losses)	(2)	44
Unrealized gains (losses)	508	(2,432)
Purchases, sales, issuances, and settlements (net)	358	493
Balance, end of year	$ 7,480	6,616

Transfers in and out of are considered to occur at the beginning of the period. There were no such transfers during 2010 and 2009. The realized and unrealized gains and losses indicated above are included in the Plan's interest in Nycomed Amersham Master Trust investment income in the Statements of Changes in Net Assets Available for Plan Benefits.

Management of the Plan has concluded that the net asset value reported by the underlying real estate fund approximates the fair value of the investment. These investments are redeemable at their net asset value, however; withdrawals are subject to the availability of cash arising from net investment income, allocations and the sale of investments in the normal course of business by the investee.

(5) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their average compensation during the three or five years, dependent on the participant's credited service and Plan entry prior to the Freeze Date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

An actuarial firm determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discount for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

A summary of significant actuarial assumptions used in preparing the actuarial valuations as of December 31, 2009 is as follows:

Interest rate	8.00%
Mortality	RP-2000 Combined Healthy Mortality Table
Actuarial funding method	Projected Unit Credit Cost Method

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan terminates, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2009, as determined by the consulting actuary, Aon Hewitt are as follows:

Vested benefits:		
Participants currently receiving payments	$	7,914,731
Other participants		27,732,829
Total vested plan benefits		35,647,560
Nonvested benefits		691,840
Total actuarial present value of accumulated plan benefits	$	36,339,400

(Continued)

The changes in the actuarial present value of accumulated plan benefits, for the year ended December 31, 2009 are as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	$	34,311,215
Benefits paid		(909,546)
Interest accumulation		2,709,215
Normal operation of pension plan		228,516
Actuarial present value of accumulated plan benefits, at end of year	$	36,339,400

(6) Risks and Uncertainties

The assets of the Master Trust are principally made up of investment funds. The funds invest in common stock, mutual funds, real estate, U.S. government and corporate securities, and money market funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Plan Benefits.

The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(7) Funding Policy

The Company contributes such amounts as calculated on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to participants. The Company contributed $5,650,000 and $350,000 for the years ended December 31, 2010 and 2009, respectively, and met the minimum funding requirement for both years.

The Pension Protection Act (PPA), as amended, required a change in method for determining contributions for the 2010 plan year. PPA mandates use of the accrued benefit funding method with liabilities valued using interest rates determined from a high quality corporate bond yield curve. The Company will continue to make future contributions to the Plan as required by ERISA.

(8) Plan Termination

The Company expects to continue the Plan and the corresponding trust indefinitely but reserves the right to terminate it in whole or in part at any time by resolution of the board of directors subject to the provision of Internal Revenue Code (IRC) and ERISA.

In the event of termination of the Plan, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide benefits in the following order:

i. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.

ii. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency), up to applicable limitations (discussed below).

iii. All other vested benefits (that is, vested benefits not insured by the PBGC).

iv. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefits that PBGC guarantees. For Plan terminations occurring during 2011 that ceiling is $4,500 per month. The ceiling applies to those pensioners, who elect to receive their benefit in the form of a single life annuity and are at least 65 years old at the time of retirement or plan termination (whichever occurs later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single life annuity, the corresponding ceiling is adjusted downward.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

(9) Income Tax Status

The Company is in the process of obtaining an updated tax favorable determination letter from Internal Revenue Service that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provision of the IRC. Therefore, there is no provision for income taxes recorded in the Plan's financial statements.

Accounting Standards Codification ("ASC") 740, Income Taxes, provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements. ASC 740 requires evaluation of tax positions taken or expected to be taken in the course of preparing the Trust's tax returns to determine whether the tax positions are "more likely than not" of being sustained by the applicable tax authority. In applying ASC 740, the management of the Trust and Plan concluded that there was no material impact on the Trust's or the Plan's net assets and financial statements. The Trust and Plan's 2007, 2008, 2009, and 2010 calendar year tax returns are still open to examination by the federal and applicable state tax authorities.

(10) Related Party Transactions (Parties-in-Interest)

Plan investments within the Master Trust include certain units of common and collective trusts, which are managed by The Northern Trust Company. The Northern Trust Company is the Trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

(11) Subsequent Events

Subsequent events were evaluated by the Plan in preparation of the financial statements through October 14, 2011, the date the financial statements were available to be issued. There were no events that occurred subsequent to December 31, 2010 that would require recognition or disclosure in the Plan's financial statements.

Surviving Spouse Benefit	It is assumed that 90% of males and 50% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of $195,000.
Valuation of Plan Assets	Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value. A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, Part V—Summary of Plan Provisions

Amersham Biosciences Corp adopted the Amersham Biosciences Corp Pension Plan as of July 1, 1998.

Plan Freeze

Effective November 28, 2004 the plan was frozen and all participants were fully vested in their accrued benefits based on pay and service up to the freeze date.

Participation

Employees of the Company become participants after completing one year of service and attaining age 21.

Former Amersham and Pharmacia participants became participants on July 1, 1998.

Normal Retirement Benefits

Eligibility

Age 65.

Benefit

The monthly normal retirement benefit is the greater of (1), (2), (3), or (4).

(1) All Participants:

(a) 1.25% of final average monthly compensation times years of credited service (maximum 35), plus

(b) 0.40% of final average compensation in excess of covered compensation multiplied by years of credited service (maximum 35).

(2) Former Amersham participants who were age 55 with ten years of service as of 12/31/1996:

2.00% of final average monthly compensation times years of credited service (maximum 30).

(3) Former Amersham participants who were age 55 with five years of service as of 12/31/1998:

1.67% of final average monthly compensation times years of credited service (maximum 35).

(4) Prior plan accrued benefit as of 6/30/1998.

Early Retirement Benefits	
Eligibility	Participants who terminate employment after age 55 with five years of vesting service.
Benefit	The monthly benefit is computed as for normal retirement and reduced by 4/12% for each month by which payments precede age 62. The monthly benefit for former Amersham participants who are eligible to receive benefits under (2) above is reduced by 5/12% for each month payments precede age 65.
Deferred Vested Retirement Benefits	
Eligibility	Five years of vesting service.
Benefit	The monthly benefit is computed as for normal retirement; payments may begin as early as age 55 with the benefit reduced by 5/12% for each month in which payments precede age 65.
Automatic Preretirement Surviving Spouse Benefit	
Eligibility	Five years of vesting service or attainment of age 65.
Benefit	One-half of the benefit the participant would have received had he separated from service on the day of his death (if active); survived to his earliest retirement age; and retired with an immediate 50% joint and survivor annuity.
Normal Form of Benefit	For unmarried participants, the normal form of benefit is a life annuity. For married participants, the normal form is an actuarially reduced 50% joint and survivor annuity.
Disability Benefits	
Eligibility	Participation in long-term disability plan.
Benefit	Continued accrual of vesting and credited service.
Definitions	
Monthly Compensation	Compensation including overtime, bonuses and commissions but excluding moving expenses, severance allowances, deferred compensation, car allowance, imputed income, retention bonuses, and perquisite pay, subject to the 401(a)(17) limits.

Final Average Compensation	Highest monthly average obtained when the sum of any 60 consecutive monthly compensation amounts during the participant's final 120 months of employment is divided by 60. If the participant has worked fewer than 60 months, the sum of his monthly compensation for his entire employment period is divided by the number of complete months for which he was compensated.
Credited Service	Service for the accrual of benefits. One year of service is credited for each plan year in which the employee completes 1,000 Hours of Service. If, in the plan year of termination, the employee completes less than 1,000 hours of service, 1/12 of a year will be credited for each month in which the employee worked beyond the 14th of the month. For former Amersham participants, service will include years of credited service that were credited on June 30, 1998 under the Amersham Pension Plan, provided that any Amersham participant not credited with a year of credited service under the Amersham Pension Plan for the period January 1, 1998 through June 30, 1998 will be credited with an additional year of credited service provided he is credited with at least 1,000 hours of service during 1998. For former Pharmacia participants, service will include years of credited service that were credited on June 30, 1998 under the Pharmacia U.S. Inc. Retirement Plan, provided that any Pharmacia participant who is not credited with a year of credited service under the Pharmacia U.S. Inc. Plan for the period from January 1, 1998 through June 30, 1998 will be credited with an additional year of credited service if he is credited with at least 1,000 hours of service during 1998.
Vesting Service	Service for the purpose of determining whether a participant has a nonforfeitable right to a benefit under the plan. One year of Vesting Service is credited for each plan year in which the employee completes 1,000 hours of service.

The January 1, 2010 funding valuation reflects the following plan change:

An update to the mortality and interest rates for determining minimum lump sum payments under IRC section 417(e)(3) to the applicable rates for the current plan year.

Schedule SB, line 25—Change in Funding Method

The funding valuation reflects the following method change:

- A change in the interest rate basis from the full yield curve with a two-month lookback (as of October 2008) to segment rates with a four-month lookback (as of September 2009).

These changes have automatic approval under final regulations, Notice 2009-22 or other IRS guidance.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
