REPORT OF INDEPENDENT AUDITORS

To the Pension Committee of the
National Starch LLC Retirement Savings Plan
Westchester, Illinois

We were engaged to audit the financial statements and supplemental schedule of the National Starch LLC Retirement Savings Plan (the Plan) as of December 31, 2010 and for the year then ended, as listed in the accompanying contents page. These financial statements and the supplemental schedule are the responsibility of the Plan's management. The statement of net assets available for benefits of the Plan as of December 31, 2009, was reported on by other auditors whose report dated February 14, 2011, disclaimed an opinion for the same reasons described in the following paragraph.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan and the National Starch Savings and Retirement Plan Master Trust in which the Plan has a beneficial interest, except for comparing such information with the related information included in the 2010 financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the investment assets of the Plan and the National Starch Savings and Retirement Plan Master Trust and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2010 and for the year then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information we did not audit, we are unable to, and do not, express an opinion on the accompanying 2010 financial statements and supplemental schedule taken as a whole. The form and content of the information included in the 2010 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NATIONAL STARCH LLC RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - PLAN DESCRIPTION

The following brief description of the National Starch LLC Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering eligible full time and part time employees of National Starch LLC (the Company) in the United States. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On June 21, 2010, Akzo Nobel announced the sale of National Starch LLC to Corn Products International. The transaction was completed on October 1, 2010. Corn Products International has assumed certain pension and employee benefits liabilities.

Contributions: Each year, participants may contribute up to 25 percent of pretax eligible compensation and up to 12 percent of after-tax eligible compensation, as defined by the Plan. Participants, who are age 50 or older, can also contribute on a catch-up basis from 1 to 50 percent of eligible compensation, not to exceed \$5,500 for 2010. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company makes matching and retirement contributions based on the elective contributions made by the participants or based on participant compensation, as defined by Plan provisions. Participants enroll by contacting Fidelity Management Trust Company directly either by phone or online. Contributions are subject to limitations.

Participant Accounts: Each participant's account is credited with the participant's contribution, Company matching contribution, Company retirement contribution, if applicable, and allocations of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and Company matching contributions plus actual earnings thereon. Participants will vest in their Company retirement contributions plus earnings thereon upon the completion of three years of service.

Forfeitures: At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$48,874 and \$11,717, respectively. Forfeitures are used to reduce Company contributions. During 2010, no forfeitures were used to reduce Company contributions.

Investment Options: Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Payment of Benefits: Upon termination of service including due to death, disability, retirement or termination of employment, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or periodic partial distributions, as defined by the Plan document.

Fund Transfers: During 2010, certain assets related to participant transfers between the Plan and other plans sponsored by the Company have been transferred in and out of the Plan due to participant job transfers and business unit divestitures.

NOTE 1 - PLAN DESCRIPTION (Continued)

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance reduced by the participant's highest outstanding loan balance of the past 12 months. A participant may have up to two loans outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at the prime rate as of the last day of the calendar quarter preceding the quarter in which the loan becomes effective, plus 1 percent. Interest rates range from 4.25 percent to 10.50 percent. Principal and interest are paid ratably through payroll deductions.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: Investments are reported at fair value. The Plan's interest in the National Starch Savings and Retirement Plan Master Trust (Master Trust) is stated at estimated fair value based on the specific interest that each plan has in the underlying participant directed investment options. Assets, investment income, and administrative expenses are allocated to the individual plans in the Master Trust based upon their interest in each of the underlying participant directed investment options. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

As of December 31, 2009, the Plan invested in the Long-Term Income Fund through the Master Trust. The Long-Term Income Fund invests in guaranteed investment contracts from various insurance companies and cash. The Long-Term Income Fund is stated at contract value, as all contracts within the fund are considered benefit responsive. Contract value represents contributions made under the contract plus interest accrued at the contract rate less any withdrawals. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the Master Trust as well as the adjustment of the investment in the Master Trust from fair value to contract value relating to the underlying investments of the Long-Term Income Fund. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. As of December 31, 2010, the Plan no longer invests in the Long-Term Income Fund.

As of December 31, 2009, the Master Trust invested in the Akzo Nobel Fixed Income Fund. The Akzo Nobel Fixed Income Fund is stated at contract value, as all contracts within the fund are considered benefit responsive. Contract value represents contributions made under the contract plus interest accrued at the contract rate less any withdrawals. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Akzo Nobel Fixed Income Fund invests in synthetic guaranteed investment contracts (synthetic GICs), which are comprised of collective trusts, registered investment companies, and wrapper contracts. At December 31, 2010, the Master Trust no longer held the Akzo Nobel Fixed Income Fund.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment income and losses relating to the Master Trust are allocated to individual plans based upon the underlying assets invested by each plan.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund at December 31, 2010.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Reclassification: Certain amounts in the prior year have been reclassified to conform to the current year presentation.

NOTE 3 - -- UNAUDITED INFORMATION -- CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's and Master Trust's (Note 5) investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan and the Master Trust. This information has not been audited by independent accountants.

The following presents the fair value of investments that represent 5 percent or more of the Plan's net assets available for benefits:

	<u>2010</u>	<u>2009</u>
Plan interest in Master Trust		
National Starch Savings and Retirement Plan Master Trust	\$ 91,110,246	\$ 82,823,730

During 2010, the Plan's interest in Master Trust income was \$8,963,478, including gains and losses on investments bought and sold, as well as held during the year, and interest and dividend income and interest earned on notes receivable from participants.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan and those held as underlying investments of the Master Trust.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Plan Interest in Master Trust: The fair value of the Plan's interest in the Master Trust reflects the Plan's interest in the fair value of the underlying net assets of the Master Trust.

Registered investment companies (Level 1): The fair values of registered investment companies are determined by obtaining quoted market prices on nationally recognized securities exchanges.

Guaranteed investment contracts (Level 3): The Long-Term Income Fund holds guaranteed investment contracts which are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Collective trusts (Level 2): The fair values of participation units held in collective trusts, other than stable value funds, are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. The Lifecycle 2010-2025 Funds are comprised of stocks and fixed income securities that are tailored to the horizon of the fund, which is two years plus or minus that of the name of the fund. As of December 31, 2010, these funds' investments were balanced between equity and fixed income.

The Lifecycle 2030-2050 Funds are comprised of stocks and fixed income securities that are tailored to the horizon of the fund, which is two years plus or minus that of the name of the fund. As of December 31, 2010, these funds' investments were more heavily weighted towards equity securities.

The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund. The investment objective of the stable value collective trust fund is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. To achieve its investment objective, the collective trust fund invests typically in guaranteed investment contracts, synthetic investment contracts, separate account contracts and short term investment funds, and enters into "wrapper" contracts issued by third-parties.

The collective trusts provide for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Wrapper Contracts (Level 2): The fair values of wrapper contracts are based on information reported by Vanguard Fiduciary Trust Company based upon the terms of the individual wrapper contracts and re-bid pricing.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

See Note 5 for assets and liabilities of the Master Trust measured at fair value on a recurring basis.

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 6 - INVESTMENT IN LONG-TERM INCOME FUND

At December 31, 2009, the Long-Term Income Fund (the Fund) of the Master Trust is principally invested in guaranteed investment contracts.

The guaranteed investment contracts are composed of underlying assets, which are contracts that enable withdrawals to be made at contract value, rather than at the fair value of the underlying assets. Contract crediting rates for guaranteed investment contracts are reset at least quarterly, as specified in the respective contracts, and will have an interest crediting rate not less than zero percent.

The average yield of the guaranteed investment contracts was 5.09% in 2009.

NOTE 7 - INVESTMENT IN AKZO NOBEL FIXED INCOME FUND

At December 31, 2009, the Akzo Nobel Fixed Income Fund (the Fund) of the Master Trust is principally invested in synthetic investment contracts.

The synthetic investment contracts are composed of underlying assets and "wrappers," which are contracts that enable withdrawals to be made at contract value, rather than at the fair value of the underlying assets. The contracts have underlying assets invested in collective trust funds and shares of registered investment companies. Contract crediting rates for synthetic investment contracts are reset at least quarterly, as specified in the respective contracts, and will have an interest crediting rate not less than zero percent.

The average yield of the synthetic GICs was 3.41% in 2009.

NOTE 8 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions and earnings thereon.

NOTE 9 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Master Trust holds units of registered investment companies managed by Fidelity Investments, affiliate of the trustee. Fidelity Management Trust Company (Fidelity) is the trustee of the Plan and Master Trust and, therefore, these transactions and the Plan's payment of trustee fees to Fidelity qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions. Some administrative expenses of the Plan are paid directly by the Company.

NOTE 10 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 22, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 11 - RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500.
