Notes To Financial Statements

Note 1. Plan Description

The following description of the Halcore Group, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all employees of Halcore Group, Inc. (the "Company") who are a member of an eligible group as defined, who have one year of continuous service as defined, and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan merger:

Management of the Plan agreed to merge the Plan into the ASV 401(k) Retirement Plan, a defined contribution plan sponsored by the Allied Specialty Vehicles (Parent Company), effective January 1, 2011. Plan assets transferred to the ASV 401(k) Retirement Plan totaled approximately \$9,660,000.

Contributions:

Participants may contribute a percentage of their wages, as defined in the Plan agreement, up to the maximum annual Internal Revenue Service limitation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may, at the discretion of the Board of Directors, elect to contribute to the Plan. The Company currently matches 50% of employee contributions up to the first 4% of base compensation that an employee contributes to the Plan. Company contributions are invested in a manner consistent with the participants' contributions. Contributions are subject to certain limitations.

Participant accounts:

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, if any, (b) Plan earnings or losses and charged with an allocation of certain administrative expenses. Allocations are based on account balances or employee compensation, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous vesting service, as defined by the Plan. A participant is 100% vested after five years of credited service, upon death or total and permanent disability or attaining retirement age as defined.

Forfeitures:

Forfeited accounts will be used first to refund prior forfeited amounts to re-employed participants, second to cover cost of administration of the Plan, and then to reduce the employer's matching contributions. At January 1, 2011, December 31, 2010 and December 31, 2009, forfeited non-vested accounts totaled approximately none, \$10,000, and \$16,000 respectively. During the period ended January 1, 2011 and year ended December 31, 2010, approximately none and \$6,000 respectively, of forfeitures were used to reduce administrative expenses.

Halcore Group, Inc. 401(k) Profit Sharing Plan

Notes To Financial Statements

Payment of benefits:

Upon termination of employment for any reason including retirement, or in the event of a participant's death, the participant or the decedent's beneficiary may elect to receive a lump-sum amount. Benefit payments are recorded when paid.

Administration of Plan assets:

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses were paid directly by the Company.

Subsequent events:

The Plan Sponsor has evaluated subsequent events for potential recognition and/or disclosure through October 27, 2011, the date the financial statements were available to be issued.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See below for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Fair value measurements:

Accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 Measurements) and the lowest priority to unobservable inputs (Level 3 Measurements). The three levels of the fair value hierarchy are described below:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Halcore Group, Inc. 401(k) Profit Sharing Plan

Notes To Financial Statements

- Level 2** Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 1, 2011, December 31, 2010, and December 31, 2009.

Shares of Registered Investment Companies: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3. Investments and Information Certified by MG Trust Company, LLC ("MG Trust")

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by MG Trust, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following table presents Plan assets as certified by MG Trust at January 1, 2011, December 31, 2010 and December 31, 2009. Investments that represent 5% or more of the Plan's assets are separately identified.

Note 5. Related Party Transactions

Parties-in-interest are defined under Department of Labor (DOL) regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company and certain others. Certain professional fees for the administration of the Plan were paid by the Company on behalf of the Plan. During the period ended January 1, 2011 and the year ended December 31, 2010, the Plan paid approximately \$9,000 and \$17,000 respectively, of fees to General Pension Planning Corporation, the record keeper for the plan, which represents a party-in-interest transaction.

Note 6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 28, 2003 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes the Plan is designed and is currently being operated in accordance with the applicable provisions of the IRC.

The Plan's administrator has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2007.

Halcore Group, Inc. 401(k) Profit Sharing Plan

Notes To Financial Statements

Note 7. Non-Exempt Prohibited Transactions

During the year ended December 31, 2008, the Plan sponsor inadvertently failed to deposit approximately \$2,400 of participant deferrals within the required timeframe as stated by the United States Department of Labor ("DOL"). The DOL considers late deposits to be prohibited transactions. The applicable lost earnings connected with the late deposits were considered immaterial. The Plan sponsor resolved these prohibited transactions subsequent to December 31, 2010.
