Report of Independent Auditors

The Retirement Plans Committee
Behr America Cash Balance Pension Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Behr America Cash Balance Pension Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 5, which was certified by Comerica Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Behr America Cash Balance Pension Plan

Notes to Financial Statements

December 31, 2010

1. Description of the Plan

The Behr America Cash Balance Pension Plan (the Plan) was established May 1, 2002. The Plan is a noncontributory, defined-benefit plan that covers substantially all employees of Behr America, Inc. (the Company) and provides for retirement and death benefits. Participants should refer to the plan document and the Summary Plan Description for a more complete description of the Plan's provisions, including vesting and benefit provisions. Copies of the Summary Plan Description document are available from the Human Resources Department of the Company.

General

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan has met the ERISA minimum funding requirements for 2010 and 2009. The current funding policy of the Plan is to make contributions at least equal to the minimum amounts required under ERISA and the Pension Protection Act. The Company may, at its discretion from time to time, make additional contributions to the Plan.

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

Master Trust

Effective January 1, 2009, assets of the Plan, as well as assets of other defined-benefit plans of the Company, are administered under the terms of a trust agreement (the Master Trust) between the Company and Comerica Bank (the Trustee). The agreement provides, among other things, that the Trustee safekeeps all investments and accounts for all investments, receipts, disbursements, benefit payments, and other transactions. The value of the Plan's interest in the Master Trust is based on the beginning-of-year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and administrative expenses, as well as certain allocated administrative expenses. Investment income and certain administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative Expenses

Certain administrative expenses of the Plan, such as services performed by officers, employees, or subcontractors of the Company, have been paid by the Company on behalf of the Plan, while other administrative expenses, such as fees paid to the Trustee of the Plan, were paid by the Plan during 2010 and 2009.

Investment Valuation and Income Recognition

The Plan's investments held in the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend rate.

2. Significant Accounting Policies (continued)

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended certain of the disclosures required under Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*. The guidance in ASU 2010-06 clarifies that disclosures should be presented separately for each “class” of assets and liabilities measured at fair value and provides guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarifies the requirement for entities to disclose information about both the valuation techniques and the inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan’s net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan’s financial statements.

3. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries and present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries and the accumulated plan benefits for active employees are determined based on an employee's accumulated credited years of service ending on the date as of which the benefit information is presented. Benefits payable under all circumstances – retirement, death, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Actuaries from Hewitt Associates estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment. The accumulated plan benefit information is determined by the Plan's actuary as of the beginning of the plan year.

The accumulated plan benefit information is as follows:

	December 31, 2009
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 62,576
Participants with deferred benefits	2,029,836
Other participants	6,536,584
Total vested benefits	8,628,996
Nonvested benefits	100,257
Total actuarial present value of accumulated plan benefits	<u>\$ 8,729,253</u>

Behr America Cash Balance Pension Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits

A reconciliation of the changes in the actuarial present value of accumulated plan benefits is summarized as follows:

	Year Ended December 31, 2009
Actuarial present value of accumulated plan benefits at beginning of year:	\$ 8,783,042
Increase (decrease) during the year attributable to:	
Benefits accumulated	1,706,260
Benefits paid	(2,764,630)
Interest	593,898
Assumption changes	(250)
Plan amendments	410,933
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 8,729,253</u></u>

Significant assumptions underlying the actuarial computations are:

Actuarial cost method	Projected Unit Credit Cost Method
Discount rate and rate of return	8.00%
Retirement rate	Active participants: ranges from 7.5% at age 55 to 100% at age 70
	Terminated vested participants: immediate lump sum
Mortality table	RP2000 Combined Healthy Mortality Table Projected with Scale AA to 2011
Salary increases	3.00%

Behr America Cash Balance Pension Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity. Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

Behr America Cash Balance Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Short-term investments, debt securities, and equity securities: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2010:

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan's contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

7. Related-Party Transactions

Certain of the Plan's assets are invested in funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 18, 2005, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related Master Trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Behr America Cash Balance Pension Plan

Notes to Financial Statements (continued)

8. Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 14, 2011, the date the financial statements were available to be issued.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2008 Plan Year

6.43%.

2009 Plan Year

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption change:

- The cash balance interest crediting rate was changed from 5.00% to 4.50%.

This change was made to better reflect the anticipated plan experience. The assumption change did not reduce the funding shortfall by more than \$50 million or 5% of the Funding Target; consequently, approval of the Commissioner is not required.

Schedule SB, line 25—Change in Funding Method

The funding valuation reflects the following method change:

- A change in the interest rate basis from the full yield curve with a two-month look-back (as of October 2008) to segment rates with a four-month look-back (as of September 2009).

This change has automatic approval under final regulations, Notice 2009-22 or other IRS guidance.

Interest is credited quarterly based on the lesser of:

- The return on 10-year Treasury constant maturities.
- The 417(e) interest rate.

for the second month of the preceding calendar quarter,
divided by four (On or after January 1, 2008, rate is
based on (a) above only). Minimum 3.70%.

Opening Cash Balance Account

\$0 for all participants.

Changes in Plan Provisions since the Prior Year

The funding valuation reflects the following plan changes:

- The valuation reflects immediate vesting for terminations occurring during 2008 and 2009.
- An update to the mortality and interest rates for determining minimum lump sum payments under IRC section 417(e)(3) to the applicable rates for the current plan year.
