Plan Administrator
Citation - Alabama Ductile Casting Company
Bargaining Unit 401(k) Retirement Plan
Brewton, Alabama

We were engaged to audit the financial statements of Citation - Alabama Ductile Casting Company Bargaining Unit 401(k) Retirement Plan as of January 11, 2011 and September 30, 2010, and for the period ended January 11, 2011, as listed in the accompanying contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of September 30, 2010 and January 11, 2011, and for the period ended January 11, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

As further discussed in Notes A, and B, to the financial statements, the Board of Directors of Grede Holdings LLC, the Plan's sponsor, adopted a corporate resolution to terminate the Plan and transfer plan assets to another company sponsored plan effective January 11, 2011. In accordance with the accounting principles generally accepted in the United States of America, the Plan used the liquidation basis of accounting in presenting the 2011 financial statements.

NOTE A - DESCRIPTION OF THE PLAN

The following description of Citation - Alabama Ductile Casting Company Bargaining Unit 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Plan Merger

During 2010, a corporate resolution was adopted to terminate the Plan as of January 11, 2011. All plan assets were transferred to another company sponsored plan.

General

The Plan is a defined contribution plan covering all eligible employees of Alabama Ductile Casting Company, a division of Citation Castings, Inc. (the Company), who are members of the Glass, Molders, Pottery, Plastic & Allied Workers International Union, Local 98. In February 2010, the Company and Grede, LLC formed a new company, Grede Holdings, LLC. Effective February 5, 2010, sponsorship of the Plan transferred from the Company to Grede Holdings, LLC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employees are eligible to participate in the Plan after completing three months of service and attaining age 18. Eligible employees can begin participating on the first day of each calendar quarter.

Contributions

Contributions to the Plan consist of participant elective deferral contributions and rollover contributions. Annual participant elective contributions, if any, may not exceed 12 percent of the participant’s cumulative compensation, as defined, during the Plan year. Participants’ contributions are subject to limits prescribed by the Internal Revenue Code (IRC). There are no employer matching contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Plan earnings or losses and administrative expenses. Allocations are based on participant account balances. Distributions and withdrawals are subtracted from the account balances when paid. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant contributions and rollover contributions become fully vested upon receipt.

Notes Receivable from Participants

Participants may borrow from their fund accounts any amount not to exceed the lesser of $50,000 or 50 percent of their account balance. The notes receivable from participants are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through weekly payroll deductions. Interest income is recorded on the accrual basis.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's interest in his or her account.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting. The Plan used the liquidation basis of accounting in presenting the 2011 financial statements.

On January 1, 2010, the Plan adopted the provisions of Accounting Standards Update ("ASU") No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*, which require loans to participants to be classified as notes receivable from participants and measured at their unpaid principal balance plus any accrued but unpaid interest. The guidance is effective for fiscal years ending after December 15, 2010, and retrospective application to all prior periods presented is required. The adoption of ASU No. 2010-25 did not have any impact on the Plan's financial condition.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in pooled separate accounts that are fully benefit-responsive, of which Principal Life Insurance Company is the custodian. According to the custodian, the fair market value of the pooled separate accounts is equal to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The guaranteed interest contract is included in the financial statements at fair value because it is not fully benefit-responsive. Fair value for the guaranteed interest certificates is calculated by comparing the year-end crediting rate to the contract rate. If the current year-end crediting rate is less than or equal to the contract rate, then the fair value is equal to the contract value. If the current year-end crediting rate is greater than the contract rate, then the contract value is reduced by the difference between the current market rate and the contract rate, multiplied by the number of years until maturity. Certain guaranteed interest contracts mature on the last day of a plan year and are reinvested in five-year contracts on the first day of the following plan year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses
The Company provides certain administrative and accounting services to the Plan at no cost and also pays certain other administrative expenses on behalf of the Plan and is not reimbursed by the Plan. Certain administrative expenses, including record keeping fees, have been paid by the Plan.

Payment of Benefits
Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Uncertain Tax Positions

On October 1, 2009, the Plan adopted the provisions of the Accounting Standards Codification (ASC) relating to uncertainty in income taxes. The guidance requires entities to assess their uncertain tax positions for the likelihood that they would be overturned upon Internal Revenue Service (IRS) examination. In accordance with this guidance, the Plan has determined that it does not have any positions at September 30, 2010 and January 11, 2011, that it would be unable to substantiate. Prior to implementation, disclosure requirements were governed by the guidance for contingencies.

The Plan has filed Form 5500, which is the annual return for employee benefit plans, for all years through September 30, 2010. Form 5500 filed for the years ended September 30, 2008, and thereafter remains subject to audit by taxing authorities.

Subsequent Events

Management has evaluated subsequent events and their potential effects on these financial statements through the date of the report.

NOTE C - INVESTMENT INFORMATION

All investment information disclosed in the accompanying financial statements, including investments held at January 11, 2011 and September 30, 2010, and net appreciation in fair value of investments and interest and dividends for the period ended January 11, 2011, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Principal Life Insurance Company (the custodian).

NOTE C - INVESTMENT INFORMATION - Continued

The following presents investments that represent five percent or more of the Plan's net assets at January 11, 2011 and September 30, 2010:

	2011	2010
Principal Guaranteed Interest Contract	$ -	$ 220,462
Principal Money Market Pooled Separate Account	-	185,256
Principal Bond and Mortgage Pooled Separate Account	-	103,761
Principal Government and HQ Bond Pooled Separate Account	-	61,290
Principal Large Cap S&P 500 Index Pooled Separate Account	-	102,548
Principal Diversified International Stock Pooled Separate Account	-	78,290

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated as follows:

Guaranteed interest contract	$ 79
Pooled separate accounts	42,333
Net appreciation in fair value of investments	$ 42,412

NOTE D - FAIR VALUE MEASUREMENTS

The Plan applies the provisions of ASC Topic 820, *Fair Value Measurements*. This standard defines fair value for financial reporting purposes as the price that would be received to sell an asset or paid to transfer a liability in an orderly market transaction between market participants at the measurement date (reporting date). Under the statement, fair value is based on an exit price in the principal market or most advantageous market in which the reporting entity could transact. This standard does not require new fair value measurements but does apply under other accounting pronouncements where fair value is required or permitted.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

For each asset and liability required to be reported at fair value, Plan management has identified the unit of account and valuation premise to be applied for purposes of measuring fair value. The unit of account is the level at which an asset or liability is aggregated or disaggregated for purposes of applying this standard. The valuation premise is a concept that determines whether an asset is measured on a stand-alone basis or in combination with other assets. For purposes of applying the provisions of this standard, the Plan measures its assets and liabilities on a stand-alone basis then aggregates assets and liabilities with similar characteristics for disclosure purposes.

This standard establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

- Level 2 - Valuations based on observable inputs, including quoted prices (other than Level 1) in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, such as interest rates, yield curves, volatilities and default rates, and inputs that are derived principally from or corroborated by observable market data.

- Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

If the determination of fair value measurement for a particular asset or liability is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. Plan management's assessment of the significance of a particular input to the fair value measurement requires judgment and considers factors specific to the asset or liability measured.

Following is a description of the valuation methodologies used for assets measured at fair value at September 30, 2010.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed interest contract: Valued based on the fair value methodology as described in Note B.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuations methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

A small portion of the Plan's financial instruments, including participant contributions receivable and notes receivable from participants, are not measured at fair value on a recurring basis. However, these instruments are carried at amounts that approximate fair value due to their liquid, or short-term, nature.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2010:

		Fair Value Measurements at Report Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3
Pooled separate accounts:				
Balanced/asset allocation	$ 61,061	$ -	$ 61,061	$ -
Fixed income	165,051	-	165,051	-
International equity	78,290	-	78,290	-
Large blend U.S. equity	143,881	-	143,881	-
Short-term fixed income	185,256	-	185,256	-
Small/mid U.S. equity	79,163	-	79,163	-
Owned real estate	43,510	-	-	43,510
Total pooled separate accounts	756,212	-	712,702	43,510
Guaranteed interest contract	220,462	-	-	220,462
	$ 976,674	$ -	$ 712,702	$ 263,972

The availability of observable market data is monitored to assess the appropriate classification for financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets for benefits. For the period ended September 30, 2010, there were no significant transfers in or out of levels 1, 2 or 3.

NOTE E - PLAN TERMINATION

Subject to the provisions of ERISA, the Company terminated the plan and transferred plan assets of $1,223,568 to another company sponsored plan effective January 11, 2011.

NOTE F - TAX STATUS

The Plan obtained its latest determination letter on February 12, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE G - RELATED PARTY TRANSACTIONS

Certain Plan investments are units of pooled separate accounts and a guaranteed interest contract managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian (see Note C) as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the record keeping services amounted to $1,766 for the period ended January 11, 2011.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
