NOTES TO FINANCIAL STATEMENTS
JANUARY 31, 2011

NOTE 1 - DESCRIPTION OF THE PLAN:-

General - The Plan is a defined contribution profit-sharing plan covering those employees who elect to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Frederick C. Smith Clinic (the "Clinic" and the "Plan Sponsor") may contribute a discretionary amount up to 15 percent of the annual compensation, as defined in the plan agreement, of all participants. The Plan includes 401 (k) provisions allowing employees to make contributions. Under the 401 (k) plan's provisions, the Clinic will match 100 percent of an employee's contribution up to 4 percent of an individual's annual compensation. The Clinic may also make discretionary profit contributions, which are to be allocated based on compensation and employee classes.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Clinic's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Payments to participants are based upon their vested contributions. Employees' contributions and earnings thereon are 100 percent vested. The employer's contributions become 100 percent vested at the end of two years of service.

Participant Loans - A participant may apply for a loan from the Plan (subject to certain defined limitations). Loans granted by the Plan bear interest at a rate determined by the plan administrator and are secured by an assignment of the participant's right to his or her accounts in the Plan. Repayment of the principal and payment of the interest are effected through payroll withholdings, with the term of the loan not exceeding five years.

Benefit Payments - Participants in the Plan may withdraw their vested account balances from the Plan upon termination of employment, the attainment of age 59^{1/2}, demonstration of a financial hardship, total and permanent disability or death.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions. At January 31, 2011 and 2010, the forfeited account balance equaled \$23,272 and \$23,165, respectively.

Termination - While it has not expressed an intent to do so, the Clinic has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the labor agreement and the Employee Retirement Income Security Act of 1974 (ERISA). Upon termination, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Merrill Lynch Bank, Stifel Nicolas & Company and Trust Co. and Smith Barney, a Division of Citigroup Global Markets, Inc., the trustees, at January 31, 2011 and 2010; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES:-

The Frederick C. Smith Clinic, Inc. is the plan sponsor and administrator of The Frederick C. Smith Clinic, Inc. Profit Sharing Plan and Trust (the Plan). The accompanying financial statements and supplemental schedules of the Plan have been prepared on the modified cash basis and present assets available for benefits and changes in those assets. The Plan commenced on February 1, 1983. The significant accounting policies that comprise this basis are:

Valuation of Investments - Investments are stated at fair market value as of January 31, 2011 and 2010. Investments in money market and mutual funds are obtained from various market value quotations. Investments in common collective trust funds are based on the underlying assets held in the funds. The self-directed investments are invested in U.S. government securities, money market funds, corporate bonds, common stock, and mutual funds and are stated at fair value based on quoted market prices. Participants' loans are carried at their outstanding balances, which approximate fair value.

Basis of Accounting - The Financial Accounting Standards Board Staff Position AAG INV-I and SOP 94-4-1, Reporting of Fully Benefit-responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-contribution Health and Welfare and Pension Plans, requires the statement of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The related activity is presented at contract value in the statement of changes in net assets available for benefits.

Administrative Expenses - Certain administrative expenses are paid by the Plan Sponsor.

Estimates - The preparation of financial statements in conformity with the modified cash basis of accounting may require the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 3 - INCOME TAX STATUS:-

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 4 - UNAUDITED INVESTMENT INFORMATION:-

The Plan's trustee, Merrill Lynch Bank and Trust Co. (Merrill Lynch), holds certain plan investments and executes certain investment transactions. The related investment balances and investment income information included in the accompanying financial statements and supplemental schedule is based solely on information provided by Merrill Lynch Bank and Trust Co. Self-directed brokerage accounts totaling \$916,626 and \$1,258,676 at January 31, 2011 and 2010, respectively, and related activity resulting in a gain of \$92,855 for the year ended January 31, 2011, are not certified by Merrill Lynch. Significant investments included in end of the year net assets are as follows:

	<u>2011</u>	<u>2010</u>
Mutual funds:		
Mainstay Large Cap Growth Fund	\$ 4,419,878	\$ 3,693,765

NOTE 5 - FAIR VALUE:-

In a previous year, the Plan adopted the Accounting Standards Codification (ASC) No. 820, Fair Value Measurements. ASC No. 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC No. 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 - FAIR VALUE:- (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 31, 2011.

Shares of Registered Investment Companies: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Interest Bearing Cash: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Participant Loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of January 31, 2011:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at January 31, 2011
ASSETS:-				
Self-directed brokerage account investments	\$ 38,160,139	\$ 0	\$ 0	\$ 38,160,139

Additionally, the net increase in net assets on Form 5500 for the year ended January 31, 2011 is greater than that on the financial statements by \$126,250.
