Hourly Retirement Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Owens-Illinois Specialty Products Puerto Rico, Inc. Hourly Retirement Plan (the Plan) as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years ended December 31, 2010 and 2009, and the supplemental schedule of assets (held at end of year) as of December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by State Street Bank and Trust Company, the recordkeeper of the Plan, as agent for Eurobank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The plan administrator has obtained a certification from the agent, on behalf of the trustee, as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the agent for the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the agent, on behalf of the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Hourly Retirement Plan

1. Description of Plan

General

The Owens-Illinois Specialty Products Puerto Rico, Inc. Hourly Retirement Plan ("Plan") is a defined benefit plan established to provide normal and early retirement, termination and death benefits to hourly employees of Owens-Illinois Specialty Products Puerto Rico, Inc. ("Company"). The Company was a subsidiary of Owens-Illinois, Inc. ("O-I") until the July 31, 2007 sale of the Company to Rexam PLC. As of the sale date, the plan is closed to new entrants, and there will be no additional service cost. Following the sale of the Company, O-I assumed sponsorship of the Plan.

Contributions

The Company contributes such amounts as are deemed necessary on an actuarial basis to provide assets sufficient to meet the future benefits to be paid to Plan participants. As of December 31, 2010 and 2009, the minimum funding requirements as defined by the Employee Retirement Income Security Act of 1974 ("ERISA") have been met.

Benefits

A participant is entitled to pension benefits beginning at normal retirement age (65) equal to an annual credit factor multiplied by the participant's years of credited service. Accrued benefits become vested after completion of five years of credited service or the attainment of normal retirement age. Benefits are payable beginning at normal retirement age or in reduced amounts upon early retirement.

Plan Termination

In the event of termination of the Plan, its assets will first be used to provide participants' accrued benefits unless they are insufficient. In that case, whether a particular participant's accrued benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the available assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

The above information is a brief description of the Plan. Information about the vesting and benefit provisions and the PBGC's benefit guarantee is contained in the Plan's Summary Plan Description, which is available at the corporate office of the plan sponsor.

2. Summary of Significant Accounting Policies

Basis of Presentation and Plan Investments

The Plan's assets are included in the Owens-Illinois Specialty Products Puerto Rico, Inc. Master Retirement Trust ("Master Trust") along with the assets of another pension plan at the Company. The Master Trust holds an investment in a Harbor Capital Group Trust for Defined Benefit Plans ("Group Trust"). The trustee of the Plan is State Street Bank and Trust ("State Street"). The Group Trust is under a separate trust agreement.

The Group Trust assets are invested by designated advisors in a wide range of investments including domestic and foreign corporate equity and debt issues, government securities, commercial paper, convertible mortgage notes receivable, and real estate investment trusts.

The Plan's earnings of the Group Trust are allocated in proportionate interest to each participating plan based on the fair market value of its net assets. The accompanying financial statements reflect the Plan's total interest in the net assets and transactions of the Group Trust as allocated by State Street.

Investment Valuation

The Plan's interests in comingled trust funds of the Group Trust are valued at the unit prices established by the trustee, which are deemed to be fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosures related to fair value measurements.

Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated April 1, 2010, stating that the Plan, including the first amendment to the Plan, is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its tax qualification. The Company believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan

administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Other Plan Matters

Effective July 31, 2007, O-I sold its ownership in the Company at which time O-I became the plan sponsor of the Plan. Effective July 31, 2007, the accrued benefits of all participants under the Plan were frozen. With the sale of the Company, hourly employees of the Company, including its successor company, were no longer eligible to participate or become participants in the Plan. No issues are known to exist with respect to the change of plan sponsors or the freezing of accrued benefits in the Plan that would materially affect the continued qualified status of the Plan under the Internal Revenue Code and the Puerto Rican Code.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and the reported amounts of certain additions and deductions during the reporting period. Most significantly, estimates and assumptions are used in the determination of the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates and assumptions.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Subsequent Events

The Company has evaluated subsequent events through the time the financial statements were approved for issuance on August 29, 2011.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments and lump sum distributions to which participants are entitled under the Plan's provisions based on services rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to: a) retired

Owens-Illinois Specialty Products Puerto Rico, Inc.
Hourly Retirement Plan

Notes to Financial Statements - Continued

employees or their beneficiaries, b) terminated employees with vested benefits, c) beneficiaries of deceased employees, and d) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements for such factors as death, withdrawal or early retirement) between the valuation date and the expected date of payment. The amount of accumulated plan benefits is estimated actuarially under the accrued benefit cost method (unit credit method).

The more significant assumptions underlying the actuarial computations are as follows:

Discount rate for benefit obligations	5.97% at December 31, 2009 6.46% at December 31, 2008
Mortality basis	RP-2000 projected to 2015 with scale AA using blue and white collar adjustment
Employee turnover	A moderate scale consistent with experience of OI
Retirement age	Based on Company experience varying from ages 55-70

If the Plan would terminate, different actuarial assumptions determined by the PBGC and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present values of accumulated plan benefits ("APVAPB") are as follows:

	December 31, 2009
Vested benefits:	
Participants currently receiving benefits	\$ 425,636
Other participants	139,818
Total APVAPB	<u>\$ 565,454</u>

Owens-Illinois Specialty Products Puerto Rico, Inc.

Notes to Financial Statements - Continued

The following table details the changes in the APVAPB:

	Year ended December 31
	<u>2009</u>
APVAPB at beginning of year	\$ 510,967
Increase (decrease) during the year attributable to:	
Increase in benefits accumulated	61,855
Increase due to decrease in the discount period	39,056
Benefits paid	<u>(46,424)</u>
Net increase	<u>54,487</u>
APVAPB at end of year	<u><u>\$ 565,454</u></u>

4. Investments

The following summary of the Master Trust's investments and the Plan's interest in the Master Trust was prepared from information certified as complete and accurate by the trustee. At December 31, 2010 and 2009, the Plan's interest in the net assets of the Master Trust was approximately 23% and 30%, respectively.

The Plan's interest in the net assets of the Master Trust were as follows:

	December 31,	
	<u>2010</u>	<u>2009</u>
Net assets of Master Trust:		
Investment in Group Trust	\$ 2,294,793	\$ 1,777,678
Plan's interest in net assets of Master Trust	\$ 519,243	\$ 536,339

Owens-Illinois Specialty Products Puerto Rico, Inc.

Notes to Financial Statements - Continued

The Plan's interest in net earnings of the Master Trust were as follows:

	Year ended December 31,	
	2010	2009
Net earnings of Master Trust	\$ 308,369	\$ 381,381
Plan's interest in net earnings of Master Trust	\$ 75,338	\$ 119,994

5. Fair Value Measurements

Generally accepted accounting principles ("GAAP") define fair value as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1: Observable inputs such as quoted prices in active markets;
- Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs for which there is little or no market data, which requires the Company to develop assumptions.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The investment valuation policy of the Master Trust is to value investments at fair value. The Master Trust investment divisions and pooled funds are valued at their respective net asset value as calculated by State Street Bank. The underlying equity investments for which market quotations are readily available are valued at the last reported sales price on their principal exchange on valuation date or official close for certain markets. Fixed income investments are valued on a basis of valuations furnished by a trustee-approved independent pricing service, which determines valuations for normal institutional-size trading units of such securities which are generally recognized at fair value as determined in good faith by the trustee. Short-term investments are stated at amortized cost, which approximates fair value. Investments in registered investment companies or collective pooled funds are valued at their respective net asset value.

The methods used to produce a fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Change in Assumptions and Methods Since Prior Valuation

The funding interest rate was changed from the full corporate bond yield curve as of November 2008 to segment rates as of September 2009, as provided under the Pension Protection Act of 2006 (PPA).

Data Sources

Towers Watson used asset data supplied by the trustee. O-I furnished participant data as of November 30, 2009. Data were reviewed for reasonableness and consistency, but no audit was performed. Assumptions or estimates were made by Towers Watson when data were not available. Towers Watson is not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

NOTE: Under section 430 and regulatory guidance to date, some aspects of a valuation that have not previously been viewed as funding methods are now treated as funding methods by the IRS. An example is the valuation interest rate: the plan sponsor’s selection among the various prescribed interest-rate approaches is now treated as a funding method. Note also that it is not yet always clear which aspects of the valuation are now viewed as funding methods under section 430 and regulatory guidance to date. For example, it is not clear if the sponsor’s choice among prescribed mortality tables is viewed as a funding method or not. Pending further guidance from the IRS, the summary above takes a comprehensive approach and describes key changes that have been made, whether they are clearly funding methods or not (other than changes in non-prescribed assumptions, which are covered in the attachment for line 24). To the degree that the items above are funding methods, the changes are not inconsistent with the requirements of Code Section 430, and thus do not need IRS approval.

The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.
