NOTE 1 - DESCRIPTION OF PLAN

The following description of **Car Sound Exhaust System, Inc. 401(k) Profit Sharing Plan** provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. **General** - The Plan is a defined contribution, safe harbor, 401(k) Plan covering substantially all employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

B. **Contributions** - Each participant enters into a salary reduction agreement with the employer. The employee may elect to save a portion of defined compensation by an amount not to exceed 50%. The Company makes a safe harbor matching contribution equal to 100% of the first 5% of eligible compensation contributed to the plan as deferral contribution. The Company may make additional discretionary contributions to the Plan.

C. **Participant Accounts** - Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and Plan earnings. Each participant self directs their individual account in various fund company investments.

D. **Vesting** - Participants are 100% vested at all times in their deferral accounts and the Company's safe harbor matching contribution. For the Company's discretionary contribution, the vesting schedule is 20% at 2 years of service and up to 100% for 6 years of service.

E. **Payment of Benefits** - Benefits are recorded when paid. On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or delay receipt of benefits, if the vested account balance is greater than $1,000.

F. **Forfeited Accounts** - At December 31, 2009 and 2008 forfeited non-vested accounts totaled $9,990 and $26,068, respectively. Forfeited non-vested accounts are used to pay plan expenses and to reduce future employer contributions.

G. **Participant Loans** - Participants may borrow from their fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through weekly payroll deductions.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the cash basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the cash basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Operating Expenses - The employer pays a portion of the administrative expenses of the Plan.

Subsequent Events - The Plan has evaluated subsequent events through October 5, 2010, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The Plan's investments are listed on page 8 in the Schedule of Assets Held for Investment Purposes. Investments that represent 5% or more of the Plan's net assets are separately identified.

During the years ending December 31, 2009 and 2008, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $845,916 and $(1,889,701), respectively, as follows:

		2009	2008
Mutual Funds	$	**845,916**	(1,889,701)

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board *(FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include - • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 4 - FAIR VALUE MEASUREMENTS (continued)

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual Funds - Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant Loans - Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

		Assets at Fair Value as of December 31, 2009
