Tegrant Investment and Retirement Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2010 and 2009

1. Description of Plan

The following brief description of the Tegrant Investment and Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan covers salaried, hourly union and non-union employees of Tegrant Corporation, formerly, SCA North America-Packaging Division, Inc. (the “Company”). Employees who are at least age eighteen are eligible to participate in the Plan on the first day of the first payroll period after completing ninety days. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

During 2008, the DOT Group LLC was acquired by the Company. The management of the Company merged the DOT Group LLC Cash or Deferred 401(k) Profit Sharing Plan into the Plan. As a result of the merger, net Plan assets of \$6,585,201 were transferred to the Tegrant Investment and Retirement Plan. During 2009, assets of \$6,350,811 were transferred into the Plan from the DOT Group LLC Cash or Deferred 401(k) Profit Sharing Plan. During 2008, participant loans of \$234,390 were transferred in from the DOT Group LLC Cash or Deferred 401(k) Profit Sharing Plan.

Prior to 2009, Merrill Lynch was custodian of the DOT Group LLC Cash or Deferred 401(k) Profit Sharing Plan. Vanguard Fiduciary Trust Company is the trustee and third-party recordkeeper of the Plan. As a result of the merger of the Plans, effective January 2, 2009, plan investment assets of the DOT Group LLC Cash or Deferred 401(k) Profit Sharing Plan were transferred to Vanguard Fiduciary Trust Company. The assets were transferred into funds comparable to those offered by the previous custodian. The conversion initiated a “Black Out” period beginning on December 23, 2008 and continued through January 11, 2009. During this period, DOT Group LLC participants’ plan accounts were not available for investment fund exchanges and distribution requests, including loans. Participant loan assets of the DOT Group LLC Cash or Deferred 401(k) Profit Sharing Plan were transferred to the Plan effective December 31, 2008. During the Black Out period, DOT Group LLC employee payments on existing loans continued to be made through payroll deductions. Investment allocation changes were permitted to be made after January 11, 2009 including changes to additional investment options offered by the Plan.

Additionally, during 2010 and 2009, total assets of \$48 and \$68,945, respectively were transferred into the Plan from the SCA North America, Inc. Investment and Retirement Plan.

Contributions

Each year participants in the Plan may generally contribute 1% to 25% of pretax compensation, with the allowable contribution amount based on location and classification, as defined in the Plan document. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

If a participant is at least 50 years of age by the end of the calendar year and their pretax compensation is limited by Plan or IRS imposed limits, they may make additional pretax contributions from 1% to 75% of their pay to the Plan for each payroll period as catch-up contributions. These catch-up contributions are limited to \$5,500 for 2010 and 2009, and are not eligible for the Company match contribution. Union participants at New Brighton, PA and Pardeeville, WI are subject to automatic enrollment in the Plan at 1% and 2% of eligible employee compensation, respectively.

Tegrant Investment and Retirement Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2010 and 2009

Prior to the change in sponsorship to Tegrant Corporation, the Plan provided for discretionary matching and other additional contributions by the Company, which varied for differing employee locations.

Effective March 8, 2007, after the change in sponsorship to Tegrant Corporation, the Plan provided a matching contribution of 100% of the first 5% of compensation that a participant contributes to the Plan. The Marion, OH manufacturing plant was closed in July 2009. Union participants of the Marion, OH location continued to have the matching contributions and supplemental contributions until their employment separation date (separation date varied per employee). The final supplemental contribution for Plan Year 2009 was made to participants' accounts on February 5, 2010. Effective as of March 29, 2009, the Plan was amended to suspend the matching contribution. The matching contribution of 100% of the first 5% of compensation that a participant contributes to the Plan was reinstated as of January 1, 2010. Refer to Note 9 regarding Plan amendments.

Participants direct contributions into various investment options offered by the Plan. For participants who do not make an affirmative election, the Company designates the age-appropriate "Target Fund" as the default investment fund. A Target Fund is an investment fund that provides a mixture of fixed income and equity investments that are matched to an individual's age and presumed retirement age. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant, at all times, has a fully vested (100%) interest in their contribution accounts, matching contribution accounts, and rollover accounts, plus actual earnings thereon. A participant is 100% vested after 3 years of credited service in his or her Employer Contribution account.

Notwithstanding the above vesting for the Employer Contribution, a participant will become 100% vested in these accounts upon their attainment of normal retirement age while an employee, death while an employee, or becoming disabled while an employee.

Notes Receivable from Participants

The Plan allows for participants to take loans against their account balances. The plan allows for only one loan (including a loan transferred in from a predecessor plan) at any one time.

Participants may borrow from their fund accounts up to a maximum amount equal to the lesser of \$50,000 or 50 percent of their vested account balances. Loan terms range from 1 to 5 years or up to 15 years to purchase a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate as reported by Reuters. Interest rates vary from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

In the event of a participant's death, retirement, disability or termination of employment for other reasons, the participant or his beneficiary may elect to receive the entire account balance in a lump sum. Account balances which do not exceed \$1,000 will automatically be paid in a lump sum as soon as administratively feasible. Mandatory distributions that are greater than \$1,000 and less than \$5,000 may be paid in a direct rollover to an individual retirement account designated by the Plan

As of and for the Years Ended December 31, 2010 and 2009

Administrator, unless the participant previously elected to have such distribution paid directly to an eligible retirement plan in a direct rollover or to receive the distribution directly.

A participant may also withdraw all or a portion of his entire account balance upon attainment of age 59½ or in the case of financial hardship, as defined.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits include changes in net assets attributable to fully benefit-responsive investment contracts on a contract value basis.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America, requires the Plan management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period, and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Notes Receivable from Participants

Notes receivable from participants (participant loans for Form 5500 reporting purposes) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Notes to Financial Statements
As of and for the Years Ended December 31, 2010 and 2009

Payments of Benefits

Benefits are recorded when paid.

Reclassifications

Certain items in the prior year financial statements have been reclassified to conform to the current year's presentation.

Administrative Expenses

Loan fees and other participant-specific fees are deducted from participant accounts. The Company pays other administrative expenses of the Plan.

Forfeited Accounts

When certain terminations of participants in the Plan occur, the non-vested portion of the participant's employer contribution account represents forfeitures. Total unallocated forfeitures, which will be used to reduce future employer contributions, were \$6,410 and \$37,885 at December 31, 2010 and 2009, respectively. Forfeitures used to offset employer contributions totaled \$203,392 and \$161,850 for the years ended December 31, 2010 and 2009, respectively.

Subsequent Events

The Plan has evaluated subsequent events through September 30, 2011, the date the financial statements were available to be issued.

Recently Issued Accounting Guidance

In January 2010, the Financial Accounting Standards Board ("FASB") updated the guidance in FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*. The updated guidance (i) requires separate disclosure of activity in transfers in and out of Levels 1 and 2 fair value measurements, (ii) requires disclosure of Level 3 fair value measurements activity on a gross basis, (iii) clarifies existing disaggregation requirements, (iv) and clarifies existing input and valuation technique disclosure requirements. The updated guidance was effective for periods beginning after December 15, 2009, except for the rollforward of activity in Level 3 fair value measurement disclosure requirements, which are effective for fiscal years beginning after December 15, 2010. Retrospective adoption was not required. The Plan adopted the aspects of the guidance on January 1, 2011. The adoption of the effective guidance had no effect on the Plan's net assets available for benefits or its changes in net assets available for benefits and the adoption of the remaining guidance is not expected to have any effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In September 2010, the FASB updated the guidance in FASB ASC Topic 962, *Plan Accounting – Defined Contribution Pension Plans*. The guidance clarifies how loans to participants should be classified and measured by defined contribution pension benefit plans. Participant loans were previously classified as investments at fair value. The updated guidance requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The updated guidance also exempts participant loans from fair value and credit quality disclosure requirements. The guidance in this update was effective for fiscal years ending after December 15, 2010, with retrospective adoption required. The adoption of the guidance had no significant effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued Accounting Standards Update No. 2011-4, *Fair Value Measurement (Topic 820), Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. The amendments change the wording used to describe

Tegrant Investment and Retirement Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2010 and 2009

many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. Some of the amendments clarify the FASB's intent about the application of existing fair value measurement requirements. Other amendments change a particular principle requirement for measure fair value or for disclosing information about fair value measurements. Some of the disclosures required by the amendments are not required for nonpublic entities. The amendments are to be applied prospectively and are effective for nonpublic entities for annual periods beginning after December 15, 2011. The Plan does not expect the amendments to have any effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

3. Unaudited Information Certified by the Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedule was certified by the Vanguard Fiduciary Trust Company, the trustee, as complete and accurate:

- Registered investment companies, the retirement savings trust and notes receivable from participants as shown in the statements of net assets available for benefits at December 31, 2010 and 2009.
- Net appreciation (depreciation) in fair value of registered investment companies for the years ended December 31, 2010 and 2009, as follows:

	For the Year Ended December 31	
	<u>2010</u>	<u>2009</u>
Net appreciation (depreciation)		
Registered investment companies	\$ 5,801,221	\$ 9,043,155

- Interest and dividend income and interest income on notes receivable from participants for the years ended December 31, 2010 and 2009, as follows:

	For the Year Ended December 31	
	<u>2010</u>	<u>2009</u>
Investment interest and dividend income	\$ 1,046,431	\$ 1,059,274

- The information for all registered investment companies, the retirement savings trust and participant loans listed in the schedule of assets (held at end of year) at December 31, 2010 as shown in the supplemental schedule.

Investments of the Plan that exceed 5 percent of net assets available for benefits at December 31, 2009 are summarized as follows:

	<u>2009</u>
Vanguard 500 Index Fund	\$ 7,081,250

American Funds Euro Pacific Growth Fund, R-4 Shares	4,776,133

* Amount is at fair value. Contract value is \$10,995,929 for this investment.

The Vanguard Retirement Savings Trust invests in high-quality fixed income securities with financial backing from insurance companies and banks. As described in Note 2, the Vanguard Retirement Savings Trust is fully benefit-responsive and therefore contract value is the relevant measurement attribute for that portion of net assets available for benefits. Contract value represents contributions made plus interest accrued at the contract rate less withdrawals and administrative expenses. Participants who invest in the Vanguard Retirement Savings Trust agree to limitations imposed by issuers of investment contracts. These limitations include restrictions on the timing and amounts which can be transferred from the Vanguard Retirement Savings Trust to short-term bond funds. Additionally, once money is transferred from the Vanguard Retirement Savings Trust into stock, balanced or bond funds with an average duration of more than four years, the money must remain in the fund for at least 90 days before it can be transferred into a shorter-term bond fund. Money, however, can always be transferred back into the Vanguard Retirement Savings Trust. The average annual yield earned was 3.36% and 3.15% for the years ended December 31, 2010 and 2009, respectively. The average annual yield paid to participants was 3.01% and 2.86% for the years ended December 31, 2010 and 2009, respectively.

4. Fair Value Measurement

FASB ASC 820, *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted

Tegrant Investment and Retirement Plan
Notes to Financial Statements
As of and for the Years Ended December 31, 2010 and 2009

prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2010 and 2009.

<i>Registered investment companies</i>	Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.
<i>Retirement Savings Plan Trust</i>	Value at the net asset value of units held at year-end. This common/collective trust fund is comprised of traditional contracts issued by insurance companies and banks, alternative investment contracts, and short-term investments. For traditional investment contracts, fair value is determined by calculating the present value of expected future cash flows for each contract. The fair value for alternative investment contracts is determined by aggregating the market value of the underlying investment in Vanguard mutual funds and bond trusts plus the value of the wrap contract, if any. The investments in mutual funds and bond trusts are valued at the net asset value of each fund or trust determined as of the close of the NYSE on the valuation date.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Status

The Internal Revenue Service ("IRS") determined and informed the Company by letter dated May 30, 2002, that the Plan was qualified under Internal Revenue Code ("IRC") Section 401. The Plan has been amended since receiving the determination letter. The Company has restated and amended the Plan document effective January 2, 2008 and a Unanimous Consent of the Tegrant Corporation Benefits Steering Committee was executed on October 2, 2008 adopting the restated plan. An Application for Determination for Employee Benefit Plan was submitted to the IRS on January 30, 2009. A control number was issued to Tegrant by the IRS in March 2009 for the determination letter application. However, the Company was notified by counsel in March 2011 that the IRS was unable to locate a copy of the original submission. As a consequence, the Company re-submitted the January 2009 Application on June 28, 2011 which included a compliance statement request under the Voluntary Correction Program related to a non-amender failure for the Southeastern Packaging Profit Sharing Plan, a Plan that had been previously merged into the Plan in March 2004 (formerly SCA Packaging North America Inc. Packaging Hourly Investment & Retirement Plan that Tegrant took sponsorship of in March 2007).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax

periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

6. Related Party Transactions

The Plan invests in shares of registered investment companies (mutual funds) and a collective trust managed by affiliates of Vanguard, the trustee. Transactions in such investments qualify as party-in-interest, which are exempt from the prohibited transaction rules.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its matching contribution, employer contribution, and supplemental contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

8. Plan Expenses

The Company pays all recordkeeping expenses for the administration of the Plan, with the exception of certain miscellaneous fees. An annual account maintenance fee of \$40 is charged to the accounts of terminated participants who have deferred receipt of distributions and continue to maintain account balances under the Plan.

9. Plan Amendments

Effective March 29, 2009, the Plan was amended to suspend the matching contributions. The matching contribution was reinstated effective January 1, 2010. Also, during 2009, the Plan was amended to make other administrative changes.

During 2009, the Plan was amended to reflect the appropriate effective dates of certain provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA") and final regulation under section 401(a)(9) of the Internal Revenue Code. Also, during 2009, the Plan was amended to reflect the appropriate effective dates and provisions of the Heroes Earnings Assistance and Relief Tax Act of 2008.

During 2010, the Plan was amended to update the definition of compensation as well as to allow for Roth 401(k) contributions.
