INDEPENDENT AUDITOR'S REPORT

To the Trustees, Participants and Plan Administrator of the Pension Plan for Employees of G.A.L. Manufacturing and Hollister-Whitney Elevator Company:

We were engaged to audit the accompanying statements of net assets available for benefits of the Pension Plan for Employees of G.A.L. Manufacturing And Hollister-Whitney Elevator Company (the "Plan") as of December 31, 2009 and 2008, the related statement of changes in net assets available for benefits for the year ended December 31, 2009, and the statement of accumulated plan benefits, statement of changes in accumulated plan benefits and the supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by Massachusetts Mutual Life Insurance Company, the trustees and custodian of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustees and custodian as of December 31, 2009 and 2008 and for the years ended, that the information provided to the plan administrator by the trustees is complete and accurate.

As discussed in Note K the accompanying 2009 financial statements have been restated.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 as amended.

NOTE A - DESCRIPTION OF THE PLAN

The following brief description of the Pension Plan for Employees of G.A.L. Manufacturing and Hollister-Whitney Elevator Company is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information and description of the Plans provisions.

General

The Plan is a defined benefit pension plan covering non-union employees of G.A.L. Manufacturing Corporation, Hollister-Whitney Elevator Corporation and Galaxy Controls LLC, who have one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended. The effective date of the plan was January 1, 1972 and was reinstated as of January 1, 2001.

The above entities are related entities under common control and ownership accordingly, the Form 5500 is for a single employer plan.

Pension Benefits

Employees are entitled to annual pension benefits beginning at normal retirement age of 65 or early retirement based on the actuarial equivalent calculation with at least five years of service. Vesting service is a year during which a participant has at least 1,000 hours of service. A terminated participant who has at least five years of vesting service, or who has attained normal retirement age, has a non-forfeitable right to 100% of his or her accrued benefit. Employees may elect a life annuity or a joint and survivor annuity.

Death and Disability Benefits

If the participant is not vested, no death benefits are payable. If the participant is vested, then the death benefit is 50% of the amount that would have been payable to the participant under the 50% joint and survivor option. Disability benefits are payable after five years of service.

Contributions

The Company contributes to the plan based on the plan documents as calculated by the plans actuarial report. The amount of contributions paid for the period ended December 31, 2009 was \$ 1,554,000 and December 31, 2008 was \$ 1,499,992.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant policies followed by the Plan:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. All valuations used for the year ended December 31, are as of January 1, of the year based on plan IRS election based on the plan documents as calculated by the plans actuarial report.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investment contract with MassMutual is valued at fair value as determined by the issuer. Interest income is recorded as earned.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from the MassMutual Life Insurance Company and by Pointe Benefit Consultants, LLC and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2009 and 2008 were (a) life expectancy of participants (the adjusted RP-2000 Combined Mortality Table for males and females, as described in Treasury Regulation 1.412(1)(7)-I (d) (b)retirement age assumptions (the assumed average retirement age was 65 and 5 years of service for the year ended December 31, 2009 actuarial assumption used the optional small plan table), and (c) investment return. The valuations included assumed average rate of return of 5% (2009) and 6% (2008), including a reduction to reflect anticipated administrative expenses associated with providing benefits. For the Plan year ended December 31, 2008 the plan changed to 2008 optional small plan tables pre-retirement and the 2008 applicable mortality table post-retirement and for the plan year ended December 31, 2008 and thereafter the mortality assumption used was the 1994 GAR Table. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE C - FUNDING POLICY

The Company's funding policy is to make annual contributions to the Plan such that all employees benefits will be fully provided for by the time they retire. The Company's contributions for 2009 and 2008 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

D-PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA as amended and its related regulations, generally to provide the following benefits in the order indicated: (a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination. (b) Other benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a US government agency) up to the applicable limitations (discussed below). (c) All other vested benefits (not insured by the PBGC) (c) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed under the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2009 and 2008 the ceilings are \$4,500 and \$4,312, respectively, per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE E - INVESTMENTS

Investment contracts with MassMutual are shown at fair value as determined by the issuer of \$11,667,084 for 2009 and \$10,184,743 for 2008 respectively and represent 100% of the assets of the plan for each year.

NOTE F - TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated June 7, 2004, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administer and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE H - INVESTMENTS

Investment representing 5% or more of the plans net assets are: Mass Mutual Guaranteed Interest Account

100% of Plan at 12/31/09 @ Fair Value \$\frac{\\$11,667,084}{\\$100% of Plan at 12/31/08 @ Fair Value \$\frac{\\$10,184,743}{\\$10,184,743}

NOTE I - FAIR VALUE MEASUREMENT

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

SFAS No. 157, Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Level 3 inputs were used only because Level 1 and Level 2 inputs were not available in this plan.

Level 3 Fair Value Measurement defined as:

ACCETS ATTEMET 2 HAID MALLIE AS OF DECEM

The fair value of the investment contracts is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The fair value of mortgages is based on the future principal and interest payments discounted at prevailing interest rates for similar investments. The fair value of real estate investments, principally rental property subject to long-term leases, has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with the risks involved. The following table provides further details of the Level 3 fair value measurements.

Guaranteed investment contract with the Mass Mutual Group: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. Funds under the guaranteed investment contract that have been allocated and applied to purchase annuities (that is, Mass Mutual Group obligated to pay the related pension benefits) are excluded from the plan's assets.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the Level 3 measurements, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008. The following table represents plan's interest as follows:

(Significant Unobservable Inputs)	2009	2008
Guaranteed investment contract with Mass Mutual Group	Level 3 \$ 11,667,085	Level 3 \$ 10,184,743
Total Investments at Fair Value - Mass Mutual Group Annuity Contract	<u>\$ 11,667,085</u>	<u>\$ 10,184,743</u>

NOTE J - SUBSEQUENT EVENTS

Subsequent events were evaluated until the date of the revised report.

In November 2011 the Plan received a letter from DOL requesting the Restatement of Form 5500 and the related financial report.

Management feels it has complied with the DOL requirements.

NOTE K - RESTATEMENT OF PRIOR YEARS' FINANCIAL STATEMENT

Subsequent to the re-issuance of the revised 2009 financial statement the Trustees determined that the 2009 and 2008 statement, did not reflect the proper timing of employer contributions. Accordingly, the reissued 2009 financial statements reflect employer contribution receivable at 12/31/09.
