Husky Refining Company Represented 401(k) Plan

Notes to Financial Statements For the Years Ended December 31, 2010 and 2009

1. Description of Plan

The following description of the Husky Refining Company Represented 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan’s provisions.

a. General

The Plan is a defined contribution plan covering substantially all U.S. employees represented by a collective bargaining agreement of Husky Refining Company (“the Company”) upon completion of six months service. The Plan excludes certain classes of employees as follows: a) nonresident aliens, b) leased employees, c) independent contractors and d) nonunion employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”) and became effective July 3, 2007.

The general administration of the Plan is the responsibility of the Company (the plan administrator). Pursuant to the Plan’s trust agreement, an independent trustee maintains custody of the Plan’s assets. Vanguard Fiduciary Trust Company (“Vanguard”) serves as trustee of the Plan and Vanguard Group, Inc. serves as independent record keeper of the Plan.

b. Contributions

Each year, participants may contribute up to 50 percent of pretax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 12 registered investment companies and a common/collective trust fund as investment options for participants. The Company contributes 200 percent of the first three percent of compensation, as defined, that a participant contributes to the Plan plus 100 percent of the portion of such participant contributions that exceeds three percent but does not exceed six percent of compensation, as defined. Contributions are subject to certain Internal Revenue Service limitations.

c. Participant Accounts

Each participant’s account is credited with the participant’s and Company’s contributions and an allocation of Plan earnings. Allocations are based on participant’s earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

d. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s contribution portion of their accounts is based on years of continuous service. A participant vests 20 percent each year until 100 percent vested after five years of credited service.

e. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 reduced by their highest outstanding note balance on the date of the loan or 50% of their vested account balance. The notes are secured by the balance in the participant’s account and bear interest at prime lending rate plus one percent. Principal and interest are paid ratably through payroll deductions each pay period. As of December 31, 2010, interest rates ranged from 4.25 percent to 8.75 percent and maturity dates

Husky Refining Company Represented 401(k) Plan

Notes to Financial Statements For the Years Ended December 31, 2010 and 2009

ranged from May 2011 to July 2020. As of December 31, 2009, interest rates ranged from 4.25 percent to 8.75 percent and maturity dates ranged from May 2010 to December 2018.

f. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum equal to the value of the participant's vested interest in his or her account or annual installments over a ten year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

g. Forfeited Accounts

Accounts forfeited by former unvested participants may be used to reduce future Company contributions. During 2010, \$814 in forfeitures reduced Company contributions. During 2009, \$334 in forfeitures reduced Company contributions. There were no unallocated forfeited non-vested accounts at December 31, 2010 or 2009.

h. Asset Transfer In/Out

From time to time, asset transfers occur between the Plan and Husky Refining Company Non-represented 401(k) Plan due to the transfer or re-employment of employees to or from represented and non-represented employment status.

i. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

2. Summary of Significant Accounting Policies

The following accounting policies have been used in the preparations of the Plan's financial statements:

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The Plan offers a broad array of investment options across the risk/return and capitalization and style spectrum that allow participants to build portfolios consistent with their needs, objectives and risk profile.

b. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Notes to Financial Statements For the Years Ended December 31, 2010 and 2009

c. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 of these financial statements for discussion of fair value measurement.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

d. Notes Receivable from Participants

Notes receivable from participants are valued at amortized cost. Amortized cost represents the unpaid principal balance plus accrued but unpaid interest.

e. Payment of Benefits

Benefits are recorded when paid.

f. Effect of New Accounting Standards and Interpretations

In January 2010, the Financial Accounting Standards Board ("FASB") issued ASU 2010-06, which amends FASB ASC 820 (pre-codification Financial Accounting Standard 157), *Fair Value Measurement and Disclosures*. This guidance requires new disclosures and provides amendments to clarify existing disclosures. The new requirements include disclosing transfer in and out of Levels 1 and 2 fair value measurements, describing reasons for the transfers and disclosing more disaggregated information related to the activity in Level 3 fair value measurements. The clarification of existing disclosure guidance includes further disaggregation of fair value measurements by providing fair value measurement disclosures for each class of assets and liabilities and providing disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements. The guidance also includes conforming amendments to the guidance on employers' disclosures about the postretirement benefit plan assets. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the new disclosures regarding the activity in Level 3 measurements, which shall be effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The Plan has adopted this guidance effective January 1, 2010. The adoption did not materially affect, and the future adoption is not expected to materially affect, the Plan's financial statements.

In September 2010, the FASB issued ASU 2010-25, which amends FASB ASC 962, *Plan Accounting — Defined Contribution Plans*. This guidance will require that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this guidance effective January 1, 2010. This did not change the value of the loans to participants from the amounts previously reported.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*. ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. Further, ASU 2011-04 requires additional fair value disclosures. A nonpublic entity is required to apply the ASU prospectively for annual periods beginning after December 15, 2011. The Plan will adopt this guidance for Plan years beginning on or after January 1, 2012 and is currently evaluating the effect that the provisions of ASI 2011-04 will have on its financial statements.

In September 2009 the FASB issued ASU 2009-12, which amends FASB ASC 820, *Fair Value Measurements and Disclosures*. This guidance allows, as a practical expedient, the use of net asset value (NAV) as the basis to estimate fair value for certain investments. Additionally, the guidance provides updated disclosures for investments within its scope. This guidance is effective for interim and annual periods ending after December 15, 2009 with early adoption permitted. The Plan adopted this guidance effective December 31, 2009. This did not have a material impact to the Plan.

3. Related Party Transactions

The Plan invests in shares of registered investment companies and units of the Vanguard Retirement Savings Trust managed by an affiliate of Vanguard. Vanguard acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Fees paid in 2010 and 2009 were \$857 and \$772, respectively.

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three level valuation hierarchy is based upon the transparency of inputs to the valuation of an asset as of the measurement date.

The three levels are defined as follows:

- Level 1 – inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets that the Plan has the ability to access at the measurement date.
- Level 2 – inputs to the valuation methodology are observable for the asset (other than quoted prices included in level 1), either directly or indirectly. Observable inputs are those that reflect the assumptions market participants would use in pricing the asset developed on market data obtained from sources independent of the Plan.
- Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, developed based on the best information available in the circumstances.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the Plan's valuation methodologies for assets at fair value. Such valuation methodologies were applied to all of the assets carried at fair value.

- **Registered Investment Companies**

Shares of registered investment companies are valued at the closing net asset value on the measurement date. There are no restrictions on trading, and the funds can be redeemed at net asset value at any time. Therefore, the investments are classified within Level 1 of the valuation hierarchy.

- **Common/Collective Trust Fund**

The Plan's investment in the Vanguard Retirement Savings Trust, a common/collective trust fund which is fully benefit responsive, is presented in the statement of net assets available for benefits at the fair value of units held by the Plan as of December 31, with separate disclosure of the adjustment from fair value to contract value, which is equal to principal balance plus accrued interest. The fair value of the portfolio is calculated by the issuer utilizing quoted market prices, most recent bid prices in the principal market in which the securities are normally traded, pricing services and dealer quotes. The fair value of the underlying wrapper contracts held

by the portfolio are valued using a discounted cash flow model, which considers (i) recent fee bids as determined by recognized dealers, (ii) discount rate, and (iii) the duration or the underlying portfolio securities. Purchases and sales of securities are recorded on a trade-date basis. The Vanguard Retirement Savings Trust is classified within level 2 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table presents the financial instruments carried at fair value as of December 31, 2010 and 2009 by FASB ASC 820 valuation hierarchy (as described above) The Plan has no investments classified within level 3 of the valuation hierarchy.

Assets measured at fair value on a recurring basis:

	Level 1	Level 2	Level 3	Total
December 31, 2010:				
Registered investment companies	\$10,972,887	\$ —	\$ —	\$ 10,972,887
Common/collective trust fund	—	5,338,611	—	5,338,611
	<u>\$10,972,887</u>	<u>\$5,338,611</u>	<u>\$ —</u>	<u>\$16,311,498</u>
December 31, 2009:				
Registered investment companies	\$7,112,474	\$ —	\$ —	\$ 7,112,474
Common/collective trust fund	—	4,149,084	—	4,149,084
	<u>\$7,112,474</u>	<u>\$4,149,084</u>	<u>\$ —</u>	<u>\$11,261,558</u>

There were no transfers between levels 1, 2 or 3 in 2010 and 2009.

5. Plan Expenses

All expenses of maintaining the Plan, unless paid by the Company, are paid by the Plan.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

7. Tax Status

Management considers the Plan to be in compliance with Section 401(a) of the Internal Revenue Code of 1986, as amended ("the Code") and, accordingly, to be entitled to an exemption from federal income taxes under the provisions of Section 501(a) of the Code. An opinion letter dated March 31, 2008 has been received by Vanguard stating that the form of the prototype plan adopted by the Plan is acceptable under the Code Section 401 for use by employers for the benefit of their employees. The opinion letter, in effect, states that an employer who adopts the Plan will be considered to be qualified under the Code Section 401(a) provided all terms of the Plan are met and the Plan does not discriminate in favor of key or highly compensated employees. Therefore, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirement of the Code.

Notes to Financial Statements For the Years Ended December 31, 2010 and 2009

GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that is more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). During 2008 and 2007, the Company identified operational errors in the administration of the Plan. The Plan has recorded a contribution receivable in the Plan's financial statements as of December 31, 2010 and 2009 for the correction and does not expect the errors to affect the Plan's tax status. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. In general, the plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

8. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Vanguard, as trustee, has certified that all of the information provided by them is complete and accurate. Information included in the accompanying financial statements and notes to financial statements as to investments (excluding the Vanguard Retirement Saving Trust, at fair value, but including the Vanguard Retirement Saving Trust, at contract value), notes receivable from participants, interest income, dividend income, net appreciation in fair value of registered investment companies and all information in the supplemental schedules (excluding the Vanguard Retirement Savings Trust, at current value), is presented in reliance solely upon these certifications.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31,	
	2010	2009
Net assets available for benefits per financial statements	\$16,842,068	\$11,666,449
Adjustment from fair value to contract value for fully benefit responsive investment contracts	210,224	89,696
Net assets available for benefits per Form 5500	<u>\$17,052,292</u>	<u>\$11,756,145</u>

The following is a reconciliation of investment income per the financial statements to the Form 5500:

	Year ended December 31, 2010	Year ended December 31, 2009
Investment income per financial statements	\$1,504,825	\$1,486,737
Current year adjustment from fair value to contract value for fully benefit responsive investment contracts	210,224	89,696
Reversal of prior year adjustment from fair value to contract value for fully benefit responsive investment contracts	(89,696)	35,120
Investment income per Form 5500	<u>\$1,625,353</u>	<u>\$1,611,553</u>

Fully benefit responsive investment contracts are recorded on the Form 5500 at fair value but are adjusted to contract value of financial statement presentation.

10. Subsequent Event

The Plan evaluated subsequent events through October 7, 2011, the date the financial statements were issued. No significant subsequent events were noted.
