Note 1 Description of the Plan

The following description of the A. L. Gilbert Company Profit Sharing and Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General The Plan is a participant-directed defined contribution plan covering all employees of A. L. Gilbert Company (the Company) who have at least 1,000 hours of service and are not covered by a collective bargaining agreement, unless the agreement provides for inclusion in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Contributions The Company contributes to the plan an amount determined by the Board of Directors. Participants are neither required nor permitted to make contributions.

Participant Accounts Each participant's account is credited with an allocation of (a) the Company's contribution, (b) investment earnings, and (c) forfeitures of terminated employees non-vested account balance remaining after any plan expenses have been paid. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting Vesting is based on years of continuous service. A participant is 100 percent vested after six years of credited service or upon normal retirement age.

Forfeitures The portion of each participant account that is non-vested is forfeited when (a) a distribution of the vested portion of the account occurs, or (b) at the end of the Plan year during which the former participant incurs the fifth consecutive one-year service break after termination. Forfeited account balances are eligible to pay certain plan expenses. Any forfeitures remaining after payment of the expenses are allocated to active participant's accounts when the next allocation occurs. The forfeited amounts held at February 28, 2011 and 2010 were $5,429 and $1,196, respectively.

Payment of Benefits Upon termination of service, a participant may elect to receive a lump-sum amount equal to the value of his or her account or rollover to another qualified plan.

Administrative Expenses Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Most administrative expenses are paid directly by the Company.

Note 2 Summary of Accounting Policies

Method of Accounting The Plan maintains its financial statements and accounting records on the accrual basis of accounting.

Note 2 Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition The Plan's investments are reported at fair value based on the quoted market price of the fund, which represents the net asset value of the shares held by the fund at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risk and Uncertainties The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account and balances and the amounts reported in the statements of net assets available for benefits.

Payment of Benefits The Plan records benefits when paid. Total vested benefits due to terminated and retired participants but not paid was $3,013,273 as of February 28, 2011.

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

Subsequent Events In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through December 13, 2011, the date the financial statements were available to be issued.

Recent Accounting Pronouncement In January 2010, FASB issued an amendment "Fair Value measurements and Disclosures-Improving Disclosures about Fair Value Measurements" (ASU 2010-06) which requires new disclosures about transfers of financial assets and liabilities between levels 1 and 2. This amendment also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and measurements, the amendment was effective and adopted for periods beginning on or after December 15, 2009. The guidance related to reconciliation of Level 3 measurements is effective for periods beginning on or after December 15, 2010.

Note 3 Investments

Investments that represent five percent or more of the Plan's net assets as of February 28, 2011 are separately identified as follows:

American Funds New Perspective Fund	$ 5,015,167
American Funds American Balanced Fund	3,399,323
American Funds Bond Fund	1,071,888
American Funds Investment Company of America	5,052,494
American Funds Money Market A	1,874,014

Note 3 Investments (Continued)

Investments that represent five percent or more of the Plan's net assets as of February 28, 2010 are separately identified as follows:

American Funds New Perspective Fund	$ 4,965,382
American Funds American Balanced Fund	2,935,711
American Funds Investment Company of America	4,460,971
Oppenheimer Developing Markets Fund	1,159,496
American Funds Money Market A	2,320,982

Note 4 Income Tax Status

The Plan has adopted a standardized form of a prototype plan sponsored by Sunguard Corbel, LLC. The prototype plan has received an opinion letter dated March 31, 2008, from the Internal Revenue Service as to the prototype's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 5 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 6 Plan Amendments

Effective November 17, 2010, the Plan was amended to reflect recent law changes in accordance with the HEART and WRERA ACTS.

Note 7 Transactions With Parties-in-Interest

Matrix Financial Solutions, Inc. the Plan's trustee and Digital Retirement Solutions, the Plan's third party administrator are parties-in-interest according to Section 3(14) of ERISA. Fees paid by the Plan for these services were $4,443 and $2,766, respectively, for the year ended February 28, 2011.

Note 8 Fair Value Measurements

The Financial Accounting Standards Board (FASB) has established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Represents financial assets whose fair value is determined based upon observable unadjusted quoted market prices for identical financial assets in active markets that the Plan has the ability to access.

Level 2 Represents financial assets whose fair value is determined based upon quoted market prices for similar assets in active markets; quoted market prices for identical assets in inactive markets; inputs other than quoted market prices that are observable for the assets such as interest rates or yield curves, or other inputs derived principally from or corroborated from other observable market information.

Level 3 Represents financial assets whose fair value is determined based upon inputs that are unobservable, including the Plan's own determinations of the assumptions that a market participant would use in pricing the asset.

There have been no changes in the methodologies used at February 28, 2011 and 2010. The following is a description of the valuation methodologies used for assets measured at fair value.

Money market fund: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of February 28, 2011			
	Level 1	Level 2	Level 3	Total
Money market fund	$ 1,874,014	$ -	$ -	$ 1,874,014
