NOTES TO FINANCIAL STATEMENTS

February 28, 2011 and 2010

NOTE 1: PLAN DESCRIPTION

The following description of the Fehr Foods, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established December 31, 1992, under the provisions of the Internal Revenue Service Code Section 401(k). The Plan provides eligible employees an opportunity to accumulate funds for retirement, death and disability benefits subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administration

The Plan is administered by the Plan administrator who is appointed by the board of directors of Fehr Foods, Inc. and Oktex Baking, L.P. (the "Company"). The Plan's custodian, Standard Insurance Company (the "Custodian"), is responsible for the custody of the Plan's assets.

Eligibility

Generally, each full-time employee of the Company who has one year of service is eligible to participate in the Plan upon attaining 21 years of age.

Employee Contributions

Participants in the Plan are allowed to make voluntary contributions through payroll deductions, which cannot exceed the maximum amount allowed by laws and regulations.

Participants may roll over amounts representing distributions from other qualified defined contribution plans.

Employer Contributions

The employer may make matching contributions equal to a discretionary percentage, determined by the employer, of the participant's elective deferrals. If the employer elects to make a matching contribution, it must be contributed to the Plan by the last day of the immediately following Plan year quarter.

The employer shall have the right to make an additional discretionary contribution, which shall be allocated to each eligible participant in proportion to his or her compensation as a percentage of the compensation of all eligible participants. The discretionary contribution and the allocation thereof shall be unrelated to any employee contributions made hereunder. Forfeitures may be used to pay administrative expenses of the Plan or to reduce any employer contribution.

The Plan, as required by the Internal Revenue Code, includes special rules in years that the Plan is determined to be a "Top Heavy Plan". The Plan becomes a "Top Heavy Plan" when it allocates more than sixty percent (60%) of the contributions or benefits to "Key Employees". "Key Employees" are generally owners, officers, shareholders or highly compensated individuals. If

the Plan becomes top heavy in any year, the Company may be required to make an additional contribution with a special vesting schedule to non-key employees.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with administrative fees for withdrawals. Allocations are based on the conditions described under "Employer Contributions". The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or allocated over several substantially equal installments, provided the minimum withdrawal is $1,000 or greater. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Vesting

Participants are immediately vested in their salary deferral plus actual earnings thereon. For any discretionary contributions made by the Company, the vesting is based on a six-year schedule as follows:

Less than 2 years	None
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years and longer	100%

Forfeitures

At February 28, 2011 and 2010, forfeited accounts totaled $5,783 and $1,520. These accounts will be used to reduce future employer contributions.

Participant Loans Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lesser of one half (1/2) of their vested balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 6% to 10%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through weekly payroll deductions.

Participant Investment Options

Participants may direct their salary deferral contributions to selected investments as made available and determined by the Plan administrator. Participants may change their investment options at any time throughout the year via direct phone access, fax, or internet.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are valued at fair value at February 28, 2011 and 2010, as reported by The Standard. See **NOTE 5** for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are accrued on the ex-dividend date.

Participant Loans Receivable

Participant loans receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Administrative Costs

Expenses incurred in connection with the general administration of the Plan are paid by the Plan and are recorded in the accompanying statement of changes in net asset available for benefits as other expenses.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan administrator has evaluated subsequent events through December 8, 2011, the date the financial statements were available to be issued.

Recent Accounting Pronouncements

In September 2010, FASB issued an amendment, *Plan Accounting – Defined Contribution Pension Plans (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans* (ASU 2010-25), which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. This amendment was effective for periods ending after December 15, 2010, with early adoption permitted. This amendment requires retrospective application to all periods presented.

This amendment was adopted for the year ended February 28, 2011, and retrospectively applied to February 28, 2010. Prior year amounts and disclosures have been revised to reflect the retrospective application of adopting this new amendment. The adoption resulted in a reclassification of participant loans totaling $26,711 and $12,648 from investments to participant

loans receivable as of February 28, 2011 and 2010, respectively. There was no impact to net assets as of February 28, 2011 or 2010, as a result of the adoption.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force) and the American Institute of Certified Public Accountants did not or are not believed by management to have a material impact on the Plan's present or future financial statements.

NOTE 4: INFORMATION CERTIFIED BY CUSTODIAN

The following is a summary of the Plan's asset information as of February 28, 2011 and 2010, and for the year ended February 28, 2011, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the Custodian and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Custodian that information provided to the Plan administrator by the Custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets as of February 28:

Investments:	2011	2010
Mutual funds	$ 1,016,404	$ 851,879
Participant loans	26,711	12,648
Total	$ 1,043,115	$ 864,527

The Standard also certified to the completeness and accuracy of $122,637 of net appreciation in fair value of investments and $602 of interest related to the aforementioned participant loans for the year ended February 28, 2011.

NOTE 5: FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at February 28, 2011.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end and unitized as part of a general account by the Plan custodian which may include estimates for NAV and dividend rates if those values are unavailable. Any subsequent change or later supplied value is reflected prospectively.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of February 28, 2011.

NOTE 7: OTHER LIABILITES

Other liabilities totaling $43,791 and $25,738 at February 28, 2011 and 2010, respectively, represent corrective distributions payable to certain employees whose contributions exceeded annual limits as defined by the Internal Revenue Service.

NOTE 8: TAX STATUS

The Plan obtained its latest determination letter on December 31, 1992, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

NOTE 9: PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination participants will become one hundred percent (100%) vested in their accounts.

NOTE 10: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment

securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
