The Company's employees were eligible to participate in the Eaton Savings Plan, under the terms of Eaton Plan's provisions, effective January 1, 2011. The Plan's assets totaling \$6,077,742 were merged into the Eaton Savings Plan on February 24, 2011.

Basis of Presentation - The Plan's 2010 financial statements are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (GAAP), which is acceptable under the Department of Labor Rules and Regulations. Interest and dividend income are recognized when earned. Effective January 1, 2011, the Plan's financial statements are prepared on the liquidation basis of accounting which for the Plan is similar to GAAP.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan provides for several investment options which are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets in liquidation available for plan benefits.

Payment of Benefits - Benefits are recorded when paid.

Participant Loans Receivable - GAAP requires that loans to participants be reported as a receivable from participants at the unpaid principal balance plus any accrued but unpaid interest.

Valuation of Investments - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with the policy of stating investments at fair value, net investment gain or loss is included in the carrying value of related investments in the statements of net assets available for plan benefits, and the changes in the net investment gain or loss are reflected in the statement of changes in net assets in liquidation available for plan benefits.

The statements of net assets available for plan benefits present investment contracts at fair value as well as an additional line item showing an adjustment from fair value to contract value for fully benefit-responsive investment contracts. The statement of changes in net assets in liquidation available for plan benefits is presented on a contract value basis.

Benefit-Responsive Fund - The Fidelity Managed Income Portfolio Fund invests primarily in asset-backed contracts that are fully benefit-responsive. These asset-backed contracts have two components: (1) a portfolio of securities or underlying assets and (2) a wrap contract. Pursuant to the contract, the issuer of the contract (wrap provider) undertakes to repay the principal amount deposited plus accrued interest less expenses to fund participant-directed withdrawals, transfers and loans. The crediting rate of the asset-backed contract is a function of the relationship between the market value, yield and duration of the underlying assets versus the contract value. If the positive adjustment for the portion of net assets attributable to fully benefit-responsive investment contracts from fair value to contract value increases, the crediting rate at the next reset date will be negatively impacted and vice versa. Interest rate change is a key factor that can influence future crediting rates because it impacts the value, yield and duration of the underlying securities.

The net weighted average yield earned, which is different from the interest rate credited to participants, by the entire fund was .2% for the two months of 2011 and 1.44% for 2010. The net weighted interest rate credited to participants in the fund was .2% for the two months of 2011 and 2.68% for 2010.

All of the asset-backed contracts held by the Fidelity Managed Income Portfolio Fund are fully participating contracts. In a fully participating contract, the asset and liability risks may be transferred from the wrap provider to the Fidelity Managed Income Portfolio Fund in the event of a termination or non-participant directed withdrawal, transfer or loan. The risk of this event happening is not probable. The wrap provider may terminate a fully benefit-responsive contract and settle at an amount different from the contract value if the wrap provider of Fidelity Managed Income Portfolio Fund is unable to meet the terms of the contract.

Federal Income Tax - The Company adopted a Prototype Non-Standardized Profit Sharing Plan with a deferral arrangement. The Prototype Non-Standardized Profit Sharing Plan received a favorable opinion letter from the Internal Revenue Service (IRS) on October 9, 2003, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (Code). The Plan has been amended since the favorable opinion letter was received. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and therefore, believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP provides detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in an entity's financial statements. GAAP requires an entity to recognize the financial statement impact of a tax position when it is more likely than not that the position will be sustained upon examination. The Plan believes that all significant tax positions utilized by the Plan will more likely than not be sustained upon examination. As of February 24, 2011, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are from the year 2007 forward (with limited exceptions). Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the statement of changes in net assets available for plan benefits.

NOTE B PLAN DESCRIPTION

The following description of the Plan provides only general information about the Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Participation - Prior to the merger, an employee was eligible to become a participant in the Plan after having attained the age of 20-1/2. An employee was eligible to receive the discretionary profit sharing contribution after being credited with six months of service.

Contributions - Prior to the merger, participants could elect to make pretax contributions to the Plan in an annual amount up to 100% of their compensation, limited to \$16,500 for 2011. This limitation is adjusted periodically to reflect cost-of-living increases. Participants who have attained age 50 before the end of the Plan year were eligible to make catch-up contributions (\$5,500 for 2011).

During 2011, no participant or Company contributions were made.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Company's contributions, an allocation of plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Prior to the merger, a participant was immediately fully vested with respect to the portion of the participant's account attributable to participant contributions, rollover contributions and Company matching contributions. With respect to employer profit sharing contributions and related earnings, vesting was as follows:

Years of Service	Vesting Percentage
1	33%
2	66%
3	100%

Forfeitures - Forfeited non-vested employer contributions were applied to pay administrative expenses with any remaining amounts used to reduce future employer contributions payable under the Plan. Forfeiture balances transferred to Eaton Savings Plan at February 24, 2011 amounted to \$1,699.

Investments - Each participant directed the investment of their account into any of the available investment options.

NOTE B **PLAN DESCRIPTION (CONTINUED)**

Loans to Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as transfers between the investment fund and participant loans receivable. Loan terms range from 1 to 5 years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with prevailing rates. The interest rate on loans outstanding at December 31, 2010 was 4%. Principal and interest is paid ratably through bi-weekly payroll deductions. All outstanding loans as of February 24, 2011 were transferred to the Eaton Savings Plan at the time of the plan merger.

Forms of Benefits - The normal form of benefit payable under this Plan is a lump sum. If the amount payable is \$5,000 or less, the participant may receive a lump sum distribution as soon as feasible following the date of termination. If the amount payable is greater than \$5,000, the participant must give written consent before the distribution can be made.

Administration - Two directors of the Company comprise the Administrative Committee for the Plan. The Company, as the Plan Administrator, may, at its discretion, pay the Plan's administrative expenses. Any Plan expenses not paid by the Company will be paid by the Plan. Substantially all Plan expenses were paid by the Company for 2010. Effective October 1, 2010, the Eaton Corporation Pension Administration Committee became the Administrative Committee of the Plan as a result of an ownership change.

NOTE D **FAIR VALUE DISCLOSURES**

GAAP provides a framework for measuring fair value using a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value based upon whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical financial instruments and the lowest priority to unobservable inputs. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The financial instrument's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. These inputs are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical financial instruments in active markets that the Plan has the ability to access.

Level 2 – Other significant observable inputs (including quoted prices in active and inactive markets for similar financial instruments), or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the financial instruments.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the financial instruments. The fair value of Level 3 financial instruments is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

NOTE D FAIR VALUE DISCLOSURES (CONTINUED)

Following is a description of the valuation techniques used for investments measured at fair value. There have been no changes in the techniques used during 2011 and 2010.

Registered investment companies and interest-bearing cash are valued at the net asset value of shares held by the Plan at period end.

Common/collective trust fund is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair values of investments are categorized as follows at December 31, 2010:

	2010			
	Level 1	Level 2	Level 3	Total
Registered Investment Companies				
Value Funds	\$ 16,567	\$ -	\$ -	\$ 16,567
Growth Funds	2,651,821	-	-	2,651,821
Balanced Funds	2,038,028	-	-	2,038,028
Fixed Income Funds	554,770	-	-	554,770
Common/Collective Trust Fund	-	660,546	-	660,546

Total Investments at Fair Value	<u>\$ 5,261,202</u>	<u>\$ 660,546</u>	<u>\$ -</u>	<u>\$ 5,921,748</u>

There were no significant transfers in and/or out of the fair value categories during 2010. Due to the merger of the Plan, no investments were held as of February 24, 2011.
