NOTES TO FINANCIAL STATEMENTS

Years Ended March 31, 2011 and 2010

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of Right Away Redy Mix, Inc. (the Company) 401(k) Profit Sharing Plan (the Plan) is provided for only general information purposes only. Participants should refer to the entire Plan agreement for a more complete description of the Plan's provisions.

Effective April 1, 2002, the Plan was restated to comply with the requirements of the Employee Retirement Income Security Act (ERISA) of 1974 and the Internal Revenue Code (IRC) of 1986, as amended by subsequent legislation.

Effective March 31, 2010, Right Away Redy Mix, Inc. Money Purchase Plan ("MPP") was merged into the Plan. The contribution formula under the Plan is frozen. Immediately after the merger each participant shall have a balance in the 401(k) Plan equal to the sum of the account balances each participant had in the MPP and in the 401(k) Plan immediately prior to the merger. Investments transferred from the merger will be participant-directed.

General

The Plan is a defined contribution plan covering all employees, age 21 years or older, who meet the Plan's eligibility requirements. Participants may contribute to the Plan effective the first day of the quarter following their hire and satisfying the age requirements. Participants must meet the age and service requirements in order to be eligible for Company contributions to the Plan. Profit-sharing and matching contributions are discretionary and are subject to certain limitations.

Employees governed under a collective bargaining agreement, are eligible to receive nonelective contributions after one hour of service. Entry date for nonelective contributions for collective bargaining employees is effective the first day of each month.

Nonresident aliens and effective April 1, 2010, leased and reclassified employees are excluded from participation in the Plan. Employees covered under a collective bargaining agreement are not eligible for the following specified contributions: matching, qualified non-elective and qualified matching.

Contributions

Eligible participants may defer up to 100% of eligible compensation up to the maximum allowed by law. Eligible participants who are at least 50 years old by the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, collective investment trust, money market fund, and a self-directed brokerage account as investment options for participants.

NOTES TO FINANCIAL STATEMENTS

Years Ended March 31, 2011 and 2010

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Contributions (Continued)

The Company may elect to make a Qualified Matching Contribution to satisfy certain non-discrimination tests required by the IRS. The contribution may or may not be made for all participants. There were no such Company contributions during 2011 and 2010.

Employees subject to collective bargaining agreements will be eligible to receive nonelective contributions after one hour of service. These nonelective contributions are participant directed and determined by bargaining agreement. The contribution is allocated among the participants based upon a fixed contribution formula which states the following: 3% of compensation for members of Union Concrete Workers Association, Union Concord/Martinez Driver's Association and Union Concord/Martinez Pumper's Association; 11% for Union City Drivers Associations and Union City Pumpers Associations; 10% for Pleasanton Mechanics; and 0% of Compensation for members of Union Rock Transport Drivers Association and Union City Mechanics. Participants must be employed on the last day of the Plan year to receive an allocation of the contribution.

The Company may also make a discretionary non-elective contribution, but is not required to contribute to the Plan. Contributions are subject to certain limitations. Profit sharing contributions are non-participant directed.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution and Plan earnings and charged with an allocation of administrative expenses. For participant contributions and non-elective contributions determined by collective bargaining agreements, allocations are based on participant account balances on a daily valuation basis. Nonelective contributions for non-collective bargaining employees are allocated to balances based on the weighted average of participant's balances and valued at the last day of the month.

Vesting

Participants are immediately vested in their contributions plus actual and earnings thereon. Participants are also immediately vested in employer's discretionary qualified non-elective contributions, safe harbor contributions, prevailing wage contributions and earnings thereon. Based upon a participant's 1-year period of service, vesting in any regular matching and nonelective contributions occur at 20% per year after two years of service. For employees under collective bargaining agreements vesting for nonelective matching contributions is 30% after two years of service, 44% after 3 years of service, 60% after four years of service, 80% after five years of service and 100% after six years of service.

Years Ended March 31, 2011 and 2010

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Break in Service

A participant will incur a break in service during any Plan year in which the participant works less than 501 hours.

Notes Receivable from Participants

Participants may borrow from their fund accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the vested balance in the participant's account and bear interest at the Wall Street Journal prime rate of interest as of the first day for the month in which the note is taken plus 1%. Notes must be repaid within five years unless used to purchase a primary residence, in which case, the term of the note may not be greater than fifteen years. Principal and interest are paid ratably through semi-monthly payroll deductions.

Payment of Benefits

Participant contributions can be distributed prior to termination upon reaching age 59-1/2 for hardship claims, death or disability or retirement as defined in the Plan agreement. A participant may elect a lump-sum payment or, if eligible, installments.

On termination of service for account balances less than \$1,000, a cash-out distribution will be made at the employer's discretion. For vested account balances greater than \$1,000, but not more than \$5,000, and the participant fails to elect a lump sum or rollover, the balance shall be rolled over to an Individual Retirement Account at a qualified financial institution. For account balances over \$5,000, written consent by the employee is required before distribution can be made.

The normal retirement age under the Plan is 65 years of age. However, in-service distributions can be made once participant reaches the age 59 1/2.

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures attributable to matching contributions are applied to reduce matching contributions. Forfeitures attributable to nonelective contribution balances are allocated as additional nonelective contributions to those employees. Forfeitures attributable to money purchase pension transfer balances and to balances

attributable to fixed nonelective contributions for collective bargaining employees are used to reduce nonelective contributions for those employees. During the year ended March 31, 2011, \$23,915 of forfeitures were used to reduce employer nonelective contributions for collective bargaining employees.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses

Indirect administrative expenses paid by the Plan totaled \$23,932 and direct expenses were \$19,604 for the year ended March 31, 2011. All other significant Plan expenses were absorbed by the Company.

Reclassification

Certain prior year financial statement amounts were reclassified to conform to current year presentation.

The Plan has evaluated subsequent events as of March 31, 2011 through December 13, 2011, which represents the date these financial statements were available to be issued.

NOTE 3 – FUNDING POLICY

The Company's policy is to fund normal cost on a current basis. The Plan uses the equivalency method to determine current service cost and funding requirements. During the years ended March 31, 2011 and March 31, 2010, the required contributions were made in accordance with the minimum funding requirements of ERISA.

NOTE 4 – INVESTMENTS

The following investments represent 5% or more of the Plan's net assets available for benefits at March 31:

	<u>2011</u>	<u>2010</u>

Options	-	102,703	102,703
	<u>\$ 705,130</u>	<u>\$ 998,301</u>	<u>\$ 1,703,431</u>

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a fully benefit-responsive investment contract with Union Bond and Trust Company (Union Bond). Union Bond maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for Plan withdrawals and administration expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value and since the average contract value, approximates fair value no adjustment to contract value was necessary to arrive at net assets available for benefits. Contract value, as reported to the plan by Union Bond, represents contributions made under the contract, plus earnings, less participants' withdrawals and administrative expenses or transfer of all or a portion of their investment at contract value.

RIGHT AWAY REDY MIX, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

Years Ended March 31, 2011 and 2010

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

There are no reserves against the contract value for credit risk of the contract issuer or otherwise the average yield was approximately 2.3% and 2.0% for 2011 and 2010. The crediting interest rate was approximately 2.56% and 2.94% for 2011 and 2010, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring

NOTE 6 – NONPARTICIPANT-DIRECTED INVESTMENTS

NOTE 7 – FAIR VALUE MEASUREMENT

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

RIGHT AWAY REDY MIX, INC. 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS (Continued)

Years Ended March 31, 2011 and 2010

NOTE 7 – FAIR VALUE MEASUREMENT (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2011 and 2010:

Common Stocks, Preferred Stocks, Corporate Bonds, and Government Securities: Valued at the closing price reported in the active market in which the investments are traded.

Collective Investment Trust: Valued at net asset value (NAV) of units held by the Plan at year end.

Certificates of Deposit: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Mutual Funds and Money Market Funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Options: Valued at closing price reported in the active market in which the investments are traded

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts, including Company contributions.

NOTE 9 – INFORMATION CERTIFIED BY TRUSTEE

The Plan's investments are currently held in safekeeping with Charles Schwab Trust Company, a division of Charles Schwab Bank, the Plan's custodian. Investments are in accordance with the policy set by the Plan's administrator or by subsequent policy amendments.

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Charles Schwab Trust Company, a division of Charles Schwab, is the custodian of the Plan, has certified to the completeness and accuracy of all participant-directed investments reflected on the accompanying statements of net assets available for benefits as of March 31, 2011 and 2010, and the schedule of assets held for investment purposes as of March 31, 2011 and 2010, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year then ended.

NOTE 10 – AMOUNTS ALLOCATED TO PARTICIPANTS WHO HAVE WITHDRAWN

As of March 31, 2011, 17 participants with vested account balances totaling \$935,827 had withdrawn from participation upon termination, but had not yet received distribution of their vested account balances.

NOTE 11 – INCOME TAX STATUS

The trust established under the Plan on April 1, 1987 to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code (IRC), and, accordingly, the trust's net investment income is exempt from income taxes.

NOTE 11 – INCOME TAX STATUS (Continued)

The Internal Revenue Service has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended and restated effective April 1, 2002, restatement includes the merger of the Money Purchase Plan (MPP) into this Plan as of March 31, 2010. The amendment and restatement received a favorable determination letter dated July 28, 2010.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Franchise Tax Board. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 12 – RISKS AND UNCERTAINTIES

On August 5, 2011, the Standard & Poor's rating agency announced that it had downgraded the United States credit rating to AA+ from its top rank of AAA. The global investment markets response to this news is uncertain and has been volatile to date. Due to the level of risk associated with the current economic conditions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 13 – CONCENTRATION OF CREDIT RISK

Approximately 80% of the nonparticipant-directed Plan assets are invested in equity investments at March 31, 2011 and 2010.

Due to the effective date of the merger, these investments are classified as follows on the Form 5500 and cash is included on the Plan’s schedule of assets held at year end. On the date of the merger, the MPP accumulated plan benefits and net assets available for benefits included in the amount due from the MPP were as follows:
