Note 1 – Description of the Plan

The following brief description of the Kidz Medical Services, Inc. 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering substantially all full-time employees of Kidz Medical Services, Inc. (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

At December 31, 2010, Plan assets of Kidz Medical Services, Inc. 401(k) Profit Sharing Plan were invested with SunTrust Bank. In addition to cash and short term securities, Plan assets held by SunTrust Bank were invested in stock funds, bond and mortgage funds, U.S. Government Securities and real estate funds. The fair value of the investments reflected on these financial statements is based on values reported by SunTrust Bank per their annual statement of plan assets at December 31, 2010. SunTrust Bank's fair values are based on quoted market prices on the last business day of the Plan's year end.

Eligibility Requirements
Employees who are twenty-one years of age or older, have one year period and have reached the entry date are eligible to participate in the Plan. Employees that are unionized and certain non-resident aliens who have no earned income from sources with the United States are not eligible to participate in the plan. The entry date will be the first day of the Plan Year or the first day of the seventh month of the Plan year coinciding with or next following the date eligibility requirements.

Requirements for Contributions
Eligible participants may elect to contribute before-tax or Roth after-tax contributions of 1% to 100% of eligible earnings not to exceed Code limits of $16,500 for 2010. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 24 mutual funds and two collective trusts as investment options for participants. Participants who have attained at least age 50 by the end of the year may elect to defer additional amounts to the Plan for that year subject to Code limits. The Company may elect to match the participants' contributions or elect to make discretionary non-elective contributions. The percentage of the match, if any, is at the Company's discretion.

Participant Accounts
Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, allocations of the Company contributions and Plan earnings, and charged with an allocation of Plan losses and administrative expenses not otherwise paid by the Company.

Note 1 – Description of Plan (continued)

Participant accounts are reduced by the amount of withdrawals made by the participant during the plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

Upon retirement, disability, termination of service or reaching 65 years of age, distributions are made to participants in the form of a lump sum distribution or in installments if participant is subject to required minimum distributions.

Also, an automatic mandatory lump sum distribution will be made to those participants who have a vested benefit that does not exceed $5,000 upon termination of their employment. The non-vested balance, if any, reverts to the Plan. As further described in the Plan document, early withdrawals are generally limited to cases involving financial hardship. In the event of a hardship, participants may only withdraw their pre-tax and Roth 401(k) deferral accounts.

Vesting Percentage

Participants are immediately vested in their elective deferrals and transfer contributions plus actual earnings thereon. Participants are generally vested in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon based on years of credit service as follows:

Years of Vesting Service	Vested %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants are 100% vested if they are employed on or after their normal retirement age of 65, or if a participant incurs a severance of employment as a result of death or disability.

Forfeitures

The non-vested portion of fund assets allocated to a participant's account is forfeited upon termination of service. The forfeitures may first be used to reduce payments of plan expenses and then to for reduce future employer contributions. As of December 31, 2010 and 2009, the forfeiture balance was $20,509 and $868, respectively. In 2010 and 2009, employer contributions were reduced by $40,528 and $859, respectively.

Note 1 – Description of Plan (continued)

Participant Loans
Participant loans are not permitted under the Plan.

Subsequent Events
The Company has evaluated subsequent events and transactions for potential recognition or disclosure through December 7, 2011, which is the date the financial statements were available to be issued.

Plan Amendments
Effective for the plan year ending 2010, the Plan was restated to adopt the provisions of the Pension Protection Act and the Heart Act.

Note 2 – Significant Accounting Policies

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Fully Benefit-Responsive Investment Contracts
Investment Contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is based on the net asset value of the fund as reported by the investment advisor. The Statement of Net Assets Available for Benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the fully benefit-responsive investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates and assumptions.

Valuation of Investments and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Note 2 – Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
Fees and expenses of the Plan are paid by the Company to the extent not paid by the Plan. For the year ended December 31, 2010, the Company incurred a total of $8,918 in administrative expenses on the Plan, of which $5,850 was paid by the Company and $3,033 was paid with the plan assets.

Adoption of New Accounting Pronouncements
In January 2010, new accounting guidance on fair value measurements was issued which requires (i) an entity to disclose separately the amounts of significant transfers in and out of Level 1 and 2 fair value measurements and describe the reasons for such transfers and (ii) separate presentation of purchases, sales, issuances and settlements for Level 3 fair value measurements. The new accounting guidance also clarifies the disclosure requirements about the inputs and valuation techniques for Level 2 or Level 3 fair value measurements. The adoption of the new accounting guidance did not have a material effect on the Plan's financial statements.

Note 3 – Trustee Certification

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, SunTrust Bank, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009, the schedule of assets held at the end of year, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010.

Note 5 – Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Note 5 – Fair Value Measurements (continued)

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in active markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds: Valued at quoted market prices, which represent the net asset value of shares held by the plan at year end.

Collective Trust Funds: Valued at the fair value of the underlying investments and then adjusted by the issuer to contract value.

Note 5 – Fair Value Measurements (continued)

The following table is a summary of the inputs used to value the Plan's investments as of December 31, 2010 and 2009:

Assets at Fair Value as of December 31, 2010

Description	*Level 1*	*Level 2*	*Level 3*	*Total*
Mutual Funds	$ 9,061,839	$ -	$ -	$ 9,061,839
Collective Trust Funds	-	644,950	-	644,950
Total assets at fair value	$ 9,061,839	$ 644,950	$ -	$ 9,706,789

Assets at Fair Value as of December 31, 2009

Description	*Level 1*	*Level 2*	*Level 3*	*Total*
Mutual Funds	$ 7,263,426	$ -	$ -	$ 7,263,426
Collective Trust Funds	-	571,300	-	571,300
Total assets at fair value	$ 7,263,426	$ 571,300	$ -	$ 7,834,726

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its matching contribution at any time and to modify, suspend or terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants would become 100% vested in their employer contributions.

Note 7 – Related Party Transactions

Certain Plan investments are shares of mutual funds managed by SunTrust Bank, the Trustee, and therefore, these transactions qualify as party-in-interest transactions

Note 8 – Tax Status

In a letter dated March 31, 2008, the Internal Revenue Service determined that the prototype non-standardized profit sharing plan which this Plan has been based on has been designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is designed and is currently operating in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9 – Excess Contributions

At December 31, 2010 and 2009, net assets available for plan benefits included $32,112 and $69,838, respectively, for amounts owed to participants who made excess contributions based on the compliance testing performed by the Plan's record keeper. These amounts are reflected net of total participant contributions on the statement of changes in net assets available for benefits and as a liability on the statement of net assets. The excess contribution balance as of December 31, 2010 was returned by the Plan to the participants in March 2011 and the balance as of December 31, 2009 was returned to the participant in March 2010.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

Note 11 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2010 and 2009 to Form 5500:

	2010	2009
