1. Description of the Plan

The following description of Hitachi Chemical Diagnostics, Inc. / Tri-Continent Scientific, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, a defined contribution plan intended to qualify under Section 401(a) and related provisions of the Internal Revenue Code ("IRC"), was originally established by Hitachi Chemical Diagnostics, Inc. and its wholly owned subsidiary Tri-Continent Scientific, Inc. (collectively the "Company"), effective January 1, 1990 to provide retirement benefits to eligible employees. The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination or financial hardship. The Plan covers all employees of the Company who meet certain eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and subsequent amendments.

Plan administration

The Company is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Custodian and record keeping services are provided by Prudential Bank & Trust, F.S.B. ("Prudential"). Certain administrative expenses of the Plan, including audit fees, were paid by the Company for the year ended December 31, 2010. Investment fees, which may vary according to the individual funds selected, are paid out of the assets of the Plan. Participants should refer to the prospectus of the individual investment funds for further details on individual investment fees.

Eligibility

All full-time employees of the Company are eligible to participate in the Plan once they have reached age 18 and will be enrolled in the plan on the first day of the month following the satisfaction of the eligibility requirements. Employees whose employment is governed by a collective bargaining agreement in which retirement benefits are subjected to good faith bargaining, non-resident aliens and part-time, seasonal or otherwise temporary employees whose regularly scheduled service is less than 1,000 hours of service per annual period are also excluded from participation.

1. Description of the Plan (continued)

Contributions

Participants may elect to contribute through payroll deductions amounts up to 100% of their annual compensation as defined by the Plan, on a tax-deferred basis, up to a maximum amount allowed by the Internal Revenue Code. Maximum allowed deferral amounts were $16,500 for calendar year 2010. Employees over the age of 50 were allowed to make an additional $5,500 for calendar year 2010. Participants are also allowed to roll over contributions from other qualified employer-sponsored retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Each plan year the Company may make discretionary matching contributions. In 2010, the Company elected to match 25% of the participants' annual contributions to the Plan, provided that the participant was employed on the last day of the plan year and had completed at least 1,000 hours of service during the plan year. The Company can also elect to make discretionary profit sharing contributions. The Company did not elect a profit sharing contribution for the 2010 Plan year.

Participant accounts

Each participant's account is credited with the participant's contribution or rollovers and allocations of (a) the Company's contributions, if any, and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in company discretionary matching and profit share contributions plus earnings thereon is based on years of continuous service, as defined by the Plan. Participants are 100% vested after 4 years of credited service.

Payment of benefits

Distribution and withdrawals are payable upon retirement, termination, financial hardship, disability or death. If a participant's account balance is equal to or less than $5,000, the balance is distributed immediately in a lump-sum cash payment unless a direct rollover into another qualified benefit plan is requested. If the account balance is over $5,000, the participant can consent to either a distribution paid in the form of a lump-sum cash payment, a direct rollover into another qualified plan, installment payments over a period not longer than life expectancy or postpone payment to a later date and remain in the Plan as described in the Plan documents.

1. Description of the Plan (continued)

Notes receivable from participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participants' accounts and bear interest at rates that range from 4.25% to 9.50%, which is commensurate with the bank prime rates at the date of loan issuance, and mature by 2015. The repayment of principal plus interest is generally required by the Plan to be made through payroll deductions over five years unless the loan is used for the purchase of a primary residence.

Forfeited accounts

Forfeitures can be used to reduce employer contributions or to pay Plan expenses if the employer elects not to pay such expenses directly. At December 31, 2010 and 2009, forfeited non-vested accounts totaled $11,370 and $9,238, respectively. The Company did not elect to reduce their employer contribution or pay Plan expenses with current year forfeitures.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting and in accordance with ERISA.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Notes receivable from participants

Notes receivable from participants represents loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2010 and 2009. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of benefits

Benefits are recorded when they are paid.

Recent accounting pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements* ("ASU 2010-096"). ASU 2010-06 requires new disclosures about transfers in and out of Level 1 and Level 2 fair value measurements and the activity in Level 3 fair value measurements and, in addition, clarifies existing disclosures required for levels of disaggregation and inputs and valuation techniques. With the exception of the disclosure requirements about activity in Level 3 fair value measurements, which is effective for fiscal years beginning after December 15, 2010, the Plan adopted ASU 2010-06 for the year ended December 31, 2010, and has provided the disclosures required for the period ended December 31, 2010.

In September 2010, the FASB issued Accounting Standards Update No. 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans* ("ASU 2010-25"). ASU 2010-25 required participant loans be classified as notes receivable from participants and measured at their unpaid principal balance plus accrued but unpaid interest. Previously, participant loans were classified as investments and measured at fair value. The Plan adopted ASU 2010-25 for the year ended December 31, 2010. For consistency with the 2010 presentation, participant loans have been reclassified from investments to notes receivable from participants as of December 31, 2009.

3. Information Prepared and Certified by Custodian

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Prudential has certified information regarding the cost and fair value of all investments and notes receivable from participants held at December 31, 2010 and 2009, and investment and notes receivable from participants transactions entered into during the year ended December 31, 2010, which was used in the preparation of the accompanying financial statements and supplemental schedule.

4. Investments

5. Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Plan determines the fair values of its assets and liabilities based on a fair value hierarchy that includes three levels of inputs that may be used to measure fair value (Level 1, Level 2 and Level 3). Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. An active market is a market in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Level 2 inputs are inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs reflect the Plan's own assumptions about the assumptions market participants would use in pricing the asset or liability (including assumptions about risk). Unobservable inputs are developed based on the best information available in the circumstances and may include the Plan's own data.

5. Fair Value Measurements (continued)

The following table presents the major categories of assets and liabilities measured at fair value on a recurring basis during the year ended December 31, 2010.

Fair Value Measurements Using Input Type	Level 1	Level 2	Level 3	Total
Registered investment companies				
Growth funds	$ 3,970,070	$ -	$ -	$ 3,970,070
Blend funds	5,244,173	-	-	5,244,173

Total investments measured at fair value	$11,889,975	$ -	$ -	$11,889,975

The following table presents the major categories of assets and liabilities measured at fair value on a recurring basis during the year ended December 31, 2009.

Fair Value Measurements Using Input Type	Level 1	Level 2	Level 3	Total
Registered investment companies				
Growth funds	$ 3,241,877	$ -	$ -	$ 3,241,877

Total investments measured at fair value	$10,596,026	$ -	$ -	$10,596,026

The Plan's valuation methodology to measure the fair value of registered investment companies uses quoted market prices as all of these instruments have active markets.

Valuation techniques utilized during the reporting period in the fair value measurement of assets and liabilities presented on the Plan's statement of net assets available for benefits were not changed from previous practice.

6. Plan Termination

While the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, each participant's account will become fully vested and nonforfeitable.

7. Party-in-Interest Transactions

The Plan has included in its investment fund options certain funds managed by Prudential Bank & Trust, F.S.B., or one of its affiliates. Prudential is the custodian as defined by the Plan and therefore, these transactions qualify as exempt party-in-interest transactions.

8. Income Tax Status

The Plan adopted the Prudential Prototype Non-Standardized Profit Sharing Plan. The Internal Revenue Service has informed Prudential by a letter dated March 31, 2008, that its prototype plan is designed in accordance with applicable sections of the IRC, and that any employer adopting this form of the prototype plan will be considered to have a plan qualified under applicable sections of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable sections of the IRC and, therefore, believes that the Plan is qualified and is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon an examination by the Internal Revenue Service. No uncertain positions have been identified that would require the recognition of a tax liability (or asset) or disclosure in the financial statements as of December 31, 2010 and 2009. The Plan is subject to routine audits by applicable taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for 2006 and prior years.
