INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee
Utility Trailer Sales Southeast Texas, Inc. 401 (k) Plan
Houston, Texas

I was engaged to audit the financial statements and supplemental schedule of Utility Trailer Sales Southeast Texas, Inc. 401 (k) Plan as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information in Note 7, which was certified by State Street Bank and Trust, and JP Morgan Chase Bank N.A., the trustees of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedule. I have been informed by the plan administrator that State Street Bank and Trust held the Plan's investment assets and executed investment transactions from July 25, 2010 to December 30, 2010 and that JP Morgan Chase Bank N.A. held the Plan's investment assets and executed investment transactions as of December 31, 2009 and for the period January 1, 2009 to June 24, 2010. The Plan administrator has obtained a certification from the trustees as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that I did not audit, I am unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedule taken as a whole. The form and content of the information included in the financial statements and the supplemental schedule, other than that derived from the information certified by the trustee, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

UTILITY TRAILER SALES SOUTHEAST TEXAS, INC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

1. Plan description, eligibility and funding policies:

General

The following description of the Utility Trailer Sales Southeast Texas, Inc. 401(k) plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a self-directed, defined contribution plan, covering all full-time employees of the Company who meet the eligibility requirements detailed below. It is subject to the provisions of the Employee Retirement Security Income Act of 1974 (ERISA).

Eligibility

Eligible employees become participants in the Plan following one year of continuous service and attainment of age 18, as defined in the Plan Agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

A participant will have completed a Year of Service if, at the end of 12 consecutive months of employment, the participant has been credited with at least 1000 Hours of Service. If a participant has not been credited with 1000 Hours of Service by the end of 12 consecutive months of employment, the participant will have completed a Year of Service at the end of any following Plan Year during which the participant was credited with 1000 Hours of Service. Newly eligible participants can start to participate on the first Plan Year quarter coinciding with or next following the date they satisfy the Plan's eligibility requirements

The Plan has Break in Service Rules. If a participant terminates employment and is then rehired, the participant may lose credit for prior service under the Plan's Break in Service rules. While eligibility Break in Service rules may delay a participant from participating in the Plan, the participant will never lose any benefits to which they have or already become entitled to.

For eligibility purposes, a participant will have a break in service if the participant completes less than 501 Hours of Service during the computation period used to determine whether the participant has a Year of Service. However, if a participant is absent from work for certain leaves of absence such as paternity or maternity leaves, the participant may be credited with 501 Hours of Service to prevent a Break in Service.

The Plan has a Five-Year Break in Service rule. The Five-year Break in Service rule applies to only to the totally non-vested participants. If a participant is totally non-vested in your account and has five consecutive Breaks in Service, all the service the participant earned before the five-year period no longer counts for eligibility purposes.

UTILITY TRAILER SALES SOUTHEAST TEXAS, INC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

1. Plan description, eligibility and funding policies: (cont'd)

Contributions

Participant contributions consist of pre-tax elective deferrals, rollover contributions and after-tax Roth 401(k) deferrals. Participants may contribute pre-tax and after-tax Roth 401(k) elective deferrals up to the dollar limitation contained in section 402(g) of the Internal Revenue Code in effect at the beginning of the year. Employer contributions include discretionary matching contributions and discretionary contributions. Contributions are subject to certain limitations.

The Company elected an auto enrollment feature which provides that newly eligible employees that do not affirmatively elect to contribute or not to contribute to the Plan will be automatically enrolled in the Plan at a deferral rate of 2%.

The Employer may also make Non-Elective Contributions or Employer Matching Contributions to the Plan. Non-elective contributions are contributions that the employer makes to the Plan, without the participant's election. Employer Matching Contributions is a discretionary percentage of a participant's contribution or a dollar up to a maximum amount ($600) per participant. The percentage or dollar amount is to be determined by the employer on a uniform basis to all participants.

Excess contributions

The Plan distributes excess contributions in accordance with IRS Code 401(m) and 401(k).

Participant accounts and vesting

Each participant's account is credited with the participant's contributions, the employer's contributions, an allocation of the Plan's earnings and charged with an allocation of investment management fees. The Plan's earnings and investment management fees are allocated according to participants' relative account balances in the investment options. Certain participant and loan fees, if applicable, are also charged to participant accounts.

Participants are immediately vested in their contributions plus actual earnings thereon. The portion of the participant's account attributable to employer matching contributions and employer discretionary contributions is fully vested after completion of five years of service. Vesting is accrued as outlined in the Plan Agreement. Participants' accounts become fully vested upon attainment of the normal retirement age of 65, early retirement as defined in the Plan Agreement or in the event of death or total disability.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in a lump sum payment to defer receipt of their benefits to a later date. These participants share in the earnings of the investments.

1. Plan description, eligibility and funding policies: (cont'd)

Participant's 401(k) employer matching contributions, if any, shall be vested at a percentage determined in accordance with the following schedule:

Non-forfeitable Years of Service	Percentage
1	20
2	40
3	60
4	80
5 or more	100

Forfeitures

At December 31, 2010 and 2009 forfeited non-vested accounts totaled $30 and $20, respectively. These amounts will be used to reduce future employer contributions and pay administrative expenses. In 2010 employer contributions were reduced by $807 ($1,163 in 2009) from forfeited non-vested accounts.

Distributions to Participants

Benefits are recorded when paid. Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum, in installments, or if qualified, as an annuity. Distributions may be deferred until the participant reaches the age of 70 1/2 if the value of the distribution is not less than $5,000. However, the Plan agreement stipulates that minimum distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70 1/2.

After a participant reaches age 59 1/2, they may request an in-service distribution from all accounts. The minimum in-service distribution amount is $500.

In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to pre-tax elective deferrals and may not include any earnings thereon. The minimum hardship distribution amount is $500.

Notes receivable from participants

Participants may borrow the lesser of one-half of their vested account balance or $50,000 reduced by the participant's highest outstanding loan balance during the last twelve months. The minimum loan available is $500. Loan terms range from one to five years. Participant loans are secured by a lien on the participant's interest in the Plan and are repaid through payroll deductions. Interest is earned on the participant loans at the prime rate in effect on the 14th day of the month plus one percent (4.25% at and 9.25% at December 31, 2010 and 2009, respectively).

UTILITY TRAILER SALES SOUTHEAST TEXAS, INC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

1. Plan description, eligibility and funding policies: (cont'd)

Plan termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the respective participant interest, net of any termination fees, will become fully vested and will be distributed to each participant in accordance with the plan document

2. Summary of significant accounting policies:

Date of management's review:

Subsequent events were evaluated through September 12v, 2011, which is the date the financial statements were available to be issued.

Accounting basis

The financial statements of the Plan, established June 1, 1993, have been prepared on an accrual method basis of accounting. The Plan's assets are valued at fair market value as provided and certified by State Street Bank and Trust, and JP Morgan Chase Bank NA., the trustees of the Plan, at December 31, 2010 and 2009, respectively.

Use of estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the plan administrator to use estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Employees

The eligible employees of Utility Trailer Sales Southeast Texas, Inc. are the only participants of the Plan.

Investment valuation and income recognition

The Plan's investments are stated at fair market value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Participant loans are valued at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

UTILITY TRAILER SALES SOUTHEAST TEXAS, INC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

2. Summary of significant accounting policies: (cont'd.)

Payment of benefits

Benefits are recorded when paid.

Consideration of credit risk

The Plan provides for investments in various investment securities. In general, investment securities are exposed to various risks, such as interest rate, credit, and overall volatility risks. Due to the level of risks associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

3. Related party transactions:

Related party transactions are limited to the Company's collection of the deferred compensation from employee and the transfer of such monies to the Plan administrator. Employee loans could be construed to be related parties; also certain administrative expenses are paid by the Plan sponsor.

4. Plan tax status:

The U.S. Treasury Department has informed the Company that the Plan is qualified under the qualified Section of the Internal Revenue Code and that income earned by the fund is tax-exempt. There are no known events that have occurred that would jeopardize this status.

The Plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirement of the Internal Revenue Code

5. Commitments and contingencies:

The administrative committee has represented to us that there are no legal or unasserted claims against the Plan, no unfulfilled commitments, the Plan has been properly administered and all documents have been properly updated to reflect all current requirements and regulations to keep the Plan qualified. There are no irregularities, errors or illegal acts involving management or employees that could have a material adverse effect on the Plan. There are no unusual or extraordinary transactions with related parties nor are there any items pending that would represent a contingent loss.

6. Investment and administrative expenses:

Investment and management fees are charged to participants based on their investment elections, which vary between the various investment options and funds selected. These fees range from 0.05% to 0.76% and are charge to the respective fund's unit value. Certain administrative fees including a base rate per plan, a charge per participant, service fees, and audit fees are paid by the Company.

7. Information not covered by auditor's report:

Pursuant to the terms of the Plan, Utility Trailer Sales Southeast Texas, Inc. 401(k) Employee Profit Sharing Plan has entered into a trust agreement with State Street Bank and Trust, and JP Morgan Chase Bank N.A., for the years ended December 31, 2010 and 2009, respectively, whereby, the trustee hold and has access to all the Plan's investment assets and executes transactions therein, including the receipt of income earned and participants' contributions and payment of withdrawals.

For financial reporting and disclosure purposes under the Employee Retirement Income Security Act of 1974, the administrative committee has elected the method for compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations. 29 CFR 2520.103-8 permits the Plan's administrative committee to rely on financial statement information certified by the Plan trustee and provide that the independent public accountant need not perform auditing procedures with respect to information certified to by the trustees of the Plan, State Street Bank and Trust and JP Morgan Chase Bank N.A. The administrative committee has obtained a certification from the trustee that the following information, as well as that included in all schedules, which was provided to the administrative committee by the trustee is complete and accurate. The total value of the assets held by the plan trustee was $3,859,360 or 100% and $3,665,708 or 99% of the total value of the plan assets as of December 31, 2010 and 2009, respectively. All changes in the value of the plan assets, realized and unrealized gains, contributions received and payments to participants were also certified as being correctly recorded and reported by the Plan trustee/administrator.

8. Investments:

Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets
Level 2	Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

8. Investments: (cont'd)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee
Utility Trailer Sales Southeast Texas, Inc. 401 (k) Plan
Houston, Texas

I was engaged to audit the financial statements and supplemental schedule of Utility Trailer Sales Southeast Texas, Inc. 401 (k) Plan as of December 31, 2010 and 2009 and for the year ended December 31, 2010, as listed in the accompanying contents. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information in Note 7, which was certified by State Street Bank and Trust, and JP Morgan Chase Bank N.A., the trustees of the Plan, except for comparing such information with the related information included in the financial statements and the supplemental schedule. I have been informed by the plan administrator that State Street Bank and Trust held the Plan's investment assets and executed investment transactions from July 25, 2010 to December 30, 2010 and that JP Morgan Chase Bank N.A. held the Plan's investment assets and executed investment transactions as of December 31, 2009 and for the period January 1, 2009 to June 24, 2010. The Plan administrator has obtained a certification from the trustees as of December 31, 2010 and 2009 and for the year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that I did not audit, I am unable to, and do not, express an opinion on the accompanying financial statements and the supplemental schedule taken as a whole. The form and content of the information included in the financial statements and the supplemental schedule, other than that derived from the information certified by the trustee, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

UTILITY TRAILER SALES SOUTHEAST TEXAS, INC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

1. Plan description, eligibility and funding policies:

General

The following description of the Utility Trailer Sales Southeast Texas, Inc. 401(k) plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a self-directed, defined contribution plan, covering all full-time employees of the Company who meet the eligibility requirements detailed below. It is subject to the provisions of the Employee Retirement Security Income Act of 1974 (ERISA).

Eligibility

Eligible employees become participants in the Plan following one year of continuous service and attainment of age 18, as defined in the Plan Agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

A participant will have completed a Year of Service if, at the end of 12 consecutive months of employment, the participant has been credited with at least 1000 Hours of Service. If a participant has not been credited with 1000 Hours of Service by the end of 12 consecutive months of employment, the participant will have completed a Year of Service at the end of any following Plan Year during which the participant was credited with 1000 Hours of Service. Newly eligible participants can start to participate on the first Plan Year quarter coinciding with or next following the date they satisfy the Plan's eligibility requirements

The Plan has Break in Service Rules. If a participant terminates employment and is then rehired, the participant may lose credit for prior service under the Plan's Break in Service rules. While eligibility Break in Service rules may delay a participant from participating in the Plan, the participant will never lose any benefits to which they have or already become entitled to.

For eligibility purposes, a participant will have a break in service if the participant completes less than 501 Hours of Service during the computation period used to determine whether the participant has a Year of Service. However, if a participant is absent from work for certain leaves of absence such as paternity or maternity leaves, the participant may be credited with 501 Hours of Service to prevent a Break in Service.

The Plan has a Five-Year Break in Service rule. The Five-year Break in Service rule applies to only to the totally non-vested participants. If a participant is totally non-vested in your account and has five consecutive Breaks in Service, all the service the participant earned before the five-year period no longer counts for eligibility purposes.

UTILITY TRAILER SALES SOUTHEAST TEXAS, INC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

1. Plan description, eligibility and funding policies: (cont'd)

Contributions

Participant contributions consist of pre-tax elective deferrals, rollover contributions and after-tax Roth 401(k) deferrals. Participants may contribute pre-tax and after-tax Roth 401(k) elective deferrals up to the dollar limitation contained in section 402(g) of the Internal Revenue Code in effect at the beginning of the year. Employer contributions include discretionary matching contributions and discretionary contributions. Contributions are subject to certain limitations.

The Company elected an auto enrollment feature which provides that newly eligible employees that do not affirmatively elect to contribute or not to contribute to the Plan will be automatically enrolled in the Plan at a deferral rate of 2%.

The Employer may also make Non-Elective Contributions or Employer Matching Contributions to the Plan. Non-elective contributions are contributions that the employer makes to the Plan, without the participant's election. Employer Matching Contributions is a discretionary percentage of a participant's contribution or a dollar up to a maximum amount ($600) per participant. The percentage or dollar amount is to be determined by the employer on a uniform basis to all participants.

Excess contributions

The Plan distributes excess contributions in accordance with IRS Code 401(m) and 401(k).

Participant accounts and vesting

Each participant's account is credited with the participant's contributions, the employer's contributions, an allocation of the Plan's earnings and charged with an allocation of investment management fees. The Plan's earnings and investment management fees are allocated according to participants' relative account balances in the investment options. Certain participant and loan fees, if applicable, are also charged to participant accounts.

Participants are immediately vested in their contributions plus actual earnings thereon. The portion of the participant's account attributable to employer matching contributions and employer discretionary contributions is fully vested after completion of five years of service. Vesting is accrued as outlined in the Plan Agreement. Participants' accounts become fully vested upon attainment of the normal retirement age of 65, early retirement as defined in the Plan Agreement or in the event of death or total disability.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in a lump sum payment to defer receipt of their benefits to a later date. These participants share in the earnings of the investments.

1. Plan description, eligibility and funding policies: (cont'd)

Participant's 401(k) employer matching contributions, if any, shall be vested at a percentage determined in accordance with the following schedule:

Non-forfeitable Years of Service	Percentage
1	20
2	40
3	60
4	80
5 or more	100

Forfeitures

At December 31, 2010 and 2009 forfeited non-vested accounts totaled $30 and $20, respectively. These amounts will be used to reduce future employer contributions and pay administrative expenses. In 2010 employer contributions were reduced by $807 ($1,163 in 2009) from forfeited non-vested accounts.

Distributions to Participants

Benefits are recorded when paid. Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum, in installments, or if qualified, as an annuity. Distributions may be deferred until the participant reaches the age of 70 1/2 if the value of the distribution is not less than $5,000. However, the Plan agreement stipulates that minimum distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70 1/2.

After a participant reaches age 59 1/2, they may request an in-service distribution from all accounts. The minimum in-service distribution amount is $500.

In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to pre-tax elective deferrals and may not include any earnings thereon. The minimum hardship distribution amount is $500.

Notes receivable from participants

Participants may borrow the lesser of one-half of their vested account balance or $50,000 reduced by the participant's highest outstanding loan balance during the last twelve months. The minimum loan available is $500. Loan terms range from one to five years. Participant loans are secured by a lien on the participant's interest in the Plan and are repaid through payroll deductions. Interest is earned on the participant loans at the prime rate in effect on the 14th day of the month plus one percent (4.25% at and 9.25% at December 31, 2010 and 2009, respectively).

UTILITY TRAILER SALES SOUTHEAST TEXAS, INC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

1. Plan description, eligibility and funding policies: (cont'd)

Plan termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the respective participant interest, net of any termination fees, will become fully vested and will be distributed to each participant in accordance with the plan document

2. Summary of significant accounting policies:

Date of management's review:

Subsequent events were evaluated through September 12v, 2011, which is the date the financial statements were available to be issued.

Accounting basis

The financial statements of the Plan, established June 1, 1993, have been prepared on an accrual method basis of accounting. The Plan's assets are valued at fair market value as provided and certified by State Street Bank and Trust, and JP Morgan Chase Bank NA., the trustees of the Plan, at December 31, 2010 and 2009, respectively.

Use of estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the plan administrator to use estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Employees

The eligible employees of Utility Trailer Sales Southeast Texas, Inc. are the only participants of the Plan.

Investment valuation and income recognition

The Plan's investments are stated at fair market value. Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Participant loans are valued at cost which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

UTILITY TRAILER SALES SOUTHEAST TEXAS, INC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2010 AND 2009

2. Summary of significant accounting policies: (cont'd.)

Payment of benefits

Benefits are recorded when paid.

Consideration of credit risk

The Plan provides for investments in various investment securities. In general, investment securities are exposed to various risks, such as interest rate, credit, and overall volatility risks. Due to the level of risks associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

3. Related party transactions:

Related party transactions are limited to the Company's collection of the deferred compensation from employee and the transfer of such monies to the Plan administrator. Employee loans could be construed to be related parties; also certain administrative expenses are paid by the Plan sponsor.

4. Plan tax status:

The U.S. Treasury Department has informed the Company that the Plan is qualified under the qualified Section of the Internal Revenue Code and that income earned by the fund is tax-exempt. There are no known events that have occurred that would jeopardize this status.

The Plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the plan, as then designed, was in compliance with the applicable requirement of the Internal Revenue Code

5. Commitments and contingencies:

The administrative committee has represented to us that there are no legal or unasserted claims against the Plan, no unfulfilled commitments, the Plan has been properly administered and all documents have been properly updated to reflect all current requirements and regulations to keep the Plan qualified. There are no irregularities, errors or illegal acts involving management or employees that could have a material adverse effect on the Plan. There are no unusual or extraordinary transactions with related parties nor are there any items pending that would represent a contingent loss.

6. Investment and administrative expenses:

Investment and management fees are charged to participants based on their investment elections, which vary between the various investment options and funds selected. These fees range from 0.05% to 0.76% and are charge to the respective fund's unit value. Certain administrative fees including a base rate per plan, a charge per participant, service fees, and audit fees are paid by the Company.

7. Information not covered by auditor's report:

Pursuant to the terms of the Plan, Utility Trailer Sales Southeast Texas, Inc. 401(k) Employee Profit Sharing Plan has entered into a trust agreement with State Street Bank and Trust, and JP Morgan Chase Bank N.A., for the years ended December 31, 2010 and 2009, respectively, whereby, the trustee hold and has access to all the Plan's investment assets and executes transactions therein, including the receipt of income earned and participants' contributions and payment of withdrawals.

For financial reporting and disclosure purposes under the Employee Retirement Income Security Act of 1974, the administrative committee has elected the method for compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations. 29 CFR 2520.103-8 permits the Plan's administrative committee to rely on financial statement information certified by the Plan trustee and provide that the independent public accountant need not perform auditing procedures with respect to information certified to by the trustees of the Plan, State Street Bank and Trust and JP Morgan Chase Bank N.A. The administrative committee has obtained a certification from the trustee that the following information, as well as that included in all schedules, which was provided to the administrative committee by the trustee is complete and accurate. The total value of the assets held by the plan trustee was $3,859,360 or 100% and $3,665,708 or 99% of the total value of the plan assets as of December 31, 2010 and 2009, respectively. All changes in the value of the plan assets, realized and unrealized gains, contributions received and payments to participants were also certified as being correctly recorded and reported by the Plan trustee/administrator.

8. Investments:

Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets
Level 2	Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

8. Investments: (cont'd)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2010 and 2009:

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
