Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V – Summary of Plan Provisions

	Contributory Plan	Noncontributory Plan
<u>Monthly earnings</u>	Monthly Earnings are calculated by dividing the prior calendar year total earnings by the number of weeks worked and multiplying the result times 4 1/3 to obtain a monthly rate. Earnings are limited to \$200,000 per year indexed as provided for by law – limit for 2009 is \$245,000.	Same. Note that total earnings include 401(k) and Section 125 elective deferrals.
<u>Average monthly earnings</u>	Plan benefits are computed using the average of the monthly earnings for the highest five consecutive years prior to termination.	Same
<u>Credited service</u>	Prior to May 1, 1975, Credited Service is the number of years and months from date of hire. Since May 1, 1975, Credited Service is the number of 1,000-hour plan years. If less than 1,000 hours in year of hire or termination, partial credit is given equal to the number of full months worked divided by 12. Employers who adopt the Plan choose whether to grant Credited Service prior to date of adoption.	Same
<u>Normal retirement date</u>	Participants are entitled to retire and receive their full pension benefit on the first of the month coincident with or immediately following their 65th birthday.	Same

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods**Actuarial Assumptions**

The actuarial assumptions used in the valuation of the Restated Contributory and Noncontributory Plans are shown below. The assumptions used were the same as the assumptions used in the April 1, 2009 valuation, except as noted below.

InterestFunding

All plan sponsors have elected to use segmented rates with no lookback. These rates were 4.35%, 6.59% and 6.72%. (For 2009, the plan sponsor elected to use the full yield curve with a 4-month lookback.)

ASC 960

8.00% per annum for all groups.

Expenses

Administrative related expenses (actuarial fees, PBGC premiums, and trustee fees) assumed to be 0.35% of assets.

Mortality

PPA Funding Target Separate Annuitant and Non-Annuitant mortality tables for the valuation year.

Turnover

Based on select rates of turnover for the first four years of service and ultimate rates thereafter. Sample rates are shown on the following page.

Disability

Schedule SB, Part V – Statement of Actuarial Assumptions / MethodsIncidence of retirement

Employees eligible for the special Rule-of-85 benefit are assumed to retire according to the select rates shown below for the first year after becoming eligible. The ultimate rates apply to Rule-of-85 retirements after the first year since becoming eligible and other retirements. The first year rates will not start before age 55 even if the Rule-of-85 applies earlier, nor will they ever fall below the ultimate rate for that age.

67	25	25
68 & Over	100	100

For employees who become eligible to retire prior to age 55, turnover rates are used.

For frozen groups 177 and 201, same assumptions until eligible for unreduced retirement, but then 100% at unreduced retirement age.

Spouse's benefit

80% of all employees are assumed married with husbands two years older than their wives.

Contingency fund charge

0.3788% of covered payroll for all groups except group 4 (0.3640% in prior valuation); 0.0721% of covered payroll for group 4 (0.0848% in prior valuation).

Conversion basis -

For the Contributory Plan contribution accounts are converted to equivalent monthly benefits using segmented interest rates.

Form of payment -

$\frac{1}{3}$ are expected to elect a Life Only annuity, $\frac{1}{3}$ 100% J&S annuity, and $\frac{1}{3}$ Five-Year Certain Only annuity.

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods

Actuarial Methods

Asset Valuation Method

The actuarial value of assets was determined in accordance with IRC Section 430(g)(3)(B) as amended by the Worker, Retiree and Employer Recovery Act of 2008 using guidance published in Notice 2009-22. Contributions made after April 1, 2010 were assumed to be made on the last day of the month they were contributed. For 2009, the same asset valuation method was used except that for West Central Cooperative (group 138) the maximum value was limited to 107.75%, and for FGDI, LLC (group 441), the asset valuation method was equal to the fair market value.

A characteristic of this asset method is that over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Associated Benefits Corporation provides us with data on only those employees who have completed the eligibility requirements so only participants are included in the valuation of the liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Transferred participants:** The liabilities for benefits earned prior to their transfer by employees who have transferred to another Associated Benefits Corporation employer have been included with the liabilities for terminated vested participants at their former employer.

Actuarial Cost Method

Minimum Funding Method

Target liability for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service

Schedule SB, Part V – Statement of Actuarial Assumptions / Methods

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum Deductible Contribution Method

The maximum deductible contribution is the greatest of (a) the minimum required contribution, (b) the funding target plus target normal cost plus cushion amount minus the actuarial value of assets, and (c) the plan's at-risk funding target plus at-risk target normal cost minus the actuarial value of assets (if the plan is not-at-risk). The cushion amount is 50 percent of the funding target.

Schedule SB, line 24 – Change in actuarial assumptions

The interest rate for funding calculations was changed from the full yield curve with a 4-month
lookback to segmented rates with no phase-in and no lookback.

These changes were made to better reflect anticipated plan experience and to comply with the
requirements of the Pension Protection Act of 2006.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Associated Benefits Corporation
Plan Administrator for The Modified Contributory
Retirement Plan for Cooperatives and Participants
(Participating Employer — Central Valley Ag, Group 327):

We have audited the accompanying statements of net assets available for benefits of The Modified Contributory Retirement Plan for Cooperatives (Participating Employer — Central Valley Ag, Group 327) ("Plan") as of March 31, 2011 and 2010 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of the internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of March 31, 2011 and 2010, and the changes therein for the years then ended, and its financial status as of April 1, 2010 and 2009 and the changes therein for the year ended April 1, 2010, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule listed in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2011 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

THE MODIFIED CONTRIBUTORY RETIREMENT PLAN FOR COOPERATIVES

Administered By Associated Benefits Corporation
(Participating Employer — Central Valley Ag, Group 327)

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED MARCH 31, 2011 AND 2010

1. DESCRIPTION OF THE PLAN

The following description of The Modified Contributory Retirement Plan for Cooperatives (Participating Employer — Central Valley Ag, Group 327) (“Plan”) is provided for general informational purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a contributory defined benefit plan administered by Associated Benefits Corporation (“Plan Administrator”) that covers substantially all full-time employees of Central Valley Ag. Employees who work 1,000 hours or more per year are eligible on the first day of the first or the seventh month of the Plan year following the attainment of age 21. Prior to July 1, 2009, eligible employees made contributions equal to 3 percent of their compensation. Subsequent to July 1, 2009, eligible employees make contributions equal to 5 percent of their compensation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits — Participants can retire with their full pension on the first day of the month coincident with or immediately following the later of their 65th birthday (normal retirement) or the fifth anniversary of the date participation began.

The monthly pension benefit under the Plan is equal to 1.25 percent of average monthly earnings, as defined, multiplied by years of credited service prior to July 1, 2009. Effective July 1, 2009, the monthly pension benefit under the Plan changed to 1.75% of average monthly earnings for years of credited service after July 1, 2009. The normal form is a pension payable for the participant’s lifetime. However, an actuarially reduced joint and 50 percent survivorship basis with 120 guaranteed monthly payments is the automatic form for married participants unless both the participant and spouse elect another form.

Participants are immediately vested in employee contributions plus an annual interest rate of 120 percent of the Federal mid-term rate for the month of April of each Plan year. Accumulated employee contributions and interest thereon, net of applicable benefit payments, at April 1, 2010 and 2009, were 513,926 and \$309,557, respectively. The interest rates were 2.59 percent and 3.54 percent as of April 1, 2010 and 2009, respectively. Participants become 100 percent vested in employer contributions after completion of five years of service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND RELATED MATTERS

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan’s investment in the Retirement Trust for Cooperatives (the “Trust”) utilizes various investment securities including U.S. government securities, corporate debt instruments, and equity funds. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. Investments in notes, bonds, and debentures, including direct investments in United States government and agency notes and bonds, are priced through wire services that look at the bid/ask quote across the market for that issue. Certain issues, that trade less frequently, are priced based on an estimate using market data and determined by looking at a similar asset that is currently trading. The fair value of equity funds and real estate funds is determined on the basis of that net asset value per share or its equivalent without adjustment. Money market funds are stated at amortized cost, which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses — Administrative expenses consisting of Trustee fees, investment management fees, actuarial fees and payments to the Pension Benefit Guarantee Corporation (PBGC) are paid from Plan assets. Other administrative expenses, including expenses of the Plan Administrator, are paid by the participating employer. Trustee fees and investment management fees are deducted from investment income or loss.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

New Accounting Standards —

ASU No. 2010-06, Fair Value Measurements and Disclosures — In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* (ASU No. 2010-06), which amends ASC 820, adding new disclosure requirements for Levels 1 and 2, separate disclosures of purchases, sales, issuances, and settlements relating to Level 3 measurements and clarification of existing fair value disclosures. ASU No. 2010-06 is effective for periods beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010. The Plan prospectively adopted the new guidance in 2011, except for the Level 3 reconciliation disclosures, which are required in 2012. The adoption in 2011 did not materially affect, and the future adoption is not expected to materially affect, the Plan’s financial statements.

3. FUNDING POLICY

The participating employer’s funding policy is to make cash contributions to the Plan in excess of employee contributions as determined by the Plan’s independent actuary. The participating employer met the minimum funding requirements of ERISA for the years ended March 31, 2011 and 2010. For financial statement purposes, all employer contributions made to meet the minimum funding requirements of ERISA are considered attributable to the current plan year and are accrued in the financial statements if not paid by year end. For PBGC funding purposes, all employer contributions made to the Plan prior to the filing of the Form 5500 are considered attributable to the previous year.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by independent actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Actuarial assumptions used in the valuations as of April 1, 2010 and 2009 were (1) expected long-term rate of return — 8.0 percent per annum; (2) discount rate — segmented with no look-back segmented as 4.4% for years 1–5, 6.6 % for years 6–20, and 6.7% for years 20+ and full yield curve with an estimated average rate of 8.0, respectively; (3) mortality — RP 2000 (Separate Male & Female Tables) Annuitant and Non-Annuitant static separate tables as set forth in Proposed Regulation 1.430(h)(3)-1; (4) turnover — based on selected rates of turnover for the first four years of service and on termination rates from Table T-5 of the Actuary's Pension Handbook; (5) spouse's benefit — 80 percent of employees are assumed married with male spouses 2 years older; (6) salaries — will increase according to an age-related table ranging from 8 percent down to 1.5 percent; (7) expenses — investment related expenses and administration expenses will be paid from investment income in excess of assumed rate of return; (8) contingency fund charge — 0.3788 percent and 0.3640 percent of covered payroll, respectively; and (9) eligible employees will retire according to the following schedule — employees eligible for the special rule of 85 benefit are assumed to retire according to the select rates shown below for the first year after becoming eligible. The ultimate rates apply to rule of 85 retirements after the first year since becoming eligible and regular retirements. The first year rates will not start before age 55 even if the rule of 85 applies earlier, nor will they ever fall below the ultimate rate for that age.

As of April 1, 2010 and 2009, the rates of retirement assumed were as follows:

Age	<u>Rate of Retirement</u>	
	First Year	Ultimate
55	6 %	3 %
56	6	3
57	6	3
58	6	5
59	6	5
60	6	5
61		20
62		30
63		25
64		25
65		50
66		25
67		25
68 and over		100

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits, using the aggregate cost method, is as follows:

	As determined on April 1,	
	2010	2009
Vested:		
Active participants	\$ 980,935	\$ 792,031
Beneficiaries and retirees	629,630	608,226
Other participants (including participants active at other groups)	<u>319,344</u>	<u>264,192</u>
	1,929,909	1,664,449
Nonvested active participants	<u>295,673</u>	<u>167,965</u>
Total actuarial present value of accumulated Plan benefits	<u>\$ 2,225,582</u>	<u>\$ 1,832,414</u>

The changes in the actuarial present value of the Plan's accumulated benefits from April 1, 2009 to April 1, 2010 are as follows:

Actuarial present value of accumulated Plan benefits at beginning of year	<u>\$ 1,832,414</u>
Increase (decrease) during the year attributable to:	
Benefit accumulations/actuarial gains and losses	386,213
Increase for change in actuarial assumption	8,093
Increase for interest due to the decrease in the discount period	140,911
Benefits paid	<u>(142,049)</u>
Net increase	<u>393,168</u>
Actuarial present value of accumulated Plan benefits at end of year	<u>\$ 2,225,582</u>

5. FAIR VALUE MEASUREMENTS

ASC Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair market value measurements. ASC 820 clarifies that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering assumptions, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. In accordance with ASC 820, the Plan classifies its investments into Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active

market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's policy is to recognize significant transfers between levels at the actual date of the event or change in circumstances that caused the transfer.

The following tables set forth by level including the major categorization for investments on the basis of the nature and risk of the investments within the fair value hierarchy a summary of the Trust's investments measured at fair value on a recurring basis at March 31, 2011 and 2010:

	<u>\$ 1,608,952</u>	<u>\$ (5,675,038)</u>

For the year ended March 31, 2011, there were no significant transfers in or out of Levels 1, 2 or 3.

The valuation methods as described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net Asset Value (NAV) per Share — In accordance with ASU No. 2009-12, the Plan has disclosed the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of March 31, 2011 and 2010. The following tables for March 31, 2011 and 2010 set forth a summary of the Trust's investments with a reported NAV.

*The fair values of the investments have been estimated using the net asset value of the investment.

- (a) The domestic stock funds seek to provide long-term growth of capital by investing primarily in equity securities and to achieve above average results over a market cycle. The funds employ a “multi-style, multi-manager” approach whereby portions of the domestic stock funds are allocated to different money managers who employ distinct investment styles. The funds use three principal investment styles intended to complement one another:

Growth: Emphasizes investments in equity securities of companies with above-average earnings growth prospects.

Value: Emphasizes investments in equity securities of companies that appear to the money manager to be undervalued relative to their corporate worth, based on earnings, book or asset value, revenues, cash flow or other measures.

Market-Oriented: Emphasizes investments in companies from the broad equity market rather than focusing on the growth or value segments of the market.

- (b) The international stock funds provide participation in financial markets outside of the United States. The international stock funds invest in international financial markets, primarily those of developed economies in Europe and the Pacific Basin. These funds invest primarily in equity securities issued by foreign corporations, but may invest in other securities perceived as offering attractive investment return opportunities. As with the domestic equity funds, the international equity funds combine Growth, Value, and Market-Oriented Advisers to ensure style diversification.
- (c) The fixed income funds strategies seek to invest at least 80% of their net assets plus any borrowing for investment purposes in a diversified portfolio of bonds, including corporate bonds of domestic and foreign issuers payable in U.S. dollars, short-term debt instruments, mortgage-related securities, and U.S. Treasury securities and other debt securities issued or guaranteed by the U.S. Government (including its agencies and instrumentalities). Although the strategies seek to invest primarily in investment-grade debt securities (i.e., those rated in the four highest rating categories by S&P or Moody's), they may include investing a portion of their net assets in bonds rated below investment grade.
- (d) The real estate stock funds provide broad exposure to equity securities of real estate companies throughout the world, primarily real estate investment trusts (REITs) and other real estate operating companies whose value is derived from ownership, development and management of commercial properties. The real estate stock funds seek to provide current income and long-term capital growth with above-average consistency.
- (e) The real estate funds employ a multi-style, multi-adviser investment approach to private core and enhanced core real estate. These funds seek to obtain a favorable total return through income and growth, and to outperform the NCREIF Open-End Diversified Core Equity Fund Index — Equal Weight.

6. INVESTMENTS AND INTEREST IN THE RETIREMENT TRUST FOR COOPERATIVES

Wells Fargo Bank, n.a. manages the Trust on behalf of the Plan under the terms of the trust agreement between the Wells Fargo Bank, n.a. and the Plan. The Plan is a participant in the Trust. The authority to invest is vested in the appointed money managers, subject to the funding policy and investment objectives established by the Plan Administrator. The investments and changes therein of the Trust have been reported to the Plans by Wells Fargo Bank, n.a. ("Trustee") as having been determined through the use of fair values. Since the Plan's funds are commingled with other plans participating in the Trust, the investments reported in these financial statements reflect only the Plan's allocable portion of the individual investments. Although assets of all plans are commingled in the Trust, the Plan Administrator maintains supporting records for the purpose of allocating the net investment income to the participating plans. The net investment income is allocated by the Plan Administrator to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

The following presents the Trust's net assets as of March 31, 2011 and 2010:

The Trust participates in a securities lending program through the Trustee. Under this program, the Trust's investment securities are loaned to investment brokers for a fee. At the inception of each loan, the Trust requires a minimum of 102% of the fair value of the loaned securities to be separately maintained as collateral for the loans. The Trust has reinvested the collateral in common collective trusts holding cash, letters of credit, securities issued or guaranteed by the U.S. government, its agencies, and instrumentalities and corporate bonds. At March 31, 2011 and 2010, approximately \$5,600,000 and \$3,100,000, respectively, of the Trust's securities were on loan under the Trustee's securities lending program. Securities loaned under such transactions may be sold or repledged by the transferee. Income from the program was \$318 and \$4,640 for the years ended March 31, 2011 and 2010, respectively.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Trust investments are shares of mutual funds which are managed by Wells Fargo Bank, n.a. Wells Fargo Bank, n.a. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Trust for the investment management services are included as a reduction of the return on each fund.

8. FEDERAL INCOME TAX STATUS

The Plan has not filed for a determination letter from the Internal Revenue Service that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). However, the Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust are tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plans, and has concluded that as of March 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the participating employer has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

10. SUBSEQUENT EVENTS

Subsequent events related to the financial statements have been evaluated through August 31, 2011, which is the date the financial statements were available to be issued, and has determined that there are no material events that require adjustment to the disclosures in these financial statements.
