As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from Fidelity Management Trust Company as of and for the years ended June 30, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Plan Description

The following description of the Dallas Basketball Limited 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of Plan provisions. The Plan agreement is controlling at all times.

General Information

The Plan, a defined contribution plan of Dallas Basketball Limited d.b.a. Dallas Mavericks (the Sponsor), was established effective August 1, 1994 and covers all employees of the Sponsor who have met the Plan's eligibility requirements as outlined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During fiscal 2010 and 2009, Fidelity Management Trust Company (the Trustee) was the trustee and recordkeeper of the Plan. Trustee fees charged for services directly for participants are paid from the respective participants' accounts. The Sponsor pays other Plan expenses.

Entry Date

Employees become eligible to participate in the Plan on the first day of the month following the date on which they complete three months of service.

Contributions

Eligible employees may participate in the Plan by electing to reduce their compensation and contributing to the Plan generally up to 60 percent of their total eligible compensation. In addition, a participant, with the Plan administrator's written consent, may contribute a rollover contribution from another qualified plan. There were no rollover contributions to the Plan during fiscal 2010 or 2009.

The employer may make matching and/or discretionary profit sharing contributions. During fiscal 2010 the employer did not match any participants' salary deferrals to the Plan. During fiscal 2009 the employer matched 50 percent of the first six percent of each participant's salary deferral. There were no discretionary contributions in fiscal 2010 or 2009. Contributions are subject to certain limitations as defined in the Plan and as set forth in the Internal Revenue Code.

Participant Accounts

Each participant's account is credited with the participant's contributions, the participant's rollover amounts from prior qualified plans, the employer's contributions and an allocation of Plan earnings or losses based on the earnings or losses of the participant's selected investments.

Investment Options

All Plan investments are participant directed. Participants are allowed to invest their account balances in various investment funds made available by the Trustee. The employer's contributions are allocated in the same percentage among those investment funds. The investment options consist of fixed-income and equity mutual funds. Participants may change their investment options at any time.

(1) Plan Description, continued

Vesting

Participants vest immediately in participant contributions and are subject to a five-year vesting schedule for employer matching contributions and discretionary profit sharing contributions. Vesting takes into account all years of service from date of hire.

Employer matching contributions and discretionary profit sharing contributions vest as follows:

Completed Years of Service	Vested Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Forfeitures

A participant that terminates service prior to fully vesting in employer contributions forfeits the unvested amount. Forfeitures are used to reduce either administrative expenses or future employer contributions to the Plan. The forfeitures account was $8,349 at June 30, 2010 and $2,049 at June 30, 2009. There were no forfeitures used to reduce employer contributions in fiscal 2010 or 2009.

Participant Loans

Participants may borrow a portion of their vested fund balance. These loans are subject to procedures and limitations adopted under the Plan. The maximum loan amount equals the lesser of (a) $50,000, reduced by the highest outstanding loan balance within the twelve months prior to the loan application or (b) one-half the participant's vested account balance. Loan terms range from one to five years or up to ten years if for the purchase of a primary residence. The loans are secured by the participant's account balance and bear a reasonable interest rate. Loans are classified as notes receivable from participants and are measured at their unpaid principal balance plus any accrued but unpaid interest (excluding interest related to deemed distributions).

Payment of Benefits

Upon termination of service, participants are eligible to receive their vested account balance in either a lump sum or substantially equal annuity payments.

Plan Termination

Although management has not expressed any intent to do so, the Sponsor has the right to terminate the Plan in compliance with the provisions of ERISA. In the event the Plan is terminated, participants become 100 percent vested in their accounts.

(2) Summary of Significant Accounting Policies

Basis of Presentation

The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. These principles require management to make estimates and assumptions that affect the amounts and disclosures reported. Actual results could differ from those estimates. The following paragraphs of note 2 summarize the more significant accounting policies followed by the Plan.

In September 2010, the Financial Accounting Standards Board (FASB) issued ASU 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans. This guidance clarifies the classification and measurement of participant loans by defined contribution pension plans. The standard now requires that participant loans be classified as notes receivable from participants within the statements of net assets available for benefits and measured at their unpaid principal balance, plus any accrued but unpaid interest. Previously, participant loans were reported as investments within the statements of net assets available for benefits. The Plan adopted this guidance in its June 30, 2010 financial statements and has reclassified participant loans of $120,282 and $118,643 as of June 30, 2010 and 2009, respectively, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of this guidance.

Investment Valuation and Income Recognition

The Plan's investments are recorded at fair value based on closing market prices of the underlying mutual funds as certified by the Trustee. The Plan's net investment income (loss) includes realized and unrealized appreciation or depreciation in fair value of investments, which is the difference between the value of the investments at the beginning of the year or the acquisition cost if purchased during the year, and the value at date of sale or year end based on closing market prices.

Purchases and sales of securities are recorded on the trade-date basis. Interest, dividends and capital gain distributions are recorded on the date paid to the Plan's investment accounts.

Fair Value Measurements

The Plan is required to classify its assets and liabilities that are reported at fair value into three levels based on the method used to value the assets or liabilities. Level 1 values are based on quoted prices in active markets for identical securities. Level 2 values are based on significant other observable market inputs, such as quoted prices for similar securities and quoted prices in inactive markets. Level 3 values are based on significant unobservable inputs that reflect management's determination of assumptions that market participants might reasonably use in valuing the securities. The valuation levels are not necessarily an indication of the risk or liquidity associated with the underlying investments. The table in note 5 presents the Plan's valuation levels as of June 30, 2010 and 2009.

Benefits

Benefits to participants are recorded when paid.

(2) Summary of Significant Accounting Policies, continued

Income Tax Status

The prototype plan used by the Plan obtained its latest determination letter on October 9, 2003, in which the Internal Revenue Service stated that the prototype plan, as then defined, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Management of the Sponsor has evaluated the Plan's federal and state tax positions and believes there are no significant uncertain tax positions. The Plan is generally not subject to examination by federal tax authorities for tax years before 2007.

Risks and Uncertainties

The Plan provides for investment in several mutual funds. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(3) Financial Information Certified by the Plan's Trustee (Unaudited)

Fidelity Management Trust Company, a party-in-interest as defined by ERISA, holds certain Plan investment assets and executes all investment transactions. The following investment information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Trustee.

	2010	2009

These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from Fidelity Management Trust Company as of and for the years ended June 30, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(1) Plan Description

The following description of the Dallas Basketball Limited 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of Plan provisions. The Plan agreement is controlling at all times.

General Information

The Plan, a defined contribution plan of Dallas Basketball Limited d.b.a. Dallas Mavericks (the Sponsor), was established effective August 1, 1994 and covers all employees of the Sponsor who have met the Plan's eligibility requirements as outlined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During fiscal 2010 and 2009, Fidelity Management Trust Company (the Trustee) was the trustee and recordkeeper of the Plan. Trustee fees charged for services directly for participants are paid from the respective participants' accounts. The Sponsor pays other Plan expenses.

Entry Date

Employees become eligible to participate in the Plan on the first day of the month following the date on which they complete three months of service.

Contributions

Eligible employees may participate in the Plan by electing to reduce their compensation and contributing to the Plan generally up to 60 percent of their total eligible compensation. In addition, a participant, with the Plan administrator's written consent, may contribute a rollover contribution from another qualified plan. There were no rollover contributions to the Plan during fiscal 2010 or 2009.

The employer may make matching and/or discretionary profit sharing contributions. During fiscal 2010 the employer did not match any participants' salary deferrals to the Plan. During fiscal 2009 the employer matched 50 percent of the first six percent of each participant's salary deferral. There were no discretionary contributions in fiscal 2010 or 2009. Contributions are subject to certain limitations as defined in the Plan and as set forth in the Internal Revenue Code.

Participant Accounts

Each participant's account is credited with the participant's contributions, the participant's rollover amounts from prior qualified plans, the employer's contributions and an allocation of Plan earnings or losses based on the earnings or losses of the participant's selected investments.

Investment Options

All Plan investments are participant directed. Participants are allowed to invest their account balances in various investment funds made available by the Trustee. The employer's contributions are allocated in the same percentage among those investment funds. The investment options consist of fixed-income and equity mutual funds. Participants may change their investment options at any time.

(1) Plan Description, continued

Vesting

Participants vest immediately in participant contributions and are subject to a five-year vesting schedule for employer matching contributions and discretionary profit sharing contributions. Vesting takes into account all years of service from date of hire.

Employer matching contributions and discretionary profit sharing contributions vest as follows:

Completed Years of Service	Vested Percentage
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Forfeitures

A participant that terminates service prior to fully vesting in employer contributions forfeits the unvested amount. Forfeitures are used to reduce either administrative expenses or future employer contributions to the Plan. The forfeitures account was $8,349 at June 30, 2010 and $2,049 at June 30, 2009. There were no forfeitures used to reduce employer contributions in fiscal 2010 or 2009.

Participant Loans

Participants may borrow a portion of their vested fund balance. These loans are subject to procedures and limitations adopted under the Plan. The maximum loan amount equals the lesser of (a) $50,000, reduced by the highest outstanding loan balance within the twelve months prior to the loan application or (b) one-half the participant's vested account balance. Loan terms range from one to five years or up to ten years if for the purchase of a primary residence. The loans are secured by the participant's account balance and bear a reasonable interest rate. Loans are classified as notes receivable from participants and are measured at their unpaid principal balance plus any accrued but unpaid interest (excluding interest related to deemed distributions).

Payment of Benefits

Upon termination of service, participants are eligible to receive their vested account balance in either a lump sum or substantially equal annuity payments.

Plan Termination

Although management has not expressed any intent to do so, the Sponsor has the right to terminate the Plan in compliance with the provisions of ERISA. In the event the Plan is terminated, participants become 100 percent vested in their accounts.

(2) Summary of Significant Accounting Policies

Basis of Presentation

The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. These principles require management to make estimates and assumptions that affect the amounts and disclosures reported. Actual results could differ from those estimates. The following paragraphs of note 2 summarize the more significant accounting policies followed by the Plan.

In September 2010, the Financial Accounting Standards Board (FASB) issued ASU 2010-25, Reporting Loans to Participants by Defined Contribution Pension Plans. This guidance clarifies the classification and measurement of participant loans by defined contribution pension plans. The standard now requires that participant loans be classified as notes receivable from participants within the statements of net assets available for benefits and measured at their unpaid principal balance, plus any accrued but unpaid interest. Previously, participant loans were reported as investments within the statements of net assets available for benefits. The Plan adopted this guidance in its June 30, 2010 financial statements and has reclassified participant loans of $120,282 and $118,643 as of June 30, 2010 and 2009, respectively, from investments to notes receivable from participants. Net assets of the Plan were not affected by the adoption of this guidance.

Investment Valuation and Income Recognition

The Plan's investments are recorded at fair value based on closing market prices of the underlying mutual funds as certified by the Trustee. The Plan's net investment income (loss) includes realized and unrealized appreciation or depreciation in fair value of investments, which is the difference between the value of the investments at the beginning of the year or the acquisition cost if purchased during the year, and the value at date of sale or year end based on closing market prices.

Purchases and sales of securities are recorded on the trade-date basis. Interest, dividends and capital gain distributions are recorded on the date paid to the Plan's investment accounts.

Fair Value Measurements

The Plan is required to classify its assets and liabilities that are reported at fair value into three levels based on the method used to value the assets or liabilities. Level 1 values are based on quoted prices in active markets for identical securities. Level 2 values are based on significant other observable market inputs, such as quoted prices for similar securities and quoted prices in inactive markets. Level 3 values are based on significant unobservable inputs that reflect management's determination of assumptions that market participants might reasonably use in valuing the securities. The valuation levels are not necessarily an indication of the risk or liquidity associated with the underlying investments. The table in note 5 presents the Plan's valuation levels as of June 30, 2010 and 2009.

Benefits

Benefits to participants are recorded when paid.

(2) Summary of Significant Accounting Policies, continued

Income Tax Status

The prototype plan used by the Plan obtained its latest determination letter on October 9, 2003, in which the Internal Revenue Service stated that the prototype plan, as then defined, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Management of the Sponsor has evaluated the Plan's federal and state tax positions and believes there are no significant uncertain tax positions. The Plan is generally not subject to examination by federal tax authorities for tax years before 2007.

Risks and Uncertainties

The Plan provides for investment in several mutual funds. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(3) Financial Information Certified by the Plan's Trustee (Unaudited)

Fidelity Management Trust Company, a party-in-interest as defined by ERISA, holds certain Plan investment assets and executes all investment transactions. The following investment information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Trustee.

	2010	2009

Interest and dividends	93,672	103,055
Total investment income (loss) certified by the Trustee	**$ 963,475**	**$ (1,553,126)**

Total	$ **5,626,996**	$ **5,626,996**	$ -	$ -

(6) Subsequent Events

Effective July 1, 2010, the employer reinstated discretionary matching contributions. For the fiscal 2011 Plan year discretionary matching contributions will be at the rate of 25 percent of the first six percent of each participant's salary deferral.

Management has evaluated subsequent events through January 28, 2011, the date the financial statements were available to be issued, for matters requiring recognition or disclosure in the financial statements. Management's review discovered no other subsequent events that should be recognized or that are deemed significant enough for disclosure.
