As permitted by 29 CFR 2520.103-8 of the Department of Labor's (the "DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of March 31, 2011, and December 31, 2010, and for the period January 1, 2011 to March 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and do not express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America, and in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As discussed in the notes to the financial statements, this Plan was merged into the FUJIFILM Long Term Savings Plan in March 2011.

Leased employees, union employees and nonresident aliens were not eligible for the Plan. Effective June 1, 2010, the plan was amended to exclude individuals who were not considered to be employed by the Company's Sericol business unit.

Contributions – Participants could contribute up to 60% of their annual compensation, as defined in the Plan, subject to certain Internal Revenue Code ("IRC") limitations. In addition, participants over age 50 were permitted to make catch-up contributions, as defined in the Plan. Additionally, once a participant had met the eligibility requirements, automatic deferrals equal to 3% of compensation were made to the Plan, unless the participant revoked such election, or elected a different percentage.

The Company made a matching contribution equal to 50% of the participant's elective contributions not to exceed 6% of the participant's annual compensation, as defined by the Plan. To be eligible for the Company matching contribution, a participant must have completed one year of service.

In addition, the Plan provided that the Company could, but was not be obligated to, contribute a nonelective contribution each Plan quarter on behalf of each eligible employee a contribution amount determined under the DC Point-Graded Formula, as defined in the Plan document. To be eligible for the contribution, an employee must have completed one year of service, had at least 250 hours of service in the Plan quarter and be employed on the last day of the Plan quarter. No such contribution was made to the Plan in 2011.

Participant Accounts – Each participant's account was credited with the participant's voluntary contribution, the Company's contributions, Plan earnings and losses, and was charged with the participant's withdrawals and distributions, and an allocation of Plan expenses. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account balance.

Investment Options – The Plan offered a variety of mutual funds and a common collective trust fund ("CCT") as investment options.

Vesting – Participants' contributions and the Company matching contributions were fully vested at all times. Effective January 1, 2007, the Company nonelective contributions vested in 20% increments, with 20% vested after the first year, 40% vested after the second year, and increasing in 20% increments. After 5 years of service, the Company nonelective contributions would be fully vested.

Forfeitures – Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. Forfeiture amounts were used to reduce future employer contributions. During 2011, approximately $3,600 was used in forfeitures to reduce employer contributions.

Payment of Benefits – Upon termination of service, a participant could elect to receive either a lump-sum amount equal to his or her account, or monthly, quarterly, or annual installments over a fixed, reasonable period of time, as defined by the Plan document. If the account balance did not exceed $5,000, a lump-sum payment was the only form of disbursement available. For mandatory distributions greater than $1,000 but not exceeding $5,000, the account balance was rolled over into an individual retirement account, unless otherwise directed by the participant.

Notes Receivable from Participants – Participants were permitted to borrow against their individual account balances a minimum of $1,000 up to a maximum of $50,000 or 50% of the participant's vested account balance reduced by the highest outstanding loan balance in the previous 12 months. Loan withdrawals were limited to the participant's elective deferrals, rollover amounts and Company matching contributions. All loans (except for those made for purchase of a primary residence) were to be repaid within five years. Interest rates were established by the Plan Sponsor at the prevailing rate of local financial institutions. A participant's loan would immediately become due and payable upon failure to make a principal and/or interest payment, as provided in the loan agreement. The loans were secured by the balance in the participant's account. The participant was charged a $70 loan origination fee at the time the loan is taken and assessed an annual fee of $25 for each outstanding loan.

In-Service Withdrawals – As described below, certain participants could make withdrawals prior to termination of employment. Hardship withdrawals were available to Plan participants, as defined by the Plan and permitted by the IRC. Hardship withdrawals were limited to the participant's account balance that was 100% vested. Upon making such a withdrawal, the participant was suspended from making deferrals for six months.

Participants could withdraw all or a portion of their vested matching contributions that have been in the participants' account for at least 24 months.

Participants who had obtained the age of 59 ½ are allowed to receive a distribution of all or any portion of their vested account balances in a single sum payment.

Administrative Expenses – The Company pays the administrative expenses of the Plan. Asset management fees for non-Fidelity funds are deducted directly from the participants' accounts. Participants are charged fees for withdrawals from the Plan. During 2011, fees of approximately $2,600 were paid by the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions – Employer and employee contributions are reported in the year services are rendered to the Company by the Plan participants.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Managed Income Portfolio is a stable value fund that is a CCT of the Fidelity Management Trust Company for employee benefit plans. The fund invests in a diversified portfolio of fixed–income securities or bond funds and enters into "wrapper" contracts issued by a third-party. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for doubtful accounts is considered necessary.

Payment of Benefits – Benefit payments are reported in the year paid.

Date of Management's Review – Subsequent events have been evaluated through January 11, 2012, which is the date the financial statements were available to be issued, and there were no material events requiring recognition or disclosure.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2011 and December 31, 2010:

Mutual Funds – Valued at the net asset value (NAV) of shares held by the plan at year end based on published quoted prices.

Common Collective Trust Fund – Valued at the trust NAV per unit based on fair value of the underlying investments, adjusted for trustee fees accrued daily, if applicable. The CCT is valued daily, and there are no restrictions on redemptions and no unfunded commitments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no Plan investments at March 31, 2011. The Plan's investments are reported at fair value as follows at December 31, 2010:

December 31, 2010:				
Mutual funds:				
Fixed income funds	$ 1,880,230	$ 1,880,230		
Target/allocation funds	4,177,582	4,177,582		
Value funds	703,865	703,865		
Blended funds	1,919,283	1,919,283		
Growth funds	2,775,624	2,775,624		
Global funds	1,887,116	1,887,116		
Common collective trust fund	3,013,402		$ 3,013,402	
	$ 16,357,102	$ 13,343,700	$ 3,013,402	

4. INVESTMENTS

The table below presents fair values of investments that represent more than 5% of net assets available for benefits as of December 31, 2010. There were no investments at March 31, 2011.

Fidelity Managed Income Portfolio	$ 3,013,402
Baron Growth Fund	1,141,534
Fidelity Diversified International Fund	1,061,787
Spartan U.S. Equity Index Fund	1,071,541
PIMCO Total Return Fund	1,725,555
Fidelity Freedom 2020 Fund	1,679,991

During the period January 1, 2011 to March 31, 2011, the Plan's investments (including gains and losses on investments bought, sold, as well as held during the year) appreciated in value by $616,437.

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility due to the level of risk associated with certain investment securities. It is reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the financial statements.

5. INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments as of March 31, 2011, and December 31, 2010, and for the period January 1, 2011 to March 31, 2011:

- Investments, at fair value
- Notes receivable from participants, including interest
- Net appreciation in fair value of investments
- Interest and dividends
- Schedule of Assets (Held at End of Year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were mutual funds and a common collective trust fund managed by Fidelity Management Trust Company. Fidelity Management Trust Company was the trustee, custodian and recordkeeper of the Plan, and therefore, those transactions qualified as party-in-interest.

7. TAX STATUS

The Company adopted a Prototype Non-standardized Profit-Sharing Plan which received a favorable opinion letter from the IRS on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has

been amended since the date of the opinion letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.
