Keihin North America, Inc. Pension Equity Plan
Indianapolis, Indiana

We were engaged to audit the accompanying statements of net assets available for benefits of Keihin North America, Inc. Pension Equity Plan as of March 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended and the accompanying supplemental schedules. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of and for the years ended March 31, 2011 and 2010, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements

March 31, 2011 and 2010

Note 1: Description of the Plan

The following description of the Keihin North America, Inc. Pension Equity Plan (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan is a noncontributory defined-benefit plan that covers substantially all employees who have one year of service or more and have attained age 21, and provides for retirement, death and disability benefits. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). State Street Bank and Trust Company is the trustee of the Plan.

The Plan Document was restated effective April 1, 2009 to incorporate previous amendments to the Plan Document. Effective December 5, 2009, benefit accruals under the Plan were frozen and will not increase after this date. Participants may continue to earn years of service for vesting purposes. Effective December 5, 2009, participants are fully vested upon completion of three years of service (formerly five years).

Contributions

The Company has agreed to voluntarily contribute such amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members, as defined by the provisions of ERISA. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

Benefits under the Plan are based on employees' three highest, consecutive compensation years during their last five years of credited service. Normal retirement age for Plan benefits is 65. Accrued benefits are payable as an annuity over the participant's lifetime, a qualified joint and survivor annuity or a lump sum payment.

Notes to Financial Statements

March 31, 2011 and 2010

Death Benefits

The spouse of a participant will receive a 100% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 100% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Vesting

Prior to December 5, 2009, eligible employees were fully vested upon completion of five years of vesting service. After December 5, 2009, eligible employees are fully vested upon completion of three years of vesting service.

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (A) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- (B) Other vested benefits insured by the PBGC up to the applicable limitations discussed below.
- (C) Vested benefits not insured by the PBGC.
- (D) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Method of Accounting

The accompanying financial statements are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments in collective trust funds are stated at fair value. The fair value is determined by utilizing quoted market prices of the underlying assets on the last day of the Plan year.

The guaranteed investment contract is valued at fair value as estimated by Transamerica Financial Life Insurance Company (TFLIC). TFLIC values the investment contract using a pricing matrix that designates a hierarchy of sources based on security type. At March 31, 2010, TFLIC represented there was not a significant difference between the contract value and the fair value of this investment.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in a guaranteed investment contract. As required by the FSP, the statements of net assets available for benefits presents the fair value of the guaranteed investment contract as well as the adjustment of the investment from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes to Financial Statements March 31, 2011 and 2010

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Employer or the Plan, at the Employer's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see Note 6) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- (A) Retired or terminated employees or their beneficiaries
- (B) Present employees or their beneficiaries

Benefits under the Plan are based on employees' compensation as described in Note 1. The accumulated plan benefits for active employees are based on their average compensation during the three years proceeding the valuation date. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

Benefit payments to participants are reported upon distribution.

Plan Tax Status

The Plan obtained its latest determination letter on September 9, 2003, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended and restated since receiving the determination letter. A new determination letter has been requested for the restated Plan, but has not yet been received. However, the Plan Administrator believes the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations for years before 2007.

Notes to Financial Statements March 31, 2011 and 2010

Note 3: Investments

The Plan's investments are held by a trust fund. The Plan's investments (including investments bought, sold and held during the year) appreciated in fair value as follows:

		2011	
		Net Appreciation in Fair Value During Year	Fair Value at End of Year
Collective trust funds		\$ 1,939,646	\$ 14,210,353
Stable Fund		-	972,184

Stable Fund		-	887,409
		<u>\$ 3,382,729</u>	<u>\$ 12,931,042</u>

The fair value of individual investments that represented 5% or more of the Plan's assets were as follows:

	2011	2010
Collective Trust Funds		
Massachusetts Fidelity Trust Company		
Core Bond Portfolio (formerly Core Bond Fund 5)	\$ 1,517,575	\$ 2,398,523

Note 4: Fair Value of Plan Assets

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

The methods of valuation described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include the collective trust funds and guaranteed investment contract. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There are no Level 1 or Level 3 investments in the Plan. See Note 2 for definition of inputs utilized to determine fair value of Level 2 investments.

Notes to Financial Statements March 31, 2011 and 2010

Note 5: Contract With Insurance Company

The Plan entered into an investment contract with Transamerica Financial Life Insurance Company (TFLIC) and TFLIC maintains the contributions in a pooled account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by TFLIC. The contract is subject to a market value adjustment upon termination. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract is carried at fair value. The average yields were approximately 4.07% and 4.16% for 2011 and 2010. The crediting interest rates ranged from 2.75% to 4.25% at March 31, 2011, and ranged from 4.30% to 4.35% at March 31, 2010. The crediting interest rate is based on an agreed-upon formula with the issuer.

Note 6: Accumulated Plan Benefits

An actuary from Mercer Human Resource Consulting determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the beginning of each Plan year was as follows:

	2011	2010
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 115,136	\$ 103,843
Other participants	15,646,357	11,075,864
Nonvested benefits	510,344	517,470
Total actuarial present value of accumulated plan benefits	\$ 16,271,837	\$ 11,697,177

Keihin North America, Inc. Pension Equity Plan

Notes to Financial Statements March 31, 2011 and 2010

Changes in the actuarial present value of accumulated plan benefits were as follows:

	2011	2010
Actuarial present value of accumulated plan benefits, beginning balance	<u>\$ 11,697,177</u>	<u>\$ 12,018,902</u>
Increase (decrease) during the year attributable to		
Change in actuarial assumptions (interest rate)	3,500,997	(1,943,428)
Benefits accumulated and losses	556,660	991,775
Increase for interest due to the decrease in the discount period	930,716	822,655
Benefits paid	<u>(413,713)</u>	<u>(192,727)</u>
Net increase	<u>4,574,660</u>	<u>(321,725)</u>
Actuarial present value of accumulated plan benefits, ending balance	<u><u>\$ 16,271,837</u></u>	<u><u>\$ 11,697,177</u></u>

Significant assumptions underlying the actuarial computations are:

- Assumed rate of return on investments: 6.20% and 8.10% for 2011 and 2010, respectively
- Mortality basis: RP - 2000 Blue Collar Combined Active/Retiree Healthy Mortality Table
- Retirement: At normal retirement age 65
- Asset valuation: Market

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 7: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in collective trust funds of the Plan trustee, and fees for trust and management services paid by the Plan to the trustee were \$24,727 and \$31,603 for 2011 and 2010, respectively.

The Company provides certain administrative services at no cost to the Plan.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The current economic condition continues to present retirement plans with difficult circumstances and challenges, which in some cases have resulted in large declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 9: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Accountants' Report, which is the date the financial statements were available to be issued.

Schedule SB, Line 25 — Change in Method

This plan was converted to the new Mercer valuation system for the 2010 plan year, resulting in a change in funding method for 2010. This change in valuation software satisfies the requirements of Announcement 2010-3 for automatic IRS approval for changes in funding method.

Schedule SB, Line 24 — Change in Actuarial Assumptions

Interest discounts and mortality rates were updated from 2009 to 2010 in accordance with PPA and the sponsor changed their interest rate election from full yield curve with a four month lookback to segment rates with a four month lookback.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

▪ Healthy and Disabled participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.
-------------------------------------	--

417(e) lump sums

Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality

For the liability assumed to be paid as a lump sum, a participant's target liability is the greater of the liability described above or the present value of the participant's PEP balance.

Other economic assumptions

▪ Salary increases	N/A
▪ Expected investment return	8.00% per year for years 2008 through 2010, not to exceed the third segment rate for each respective year.
▪ Expenses	\$22,000 added to current year normal cost. Expenses are assumed to be the average of the administrative expenses from the 3 prior years rounded to the nearest \$1,000.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Disabled participants:** Participants who become disabled before retirement have been valued assuming that they will remain disabled until normal retirement.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for terminated vested participants.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through April 1, 2009, are included in this valuation.

▪ IRC Section 436 benefit restrictions:

- *Unpredictable contingent event benefits:* The plan does not provide any unpredictable contingent event benefits.
- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals.

▪ Late retirement increases:

- *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½.
- *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued with their accrued benefit.

▪ Unpredictable contingent event benefits: The plan does not have any unpredictable contingent event benefits.**▪ IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.**▪ IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: April 1, 1999 Restated plan: April 1, 2009 Plan year: April 1 through March 31
Status of the plan	The plan is closed to anyone who was not a Participant on December 5, 2009. Benefit accruals were frozen as of December 5, 2009.
Significant events that occurred during the year	See status of the plan above.

Definitions

▪ Covered employees	All employees in the Greenfield, Indiana plant.
▪ Participation	Age 21 and one year of service.
▪ Employee contributions	Participants are not permitted to make contributions to the Plan.
▪ Vesting and Credited service	A year of service is defined as a calendar year in which an employee works 1,000 or more hours, including overtime. Credited service was frozen as of December 5, 2009.
▪ Pensionable earnings	Employee's base hourly rate determined as of the December 31 of each calendar year multiplied by hours worked, including regular and overtime hours, but not to exceed two thousand eighty (2,080) in any calendar year.
▪ Final average earnings	Highest average annual pay for any 3 consecutive calendar years during the 5 calendar years immediately before participant's retirement or termination from service. Final average earnings were frozen as of December 5, 2009.
▪ Accrued benefit	Defined as the projected benefit at normal retirement age, using current final average salary, prorated by current service divided by projected service at normal retirement age. The lump sum benefit is converted to an annuity based upon 5% interest and the 1983 Group Annuity Mortality Table (50% male, 50% female). The accrued benefit was frozen as of December 5, 2009.
Normal retirement	
▪ Eligibility	Age 65 and one year of service.

Schedule SB, Part V — Summary of Plan Provisions

- **Benefit** The plan is a pension equity plan (PEP), where the lump sum benefit is defined as a percentage of the final average earnings. The percentage is determined by a participant's accumulated age and service points, which are accumulated year-by-year according to this table:

<u>Age Plus Service</u>	<u>Points earned that Year</u>
<30	2
30 – 39	3
40 – 49	4
50 – 59	5.5
60 – 69	7
70 – 79	9
80 – 89	11
90+	13

One point entitles a participant to 1% of his final average base pay, payable as a lump sum at age 65. Points are accumulated from original date of hire, not participation. Points are accumulated for years in which the employee works at least 1,000 hours.

Early retirement

- **Eligibility** None.
- **Benefit** None.

Late retirement

- **Benefit** Benefit payment will be suspended until actual retirement.

Deferred vested

- **Eligibility** 100% vested after 3 years of service
- **Benefit** Accrued benefit payable at normal retirement.

Disability

- **Eligibility** None.
- **Benefit** None.

Schedule SB, Part V — Summary of Plan Provisions

Pre-retirement death	
	Employees who die while employed will be immediately vested and their beneficiaries will be entitled to an immediate lump sum payment.
Form of benefits	
▪ Automatic form for unmarried participants	Single life annuity
▪ Automatic form for married participants	50% Joint and Survivor annuity
▪ Optional forms	100% Joint and Survivor annuity 75% Joint and Survivor annuity Lump sum
Miscellaneous	
▪ Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually, but is no longer applicable since benefits are frozen.
▪ Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2010, the limit is \$195,000.
▪ Administration	Keihin North America, Inc.
▪ Funding medium	The trust
▪ Benefits not included in valuation	All benefits were valued.

Plan provision changes since prior valuation

- Benefit accruals and participation were frozen as of December 5, 2009.
