(1) Description of Plan

The following description of the Pacific Coast Building Products, Inc. Profit Sharing/Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is sponsored by Pacific Coast Building Products, Inc. (Employer) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is a defined contribution plan which provides for retirement, disability and death benefits for substantially all nonunion employees of the Employer. Employees, other than certain employees hired as a result of an asset acquisition, who have worked 1,000 hours or more within a consecutive twelve month period commencing on their anniversary hiring date, are eligible to participate in the Plan.

(b) Contributions

The Employer has agreed to make a minimum annual contribution equal to 5% of the compensation of all participants. Plan assets are invested at the direction of the Plan Investment Committee and are thus not participant directed.

(c) Participant Accounts

Individual accounts are maintained for each of the Plan's participants as well as the participant's share of the Plan's income (loss) and any related administrative expenses. Allocations are based on participant compensation or account balances, as defined. Participants under the age of 60 may elect to have the Plan purchase life insurance policies for the participant's benefit. Life insurance policies purchased are held by the Plan and the increase in the cash surrender value of the policies and the premium expenses are allocated to the participating participant accounts. Participants over the age of 60 may elect to have up to 40% of their account balance invested in the Charles Schwab Stable Value Fund.

(d) Vesting and Forfeitures

A participant is 100% vested after three years of credited service or upon death, total disability or attainment of normal retirement age, as defined. Forfeitures of terminated participants' nonvested amounts are used to offset employer contributions. There were $977,000 of forfeitures for the year ended March 31, 2011, of which $948,000 were used to reduce the Employer's contribution. There were $29,000 and $0 of unallocated forfeitures as of March 31, 2011 and 2010, respectively.

(e) Distributions to Participants

The benefit to which a participant is entitled is the benefit that is provided from the participant's account valued as of the preceding Plan quarter end. Upon retirement, as defined, or total and permanent disability, a participant may generally elect to receive a lump sum distribution, an annuity, or a combination of these options. In the event of a participant's death, his or her designated beneficiary will be paid in accordance with the terms of the beneficiary designation form. Any vested account balances equal to $1,000 or less shall be distributed in a lump sum payment.

(f) Plan Administration

The Plan is administered by the Administrative Committee and each member of this Committee was appointed by the Board of Directors of the Employer.

(g) Plan Amendment

Effective December 16, 2010, the Plan was amended and restated, and a new custodian and record keeper of the Plan was appointed. Plan assets transferred to the new custodian were transferred in-kind. The conversion initiated a blackout period beginning December 10, 2010 continued through February 6, 2011. During this period no funds could be contributed to or distributed from the Plan.

(2) Significant Accounting Policies

(a) Method of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

(c) Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(d) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for its investments in the common collective trusts and life insurance policies. Money market funds, bonds, notes and equity securities are valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds and real estate investment trusts are valued at the net asset value (NAV) of shares held by the Plan at year end. The common collective trusts consists of: (1) SSgA Emerging Markets Commingled Fund that is valued based upon the value of the underlying assets or contract value, and (2) SEI Stable Asset Fund and Charles Schwab Stable Value Fund (the Funds) that are valued at contract value plus accrued interest which approximates fair value. Life insurance policies are valued at cash surrender value (CSV).

The Funds include investments in investment contracts and are included in the financial statements at contract value (which represents contributions made under the contract plus earnings, less withdrawals and administrative expenses), because they are fully benefit-responsive. The Funds are considered fully benefit-responsive as withdrawals or transfers can be made at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract

value included in the financial statements approximates fair value as of March 31, 2011 and 2010. As of March 31, 2011, the Funds had an average yield of approximately 0.54% and 0.92%, respectively while the investment was held during the current period, and crediting interest rates of 0.29% and 1.11%, respectively. As of March 31, 2010, the SEI Stable Asset Fund had an average yield of approximately 0.90% while the investment was held during the period, and a crediting interest rate of 0.34%. The Charles Schwab Stable Value Fund was not held during the Plan year ended March 31, 2010.

Purchases and sales of investments are reported on a trade date basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold, as well as held during the year. Interest income is recognized on the accrual basis.

(e) Fair Value Hierarchy

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring the fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identification of assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(f) Benefits

Benefits paid to participants are recorded as deductions from net assets available for benefits when approved and paid by the Plan.

(g) Administrative Expenses

Administrative expenses incurred by the Plan are allocated to each participant account based on participant account balances.

The following table presents the Plan's investments that represent 5% or more of the Plan's net assets available for benefits at March 31:

Balance, end of year	$ 1,676,000	$ 1,572,000

On December 16, 2010, the Plan custodian changed from Charles Schwab to Wells Fargo, as discussed in note 1(g).

(4) Related Party Transactions

Certain Plan investments in money market funds are managed by Schwab Institutional or Wells Fargo, who is a custodian as defined by the Plan. These transactions are party-in-interest transactions.

(5) Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue employer contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(6) Income Tax Status

The Internal Revenue Service issued its latest determination letter in January 2004 which stated that the Plan and its underlying trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The Company has filed for a determination letter from the Internal Revenue Service (IRS) regarding the Plan's qualification. However, management believes that the Plan's current design and operation is in compliance with the applicable requirements of the Internal Revenue Code and ERISA, and the trust which forms a part of the Plan, is exempt from income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2007.

(7) Date of Evaluation – Subsequent Events

Subsequent events are evaluated through January 12, 2012, the date on which the financial statements were available to be issued. See note 9.

(8) Other Matters

The Administrative Committee became aware of a potential issue involving the interpretation of the formula used to determine the annual Employer contribution. The Administrative Committee and the Employer diligently investigated the matter and retained ERISA counsel. The Employer engaged an independent trustee to conclude the investigation. The Administrative Committee resolved the matter in Plan year 2011 by contributing $3,328,000 in excess of the non-elective annual contribution.

(9) Subsequent Event

Effective April 1, 2011, the Plan was amended and the benefit provided from a participant's account is valued on a daily basis. This change initiated a blackout period beginning March 15, 2011 continuing through May 8, 2011. During this period no funds could be contributed to or distributed from the Plan.
