INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrator of the
Confer Plastics, Inc. 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Confer Plastics, Inc. 401(k) Plan (the Plan) as of March 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedules of assets held for investments as of March 31, 2011 and delinquent participant contributions for the year then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Mass Mutual Life Insurance Company, the custodian of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's assets and executes transactions. The plan administrator has obtained certification from the custodian regarding the completeness and accuracy of the information summarized in Note 6 that was provided by the custodian as of an for the years ended March 31, 2011 and 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974.

NOTE 1. - DESCRIPTION OF THE PLAN

The following description of the Confer Plastics, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established effective April 1, 1994. Employees of Confer Plastics, Inc. (the "Company") become eligible to participate for employee deferrals and matching contributions upon completing three months and one year of service, respectively, as defined in the Plan, and attaining the age of 18. Administrative expenses are paid by the Plan or by the Company. The assets of the Plan are maintained in an investment fund held by Mass Mutual Financial Group (Mass Mutual) as of March 31, 2011 and March 31, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Participants may defer up to 100 percent of compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

The Company makes matching contributions equal to 20% of each participant's deferral contribution, not to exceed 5% of participant compensation. Additionally, the Company may make a discretionary non-elective contribution (profit sharing). The Company did not make a profit sharing contribution for the years ended March 31, 2011 or 2010.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of: (a) Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately 100% vested in their employee contributions. Participants become 100% vested in their employer match and discretionary contributions plus actual earnings thereon after one year of service.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of the vested portion of their account balance, whichever is less. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with market rates for similar loans, as defined in the Plan. Principal and interest is paid ratably through payroll deductions.

Forfeitures - Forfeitures result from nonvested benefit payments remaining in the Plan from terminated employees. The forfeiture reserve is allocated to participant balances as a discretionary matching and non-elective contribution in the year in which the forfeiture occurs. There was no forfeiture reserve balance for the year ended March 31, 2011 and 2010.

NOTE 1. - DESCRIPTION OF THE PLAN (CONTINUED)

Benefit Payments - On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the vested portion of their account, a distribution in the form of installment payments, cash, other marketable securities, or a combination of these payment options. Participants with a vested account balance less than $1,000 will receive a lump-sum distribution. Distributions are subject to the applicable provisions of the Plan agreement.

NOTE 2. - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The Plan's financial statements are prepared on the accrual basis of accounting and present the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable From Participants - Notes receivable from participants are measures at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Accounting Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

NOTE 2. - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Recently Issued Accounting Pronouncements - In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (Update) 2010-06, "Improving Disclosures About Fair Value Measurements." Topic 820 of the Accounting Standards Codification (ASC) requires new disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for periods beginning after December 15, 2010. Disclosures required under Updated 2010-06 are included in the notes to the Plan's financial statements for the years ended March 31, 2011 and 2010, except for the disclosures related to Level 3 fair value measurements, which will be included in the notes to the Plan's financial statements effective April 1, 2011. Other than requiring additional disclosures, the adoption of this new guidance did not have a material impact on the Plan's financial statements.

In September 2010, the FASB issued Update 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans". This Update requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The guidance is effective for annual periods ending after December 15, 2010 with early adoption permitted. The guidance should be applied retrospectively to all periods presented. The Plan adopted this guidance as of March 31, 2011 and reclassified participant loans from plan investments to a component of receivables for both periods presented in the Statements of Net Assets Available for Benefits. Other than the reclassification requirements, the adoption of this standard did not have a material impact on the Plan's financial statements.

Payment of Benefits - Benefits are recorded when paid.

Reclassification - Participant loans previously reported as a component of investments have been reclassified to a component of receivables in order to conform to the current year presentation.

Subsequent Event - These financial statements have not been updated for subsequent events occurring after January 13, 2012 which is the date these financial statements were available to be issued.

NOTE 3. - INVESTMENTS

At March 31, 2011 and 2010, the following investments comprised more than 5% of the Plan assets:

	March 31, 2011	March 31, 2010
Guaranteed Interest Account (A)	**$ 438,016**	$ 299,159
AIM Mid Cap Core Equity Fund	**$ 340,471**	$ 318,556
Global Opportunities Fund	**$ 228,730**	$ 266,090
Premier Core Bond Fund	**$ 219,104**	$ 196,065
Premier Cap Appreciation Fund	**$ 134,879**	$ 158,365
Quest Balanced Fund	**$ 131,946**	$ 133,037

(A) The contract value at March 31, 2011 amounted to $402,807 ($277,166 - 2010).

During the year ended March 31, 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated in value as follows:

	March 31, 2011	March 31, 2010
Pooled separate accounts	**$ 180,302**	$ 526,870
Guaranteed interest account	**9,551**	8,292
	$ 189,853	$ 535,162

NOTE 4. - FAIR VALUE MEASUREMENTS

US GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4. - FAIR VALUE MEASUREMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2011 and 2010.

Pooled separate accounts: Valued at fair value of the underlying investments or a change-factor model with inputs derived from observable market data of the underlying investments in active markets.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of March 31, 2011 and 2010:

	Investments at Fair Value as of March 31, 2011

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 investments for the years ended March 31, 2011 and 2010.

	Guaranteed Interest Account
Balance as of April 1, 2009	$ 233,425
Change in unrealized appreciation	21,993
Net cash flow activity at contract value	43,471
Balance as of March 31, 2010	299,159
Change in unrealized appreciation	13,216
Net cash flow activity at contract value	125,641
Balance as of March 31, 2011	$ 438,016

NOTE 5. - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2009, the plan entered into a benefit-responsive investment contract with Mass Mutual. Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Mass Mutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE 5. - INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at March 31, 2011 was $438,016 ($299,159 - 2010). The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability to the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Based on interest rate credited to participants	**2.59%**	3.11%

NOTE 6. - FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at March 31, 2011 and 2010, as well as investment transactions for the years then ended, have been derived from information provided by Mass Mutual, the custodian of the Plan, and has been certified by them as complete and accurate to the best of their knowledge. The incorporation of this financial information in the accompanying financial statements and supplemental schedule of assets held for investment is based solely on their certifications and has not been audited by independent accountants.

Earnings on investments	**$ 189,853**	$ 535,162

NOTE 7. - PARTY-IN-INTEREST

The Plan's investments are maintained in investment funds managed by Mass Mutual. Mass Mutual is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the administrative services amounted to $7,610 for the year ended March 31, 2011 ($2,401 - 2010). Interest income earned from notes receivable from participants also qualifies as party-in-transactions. Interest income from these transactions amounted to $4,889 ($7,338 - 2010).

NOTE 8. - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their account balances.

NOTE 9. - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10. - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 20, 2002, that the prototype Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC") which is currently being operated in compliance with the applicable requirements of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process. The Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 11. - NON-EXEMPT TRANSACTIONS

During the year ended March 31, 2011, the Plan sponsor inadvertently failed to deposit $50,038 of participant elective deferrals and loan repayments within the required time frame as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be non-exempt transactions.

INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrator of the
Confer Plastics, Inc. 401(k) Plan

We were engaged to audit the accompanying statements of net assets available for benefits of the Confer Plastics, Inc. 401(k) Plan (the Plan) as of March 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended, and the supplemental schedules of assets held for investments as of March 31, 2011 and delinquent participant contributions for the year then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Mass Mutual Life Insurance Company, the custodian of the plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's assets and executes transactions. The plan administrator has obtained certification from the custodian regarding the completeness and accuracy of the information summarized in Note 6 that was provided by the custodian as of an for the years ended March 31, 2011 and 2010.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974.

NOTE 1. - DESCRIPTION OF THE PLAN

The following description of the Confer Plastics, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established effective April 1, 1994. Employees of Confer Plastics, Inc. (the "Company") become eligible to participate for employee deferrals and matching contributions upon completing three months and one year of service, respectively, as defined in the Plan, and attaining the age of 18. Administrative expenses are paid by the Plan or by the Company. The assets of the Plan are maintained in an investment fund held by Mass Mutual Financial Group (Mass Mutual) as of March 31, 2011 and March 31, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Participants may defer up to 100 percent of compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

The Company makes matching contributions equal to 20% of each participant's deferral contribution, not to exceed 5% of participant compensation. Additionally, the Company may make a discretionary non-elective contribution (profit sharing). The Company did not make a profit sharing contribution for the years ended March 31, 2011 or 2010.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of: (a) Company's contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately 100% vested in their employee contributions. Participants become 100% vested in their employer match and discretionary contributions plus actual earnings thereon after one year of service.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50 percent of the vested portion of their account balance, whichever is less. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with market rates for similar loans, as defined in the Plan. Principal and interest is paid ratably through payroll deductions.

Forfeitures - Forfeitures result from nonvested benefit payments remaining in the Plan from terminated employees. The forfeiture reserve is allocated to participant balances as a discretionary matching and non-elective contribution in the year in which the forfeiture occurs. There was no forfeiture reserve balance for the year ended March 31, 2011 and 2010.

NOTE 1. - DESCRIPTION OF THE PLAN (CONTINUED)

Benefit Payments - On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the vested portion of their account, a distribution in the form of installment payments, cash, other marketable securities, or a combination of these payment options. Participants with a vested account balance less than $1,000 will receive a lump-sum distribution. Distributions are subject to the applicable provisions of the Plan agreement.

NOTE 2. - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The Plan's financial statements are prepared on the accrual basis of accounting and present the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable From Participants - Notes receivable from participants are measures at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Accounting Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

NOTE 2. - SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Recently Issued Accounting Pronouncements - In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (Update) 2010-06, "Improving Disclosures About Fair Value Measurements." Topic 820 of the Accounting Standards Codification (ASC) requires new disclosures about transfers into and out of Levels 1 and 2 of the fair value hierarchy and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. It also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for periods beginning after December 15, 2010. Disclosures required under Updated 2010-06 are included in the notes to the Plan's financial statements for the years ended March 31, 2011 and 2010, except for the disclosures related to Level 3 fair value measurements, which will be included in the notes to the Plan's financial statements effective April 1, 2011. Other than requiring additional disclosures, the adoption of this new guidance did not have a material impact on the Plan's financial statements.

In September 2010, the FASB issued Update 2010-25, "Reporting Loans to Participants by Defined Contribution Pension Plans". This Update requires participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The guidance is effective for annual periods ending after December 15, 2010 with early adoption permitted. The guidance should be applied retrospectively to all periods presented. The Plan adopted this guidance as of March 31, 2011 and reclassified participant loans from plan investments to a component of receivables for both periods presented in the Statements of Net Assets Available for Benefits. Other than the reclassification requirements, the adoption of this standard did not have a material impact on the Plan's financial statements.

Payment of Benefits - Benefits are recorded when paid.

Reclassification - Participant loans previously reported as a component of investments have been reclassified to a component of receivables in order to conform to the current year presentation.

Subsequent Event - These financial statements have not been updated for subsequent events occurring after January 13, 2012 which is the date these financial statements were available to be issued.

NOTE 3. - INVESTMENTS

At March 31, 2011 and 2010, the following investments comprised more than 5% of the Plan assets:

	March 31, 2011	March 31, 2010
Guaranteed Interest Account (A)	**$ 438,016**	$ 299,159
AIM Mid Cap Core Equity Fund	**$ 340,471**	$ 318,556
Global Opportunities Fund	**$ 228,730**	$ 266,090
Premier Core Bond Fund	**$ 219,104**	$ 196,065
Premier Cap Appreciation Fund	**$ 134,879**	$ 158,365
Quest Balanced Fund	**$ 131,946**	$ 133,037

(A) The contract value at March 31, 2011 amounted to $402,807 ($277,166 - 2010).

During the year ended March 31, 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated in value as follows:

	March 31, 2011	March 31, 2010
Pooled separate accounts	**$ 180,302**	$ 526,870
Guaranteed interest account	**9,551**	8,292
	$ 189,853	$ 535,162

NOTE 4. - FAIR VALUE MEASUREMENTS

US GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 4. - FAIR VALUE MEASUREMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2011 and 2010.

Pooled separate accounts: Valued at fair value of the underlying investments or a change-factor model with inputs derived from observable market data of the underlying investments in active markets.

Guaranteed interest account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of March 31, 2011 and 2010:

	Investments at Fair Value as of March 31, 2011

Change in unrealized appreciation	13,216
Net cash flow activity at contract value	125,641
Balance as of March 31, 2011	$ 438,016

NOTE 5. - INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2009, the plan entered into a benefit-responsive investment contract with Mass Mutual. Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by Mass Mutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTE 5. - INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at March 31, 2011 was $438,016 ($299,159 - 2010). The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability to the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

	2011	2010
Average yields:		
Based on actual earnings	**2.59%**	3.11%
Based on interest rate credited to participants	**2.59%**	3.11%

NOTE 6. - FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at March 31, 2011 and 2010, as well as investment transactions for the years then ended, have been derived from information provided by Mass Mutual, the custodian of the Plan, and has been certified by them as complete and accurate to the best of their knowledge. The incorporation of this financial information in the accompanying financial statements and supplemental schedule of assets held for investment is based solely on their certifications and has not been audited by independent accountants.

NOTE 6. - FINANCIAL CERTIFICATION (CONTINUED)

	2011	2010
Investments:		
Pooled separate accounts	**$ 1,756,967**	$ 1,598,580
Guaranteed interest account at fair value	**$ 438,016**	$ 299,159
Guaranteed interest account at contract value	**$ 402,807**	$ 277,166
Transactions for the years ended:		
Earnings on investments	**$ 189,853**	$ 535,162

NOTE 7. - PARTY-IN-INTEREST

The Plan's investments are maintained in investment funds managed by Mass Mutual. Mass Mutual is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the administrative services amounted to $7,610 for the year ended March 31, 2011 ($2,401 - 2010). Interest income earned from notes receivable from participants also qualifies as party-in-transactions. Interest income from these transactions amounted to $4,889 ($7,338 - 2010).

NOTE 8. - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their account balances.

NOTE 9. - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10. - TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 20, 2002, that the prototype Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC") which is currently being operated in compliance with the applicable requirements of the IRC. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken uncertain tax positions that more likely than not would not be sustained upon examination by the IRS. The Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in process. The Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 11. - NON-EXEMPT TRANSACTIONS

During the year ended March 31, 2011, the Plan sponsor inadvertently failed to deposit $50,038 of participant elective deferrals and loan repayments within the required time frame as stated by the United States Department of Labor (DOL). The DOL considers late deposits to be non-exempt transactions.
