International Auto Processing, Inc. 401(k) Retirement Plan

Notes to Financial Statements

October 22, 2010

1. Description of the Plan

The following description of International Auto Processing, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of International Auto Processing, Inc. (the Company) who have one year of service and are twenty-one years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Merger

Effective January 1, 2010, the Plan was amended to merge into the Amsource Multiple Employer 401(k) Plan (successor plan). All participants became eligible to participate in the successor plan on that date and the Plan's assets were transferred to the successor plan by October 22, 2010.

Contributions

Each year, participants may contribute a percentage of pretax annual compensation (as defined by the Plan) not to exceed federal limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company contributes a discretionary match to be determined annually by the Company. For 2010, the Company contributed fifty percent of the first six percent of pretax annual compensation that a participant contributes to the Plan. Additional discretionary amounts may be contributed at the option of the Company. Contributions are subject to certain limitations. Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan.

Administrative Expenses

Certain administrative expenses of the Plan, including accounting fees, have been paid by the Company.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Loans

Prior to the merger, participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans were secured by the balance in the participant's account and bore interest at rates which are commensurate with local prevailing rates. Principal and interest were paid ratably through payroll deductions.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, Plan earnings or losses from that account's investment activities, and allocations of Company discretionary contributions. Allocations are based on participant compensation, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Benefit Payments

On termination of service due to death, disability, retirement, or separation of service, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, annual installments over a fixed period of time, or in the form of an annuity, not to exceed the life expectancy of the participant or the beneficiary. In-service withdrawals, including hardship withdrawals, may be available as defined by the Plan document.

Forfeitures

Forfeitures of terminated, nonvested participant accounts are used to reduce future Company contributions.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in pooled separate accounts and guaranteed interest accounts for the year ended December 31, 2009 are valued using level 2 inputs. The Plan's investments in pooled separate accounts are stated at fair value based on prices quoted and published by the investment advisor of the accounts. Quoted prices are determined daily based on the market value of the underlying mutual funds and other securities in the accounts. Net change in fair value of the accounts includes interest, dividends and realized and unrealized gains and losses on investments in the accounts. The Plan's investments in guaranteed interest accounts are stated at fair value, which is the amount plan participants would receive if they were to withdraw or transfer funds within the Plan prior to their maturity.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

The Plan provides for investments in various investment securities that in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.
