1. Description of the Plan (continued)

Participant Loans

Prior to the merger, participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans were secured by the balance in the participant's account and bore interest at rates that are commensurate with local prevailing rates. Principal and interest were paid ratably through payroll deductions.

Benefit Payments

On termination of service due to separation, death, disability, or retirement, a participant could elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Hardship withdrawals were available as defined in the Plan document.

Forfeitures

Forfeitures of terminated, nonvested participant accounts were first used to reduce administrative expenses. Any remaining amounts were used to reduce Company contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions, Plan earnings or losses from the participant's investment activities and allocations of Company profit sharing contributions. Allocations are based on participant earnings, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus earnings thereon was based on years of continuous service. The Plan utilizes the five year graded vesting method and a participant is 100 percent vested after five years of credited service.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments in pooled separate accounts for the year ended December 31, 2010 are stated at fair value, based on prices quoted and published by the investment advisor of the accounts. Quoted prices are determined daily based on the market value of the underlying mutual funds and other securities in the accounts. Net change in fair value of the accounts includes interest, dividends and realized and unrealized gains and losses on investments in the accounts. The John Hancock Stable Value Fund is a collective trust which invests in fully benefit-responsive investment contracts, and is stated at fair value determined by the trust and published in the trust's audited financial statements. However, contract value is the relevant measurement attribute for fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the contracts. Accordingly, the statements of net assets available for benefits present the fair value of the investments in the collective trust, as well as the adjustment to record the investments at contract value for purposes of determining the Plan's net assets available for benefits. Investment income of the trust is presented on a contract value basis, determined daily. The Plan's investments in pooled separate accounts and collective trusts have been valued using level 2 observable inputs.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

The Plan provides for investments in various investment securities that in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Investment Information

4. Tax Status

The Company adopted a prototype standardized profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

5. Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through January 19, 2012, which is the date the financial statements were available to be issued.
