Note 1—Description of Plan

The following brief description of the Cooper-Standard Automotive Inc. Hourly Employees' Retirement Plan – Auburn (the Plan), provides only general information. Participants should refer to their specific Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all union hourly employees at the Plan Sponsor's Auburn facility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan had a trust agreement with PNC Bank N.A. to act as trustee and recordkeeper of the Plan's assets. During 2005, the Plan established a trust with Principal Life Insurance Company (the Custodian), effective July 1, 2005, to act as custodian of the Plan's assets. The Custodian administers and invests the Plan's assets and income there from for the benefit of the Plan's participants. The Plan's assets were transferred from PNC Bank N.A. Trust to Principal Life Insurance Company in October and November 2005.

The Plan's participants may be eligible for unreduced monthly pension benefits upon attainment of 30 years of continuous credited service. Participants also may retire earlier than the normal retirement age. Pension benefits for participants with less than 30 years continuous credited service are subject to a reduction based upon the time by which the retirement precedes the participant's attainment of age 62.

The amount of any pension benefit otherwise available may be reduced by certain disability payments (but not payments under the Federal Insurance Contribution Act (FICA)). The Plan provides certain survivor and disability benefits, and various optional forms of payment, some actuarially reduced.

Eligibility

All employees subject to the collective bargaining agreements between the Plan Sponsor and Local Union #634 of the United Steelworkers of America are eligible for participation in the Plan. The current bargaining agreement was effective November 8, 2000, and was extended through July 1, 2008.

December 31, 2006 and 2005**

Note 1—Description of Plan – continued

Funding policy/contributions

The Plan is funded entirely through contributions made by the Plan Sponsor. The Plan Sponsor contributes such amounts as are deemed necessary on an actuarial basis to provide the trust with assets sufficient to meet the benefits to be paid to the Plan's participants. The contributions are designed to fund current service costs and to fund prior service costs over periods of ten to twenty years. The Plan Sponsor's contributions for 2006 and 2005 exceeded the minimum funding requirements of ERISA.

Vesting

Participants are vested after five years of continuous credited service. If participants are hired after age 60, they may receive a monthly pension benefit if they later become vested.

Pension benefits

Participants are entitled to monthly pension benefits equal to the amount specified in the plan agreement multiplied by the years of continuous credited service at time of termination or retirement. If termination occurs prior to eligibility for an immediate pension benefit, vested participants may elect to receive a lump sum distribution in lieu of a deferred pension benefit.

Termination of the Plan

While the Plan Sponsor has not expressed any intent to terminate the Plan or its contributions thereto, it has the right to do so at any time, subject to the provisions of ERISA. In the event of partial or total termination of the Plan, participants' benefits become nonforfeitable.

In the event the Plan terminates, its available net assets will be allocated to benefits as prescribed by ERISA, generally in the following order:

- a. Certain annuity benefits that former employees or their beneficiaries are receiving or that employees eligible for retirement would have been receiving had they retired.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) as discussed below.
- c. All other vested benefits.
- d. All non-vested benefits.

The PBGC guarantees most, but not all, vested retirement benefits and certain disability and survivor's pensions. However, there is a statutory ceiling on the amount of any individual's monthly benefit that PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants, or for those who elect to receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits, and the level of benefits guaranteed by the PBGC.

Note 2—Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments

The Plan's investments are stated at fair value, which equals the quoted net asset values thereof on the last business day of the Plan's year. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative expenses

The administrative expenses of the Plan are paid by either the Plan Sponsor or the Plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Estimates are most significantly utilized in determining the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Note 3—Investments

All investment information for the year ending December 31, 2006 and 2005 disclosed in the accompanying financial statements and schedules, including investments held at December 31, 2006 and 2005, interest and dividends and net appreciation in fair value of investments and investment fees and expenses for the years ended December 31, 2006 and 2005, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the custodian, Principal Life Insurance Company for the year ended December 31, 2006, and for the period October 7, 2005 to December 31, 2005, and the former trustee, PNC Bank for the period from January 1, 2005 to November 2, 2005. Such information has not been examined by independent auditors.

At December 31, 2006 and 2005, investments that exceed 5% of the Plan assets available for benefits are as follows:

	2006	2005
Principal Bond and Mortgage	\$ 5,037,535	\$ 4,696,570
Principal Partners Large – Cap Blend	3,311,221	2,986,292

Principal Partners Large – Cap Value	1,427,074	1,247,793

NOTES TO FINANCIAL STATEMENTS - CONTINUED

Note 4—Income tax status

The Plan has received a determination letter from the Internal Revenue Service dated July 2, 2003, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain their qualification. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Note 5—Related party transactions

Certain Plan investments are managed by the Custodian; therefore, these transactions qualify as party-in-interest transactions. There have been no known prohibited transactions with a party-in-interest.

Note 6—Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired employees or their beneficiaries, (b) terminated employees with vested benefits, (c) beneficiaries of employees who have died, and (d) present employees or their beneficiaries. Benefits for active employees under the Plan are based on the employees' years of credited service computed to the nearest completed 1/12 of a year multiplied by the pension amount in effect on the valuation date. Benefits payable under all circumstances are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

An actuary from Principal Financial Group estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in performing the valuations include: (1) interest rate of 8 percent; (2) mortality based on the 1994 Uninsured Pensioner Mortality Table; (3) retirement at age 63 and the completion of ten years of service; (4) employee turnover of 50 percent; and (5) disability pension is based upon the 1985 Pension Disability Table.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits (see Note 1).

Note 6--Actuarial present value of accumulated plan benefits - continued

The actuary has determined the present value of the accumulated plan benefits as of January 1, 2006 and 2005, to be as follows:

	<u>2006</u>	<u>2005</u>
Actuarial present value of accumulated plan benefits		
Vested benefits:		
Participants currently receiving benefits	\$ 8,371,715	\$ 7,257,469

Total actuarial present value of accumulated plan benefits	<u>\$ 16,042,781</u>	<u>\$ 14,481,563</u>

A reconciliation of the changes in the actuarial present value of accumulated plan benefits is summarized as follows:

	<u>2006</u>	<u>2005</u>
Actuarial present value of accumulated plan benefits as of January 1, 2005 and 2004	\$ 14,481,563	\$ 13,308,879
Increase (decrease) during year due to:		
Change in plan benefits	362,253	371,238
Benefits paid	(1,167,705)	(949,857)
Change in discount period	1,158,525	1,081,066
Benefits accumulated	<u>1,208,145</u>	<u>670,237</u>
Actuarial present value of accumulated plan benefits as of January 1, 2006 and 2005	<u>\$ 16,042,781</u>	<u>\$ 14,481,563</u>

Note 7--Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in a near term that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

To the best of my knowledge, the information supplied in this schedule and on the accompanying schedules, statements, and attachments, if any, is complete and accurate, and in my opinion each assumption, used in combination, represents my best estimate of anticipated experience under the plan. Furthermore, in the case of a plan other than a multiemployer plan, each assumption used (a) is reasonable (taking into account the experience of the plan and reasonable expectations) or (b) would, in the aggregate, result in a total contribution equivalent to that which would be determined if each such assumption were reasonable; in the case of a multiemployer plan, the assumptions used, in the aggregate, are reasonable (taking into account the experience of the plan and reasonable expectations).

Schedule B, line 2a - Explanation of Assets
Cooper-Standard Automotive Inc. Hourly Employees' Retirement Plan - Auburn
EIN 340549970 Plan No. 009

Assets shown on line 2a differ from those on line 1b(1) by \$808,800 due to contributions made after December 31, 2005 and reflected on the 2005 Schedule B.

Schedule B, line 5i - Change in Funding Method
Cooper-Standard Automotive Inc. Hourly Employees' Retirement Plan - Auburn
EIN 340549970 Plan No. 009

A change in funding method occurred due to the change in asset valuation method. This change is for the plan year beginning 01/01/2006.

The new asset method will help smooth the effect of market fluctuations on the actuarial value of assets and on your contribution levels.

The actuarial value of assets is equal to the market value in the first year. To determine the actuarial value of assets in following years we'll:

- Calculate the difference between actual and expected market value of assets, and
- Spread the difference over 4 years rather than recognize the full amount in one year.

IRS approval is required for all funding method changes. Automatic approval is granted under Revenue Procedure 2000-40 because there were no funding method changes in the prior four years.

Schedule B, line G - Notice of Change in Enrolled Actuary
Cooper-Standard Automotive Inc. Hourly Employees' Retirement Plan - Auburn
EIN 340549970 Plan No. 009

The Employee Retirement Income Security Act of 1974, Section 103(c)(4), requires the plan administrator to furnish an explanation of a change in the enrolled actuary as part of the annual report.

The actuarial valuation work continues to be done by Principal Life Insurance Company. However, the individual involved with this plan as the enrolled actuary has changed due to a change in the plan assignment among enrolled actuaries at Principal Life Insurance Company.

Schedule B, line 11 -- Justification for Change in Actuarial Assumptions
Cooper-Standard Automotive Inc. Hourly Employees' Retirement Plan - Auburn
EIN 34 0549970 Plan 009

See the attachment "Schedule B, Line 6 - Statement of Actuarial Assumptions/Methods" for an explanation of any change in the actuarial assumptions.
