Independent Auditors' Report

The Management and Participants of the
King Architectural Metals 401(k) Plan

We were engaged to audit the financial statements and the supplemental schedule of King Architectural Metals 401(k) Plan (the "Plan") as of December 31, 2010, and for the year then ended, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by State Street Global Services, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that State Street Global Services held and executed investment transactions for certain Plan investments from January 1, 2010 to December 31, 2010. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

General

The following description of the King Architectural Metals 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Employees of the following companies (the Employers) are presently covered under the Plan:

- King Supply Company L.L.C. (d/b/a King Architectural Metals)
- King Architectural Metals of California, L.L.C. (d/b/a King Architectural Metals)

The Plan is a defined contribution retirement plan administered by King Supply Company, L.L.C. ("King" or "the Company") and was established on January 1, 2010. Management established this new plan upon transferring the recordkeeping duties to Automatic Data Processing ("ADP") and the custodian and trustee duties to State Street Bank & Trust on January 1, 2010. The plan is intended to be similar to the previous plan that was established in January 2004 with no significant changes in terms from the previous plan as it existed in 2009. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Provided no other provision is made by the Plan, employees of King Architectural Metals, who are not represented by a collective bargaining unit, are eligible to participate in the Plan. Employees must complete one year of entry service (1,000 hours or more in a one-year period) prior to being eligible to enter the Plan. Employees join the plan as an active participant on the first day of the month following their completion of the service requirement.

Contributions

Employees may elect to defer up to 90% of their eligible compensation to the Plan, subject to IRS limitations. The Plan defines eligible compensation as a participant's total pay excluding any expense repayments or other allowances, fringe benefits, moving expenses, deferred compensation and welfare benefits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions subject to IRS limitations. Participants may also contribute amounts representing distributions from other qualified plans. In addition, participants may also elect to make after-tax Roth contributions into the Plan.

The Company may make a discretionary matching contribution to the Plan up to a percentage of participants' compensation as determined by the Company. The Company may also make a discretionary contribution each plan year, which will be allocated among all participants eligible to receive the contribution on December 31. A participant's share of any discretionary contributions is in proportion to the participant's eligible earnings compared to the eligible earnings of the other employees who will also share in the contribution. No employer contributions were made in 2010.

Investment Options

Plan participants may direct their employee contribution into managed mutual funds or one of several common collective trust funds.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2010

1. Description of Plan (continued)

Participant Accounts
Each participant's account is credited with the participant's contribution, the Company's contributions, earnings or losses thereon, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting & Forfeitures
Participants are always 100% vested in their elective contributions and any earnings thereon. Participants become vested in the Company contributions at a rate of 20% for each year of employment above two years and become 100% vested after six years of employment. Forfeitures may be used by the Company to first reduce administrative expenses and then to reduce matching contributions. There were no forfeitures during the year ended December 31, 2010 and no unallocated forfeitures available for future use as of December 31, 2010.

Payment of Benefits
On termination of service due to death, disability, retirement, or termination, a participant with an account balance greater than $5,000 may elect to receive 100% of their vested balance and any income or loss thereon, in a lump-sum, direct rollover distribution, installments, or alternative annuity as defined in the Plan Document. Participants who have reached age 59 ½ or become disabled may withdraw any part of their vested account balance. Hardship withdrawals are also permitted.

Participant Loans
Under the terms of the Plan, participants may borrow from their accounts up to $50,000 or 50% of their vested balance. The loans are secured by the balances in the participants' accounts. Each loan bears interest equal to the prime rate as published in The Wall Street Journal, plus two percent. The loans are to be repaid over a period not to exceed five years, unless the loan is for the purchase of a principal residence. Principal and interest are paid ratably through periodic payroll deductions. Participants are allowed to have a maximum of one outstanding loan at any given time.

Administrative Expenses
All general investment expenses are charged directly to the participants' accounts based on the size of their account balances. Specific administrative expenses such as loan initiation, brokerage account fees, and member requested expenses are charged directly to the particular participant's account. Certain other Plan administrative expenses are absorbed by the Plan sponsor.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants
Notes receivable from participants represent loans and are stated at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits
Benefit payments to participants are recorded when paid.

Risks and Uncertainties
The Plan provides for various options in any combination of specified investments. The underlying investments may include stocks, bonds, fixed income securities, mutual funds and other investment securities. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Subsequent Events
Subsequent events have been evaluated through the date of the independent auditors' report.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2010

3. Investments

The fair value of investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2010 are summarized as follows:

December 31,		2010
SSgA International Index Collective Trust	$	**48,933**
SSgA S&P 500 Index Collective Trust Fund		**60,913**
SSgA Stable Value Collective Trust Fund		**131,317**
T. Rowe Price Retirement 2020 Fund		**167,388**
T. Rowe Price Retirement 2030 Fund		**105,338**
T. Rowe Price Retirement 2040 Fund		**74,474**

Common Collective Trust – SSgA Stable Value Fund
The SSgA Stable Value Fund (the "Fund") is a common collective trust designed for retirement trusts to earn a steady rate of return, consistent with and providing for stability of investment returns, preservation of capital, liquidity to pay plan benefits, high credit quality, and reasonable tracking of interest rates. The Fund may invest in conventional guaranteed investment contracts (GICs), synthetic GICs, and separate account investment contracts issued by life insurance companies, banks, and other financial institutions. Characteristics of these contracts allow for their principal value to remain stable regardless of the volatility of the financial markets.

In a traditional GIC, the Fund enters into a contract with an issuer (typically a bank or life insurance company), which provides for a stated rate of interest and a fixed maturity. In a synthetic GIC structure, the Fund owns fixed-income investments and enters into a wrap contract from high-quality insurance companies, banks, or other financial services companies that serve to substantially offset the price fluctuations in the underlying investments caused by movements in interest rates. Each wrap contract obligates the wrap provider to maintain the "contract value" of the underlying investments. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the contract, less any adjustments for withdrawals (as specified in the wrap agreement). Under the terms of the wrap contract, the realized and unrealized gains and losses on the underlying investments are, in effect, amortized over the duration of the underlying investments, through adjustments to the future contract interest crediting rate (which is the rate earned by participants in the Fund for the underlying investment). The wrap contract provides that the adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero. This ensures that the participants' principal and accrued interest will be protected.

3. Investments (continued)

Common Collective Trust – SSgA Stable Value Fund (continued)
In general, if the contract value of the wrap agreement exceeds the market value of the underlying investments (including accrued interest), the wrap provider becomes obligated to pay that difference to the Fund in the event that shareholder redemptions result in partial or total contract liquidation. In the event that there are partial shareholder redemptions that would otherwise cause the contract's crediting rate to fall below zero percent, the wrap provider is obligated to contribute to the Fund an amount necessary to maintain the contract's crediting rate to at least zero percent. The circumstances under which payments are made and the timing of payments between the Fund and the wrap provider may vary based on the terms of the wrap contract.

In certain circumstances, the amount withdrawn from the wrap contract would be payable at fair value rather than at contract value. These events include termination of participating plans, or a material adverse change to the provisions of participating plans. At this time, neither the Plan nor the Fund, believes that the occurrence of any such event, which would limit the Fund's ability to transact at contract value with participants, is probable.

Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they can have a material impact on the wrap contract's interest crediting rate. In addition, participant withdrawals and transfers from the fund, which exceeded the cash buffer, would be drawn from individual wrap contracts. Although wrap contracts are intended to pay contract value, they are funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate. The resulting difference between the market value of the underlying investments relative to the wrap contract value is presented on the Statements of Net Assets Available for Benefits as the "Adjustment from fair value to contract value for benefit responsive investment contracts". If the adjustment from fair value to contract value is positive for a given contract, this indicates that the wrap contract value is greater than the market value of the underlying investments. The embedded market value losses in the underlying securities will be amortized in the future through a lower interest crediting rate than would otherwise be the case. If the adjustment from fair value to contract value is negative, this indicates that the wrap contract value is less than market value of the underlying investments. The amortization of the embedded market value gains in the underlying securities will cause the future interest crediting rate to be higher than it otherwise would have been.

The net asset value of the Fund's share classes is determined each business day by the Fund's Trustee. All earnings, expenses, and gains and losses of the Fund are reflected in the calculation of the daily unit value. Although it is intended to permit daily withdrawals, some of the assets of the Fund, especially investment contracts, may require an adjustment in the value of the investment if a withdrawal is made. In any event, the withdrawal may be deferred over such period of time, not to exceed one year, as may be deemed necessary for fair and orderly management of the Fund.
Average yields:

	2010
Based on annualized earnings (1)	**1.10%**
Based on interest rate credited to participants (2)	**1.85%**

(1) Computed by dividing the annualized earnings of all investments in the Trust on the last day of the year by the fair value of all investments in the Trust.
(2) Computed by dividing the annualized earnings credited to participants in the Trust on the last day of the year by the fair value of all investments in the Trust.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2010

4. Information Certified by the Plan's Trustee (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following information included in the accompanying financial statements and supplemental schedule has been certified by State Street Global Services, the custodian, as of December 31, 2010, as complete and accurate:

As of December 31,		2010
Mutual Funds, at fair value	$	**562,713**
Common collective trusts, at fair value		**291,344**
Total investments	$	**854,057**
Notes receivable from participants	$	**64,205**

The following investment income information for the year ended December 31, 2010 has been certified as complete and accurate by State Street Global Services, the custodian, as of December 31, 2010:

		2010
Dividend and other income	$	**8,569**
Interest from participant loans		**1,483**
Net appreciation in fair value of investments		**68,355**

As permitted under such election, the Plan's independent auditors did not perform auditing procedures with respect to the information certified to by the Plan trustee except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

5. Fair Value Measurements (continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Common collective trusts: Valued at fair value determined by the fund trustee based on the fair value of the underlying securities within the fund, which represent the net asset value of the shares held by the Plan at year end (see Note 3).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Mutual fund accounts:				
Fixed income (1)	$ 15,978	$ -	$ -	$ 15,978
Asset allocation (2)	386,018	-	-	386,018
Large cap value (3)	27,084	-	-	27,084
Large cap growth (4)	22,911	-	-	22,911
Large cap blend (5)	5,481	-	-	5,481
Small/mid/specialty (6)	88,762	-	-	88,762
Global/international (7)	16,479	-	-	16,479
Common collective trust	-	291,344	-	291,344
Total assets at fair value	$ 562,713	$ 291,344	$ -	$ 854,057

1) Fixed income funds invest primarily in bonds, or debt of a company or government entity (including U.S. and Non-U.S.).

(2) Asset allocation funds invest primarily in a combination of funds that invest in U.S. stocks, international stocks, U.S. bonds and other fixed-income investments using asset allocation strategies based on a conservative, moderate or target date allocation methodology.

(3) Large cap value funds invest primarily in common stock and other equity securities of large size U.S. companies that pay or are expected to pay dividends.

(4) Large cap growth funds invest primarily in common stock of large size U.S. companies with the potential for growth.

(5) Large cap blend funds invest primarily in common stock of large size U.S. companies that offer a blend of growth and value characteristics.

(6) Small/mid/specialty funds invest primarily in common stock of small or midsize U.S. companies or the common stock of specialized U.S. companies.

(7) Global/international funds invest primarily in common stocks of issuers in Europe and the Pacific Basin.

6. Related-Party Transactions

As of December 31, 2010, certain Plan investments are managed by State Street Global Advisors; therefore, these transactions qualify as party-in-interest transactions.

7. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants' accounts will become fully vested and non-forfeitable. See Note 10 below regarding plan termination.

8. Tax Status

The Plan uses a prototype plan document sponsored by ADP. ADP received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

NOTES TO FINANCIAL STATEMENTS
As of December 31, 2010

9. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

		2010
Net assets available per the financial statements	$	919,760
Less: current year contribution receivable		(2,932)
Add: adjustment from fair value to contract value for fully benefit-responsive common collective trusts		1,434
Net assets available per the Form 5500	$	918,262

The following is a reconciliation of the net increase for the year ended December 31, 2010 per the financial statements to the Form 5500:

Year ended December 31,		2010
Net increase per the financial statements	$	133,128
Less: current year contribution receivable		(2,932)
Add: adjustment from fair value to contract value for fully benefit-responsive common collective trusts		1,434
Net increase per the Form 5500	$	131,630

10. Subsequent event

Management intends to terminate this plan as of November 30, 2011 and move its employees to a new 401(k) plan structure offering similar benefits to its employees. Participants' accounts will become fully vested and non-forfeitable upon termination.
