The Plan Administrator of
Siemens Healthcare Diagnostics Inc. Puerto Rico Pension Plan
and the Members of the Siemens Corporation Administrative and
Investment Committees

We were engaged to audit the accompanying statements of net assets available for benefits of the Siemens Healthcare Diagnostics Inc. Puerto Rico Pension Plan as of December 31, 2010 and 2009, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by BNY Mellon Bank, N.A., Banco Popular de Puerto Rico and Fidelity Management Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that Fidelity Management Trust Company held the Plan's investment assets and executed investment transactions from January 1, 2009 to March 26, 2009, Banco Popular de Puerto Rico held the Plan's investment assets and executed investment transactions as of December 31, 2010 and for the period from March 27, 2009 to December 31, 2009, and that BNY Mellon Bank, N.A. held the Plan's investment assets and executed investment transactions as of and for the years ended December 31, 2010 and 2009. The plan administrator has obtained certifications from the trustees as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Puerto Rico Pension Plan

Notes to Financial Statements

December 31, 2010

1. Description of Plan

The following brief description of the Siemens Healthcare Diagnostics Inc. Puerto Rico Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

As a result of the acquisition of Dade Behring, Inc. by an affiliate of Siemens Corporation on November 6, 2007, the sponsor of the Plan was changed to Siemens Healthcare Diagnostics Inc. as of January 1, 2008. Also effective January 1, 2008, the name of the Plan was changed to the Siemens Healthcare Diagnostics Inc. Puerto Rico Pension Plan. Effective March 31, 2009, Siemens Corporation (the “Company” or “Siemens”) became the sponsor of the Plan.

Participation in the Plan was suspended as of December 31, 1995, and no further benefits will be accrued for services rendered after that date.

The Plan is a non-contributory, defined benefit plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). For the year ended 2010 and the period beginning March 27, 2009 through December 31, 2009, the assets of the Plan were held in trust by Banco Popular de Puerto Rico (“Banco Popular” or “Trustee”), as trustee of Trust. For the period beginning January 1, 2009 through March 26, 2009 the assets of the Plan were held in trust by Fidelity Management Trust Company under the Dade Behring Cash Balance Plant Master Trust. Pursuant to a sub-trustee agreement, the Trustee, as directed by the Investment Committee, has invested the Plan’s assets in the Master Trust for Siemens Pension Plans (“Master Trust”), for which BNY Mellon Bank, N.A. (“BNY Mellon”) is the trustee.

Administration

The Administrative Committee of Siemens is responsible for administering the Plan’s operations and the Investment Committee of Siemens is responsible for selecting and monitoring investments held by the Plan. The Administrative Committee is currently composed of the Director of Employee Benefits of Siemens; the Vice President, Treasurer and Controller of Siemens; and four human resource representatives from certain of Siemens affiliates who are appointed by the Senior Vice President of Human Resources of Siemens. The six-person Investment Committee is currently composed of the following members: the Executive Vice President and Chief Financial Officer of Siemens (who serves as Chairman of the Investment

Committee); the President of Siemens Capital Company, LLC; the Senior Vice President, General Counsel and Secretary of Siemens; the Senior Vice President of Human Resources of Siemens; the Vice President of Mergers & Acquisitions of Siemens; and the Vice President, Treasurer and Controller of Siemens, all of whom are appointed by the Board of Directors of Siemens.

Pension Benefits

Benefits are provided at normal, early, and deferred retirement and upon total and permanent disability, subject to certain limitations. Participants who attain five years of service (at least 1,000 hours in a calendar year) or who terminated employment after reaching the age of 65 earn the right to a fully vested benefit. Benefits accrued prior to December 31, 1995 are generally computed according to a two step formula that takes into account a participant's years of benefit service, final average pay and estimated social security benefits, each through December 31, 1995. Step one of the formula is to compute 1.75% times a participant's projected years of benefit service to age 65 multiplied by his or her final average pay, less 1.75% times the participant's projected years of benefit service to age 65 multiplied by his or her estimated social security benefit. Step two is to multiply the difference computed in step one by a fraction, the numerator of which is the participant's actual years of service through December 31, 1995 and the denominator of which was the participant's projected benefit service through normal retirement age. Alternate benefit formulas apply to certain participants who have accrued pension benefits that were transferred to the Plan from other defined benefit plans. All accrued benefits were frozen as of December 31, 1995.

The benefit commencement date for normal retirement is the first day of the month coincident with or next following the date of an employee's 65th birthday. Benefits are payable beginning after the normal retirement date is reached. The benefit commencement date for a reduced early retirement benefit is the first day of any month after the early retirement date, which is the date an employee terminated employment after he has attained age 55 and completed ten or more years of vesting service. The benefit commencement date for deferred retirement is the first day of the month coincident with or next following the termination of employment after the normal retirement date. An eligible employee who incurs a disability after completing at least ten years of vesting service shall be entitled to his accrued benefit at normal retirement age or a reduced benefit as early as the month following the participant's attainment of age 55.

1. Description of Plan (continued)

Funding Policy

The Plan is funded solely by contributions made by the Company.

Contributions are determined annually based on actuarial valuations of the Plans by Hewitt Associates LLC (“Hewitt”), an independent consulting actuary. Hewitt determines the maximum amount permitted by law or regulation as a Federal income tax deduction and the minimum amount necessary during any plan year to avoid an accumulated funding deficiency as defined by ERISA.

The Company funds normal cost on a current basis and initial and additional past service liabilities from plan amendments, assumption/method changes and actuarial experience over periods of 30, 10, and 5 years, respectively. The actuarial funding method was the projected-unit-credit-cost method. The interest rate assumption used for funding purposes was within the range of 5% and 7% for 2010 and 2009. The Plan met the minimum funding requirements of ERISA for 2010 and 2009. The Company made contributions to the Plan in the amount of \$172,000 and \$347,657 for the years ended December 31, 2010 and 2009, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust, plus contributions, asset transfers in, and allocated investment income less actual distributions, allocated investment loss, asset transfers out and allocated administrative expenses.

Investments in securities held by the Master Trust are generally valued using quoted market prices. The last reported sales price on the valuation date is used when no other value is obtainable from the trustee. The amounts reported by the Master Trust for securities that have no quoted market price represent estimated fair value as determined by the trustee. The investment manager values investments in private placement bonds and high-yield bonds when no other value is obtainable from the trustee. Investments in short-term investment funds are reported at cost, which approximates fair value. Investments in limited partnerships are valued based on information provided by the sponsor of the partnership. In the event that no other value is obtainable from the trustee, the investment manager will determine the value. Purchases and sales by the Master Trust are recorded on a trade-date basis. Interest income is recorded by the Master Trust on the accrual basis. The Master Trust records dividends on the ex-dividend date.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Plan Expenses

Certain expenses are paid by the Master Trust and charged to the Plan based upon the Plan's proportionate interest in the net assets of the Master Trust. Expenses attributed to a specific plan are charged to that plan only.

Puerto Rico Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan may invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

The Investment Committee has diversified the net assets of the Master Trust with the intention of appropriately addressing significant concentrations of risk. The Master Trust's net assets were managed by fourteen investment managers for the year ended December 31, 2010 and thirteen for the year ended December 31, 2009.

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect amounts reported and disclosed in the financial statements.

Recent New Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update 2010-06, *Improving Disclosures about Fair Value Measurements*, ("ASU 2010-06"). ASU 2010-06 amended ASC 820 to clarify certain existing fair value disclosures and require a number of additional disclosures. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2 and 3 of the fair value hierarchy and present information regarding the purchases, sales, issuances and settlements of Level 3 assets

Puerto Rico Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

and liabilities on a gross basis. With the exception of the requirement to present changes in Level 3 measurements on a gross basis, which is delayed until 2011, the guidance in ASU 2010-06 is effective for reporting periods beginning after December 15, 2009. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan's net assets available for benefits nor the changes in net assets available for benefits.

In May 2011, the FASB issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRS*, ("ASU 2011-04"). ASU 2011-04 amended ASC 820, *Fair Value Measurements and Disclosures*, to converge the fair value measurement guidance in US generally accepted accounting principles ("GAAP") and International Financial Reporting Standards ("IFRS"). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management has evaluated the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements and has concluded that ASU 2011-04 will not have a material effect on the Plan's financial statements.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for employee services already rendered. Accumulated plan benefits include benefits expected to be paid to: (i) retired or terminated employees or their beneficiaries; (ii) beneficiaries of employees who have died and (iii) present employees or their beneficiaries. Benefits under the Plan are based on employees' highest five-year average compensation with the ten-year period immediately prior to the employee's termination. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the "valuation date") or the total cash compensation during the year. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employees' service rendered and compensation received up to the valuation date.

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

The actuarial present value of accumulated benefits for the Plan was determined by Hewitt and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the December 31, 2009 valuations were:

1. Life expectancy of participants – 2008 Generational Mortality Table for Annuitants & Non-Annuitants
2. Accrued benefit interest rate – 6.95%
3. Weighted-average retirement age – 62.3

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2009 is as follows:

Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 1,648,270
Other participants	2,473,325
	<hr/>
	4,121,595
Nonvested benefits	—
Total actuarial present value of accumulated plan benefits	<hr/> <hr/>
	\$ 4,121,595

Notes to Financial Statements (continued)

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

The changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2009 is as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 3,302,348
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	275,034
Assumption change	719,964
Benefit paid	(136,081)
Other changes	(39,670)
Net increase	<u>819,247</u>
 Total actuarial present value of accumulated plan benefits at end of year	 <u><u>\$ 4,121,595</u></u>

The Plan's experience and assumptions change amounts reflect changes due to retirement experience, turnover and mortality, as well as the impact of interest rate change.

The "other changes" component represents the normal operation of the Plan.

4. Plan Termination

The Company intends to continue the Plan indefinitely without interruption, but reserves the right to discontinue it at anytime. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to employee contributions, taking into account those paid out before termination.

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

4. Plan Termination (continued)

- (b) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan's provisions in effect at any time during the five years preceding the Plan's termination.
- (c) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. Government agency) up to the applicable limitations (discussed below).
- (d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement age benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2010, that ceiling is \$4,500 per month. That ceiling, which is adjusted periodically, applies to pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by the PBGC.

5. Tax Status

The Puerto Rico Department of the Treasury has issued a favorable determination letter dated March 24, 1998 advising that the Plan qualifies for tax-exempt status pursuant to the provisions of Section 1165(a) of the Puerto Rico Internal Revenue Code of 1994, as amended ("PR Code"). The Plan's administrator and management of the Company believe that the Plan conforms to ERISA requirements and continues to qualify as tax exempt under the PR Code. Accordingly, no provision has been made for federal income taxes.

Accounting principles generally accepted in the United States requires the management of the Company to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits to be sustained upon examination by the Puerto Rico Department of the Treasury. The management of the Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Parties in Interest

BNY Mellon Bank, N.A., ("BNY Mellon"), the trustee of the Master Trust and custodian of the Plan's assets, also serves as an investment manager with respect to one of the funds in which the Plan's assets are invested. In addition, BNY Mellon also serves as the custodian for certain funds managed by INVESCO in which the Plans participate.

7. Information Certified by the Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by BNY Mellon for the year ended December 31, 2010 and 2009 as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements.

7. Information Certified by the Trustee (continued)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by BNY Mellon for the year ended December 31, 2010 and 2009 as complete and accurate, except for comparing such information certified by the trustee to information included in the Plan's financial statements.

The accuracy and completeness of the Plan's share of investments in the net assets of the Master Trust and the investment income for the year ended December 31, 2010 and 2009 have been certified by BNY Mellon at December 31, 2010 and 2009, and by Fidelity Management Trust Company for the three month ended March 26, 2009 as summarized below.

8. Investment in the Master Trust

The Plan has a proportionate interest in the Master Trust. The Master Trust's net assets and investment income are allocated to the individual pension plans on a daily weighted-average basis. The plan's proportionate interest in the Master Trust's net assets at December 31, 2010 and 2009 was 0.10% and 0.09%, respectively.

Fair Value Measurements

The Company defines fair value as the exchange price that would be received for an asset or paid for a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The Company utilizes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize unobservable inputs when determining fair value and also establishes three levels of classifications.

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

8. Investment in the Master Trust (continued)

As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010.

Short-term investments: Short-term investments are held in a pooled investment vehicle. This fund maintains a \$1 per share value. Any gains and/or earnings by the underlying assets are paid out as interest.

Siemens Healthcare Diagnostics Inc.
Puerto Rico Pension Plan

Notes to Financial Statements (continued)

8. Investment in the Master Trust (continued)

Equity: All assets in which the Master Trust holds a direct share have been classified as common stocks. These assets are valued at the closing price reported on the active market on which the individual securities are traded.

Core bonds: Valued based on market data, incorporating various inputs such as benchmark curves, benchmarking of like securities, matrix pricing, model processes such as the Option Adjusted Spread model to assess interest rate impact of and develop prepayment scenarios. Both models and processes take into account market conventions.

Emerging Markets: These assets have been classified as common stocks on the preceding Master Trust table based on the underlying assets of the funds which are common stocks. The fund calculates a net asset value (NAV) based on the underlying securities' value at market close, less any applicable expenses, divided by the shares outstanding. NAVs may be calculated on daily/weekly/monthly basis (as determined by the fund).

Limited partnerships: Limited partnerships are valued based on the information provided by the manager. Quarterly data is usually received one to three months after quarter end. This creates a "lag" as the data is updated when it is received. There is no material impact as a result of this lag.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

401(h) Account

Included within the assets of the Master Trust is a separate 401(h) account which is maintained with respect to a retiree health-benefit component of the Siemens ElectroCom L.P. Retirement Plan which merged into the Siemens Pension Plan on December 31, 2000. The Siemens Pension Plan also participates in the Master Trust. This asset has been accounted for in accordance with Section 401(h) of the Code. The corresponding liability has been recorded in the statement of net assets of the Siemens Pension Plan and is not reflected in the Master Trust assets above. These assets are not available to the Plan.

Securities Lending

As of December 31, 2010 and 2009, the Master Trust participated in the BNY Mellon Bank Global Securities Lending Program for its U.S. and non-U.S. securities held in custody at BNY Mellon. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102%, and for non-U.S. securities, collateral shall not be less than 105% unless it is denominated in the same currency as the collateral, in which case it will be 102%. Collateral received is invested in a short-term collateral re-investment fund that is managed by BNY Mellon's Global Security Lending Group, and the fund consists of high quality short-term investments. The value of loaned securities amounted to \$5,784,514 and \$88,354,987 at December 31, 2010 and 2009, respectively. The obligation to return collateral is reflected as a liability in the Master Trust's financial statements. The Investment Committee has decided to have the Plan end their participation in the Securities Lending program. Remaining securities in loan will be recalled as collateral pool maturities occur.

9. Subsequent Events

Management evaluated subsequent events for the Plans through October 5, 2011, the date the financial statements were available to be issued. Effective January 31, 2011, assets in the amount of \$640,408 were transferred from the Siemens Pension Plan to the Siemens Healthcare Diagnostics Pension Plan for Puerto Rico Employees for those participants of the Siemens Pension Plan that had accrued benefits under the plan while residing in Puerto Rico.

Death Benefits

Eligibility

5 years of Vesting Service.

Benefit

Upon death after becoming eligible for Early Retirement or attaining age 65, the spouse receives 100% of the retirement income the employee would have received had he retired on the date of his death and elected a 100% joint and survivor option.

If the participant dies on or before the date on which he would have been eligible for Early Retirement, the spouse shall receive a monthly benefit equivalent to the benefit he or she would have received if the participant had separated from service on the date of death, survived to the date on which he would have been first eligible for Early Retirement, retired with an immediate 50% joint and survivor option, and died on the date after such Early Retirement Date. Payments shall commence as of the date on which the participant would have been eligible for Early Retirement.

Definitions:

Year of Service

Each Plan Year in which an employee earns 1,000 hours of service.

Vesting Service

All Years of Service earned on or after January 1, 1995 plus any service recognized for purposes of vesting by a plan merger.
