(the "Company") deemed to be employees under Internal Revenue Code (the "Code") Section 414(n) or 414(o) who have three consecutive months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Additional information concerning the Plan and its provisions can be found in the summary plan description. A copy of that document can be obtained from the Plan Administrator through Middle Atlantic Products, Inc., 300 Fairfield Road, Fairfield, NJ 07004.

Contributions

The Plan provides for a salary reduction plan which is a savings plan that allows participants to defer up to 15% of their annual compensation through contributions to the Plan, subject to an annual limitation set forth in the Code. Contributions to the Plan on behalf of the participants are made by the Company in an amount equal to a discretionary percentage of the participants' salary reduction to be determined by the Company. Such percentage was 50% in both 2010 and 2009. Effective April 1, 2009 the Company's maximum matching contribution was reduced from \$3,000 to \$500.

The total of the annual contributions to the Plan on behalf of a participant (including the participant's contribution) is subject to a defined total dollar contribution limit and a defined contribution compensation limit that is based on the participant's annual compensation as set forth in the Code.

A participant may, with the consent of the plan Administrator, make a rollover contribution to the Plan at any time. Rollover contributions are assets transferred to the Plan from a qualified savings plan in which employees participated prior to their employment by the Company.

Investment Options

The Plan's investments are held by John Hancock Life Insurance Company ("John Hancock"). Contributions to the Plan by or on behalf of a Plan participant are invested at the election of the participant in mutual funds.

1. Description of Plan - Continued

Participant's Accounts and Vesting

Each participant's account includes the participant's contribution and the Company's contributions plus earnings thereon. Participants' contributions are 100% vested and non-forfeitable at all times. In general, participants become fully vested in the Company's matching contributions after four years of service. On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or in a series of installments or the purchase of an annuity. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures of non vested benefits are used to reduce matching Company contributions.

Payment of Benefits

Payments of benefits to participants are recorded upon distribution. There were no benefits payable to former and retired participants at December 31, 2010 or 2009.

Administrative Expenses

All administrative expenses are paid by the Company.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the modified cash basis of accounting; consequently certain income and the related assets are recognized when received rather than when earned and certain obligations are recognized when paid rather than when the obligations are incurred. Accordingly, the accompanying financial statements are not intended to be presented in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Valuation of investments and investment income

Investments in the mutual funds are stated at fair value. Such fair values are based on the current market prices of the underlying U.S. Government obligations, corporate bonds, short-term investments and common stocks in mutual funds. Participant loans are stated at cost, which approximate fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the cash basis.

	<u>2010</u>	<u>2009</u>
John Hancock Mutual Funds:

500 Index Fund	610,642	511,559
JH Lifestyle Moderate	487,659	398,926

4. Related Party Transactions

Certain investments are in mutual funds held by the Custodian; therefore these transactions are considered party-in-interest transactions.

5. Participants' Loans

Participants may obtain loans from the Plan, subject to approval by the Plan's Administrator. However, participants may not obtain a loan from the Plan until any existing loan is paid in full. The minimum loan is \$500. The maximum that may be borrowed from the participant's vested account balance is the lesser of \$50,000 or 50% of the participant's vested account balance. Participants can only have one loan outstanding at a time. Loan payments are made through payroll deductions over a period that may not exceed ten years for the purchase of a primary residence and five years for all other loans, from the date the loan was made.

6. Income Tax Status

The Plan obtained its latest determination letter on August 7, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and that the Plan was qualified and the related trust was tax-exempt as of December 31, 2010.

7. Plan Termination

The Company intends to continue the Plan indefinitely, but reserves the right to terminate it at any time, subject to the provisions of ERISA. Upon termination of the Plan, all participants will become 100% vested in their account balances under the Plan.

The following account balances and transactions were obtained from statements certified by John Hancock provided as of and for the years ended December 31, 2010 and 2009:

Statements of net assets available for benefits (modified cash basis):

Investments – Mutual funds

Statements of changes in net assets available for benefits (modified cash basis):

Net appreciation (depreciation) in fair value of investments

interest and dividends

Schedule of assets held for investment purposes (modified cash basis)

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Fair Value Measurements

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

10. Fair Value Measurements - Continued

Following is a description of the valuation methodologies used for assets measured at fair value.

- Money market funds: Valued at cost plus accrued interest, which approximates fair value.
- Mutual funds: Valued at net asset value ("NAV") of shares held by the Plan at year end, which is a practical expedient. The NAV is a quoted price in an active market, which represents the net asset value of the securities held by the Plan at year end.
- Common collective trusts: The fair value of the common collective trusts are determined by the trustees of the common collective trust based on the underlying assets, which represents the net asset value, a practical expedient to fair value, of units held by the Plan.
- Participant loans: Valued at the outstanding balances which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets at fair value as of December 31, 2010 are as follows:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
