PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
May 4, 2011, December 31, 2010 and 2009

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Atlas Material Testing Technology LLC Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. Effective May 4, 2011, the Plan merged with the AMETEK, Inc. 401(k) plan and the Plan's net assets were transferred to the AMETEK plan.

General: The Plan is a defined contribution 401(k) plan covering all employees of Atlas Material Testing Technology LLC ("the Company") who have completed two months of service and are aged 18 or older. Employees are eligible to receive a matching contribution after completing one year of service and are aged 18 or older. Upon meeting eligibility requirements, employees are automatically enrolled into the Plan with a 1% deferral rate unless otherwise declined. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: The Company matches 50% of employee contributions up to the first 6% of an employee's eligible wages. Participants may contribute a percentage of their annual wages, up to the amount allowed by Internal Revenue Code ("IRC") limits. The Company may make discretionary profit sharing contributions. There were no discretionary profit sharing contributions for the period from January 1, 2011 to May 4, 2011 or for the year ended December 31, 2010. All contributions ceased effective January 1, 2011.

Participant Accounts: Each participant's account is credited with the participant's contribution, an allocation of the employer's matching contribution, and the Plan's earnings and losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Notes Receivable from Participants: Participants may borrow up to 50% of their vested account balance or up to a maximum of \$50,000 (with certain limitations), whichever is less. Loan terms range from one year to five years, unless the loan proceeds are used to purchase a primary residence. Loans are secured by the balance in the participant's account.

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Payment of Benefits: On termination of service, a participant may elect to receive either a lump-sum cash amount equal to the value of his or her account or a qualified rollover of his or her account balance. If the nonforfeitable portion is \$5,000 or less, the participant will receive a lump-sum cash payment.

Forfeited Accounts: Forfeitures related to the profit sharing contribution are used to pay administrative expenses, and the remaining amount is periodically reallocated to the participants' accounts. Forfeitures related to the employer match are used to reduce employer matching contributions. At December 31, 2010 and 2009, the total forfeitures available to offset future contributions or reduce plan fees totaled \$10,102 and \$16,454, respectively. The Company reallocated \$63,000 of forfeitures balance to participants in 2010.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Stable value fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (Level 2 inputs). The fund invests in conventional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. The fund provides for daily redemptions by the Plan at reported net asset value per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Vanguard Retirement Savings Trust, Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in the Vanguard Retirement Savings Trust Fund. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

Risks and Uncertainties: The Plan provides for various investment options including any combination of certain mutual funds and a collective trust fund. The underlying investment securities are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Use of Estimates in Preparation of Financial Statements: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimate of investment valuation.

Adoption of New Accounting Standard: In September 2010, the FASB amended existing guidance with respect to the reporting of participant loans for defined contribution pension plans. The guidance requires that loans issued to participants be reported as notes receivable, segregated from plan investments, and be measured at their unpaid principal balance plus accrued but unpaid interest. This guidance is effective for reporting periods ending after December 15, 2010, and is to be applied retrospectively to all periods presented comparatively. Early application is permitted. The adoption of this guidance by the Plan resulted in a reclassification from investments to notes receivable from participants of \$256,990 on the statement of net assets available for benefits as of December 31, 2009. Adoption had no effect on the Plan's net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: Plan management has evaluated subsequent events for recognition and disclosure through December 6, 2011, which is the date the financial statements were available to be issued.
