Independent Auditor's Report

To the Plan Administrative Committee
Snap-tite, Inc.

We have audited the accompanying statements of net assets available for benefits of Snap-tite, Inc. QD&V Union City Plant Production Employees' Pension Plan as of May 31, 2011 and 2010 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of May 31, 2011 and 2010 and the changes in its financial status for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SNAP-TITE, INC. QD&V UNION CITY PLANT PRODUCTION EMPLOYEES' PENSION PLAN NOTES TO FINANCIAL STATEMENTS

NOTE A GENERAL DESCRIPTION OF THE PLAN

The following brief description of the Snap-tite, Inc. QD&V Union City Plant Production Employees' Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined benefit pension plan covering the QD&V Union City Plant Production Employees who had been employed for 30 days as of May 31, 2006, when the Plan was frozen. Effective June 1, 2006, the Plan was amended to freeze all benefit accruals under this Plan. All other terms of the Plan remain unchanged and participants will continue to earn vesting service. In conjunction with this change, the Snap-tite, Inc. 401(k) Plan was enhanced to provide for both an employer matching contribution on employee deferrals and an additional discretionary contribution.

It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The trustee of the Plan is the Snap-tite, Inc. Pension Committee.

Pension Benefits

Employees with 5 or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to the product of the negotiated benefit multiplier in effect as of retirement and the participants' years and months of credited service. Credited service is years and months of employment completed from the date of hire to termination of employment. The negotiated benefit multiplier has been 20.50 since June 1, 2000. The Plan was frozen for all future benefit accruals effective May 31, 2006. The Plan permits early retirement at ages 60-64 years with 10 or more years of service; however the accrued benefit is reduced by 1/15th for each year the benefit commencement date precedes normal retirement date. If employees terminate before rendering 5 years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions. Employees automatically receive benefits in the form of a 50% Joint and Survivor Annuity or Life Only Annuity for married and single participants, respectively. Other options include lump sum distributions when the present value of benefits does not exceed \$1,000, or variations of the life annuities. For each employee electing a life annuity, payments will not be less than the greater of (a) the employee's accumulated contributions plus interest, if any or (b) an annuity for five years.

Death and Disability Benefits

If an active married employee dies at age 60 or older, a death benefit equal to 50% of the actuarial value of the employee's pension is paid to the employee's spouse. If a vested married participant dies prior to age 60, but has 5 years credited service, the spouse will receive a monthly benefit payable at the member's earliest retirement date in an amount equal to the survivor annuity that would have been paid had the member separated service on the date of death, survived to his earliest retirement date, selected a 50% Qualified Joint and Survivor Annuity and died on the day after attaining the earliest retirement date. If death occurs prior to completing 5 years of service or while the member is not married, no benefits shall be payable from the Plan. Disabled participants with 10 years of credited service that are eligible and receiving social security disability benefits receive an accrued benefit reduced by 1/15th for each of the first 5 years and actuarially for years beyond 5 that the benefit commencement date precedes the normal retirement date.

NOTE B SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Uses of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investment mutual funds are valued based upon quoted market prices using net asset values. The values of securities in the INVESCO Stable Value common trust that are exchange-traded funds are determined by quoted market price.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the benefit multiplier in effect at the date of retirement, termination, disability or death and the participant's years and months of credited service. Benefits payable under all circumstances, retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from Boetger & Associates, Inc. and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of June 1, 2011 have been modified to reflect the required assumptions under the Pension Protection Act of 2006. The assumptions used in 2011 and 2010 were (a) life expectancy of participants (the Static Mortality Table for males and females were used), (b) retirement age assumptions (the assumed average retirement age was 65 and 5 years of service), (c) investment return at 8.0%, per year net of expenses, and (d) rate of withdrawal was based on the scale T-4 from the actuary's pension handbook. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Method for Determining Contributions

Contributions required to fund the Plan benefits are determined according to the aggregate funding method.

Administrative Expenses

Some administrative expenses are paid by the Plan Sponsor.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through January 30, 2012 the date the financial statements were available to issue.

NOTE C INVESTMENTS

The following table presents the fair values of investments. Investments that represent 5 percent or more of the Plan's net assets in either year are listed separately.

NOTE D FAIR VALUE MEASUREMENTS

FASB Codification No. 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2

Inputs to the valuation methodology include -

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**SNAP-TITE, INC. QD&V UNION CITY PLANT
PRODUCTION EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

NOTE D FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at May 31, 2011 and 2010.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Collective Investment Funds: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of May 31, 2011 and 2010:

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended May 31, 2011 and 2010, there were no significant transfers in or out of levels 1, 2 or 3.

NOTE E FUNDING POLICY

It is the policy of Snap-tite, Inc. (the "Company") to fund at least the minimum contribution required by ERISA, although amounts higher than that minimum could be funded. The contributions for 2011 and 2010 are \$178,534 and \$135,762, respectively. The Plan does not permit contributions from employees of the Company.

NOTE F TAX STATUS OF THE PLAN

The Internal Revenue Service has determined and informed the Company by a letter dated December 20, 2011, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by various taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of May 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Actuarial Present Value of Accumulated Plan Benefits as of June 1,	<u>\$ 4,619,628</u>	<u>\$ 4,512,522</u>

NOTE H PLAN TERMINATION

The Company anticipates and believes that the Plan will continue without interruption, but reserves the right to discontinue it at any time. In the event of discontinuance, the Plan provides that net assets be allocated among participants and beneficiaries in the order provided in the Employee Retirement Income Security Act of 1974 (ERISA). To the extent unfunded vested benefits exist and subject to specified limitations, ERISA provides for payment by the Pension Benefit Guaranty Corporation (PBGC). Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE I RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

**SNAP-TITE, INC. QD&V UNION CITY PLANT
PRODUCTION EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS (CONTINUED)**

NOTE I RISKS AND UNCERTAINTIES (CONTINUED)

The Plan invests in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

SCHEDULE SB, Line 22 – Description of Weighted Average Retirement Age

The normal retirement age is age 65.

**SNAP-TITE, INC. QD&V UNION CITY PLANT
PRODUCTION EMPLOYEES' PENSION PLAN
EIN: 25-1150085
PN: 010**

**SCHEDULE SB, PART V
STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS**

Method for Contributions

Contributions required to fund the plan benefits are determined according to the provisions of the Pension Protection Act. The Target Normal Cost is the present value of benefits earned during the plan year. The Funding Target is the present value of benefits earned as of the beginning of the plan year. The excess of the Funding Target over the actuarial value of assets represents the Funding Shortfall.

Method for Accrued Benefits

The actuarial present value of accumulated plan benefits is a measure of plan benefits which have been earned to date. This is not only a valuation of retirement benefits, but also of deferred vested, death, and disability benefits. Earnings and service for benefit purposes expected to be earned after the valuation date are excluded from this value.

The actuarial assumptions used to determine this value is identical to those used for the funding purposes with the exception that interest is assumed to equal 8.0%.

Method of Asset Valuation

The asset valuation method is the "smoothed market value" method, using a smoothing period as described in sec. 430(g)(3)(B) of the Internal Revenue Code. Under this method, the actuarial value of assets is equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value of assets determined from the two immediately preceding valuation dates. The adjusted fair market value of assets is the fair market value of assets at the applicable valuation date adjusted with contributions, distributions and expected earnings to the current valuation date as specified by the Secretary of Treasury. Expected earnings will be determined using the applicable third segment rate.

In general, the actuarial value of assets must fall between 90% and 110% of the market value of assets.

Data

The valuation results are based upon participant census and financial data provided by the plan sponsor. The data was tested for reasonableness and consistency with the prior valuation.

Actuarial Assumptions

The following actuarial assumptions were employed in the determination of the liabilities and annual contributions of the plan as developed in accordance with the funding methods described in this report.

1. The rates of mortality will be in accordance with the Static Mortality Table for males and females.
2. The interest rate used for the valuation of benefits are the 24-month average Corporate Bond Segment Rates for June 2010 as published by the IRS. The Effective Interest Rate is 6.50%.
3. The rates of withdrawal are based on the scale T-4 from the actuary's pension handbook; rates for sample ages are shown in the following table:

<u>Attained Age</u>	<u>Percentage Assumed to Withdraw Per Year</u>
25	5.3%
30	5.1%
35	4.7%
40	4.2%
45	3.5%
50	2.5%
55	0.9%
60	0.1%
65	0.0%

4. Retirement will occur at the later of age 65 or 5 years of service.
5. All plan participants have been included in the funding.
6. As required by Section 415 of the Internal Revenue Code, the determination of a participant's projected retirement benefit has been limited so that the amount does not exceed \$195,000 per year adjusted if necessary to recognize the participant's assumed retirement age, cost of living adjustments on the valuation date and optional forms of payment.
7. The rates of disability are assumed in accordance with the Sarason United Auto Workers 1955 Table.
8. The rates of mortality for disabled lives are based on the Disability Mortality Table per Revenue Ruling 96-7.
9. Cost calculations for surviving spouse's benefits assume that 85% of the active participants are married and that the wife is three years younger than the husband.

SUMMARY OF PLAN PROVISIONS**

Effective Date

June 1, 1978; as last amended and restated effective June 1, 2010.

Eligibility

All employees who are employed as a production employee at the QD&V Union City Plant are eligible to participate 30 days after their date of employment. Plan was frozen to new participants as of May 31, 2006.

Retirement Dates

Early - Age 60 and 10 years of service.

Normal - Age 65 and 5 years of participation.

Late - Anytime after Normal Retirement Date.

Disability - 10 years of credited service and is eligible and receiving Social Security disability benefits.

Retirement and Termination Benefits

Accrued Benefit - A monthly benefit equal to the product of the benefit multiplier in effect as of retirement, termination, disability or death and the participant's years and months of credited service. Credited service is years and months of employment completed from date of hire to termination of employment. Plan was frozen for all future benefit accruals effective May 31, 2006. The negotiated benefit multipliers are as follows:

<u>Effective Date</u>	<u>Benefit Multiplier</u>
Prior to November 18, 1996	\$ 18.00
November 18, 1996 through May 31, 1997	18.50
June 1, 1997 through May 31, 1998	19.00
June 1, 1998 through September 30, 1999	19.50
October 1, 1999 through May 31, 2000	20.00
June 1, 2000 and after	20.50

Early Retirement - Accrued benefit reduced by 1/15th for each year the benefit commencement date precedes normal retirement date.

Normal Retirement - Accrued benefit.

Late Retirement - Accrued benefit determined as of actual retirement date.

Disability - Accrued benefit reduced by 1/15th for each of the first 5 years and actuarially for years beyond 5 that benefit commencement date precedes normal retirement date.

Minimum Benefit

In all instances, if the actuarial value of the benefit is less than the Account Balance from the prior plan, the Account Balance will be the benefit.

Vested Termination

If a member has completed less than 5 years of Credited Service, 100% of his Account Balance will be payable.

If a member has completed at least 5 years of Credited Service, he will be entitled to the greater of his monthly accrued benefit or the monthly benefit provided by his Account Balance.

Pre-Retirement Death Benefits

If death occurs prior to completing 5 years of service or while the Member is not married, no benefits shall be payable from this Plan.

Upon the death of a married Member who qualifies for early retirement, the Member's spouse shall receive a monthly benefit for life based on the benefit payable under a Joint and 50% Survivor Annuity which the Member's spouse would receive assuming the Member retired on the day before his death.

The spouse of any married vested participant who was not eligible for early retirement is also eligible for a benefit if the participant should die prior to his normal retirement date. The monthly pension payable at the participant's earliest retirement date will be an amount equal to the benefit calculated as though the participant survived to his earliest retirement age, selected a 50% Qualified Joint and Survivor Annuity, and died on the day after the day of attaining the earliest retirement age. This amount shall not be less than the monthly benefit that his Account Balance would purchase for the Member's spouse under a life only annuity.

Employee Contributions

None required.

Payment Forms

Normal: Life Only Annuity, automatically payable as a 50% Joint and Survivor Annuity to married participants.

Optional: Life Annuity with five (5) years certain and guaranteed.

Life Annuity with ten (10) years certain and guaranteed.

75% Joint and Survivor Spousal Annuity.

100% Joint and Survivor Spousal Annuity.
