To the Administrative Committee of
Coronado Stone Products 401(k) Plan
Fontana, California

We were engaged to audit the financial statements of net assets available for benefits of the Coronado Stone Products 401(k) Plan as of December 31, 2010 and 2009, and the related statement of changes in net assets available for benefits for the years then ended, and the supplemental schedule of Schedule H, line 4i-Schedule of Assets (Held At End of Year) as of and for the year ended December 31, 2010. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Hartford Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2010 and 2009, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 - PLAN DESCRIPTION

The following description of the Coronado Stone Products, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and was started on August 4, 2006, to cover all employees of the Company who have completed one year of service and are at least eighteen years of age. Eligible employees may enter the Plan on February 1 and August 1 of each plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was restated effective January 1, 2010 to include the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA).

Contributions

Each year, participants may contribute pre-tax annual compensation, as defined in the Plan. Total contributions per participants may not exceed $16,500 for the years ended December 31, 2010 and 2009. Participants who are a least 50 years of age were allowed an additional "catch-up contribution" up to $5,500 for the years ended December 31, 2010 and 2009. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. Hartford Insurance Company acts as transfer agent. The company may provide a discretionary matching contribution equal to a percentage or dollar amount of salary deferrals, determined each year by the employer. The Company made discretionary matching contributions of $143,356 and $138,924 as of December 2010 and 2009, respectively. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. A participant is 100% vested in safe harbor contributions provided by the plan sponsor. The plan sponsor does not make matching contributions.

Participant Loans

Participants may borrow from their fund accounts the lesser of 50% of their account balance or $50,000. The loans are secured by the balance in the participant's account and are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through monthly payroll deductions.

NOTE 1 - PLAN DESCRIPTION (CONTINUED)

Payment of Benefits
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distributions.

Forfeitures
Forfeitures of the unvested balance of the Company's contribution by terminated participants are used to reduce employer discretionary contributions. There were no unused forfeitures available to reduce future contributions at December 31, 2010 and 2009.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review
Subsequent events were evaluated through February 2, 2012, which is the date the financial statements were available to be issued.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting
The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits is presented on a contract equals fair value basis at December 31, 2010.

Investment Valuation and Income Recognition
Investments are reported at fair value in the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer of employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the Company and by Plan participants, through Plan earnings.

New Accounting Pronouncements

FASB Codification. In June 2009, the FASB issued FASB ASC 105, *Generally Accepted Accounting Principles*, which established FASB Accounting Standards Codification as the sole source of authoritative generally accepted accounting principles. Pursuant to the provisions of FASB ASC 105, the Company has updated references to GAAP in its financial statements for the period ended December 31, 2009. The adoption of FASB ASC 105 did not impact the Company's financial position or results of operations.

Subsequent Events. In May 2009, the FASB issued a new accounting standard related to events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This standard is effective for interim and annual periods ending after June 15, 2009, and establishes general principles of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, this standard establishes (i) the period after the balance sheet date during which management of a reporting entity should evaluate events of transactions that may occur for potential recognition or disclosure, (ii) the circumstances under which an entity should recognize potential recognition or disclosure, (iii) the disclosures that an entity should recognize should make about events or transactions that occurred after the balance sheet date. The adoption of this standard did not have a material effect on the Company's financial condition or results of operations.

Loans to Participants. In September 2010, the FASB issued ASU No. 2010-25, *Plan Accounting - Defined Contribution Pension Plan (Topic 962): Reporting Loans to Participants by Defined Contribution Pension Plans.* ASU No. 2010-25 requires participant loans to be classified as notes receivable from participants and measured at their unpaid principal balances plus any accrued but unpaid interest. The plan adopted this new guidance in its December 31, 2010 financial statements and has reclassified participant loans of $89,770 and $52,973 for the years ended December 31, 2010 and 2009, respectively, from investments to notes receivable from participants. Net assets of the plan were not affected by the adoption of the new guidance.

NOTE 3 - FAIR VALUE MEASURES

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - FAIR VALUE MEASURES (CONTINUED)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 are valued using inputs other than quoted prices and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements
The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds, and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements
Participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans approximate the amortized cost of the loans because the loans secured by each respective participant's account balance.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2010 and 2009.

		Fair Value Measurements at Reporting Date Using:	
December 31, 2010	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Unobservable Inputs (Level 3)

Total	$ 1,414,868	$ 1,209,607	$ 205,261

Total	$ 1,095,720	$ 1,095,720	$ -

Hartford Life Insurance certified the completeness and accuracy of $126,414 net appreciation in fair value of participant-directed investments related to the aforementioned investments for the year ended December 31, 2010.

NOTE 5 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive investment contract with Hartford Life Insurance Company (Hartford). Hartford maintains the contributions in a separate account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The stable value investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits at attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Hartford Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2010 was $205,261 is based on an agreed-upon formula with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value with Hartford Life Insurance Company. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields at December 31, 2010:	
Based on actual earnings	3.00%
Based on interest rate credit to participants	3.00%

NOTE 6 - RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of variable and fixed annuities managed by Hartford Life Insurance Company (Hartford). Hartford is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services amounted to $555 for the year ended December 31, 2010.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested for any portion of their accounts not fully vested previously.

NOTE 8 - TAX STATUS

The IRS has determined and informed the Company by a favorable determination letter dated September 18, 2001. In this letter, the Internal Revenue Service states that the Plan is acceptable under Section 401 of the Code for use by the employers for the benefit of their employees. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the plan is currently designed and being operated in compliance with applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 - RECLASSIFICATION

Certain amounts in the 2009 financial statements have been reclassified to conform to the 2010 presentation.

NOTE 11 - SUBSEQUENT EVENTS

Effective January 1, 2011, the Plan was restated to include the Roth Elective Deferral provisions and final 415 regulations.
