1. Description of Plan

The following description of the DGA Security Systems, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of DGA Security Systems, Inc. (the "Company") who are at least 21 years of age and have completed one year and 1,000 hours or more of service. Once the eligibility requirements have been met, the employee may become a participant in the Plan any time he or she wishes. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan excludes employees covered by a collective bargaining agreement (e.g., union agreement) unless the agreement requires eligibility.

Contributions - Participants may make pre-tax elective contributions from 0% up to 100% of their annual compensation, subject to statutory limitations. The Company makes discretionary matching contributions which equal 25% of participants' contributions. Matching contributions, when made, are available to participants who have completed at least 1,000 hours of service during the Plan year. Contributions are invested into various investment options offered by the Plan in accordance with each participant's direction. Contributions are subject to certain limitations imposed by law.

Participant accounts - Each participant's account is credited with the participant's contributions and their proportionate share of the Plan's earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions, including rollover contributions and the actual earnings thereon. Vesting in the Company's discretionary contributions is based on years of continuous service. A participant is vested 20% per year of service after one year of service and attains 100% vesting after six years of credited service.

Notes receivable from participants - Plan participants may borrow from their fund accounts a minimum loan amount of $1,000 up to a maximum of the lessor of $50,000 or 50% of the vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable interest rate, as defined by the Plan at the prime rate plus 1%. All loans must be repaid within five years (unless it is used to purchase their primary residence) and are payable through payroll withholdings. Loans must be approved by the Plan administrator and are subject to a set of rules established by law.

Payments of benefits - Upon retirement, hardship, or termination of service for any reason, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his/her account or an alternative form of payment, as permitted by the Plan. If the participant's vested benefit does not exceed $5,000, the Plan administrator may direct the custodian to distribute, in a lump-sum amount, the participant's vested benefits.

2. Summary of Significant Accounting Policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciations included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits - Benefits are recorded when paid.

Expenses of the plan - The administrative expenses are paid by the Plan.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

As described in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 962, "*Reporting of Investment Contracts Held by Health and Welfare Pension Plans and Defined Contribution Pension Plans*", investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value.

Forfeited accounts - At December 31, 2010, there was a zero balance in forfeited nonvested accounts in the Plan. Forfeitures are used to reduce future employer contributions.

Subsequent events - The Plan has evaluated subsequent events through January 4, 2012, the date the financial statements were available to be issued.

3. Certified Financial Information

The Plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, MassMutual, the custodian of the Plan, has certified as to the completeness and accuracy of the investments of $3,067,715 and $2,449,568 as of December 31, 2010 and 2009, respectively, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2010.

5. Fair Value Measurements

FASB ASC 820, "*Fair Value Measurements and Disclosures*", provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from and corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Year Ended December 31, 2010

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2010 and 2009.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by the level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

Net Appreciation in Fair Value of Investments		10,092

6. Related Party Transactions

Certain Plan investments are managed by MassMutual, the custodian of the Plan assets as defined in the Plan and, therefore, these transactions qualify as party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth by ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

8. Due to Plan Participants

Due to Plan participants represents excess contributions made by the Plan's participants during the year to be refunded to plan participants. At December 31, 2010 and 2009, the balance was $5,571 and $13,510, respectively.

9. Tax Status

The IRS has determined and informed the Company by a letter dated October 29, 2008 that the Plan and related trust are designed in accordance with applicable sections in the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan's administrator and tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2010, there are not uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
