THE FLESH COMPANY 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 1 - Description of plan

The following description of The Flesh Company 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have two months of service and are age 20 or older. Participation in the Plan for purposes of Nonelective Employer Contributions and Employer Matching Contributions requires six months of service. The Plan is subject to the provisions of the Employer Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

In the past, each year, the Company contributed to the Plan an amount equal to the amount the employee contributes to the Plan on the first 5 percent of compensation. Amounts contributed by employees in excess of 5 percent were not matched by the Company. Effective March 5, 2009, the Plan was amended to remove the provision for non-discretionary matching employer contributions and to add the provision for discretionary matching employer contributions. The Company did not make discretionary matching contributions after this effective date.

Participants may contribute a percentage or flat dollar amount of their eligible compensation into the Plan. These amounts are subject to an annual limit as adjusted by the Secretary of Treasury. Effective February 3, 2009, the Plan was amended to adopt the provision of Automatic Enrollment Contributions of the Pension Protection Act of 2006 for all new employees. For participants subject to automatic enrollment, the Company will automatically deduct 5% from their pay as a deferral contribution. Participants also may contribute amounts representing distributions from other qualified benefit or defined contribution plans. Participants direct the investment of their contribution into various investment options offered by the Plan.

Effective May 1, 2010, the Plan was amended to adopt the provision of Roth 401(k) contributions, these contributions are includable in the Participant's gross income at the time deferred. The Plan will not accept rollovers of after-tax employee contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions, (b) Plan earnings and (c) forfeitures of terminated participants' nonvested accounts, and is charged with an allocation of administrative expenses. Allocations are based on participant contributions, earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 1 - Description of plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest ranging from 6% to 10.25%, which are commensurate with local prevailing rates, as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive a lump sum or in substantially equal amounts over a period of time amount equal to the value of the participant's vested interest in his or her account. However, there are special provisions for account balances of \$5,000 or less. Participants also may qualify for withdrawals while they are still an employee if certain conditions are met.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$22,626 and \$12,853, respectively. These accounts will be used to pay administrative expenses. Any remaining amounts will be allocated to the accounts of eligible participants in the same manner as provided for non-elective employer contributions. In 2010 and 2009, forfeitures of \$12,600 and \$15,250, respectively, were used to reduce administrative expenses and no forfeitures were allocated to participant accounts.

Note 2 - Summary of significant accounting policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of significant accounting policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The plan sponsor pays certain administrative expenses on behalf of the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2011, the date the financial statements were available to be issued.

Note 3 - Investments

The following table presents investments that represent 5% or more of the Plan's net assets.

	<u>2010</u>	<u>2009</u>

Fidelity Freedom 2010	\$ 1,945,478	2,269,163

Fidelity Freedom 2030	1,909,244	2,001,895
Fidelity Retirement Money Market	754,476	865,965

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,683,353 as follows:

Note 4 - Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds. Valued at the net asset value of shares held by the Plan at year-end.

Participant Loans. Valued at the amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

Note 5 - Information certified by the Plan's trustee (unaudited)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2010 and 2009, Note 3, and the supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2010; the related investment activity reflected in the statements of changes in net assets available for benefits for the year ended December 31, 2010.

Note 6 - Plan termination

The Company has reserved the right to terminate the Plan or to reduce or cease contributions at the discretion of the board of directors or to amend the Plan at any time and in any respect. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 7 - Federal income taxes

The Company adopted a prototype standardized profit sharing plan with a cash or deferral arrangement that received a favorable opinion letter from the IRS, which stated that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Company identified certain operational omissions with respect to the plan and has submitted an application under the Standardized Voluntary Compliance Resolution (SVCR) program to the IRS. The plan administrator and counsel for the Company expect that the final outcome of the SVCR process will not have any material effect on the plan's financial statements.

Note 8 - Risks and uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 - Concentration of credit risk

As of December 31, 2010 and 2009, the following investment vehicles individually comprised more than 10 percent of the Plan's net assets available for benefits: Fidelity Freedom 2010, Fidelity Freedom 2020, and Fidelity Freedom 2030.

Note 10 - Subsequent events

Effective January 1, 2011, the Plan changed trustees of the plan from Fidelity Management Trust Company to Charles Schwab Trust Company.

Effective January 1, 2011, the Company reinstated a discretionary matching employer contribution. The employer will match 20% of the first 5% of compensation.

THE FLESH COMPANY 401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 1 - Description of plan

The following description of The Flesh Company 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have two months of service and are age 20 or older. Participation in the Plan for purposes of Nonelective Employer Contributions and Employer Matching Contributions requires six months of service. The Plan is subject to the provisions of the Employer Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

In the past, each year, the Company contributed to the Plan an amount equal to the amount the employee contributes to the Plan on the first 5 percent of compensation. Amounts contributed by employees in excess of 5 percent were not matched by the Company. Effective March 5, 2009, the Plan was amended to remove the provision for non-discretionary matching employer contributions and to add the provision for discretionary matching employer contributions. The Company did not make discretionary matching contributions after this effective date.

Participants may contribute a percentage or flat dollar amount of their eligible compensation into the Plan. These amounts are subject to an annual limit as adjusted by the Secretary of Treasury. Effective February 3, 2009, the Plan was amended to adopt the provision of Automatic Enrollment Contributions of the Pension Protection Act of 2006 for all new employees. For participants subject to automatic enrollment, the Company will automatically deduct 5% from their pay as a deferral contribution. Participants also may contribute amounts representing distributions from other qualified benefit or defined contribution plans. Participants direct the investment of their contribution into various investment options offered by the Plan.

Effective May 1, 2010, the Plan was amended to adopt the provision of Roth 401(k) contributions, these contributions are includable in the Participant's gross income at the time deferred. The Plan will not accept rollovers of after-tax employee contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions, (b) Plan earnings and (c) forfeitures of terminated participants' nonvested accounts, and is charged with an allocation of administrative expenses. Allocations are based on participant contributions, earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2010 AND 2009

Note 1 - Description of plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest ranging from 6% to 10.25%, which are commensurate with local prevailing rates, as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive a lump sum or in substantially equal amounts over a period of time amount equal to the value of the participant's vested interest in his or her account. However, there are special provisions for account balances of \$5,000 or less. Participants also may qualify for withdrawals while they are still an employee if certain conditions are met.

Forfeited Accounts

At December 31, 2010 and 2009, forfeited nonvested accounts totaled \$22,626 and \$12,853, respectively. These accounts will be used to pay administrative expenses. Any remaining amounts will be allocated to the accounts of eligible participants in the same manner as provided for non-elective employer contributions. In 2010 and 2009, forfeitures of \$12,600 and \$15,250, respectively, were used to reduce administrative expenses and no forfeitures were allocated to participant accounts.

Note 2 - Summary of significant accounting policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of significant accounting policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The plan sponsor pays certain administrative expenses on behalf of the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2011, the date the financial statements were available to be issued.

Note 3 - Investments

The following table presents investments that represent 5% or more of the Plan's net assets.

	<u>2010</u>	<u>2009</u>
Fidelity:		
Fidelity Freedom 2010	\$ 1,945,478	2,269,163

Fidelity Freedom 2030	1,909,244	2,001,895
Fidelity Retirement Money Market	754,476	865,965

During 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,683,353 as follows:

Note 4 - Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Mutual Funds. Valued at the net asset value of shares held by the Plan at year-end.

Participant Loans. Valued at the amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.
